Management Discussion and Analysis of Financial Condition and Results of Operations for the Three Months Ended March 31, 2026 and 2025

GMA Network, Inc. and Subsidiaries (GMA/the Company) capped first quarter of 2026 with revenues of ₱3,362 million, slipping by 28% from a year ago. The overall topline drag was mainly brought about by the absence of a significant amount of election-related placements.

Income Data	**3M 2026** *(in millions PhP)*	3M 2025 *(in millions PhP)*	Inc/(Dec) *(in millions PhP)*	%
Revenues				
Advertising revenue	**2,980.62**	4,348.93	(1,368.31)	-31%
Consumer sales	**381.08**	335.54	45.53	14%
	3,361.70	4,684.48	(1,322.78)	-28%
Total operating expenses	**3,324.69**	3,653.81	(329.12)	-9%
EBITDA	**631.75**	1,646.79	(1,015.04)	-62%
Net income	**102.18**	800.84	(698.66)	-87%
Attributable to Equity Holders of Parent Co.	***102.47***	*801.68*	*(699.20)*	*-87%*
Noncontrolling Interest	***(0.29)***	*(0.84)*	*0.54*	*65%*

Partly cushioning the downturn in sales this quarter, the Company's consolidated direct costs and operating expenses (OPEX), which amounted to ₱3,325 million, also dipped by 9%. Production and direct costs, as well as general and administrative expenses, registered cutbacks as compared to Q1 of last year.

The considerable drop in the topline pushed first three months consolidated Earnings Before Interest, Taxes, Depreciation, and Amortization (EBITDA) this year to end at ₱632 million, down by 62% compared to the ₱1,647 million tally during Q1 2025. Similarly, consolidated net income after tax, which measured at ₱102 million trailed behind same period last year's strong bottom line of ₱801 million.

Revenues

Revenues	**3M 2026** *(in millions PhP)*	3M 2025 *(in millions PhP)*	Inc/(Dec) *(in millions PhP)*	%
Advertising revenues	**2,980.62**	4,348.93	(1,368.31)	-31%
Consumer sales	**381.08**	335.54	45.53	14%
	3,361.70	4,684.48	(1,322.78)	-28%

Consolidated advertising revenues from Free-to-Air (FTA) Television/TV and Radio, Online, and International operations amounting ₱2,981 million continued to take up the lion's share of the total revenue pie, with a contribution of close to 90%. Against Q1 last year, this segment's sales contracted by over a billion pesos, equivalent to 31% with political advocacies and advertisements boosting comparable period in 2025.

On a per channel level, GMA 7 continued to lead the pack in terms of total revenues, albeit also registering a considerable shortfall this quarter due to the aforementioned influx of political advocacies and advertisements last year. Nonetheless, ratings-wise, based on Nielsen TV Audience Measurement data, GMA 7 continued its overall dominance among television stations, retaining the no. 1 rank in Total Philippines in Q1 2026. Spanning more than two decades, top-rating program *Kapuso Mo, Jessica Soho* (KMJS) has consistently captured the hearts of its televiewers and has dominated the overall top programs in Urban Philippines based on ratings data from January to March 2026. Meanwhile, the network's flagship newscast *24 Oras* reigned supreme as the

most watched program in Total Philippines in the same quarter this year. Adding another feather to its cap in the broadcasting industry, GMA Network was named TV Station of the Year for the fifth time at the 2026 Platinum Stallion National Media Awards. Numerous accolades were further received by the Network across TV, regional broadcasting and radio, a testament to GMA's relentless pursuit of excellence and consistent delivery of trusted content nationwide. *24 Oras* was once again named Best TV News Program, while *Kapuso Mo, Jessica Sojo* was awarded Best News Magazine Program. *Encantadia Chronicles: Sang'gre* continued to lord over primetime TV ratings in Q1 2026, consistently leading in both Total and Urban Philippines in the evening primetime slot. Lead characters of the iconic fantasy series likewise bagged recognitions during the 2026 Platinum Stallion National Media Awards.

