MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS FOR THE THREE MONTHS ENDED MARCH 31, 2025

GMA Holdings Inc. ended the first quarter of 2025 with a net income after tax of ₱613 thousand, 29% more than last year's ₱475 thousand bottom line due to higher exercise fees and interest income.

Exercise fees for the first quarter of 2025 reached ₱221 thousand, considerably higher versus last year's ₱5 thousand. The increase was brought about by the conversion of 4,958,300 PDRs to common shares as compared to 118,800 PDRs converted during the same period last year. Meanwhile, interest income on cash placements for the period grew to ₱770 thousand against last year's ₱736 thousand.

Operating expenses for the first quarter of 2025 amounted to ₱252 thousand versus ₱174 thousand in the same quarter of 2024, an increase of 45% mainly due to per diem charges. Listing fees for the quarter amounted to ₱62 thousand, lower than last year's ₱82 thousand. The ₱187 thousand unamortized portion of listing fee was included under "Other current assets" in the statements of financial position. Professional fees for the quarter amounted to ₱79 thousand, the same as last year, which included the accrual of audit and trust fees. Taxes and licenses representing amortization of local business tax for the first quarter of 2025 was at ₱8 thousand, same level as in comparable period.

Financial Condition

Total assets as of March 31, 2025 amounted to ₱51.05 million, a 1% increase versus end-2024 figures of ₱50.48 million. Accounts receivable inched up by ₱84 thousand arising from conversions of PDRs to common shares. Other current assets increased by ₱48 thousand due to the unamortized portion of listing fee and local taxes. Total liabilities was at ₱50.26 million, while total equity closed at ₱790 thousand as of the first quarter of 2025.

4. Summary of Material Accounting Policy Information

Financial Assets

Date of Recognition of Financial Assets. The Company recognizes financial assets in the statement of financial position when it becomes a party to the contractual provisions of the instrument.

Initial Recognition and Measurement. Financial assets are classified, at initial recognition, as subsequently measured at amortized cost, FVOCI and fair value through profit or loss (FVTPL).

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Company's business model for managing them. With the exception of

trade receivables that do not contain a significant financing component or for which the Company has applied the practical expedient, the Company initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or for which the Company has applied the practical expedient are measured at the transaction price determined under PFRS 15, *Revenue from Contracts with Customers*.

In order for a financial asset to be classified and measured at amortized cost or fair value through OCI, it needs to give rise to cash flows that are 'solely payments of principal and interest (SPPI)' on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level.

The Company's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the marketplace (regular way trades) are recognized on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

The Company has no financial assets at FVTPL and FVOCI as at March 31, 2025 and December 31, 2024.

Subsequent Measurement. For purposes of subsequent measurement, financial assets are classified in four categories:

- Financial assets at amortized cost (debt instruments)
- Financial assets at FVOCI with recycling of cumulative gains and losses (debt instruments)
- Financial assets designated at FVOCI with no recycling of cumulative gains and losses upon derecognition (equity instruments)
- Financial assets at FVTPL

The Company's financial assets are under the financial assets at amortized cost.

- *Financial Assets at Amortized Cost (Debt Instruments).* This category is the most relevant to the Company. The Company measures financial assets at amortized cost if both of the following conditions are met:
 - The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows; and
 - The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding

Financial assets at amortized cost are subsequently measured using the effective interest rate (EIR) method and are subject to impairment. Gains and losses are recognized in profit or loss when the asset is derecognized, modified or impaired.

As at March 31, 2025 and December 31, 2024, the Company's cash and cash equivalents and accounts receivable are classified under this category.

Derecognition of Financial Assets. A financial asset (or, when applicable a part of a financial asset or part of a group of similar financial assets) is primarily derecognized (i.e., removed from the statement of financial position) when:

- the rights to receive cash flows from the asset have expired; and
- the Company transfers a financial asset and the transfer qualify for derecognition.

The Company transfers a financial asset if, and only if, it either: (a) transfers the contractual rights to receive the cash flows of the financial asset; or (b) retains the contractual rights to receive the cash flows of the financial asset (the “original asset”), but assumes a contractual obligation to pay the cash flows to one or more recipients (the “eventual recipients”) in an arrangement that meets the following conditions:

- The Company has no obligation to pay amounts to the eventual recipients unless it collects equivalent amounts from the original asset. Short-term advances by the Company with the right of full recovery of the amount lent plus accrued interest at market rates do not violate this condition.
- The Company is prohibited by the terms of the transfer contract from selling or pledging the original asset other than as security to the eventual recipients for the obligation to pay them cash flows.
- The Company has an obligation to remit any cash flows it collects on behalf of the eventual recipients without material delay. In addition, the Company is not entitled to reinvest such cash flows, except for investments in cash or cash equivalents during the short settlement period from the collection date to the date of required remittance to the eventual recipients, and interest earned on such investments is passed to the eventual recipients.