While still occupying the 2nd biggest contributor in TV/radio advertising, the 2nd free-to-air channel Good TV (GTV) continued to remain challenged in its top line, trailing behind same period last year's performance. On a positive note, veteran broadcast journalist and *State of the Nation* anchor Atom Araullo was hailed as Male News Anchor of the Year in the 2026 Platinum Stallion National Media Awards and was likewise the recipient of the Lifetime Achievement in Public Service Journalism in the Global Filipino Icon Awards 2026 held in Dubai, the United Arab Emirates. The two (2) remaining Digital Terrestrial TV (DTT) stations I Heart Movies and Heart of Asia contributed revenues to the Network, albeit also paling in comparison to prior year's top-line performance.

Meanwhile, also recognized in the Platinum Stallion National Media Awards was GMA's Regional TV, cited as "Regional TV Network of the Year" for the ninth consecutive time, maintaining extensive reach across the country. Revenue-wise, GMA Regional TV was not spared from the absence of election-related placements in both national and local setting, thus, also missed comparative top line of Q1 2025. Nonetheless, recurring sales managed to trim down the gap, posting some growth in between periods.

Solidifying its excellence on the airwaves, Super Radyo DZBB maintained its leadership position, winning AM Radio Station of the Year in the Platinum Stallion National Media Awards. In terms of sales, Radio business succumbed to the same lukewarm turnout, aggravated by the considerable presence of political advocacies and advertisements in Q1 of prior year.

Ranked as the leading media company in Southeast Asia for its digital performance under the Entertainment and Media category, GMA held on to its strong ranking at No. 24 at the close of Q1 2026, improving from No. 26 in January and No. 25 in February, based on the Tubular Leadership Worldwide Rankings, according to global video analytics company Tubular Labs. This digital accomplishment is further cemented by the massive viewership across various social media platforms generating billions in total video views month-on-month. As of end-March this year, GMA's Network's YouTube channel has more than 41 million subscribers. With this, consolidated digital/online advertising has captured the 2nd spot in terms of overall revenue contribution to the Company's top line for Q1 of this year and has proven its mettle, posting revenue growth year on year, notwithstanding the lack of election-related placements.

In other revenues sources, i.e., subscriptions (GMA Pinoy TV), production service revenues, over-the-top/OTT, distribution/syndication, merchandise sales, etc., the initial quarter of 2026 posted a combined improvement of 14% ending with ₱381 million in sales. Production Services and other revenues reached ₱131 million for the three-month period ended March this year, more than the ₱118 million tally last year. The upswing in this category was mainly due to production revenues from portion buys/sponsored production content, etc., Over-the-top (OTT) licensing fees also edged last year, with additional contribution coming from revenues for the Network's verticals/shorts production.

For GMA International, Q1 subscription revenue missed last year's tally due to the churn in subscriber count in between periods. Average forex this quarter slightly improved by 2%, partly cushioning the impact of the attrition in subscriber count. Finally, sale of merchandise, mainly GMA Affordabox, posted a reduction due to less quantities sold in between periods coupled with the price reduction for GMA Affordabox (set-top box) from ₱799 to ₱699 starting May 15, 2025.

Expenses

Total consolidated direct cost and other operating expenses measured ₱3,325 million, contracting 9% versus Q1 of 2025. The decline in expenditure of ₱329 million in between periods was due to the drop in both total direct costs by ₱121 million or 6% and general and administrative expenses (GAEX) by ₱208 million or 13%.

Operating Expenses	**3M 2026** *(in millions PhP)*	3M 2025 *(in millions PhP)*	Inc/(Dec) *(in millions PhP)*	%
Production and direct costs	**1,875.19**	1,996.55	(121.36)	-6%
General and administrative expensex	**1,449.50**	1,657.26	(207.77)	-13%
	3,324.69	3,653.81	(329.12)	-9%

Consolidated direct costs composed of production costs and cost of sales for the first quarter of this year wound up at ₱1,875 million versus ₱1,997 million a year ago. Talent fees and production personnel cost which accounted for the biggest chunk of total production cost, posted a reduction of 10% or ₱109 million. The overall reduction in cash production and direct cost was mainly due to changes in programming carried out by the Network this period. Additionally, cost of sales for the set-top box finished lower in 2026 aligned with less units sold during the period.

Production and Direct Costs	**3M 2026** *(in millions PhP)*	3M 2025 *(in millions PhP)*	Inc/(Dec) *(in millions PhP)*	%
Talent fees and production personnel costs	**952.92**	1,062.15	(109.23)	-10%
Rentals and outside services	**113.00**	135.11	(22.10)	-16%
Other production and direct expenses	**379.98**	332.23	47.76	14%
Sub-total - Cash Prod and Direct Costs	**1,445.91**	1,529.48	(83.57)	-5%
Program rights amortization	**282.95**	320.26	(37.31)	-12%
Depreciation and amortization	**146.33**	146.80	(0.47)	-0.3%
Sub-total - Non-cash Prod and Direct Costs	**429.28**	467.07	(37.78)	-8%
Total production and direct costs	**1,875.19**	1,996.55	(121.36)	-6%

Meanwhile, consolidated non-cash direct cost comprised of depreciation and amortization of program rights finished at ₱429 million, lower by ₱38 million or 8% vis-à-vis the same period last year. Program rights amortization this period saw a 12% reduction mainly due to optimized usage of program rights inventory. On the other hand, direct depreciation expense ending at ₱146 million stood flat against Q1 2025.

Consolidated general and administrative expenses (GAEX) concluded the first three months this year at ₱1,450 million, netting a double-digit slowdown of 13% or ₱208 million from same period a year ago. Personnel cost, which comprised the bulk of this expense category, settled behind last year from ₱1,083 million to ₱891 million. Outside services, particularly management and professional fees, also dipped by ₱18 million or 12% while Taxes and licenses fell 7% versus Q1 of 2025. On the other hand, this was partly offset by the increase in Facilities cost by ₱10 million or 9%, mainly from higher utilities charges in this period.

General and Administrative Expenses	**3M 2026** *(in millions PhP)*	3M 2025 *(in millions PhP)*	Inc/(Dec) *(in millions PhP)*	%
Personnel costs	**891.40**	1,082.58	(191.17)	-18%
Facilities costs	**117.80**	107.91	9.89	9%
Outside services	**131.56**	149.57	(18.01)	-12%
Taxes and licenses	**51.90**	55.71	(3.81)	-7%
Others	**194.97**	188.43	6.55	3%
Subtotal - Cash GAEX	**1,387.64**	1,584.19	(196.55)	-12%
Depreciation and amortization	**60.08**	68.20	(8.12)	-12%
Amortization of software costs	**1.66**	4.75	(3.09)	-65%
Subtotal - Non-cash GAEX	**61.86**	73.07	(11.21)	-15%
Total GAEX	**1,449.50**	1,657.26	(207.77)	-13%

Other Income (Expense) - net

Consolidated Other Income, net of Other Expenses, stood at ₱91 million in 1Q 2026, improving by ₱57 million from the ₱35 million net Other Income recorded in the same period last year. The increase was mainly driven by the ₱38 million rise in foreign exchange gain. Lower interest expense also contributed to the favorable result, declining by ₱29 million to ₱17 million from ₱46 million in 1Q 2025. These were partly offset by lower gain on sale of property and equipment, which decreased by ₱5 million.

EBITDA

Consolidated Earnings Before Interest, Taxes, Depreciation, and Amortization (EBITDA) after the first three months this year stood at ₱632 million, down 62% compared to last year's ₱1,647 million.

Net Income

Similarly, consolidated net income after tax for the first quarter ended March 31, 2026 fell to ₱102 million, a decline of ₱699 million or 87% compared to the ₱801 million recorded during the same period last year.

Balance Sheet Accounts

As of March 31, 2026, the Group's total consolidated assets amounted to ₱25,147 million, down from ₱25,451 million as of December 31, 2025. The drop was primarily due to lower program and other rights inventory, which decreased by ₱396 million or 17% and property and equipment, which declined by ₱152 million. The reduction in these account balances was due to lower acquisition versus depreciation and amortization. Cash and cash equivalents also decreased by ₱114 million from ₱1,461 million in December 2025 to ₱1,348 million as of end of the reporting period. The reduction in cash balances was mainly attributable to the repayment of short-term loans, which ended lower by ₱851 million, partially offset by higher operating cash balances year-on-year. The said reductions were partly offset by higher prepaid expenses and other current assets, particularly from various prepaid expenses, tax credits, and creditable withholding taxes.