When the Company transfers a financial asset, it shall evaluate the extent to which it retains the risks and rewards of ownership of the financial asset. In this case:

- if the Company transfers substantially all the risks and rewards of ownership of the financial asset, the Company shall derecognize the financial asset and recognize separately as assets or liabilities any rights and obligations created or retained in the transfer.
- if the Company retains substantially all the risks and rewards of ownership of the financial asset, the Company shall continue to recognize the financial asset.
- if the Company neither transfers nor retains substantially all the risks and rewards of ownership of the financial asset, the Company shall determine whether it has retained control of the financial asset. In this case: (a) if the Company has not retained control, it shall derecognize the financial asset and recognize separately as assets or liabilities any rights and obligations created or retained in the transfer; and (b) if the Company has retained control, it shall continue to recognize the financial asset to the extent of its continuing involvement in the financial asset.

Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liabilities simultaneously. The Company assesses that it has a currently enforceable right of offset if the right is not contingent on a future event, and is legally enforceable in the normal course of business, event of default, and event of insolvency or bankruptcy of the Company and all of the counterparties.

Equity

Cash dividends. The Company recognizes a liability to make cash distribution to its equity holders when the distribution is authorized and the distribution is no longer at the discretion of the Company. As per the corporate laws in the Philippines, a distribution is authorized when it is approved by the BOD. A corresponding amount is recognized directly in the equity. Dividends for the year that are approved after the financial reporting date are dealt with as an event after the reporting date.

Revenue

Exercise Fees. Exercise fees is recognized at a point in time upon conversion of PDRs to common shares.

Expenses

Expenses presented as “Operating expenses” account in the statement of comprehensive income are recognized as incurred.

5. Summary of Significant Accounting Estimates and Assumptions

The preparation of the financial statements in compliance with PFRS Accounting Standards requires the Company to make estimates and assumptions that affect the reported amounts of assets, liabilities, income and expenses and disclosure of contingent assets and liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Management is of the opinion that there is no significant judgment made in applying accounting policies and no estimation uncertainty that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial period.

6. Philippine Deposit Receipts

On July 30, 2007 and August 21, 2007, the Company issued 822,115,000 and 123,317,000 PDRs relating to GMA shares, respectively. Total number of issued PDRs is 945,432,000 for a consideration of ₱8.50 per share or ₱8,036,172,000.

Each PDR grants the holders, upon payment of the exercise price and subject to certain other conditions, the delivery of one GMA share or the sale of and delivery of the proceeds of such sale of one GMA share. The Company remains to be the registered owner of the GMA shares covered by the PDRs. The Company also retains the voting rights over the GMA shares.

The GMA shares are still subject to ownership restrictions on shares of corporations engaged in mass media and GMA may reject the transfer of shares to persons other than Philippine nationals. The PDRs were listed in the PSE on July 30, 2007, and the same may be exercised at any time from said date. Any cash dividends or other cash distributions in respect of GMA shares received by the Company shall be applied toward the operating expenses of the Company for the current and preceding years. A further amount equal to the operating expenses in the preceding year shall be set aside to meet operating or other expenses for the succeeding years. Any amount in excess of the aggregate of the operating expenses paid and the operating fund for such period shall be distributed to PDR holders pro-rata on the first business day after the Company receives such cash dividends.

Upon exercise of the PDRs, an exercise price of ₱0.05 (VAT inclusive) per share shall be paid by the PDR holders. The exercise price is shown as “Revenue” account in the statement of financial performance. Exercise fees amounted to ₱0.22 million, ₱0.01 million and ₱0.06 million for the three-month period ended March 31, 2025, 2024 and 2023, respectively.

Immediately prior to the closing of the PDR offering and additional issuances described above, GMA, to which the Company is affiliated, transferred 945,432,000 GMA shares to the Company in relation to which the PDRs were issued. For as long as the PDRs are not exercised, the shares underlying the PDRs will continue to be registered in the name of, and owned by the Company, and all rights pertaining to these shares, including voting rights, shall be exercised by the Company. The obligations of the Company to deliver the GMA shares on exercise of the right contained in the PDRs are secured by the Pledge of Shares in favor of the Pledge Trustee acting on behalf of each holder of a PDR over the GMA shares.

At any time after the PDR offering, a GMA shareholder may, at his option and from time to time, deliver shares to the Company in exchange for an equal number of PDRs. The exchange is based on prevailing traded value of GMA shares at the time of transaction with the corresponding PDR option price.

As mentioned above, the Company retains the rights to receive the cash flows from its investments in GMA and assumes a contractual obligation to pay those cash flows to the PDR holders, net of operating expenses (a “pass-through” arrangement). The “pass-through” test is met because the Company (a) has no obligation to the PDR holders unless it collects equivalent amounts from its investment in GMA, (b) is contractually prohibited from selling or pledging its investment in GMA other than as security to the PDR holders for the obligation to pay those cash flows, and (c) has an obligation to remit any cash flows from the investment in GMA to the PDR holders without material delay.

Under the “pass-through” test, the Company is deemed to have transferred substantially the risks and rewards of its investment in GMA. Accordingly, the investment in GMA and the liabilities related to the issuance of the PDRs were derecognized by the Company under provisions of PFRS 9.

The following are the details and movements of the PDRs and the underlying GMA shares for the three months ended March 31:

	PDRs		Number of Shares