On the other hand, total consolidated liabilities increased by ₱1,547 million or 13%, from ₱11,982 million as of December 2025 to ₱13,529 million as at end-March 2026. This was mainly due to higher dividends payable following the dividend declaration on March 25 at ₱0.40 per share, equivalent to ₱1,946 million. Trade payables and other current liabilities also increased by ₱381 million, from ₱2,866 million in 2025 to ₱3,247 million. These increases were partly offset by the aforementioned ₱851 million reduction in short-term loans.

Equity attributable to the Parent Company stockholders decreased by ₱1,851 million or 14%, from ₱13,423 million to ₱11,573 million, following the cash dividend declaration.

Cash Flows

Cash Flows	**3M 2026** *(in millions PhP)*	3M 2025 *(in millions PhP)*
Net cash provided by operating activities	**785.53**	2,356.82
Net cash used in investing activities	**(57.23)**	(88.91)
Net cash used in financing activities	**(868.13)**	(1,550.40)
Effect of exchange rate changes on cash and cash equivalents	**25.97**	(5.59)
Net increase (decrease) in cash and cash equivalents	**(113.85)**	711.91
Cash and cash equivalents at beginning of year	**1,461.39**	2,146.31
Cash and cash equivalents at end of the period	**1,347.53**	2,858.22

Operating Activities

Net cash provided by operating activities measured at ₱786 million as of March 31, 2026. This stemmed from income before income tax of ₱128 million, adjusted mainly for Depreciation expense of ₱206 million, , Net unrealized foreign exchange gain of ₱26 million, Interest expense equivalent to ₱17 million, Net gain on sale of property and equipment of ₱6 million, and Interest income amounting to ₱4 million, apart from the changes in working capital. The primary component of the changes in working capital included the increases in Prepaid expenses and other current assets by ₱249 million and in Trade payables and other current liabilities by ₱383 million.

Investing Activities

Net cash used in investing activities amounted to ₱57 million, coming primarily from the ₱49 million additions to Fixed assets and ₱6 million acquisition of Financial assets at FVOCI.

Financing Activities

Net cash used in financing activities amounted to ₱868 million coming from the loan repayments of ₱851 million and payment of interest expense of ₱16 million.

Key Financial Performance Indicators

The key financial performance indicators that the Company monitors are the following:

Key Performance Indicators	**3M 2026** *(in millions PhP)*	3M 2025 *(in millions PhP)*	Inc/(Dec) *(in millions PhP)*	%
Revenues	**3,361.70**	4,684.48	(1,322.78)	-28%
Advertising revenues	**2,980.62**	4,348.93	(1,368.31)	-31%
Cash operating expenses	**2,833.55**	3,113.67	(280.13)	-9%
EBITDA	**631.75**	1,646.79	(1,015.04)	-62%

See accompanying Notes to Consolidated Financial Statements.

1. Corporate Information

GMA Network, Inc. (GNI or the Parent Company) and its subsidiaries (collectively referred to as "the Group") are incorporated in the Philippines. The Group is primarily involved in the business of radio and television broadcasting. The Group is also involved in film production and other information and entertainment-related businesses. The Parent Company was registered with the Philippine Securities and Exchange Commission (SEC) on June 14, 1950. On July 20, 1995, the Board of Directors (BOD) approved the extension of the corporate term of the Parent Company for another 50 years from June 14, 2000. In 1997, the SEC approved the said extension.

The Parent Company's shares of stock are publicly listed and traded in the Philippine Stock Exchange.

The registered office address of the Parent Company is GMA Network Center, Timog Avenue corner EDSA, Quezon City.

2. Basis of Preparation and Consolidation, Statement of Compliance and Changes in Accounting Policies and Disclosures

Basis of Preparation

The consolidated financial statements of the Group have been prepared on a historical cost basis, except for financial assets at fair value through other comprehensive income (FVOCI) and land at revalued amounts, which are measured at fair value. The consolidated financial statements are presented in Philippine peso, which is the Parent Company's functional and presentation currency. All values are rounded to the nearest peso, except when otherwise indicated.

Statement of Compliance

The Group's consolidated financial statements have been prepared in compliance with Philippine Financial Reporting Standards (PFRS) Accounting Standards as issued by the Philippine Financial and Sustainability Reporting Standards Council.

Basis of Consolidation

The consolidated financial statements comprise the financial statements of the Parent Company and its subsidiaries as at March 31, 2026 and December 31, 2025 and for each of the two years in the period ended March 31, 2026.

Generally, there is a presumption that a majority of voting rights results in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee
- Right arising from other contractual arrangements
- The Group's voting rights and potential voting rights

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control.

NCI represents the equity interest in RGMA Network, Inc. (RGMA Network), a subsidiary incorporated in the Philippines with principal place of business at GMA Network Center, Timog Avenue corner EDSA Quezon City.

The consolidated financial statements include additional information about subsidiary that have NCI that are material to the Parent Company. Management determined material partly-owned subsidiary as those with greater than 5% of non-controlling interests and/or subsidiaries whose activities are important to the Group as at end of the year.

The consolidated financial statements include the accounts of the Parent Company and the following subsidiaries as at March 31, 2026 and December 31, 2025:

	Principal Activities	Percentage of Ownership	
		Direct	Indirect
Entertainment Business:			
Alta Productions Group, Inc. (Alta)	Pre- and post-production services	100	–
Citynet Network Marketing and Productions, Inc. (Citynet)	Television entertainment production	100	–
GMA Network Films, Inc.	Film production	100	–
GMA New Media, Inc. (GNMI)	Converging Technology	100	–
GMA Worldwide (Philippines), Inc.[a]	International marketing, handling foreign program acquisitions and international syndication of the Parent Company's programs	100	–
Scenarios, Inc.[a]	Design, construction and maintenance of sets for TV, stage plays and concerts; transportation services	100	–
GMA Productions, Inc. (formerly RGMA Marketing and Productions, Inc.)	Music recording, publishing and video distribution	100	–
RGMA Network, Inc.[c]	Radio broadcasting and management	49	–
Script2010, Inc.[b]	Design, construction and maintenance of sets for TV, stage plays and concerts; transportation and manpower services	–	100
Holding Company: GMA Ventures, Inc. (GVI)	Identifying, investing in, and/or building strong and sustainable businesses	100	–
Advertising Business:			
GMA Marketing & Productions, Inc. (GMPI)[a]	Exclusive marketing and sales arm of the Parent Company's airtime; events management; sales implementation, traffic services and monitoring	100	–
Digify, Inc.[d]	Crafting, planning and handling advertising and other forms of promotion including multi-media productions	–	100
Others:			
Media Merge Corporation[e]	Business development and operations for the Parent Company's online publishing/advertising initiatives	–	100
Ninja Graphics, Inc.[f]	Ceased commercial operations in 2004	–	51

[a]Under liquidation
[b]Indirectly owned through Citynet
[c]Ceased operations in 2023
[d]Indirectly owned through GNMI, ceased commercial operations in 2022
[e]Indirectly owned through GNMI; ceased commercial operations in 2020
[f]Indirectly owned through Alta; ceased commercial operations in 2004

Changes in Accounting Policies and Disclosures

The accounting policies adopted are consistent with those of the previous financial year, except for the adoption of new standards effective in 2025. The Group has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

Unless otherwise indicated, adoption of these new standards did not have an impact on the financial statements of the Group.

Effective beginning on or after January 1, 2025

- Amendments to PAS 21*, Lack of exchangeability*

The amendments specify how an entity should assess whether a currency is exchangeable and how it should determine a spot exchange rate when exchangeability is lacking.

The amendments are effective for annual reporting periods beginning on or after January 1, 2025. Earlier adoption is permitted and that fact must be disclosed. When applying the amendments, an entity cannot restate comparative information.

Standards Issued but not yet Effective

Pronouncements issued but not yet effective are listed below. The Group intends to adopt the following pronouncements when they become effective. Unless otherwise indicated, the Group does not expect that the future adoption of the said pronouncements will have a significant impact on its financial statements.

Effective beginning on or after January 1, 2026

- Amendments to PFRS 9 and PFRS 7, *Classification and Measurement of Financial Instruments*

  The amendments clarify that a financial liability is derecognized on the 'settlement date', i.e., when the related obligation is discharged, cancelled, expires or the liability otherwise qualifies for derecognition. They also introduce an accounting policy option to derecognize financial liabilities that are settled through an electronic payment system before settlement date if certain conditions are met.

  The amendments also clarify how to assess the contractual cash flow characteristics of financial assets that include environmental, social and governance (ESG)-linked features and other similar contingent features. Furthermore, the amendments clarify the treatment of non-recourse assets and contractually linked instruments.

- Amendments to Illustrative Examples on PFRS 7, PFRS 18, PAS 1, PAS 8, PAS 26 and PAS 37, *Disclosures about Uncertainties in the Financial Statements*

- Amendments to PFRS 9 and PFRS 7, *Contracts Referencing Nature-dependent Electricity*

- Annual Improvements to PFRS Accounting Standards—Volume 11

  - Amendments to PFRS 1, *Hedge Accounting by a First-time Adopter*
  - Amendments to PFRS 7, *Gain or Loss on Derecognition*
  - Amendments to PFRS 9, *Lessee Derecognition of Lease Liabilities* and *Transaction Price*
  - Amendments to PFRS 10, *Determination of a 'De Facto Agent'*
  - Amendments to PAS 7, *Cost Method*

Effective beginning on or after January 1, 2027

- PFRS 18, *Presentation and Disclosure in Financial Statements*

  The standard replaces PAS 1, *Presentation of Financial Statements*, and responds to investors' demand for better information about companies' financial performance. The new requirements include:

  - Required totals, subtotals and new categories in the statement of profit or loss
  - Disclosure of management-defined performance measures
  - Guidance on aggregation and disaggregation

  The new standard will have an impact on the presentation of accounts in the consolidated statements of income but will not have an impact on the recognition and measurement of financial statement accounts.

- PFRS 17, *Insurance Contracts*
- PFRS 19, *Subsidiaries without Public Accountability*
- Amendments to PAS 21, *Translation to a Hyperinflationary Presentation Currency*

Deferred effectivity

- Amendments to PFRS 10, *Consolidated Financial Statements*, and PAS 28, *Sale or Contribution of Assets between an Investor and its Associate or Joint Venture*

  The amendments address the conflict between PFRS 10 and PAS 28 in dealing with the loss of control of a subsidiary that is sold or contributed to an associate or joint venture. The amendments clarify that a full gain or loss is recognized when a transfer to an associate or joint venture involves a business as defined in PFRS 3. Any gain or loss resulting from the sale or contribution of assets that does not constitute a business, however, is recognized only to the extent of unrelated investors' interests in the associate or joint venture.

  On January 13, 2016, the FSRSC deferred the original effective date of January 1, 2016 of the said amendments until the IASB completes its broader review of the research project on equity accounting that may result in the simplification of accounting for such transactions and of other aspects of accounting for associates and joint ventures.

3. **Material Accounting Policy Information**

Fair Value Measurement

The Group measures financial instruments at fair value at each reporting date. Fair value related disclosures for financial instruments and non-financial assets that are measured at fair value or where fair values are disclosed, are summarized in the following notes:

- Disclosures for significant estimates and assumptions, see Note 4
- Quantitative disclosures of fair value measurement hierarchy, see Note 33
- Land, see Note 16
- Investment properties, see Note 17
- Financial instruments (including those carried at amortized cost), see Note 33

Fair value is the estimated price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- in the principal market for the asset or liability; or
- in the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the consolidated financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by reassessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

Financial Instruments

A financial instrument is any contract that give rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial Assets

Initial Recognition and Measurement. Financial assets are classified, at initial recognition, as subsequently measured at amortized cost, FVOCI, and fair value through profit or loss (FVPL).

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient, the Group initially measures a financial asset at its fair value plus, in the case of a financial asset not at FVPL, transaction costs. Trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient are measured at the transaction price determined under PFRS 15, *Revenue from Contracts with Customers*.

In order for a financial asset to be classified and measured at amortized cost or FVOCI, it needs to give rise to cash flows that are 'solely payments of principal and interest' (SPPI) on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level.

The Group's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both.

Subsequent Measurement. For purposes of subsequent measurement, financial assets are classified in four categories:

- financial assets at amortized cost (debt instruments)
- financial assets at FVOCI with recycling of cumulative gains and losses (debt instruments)
- financial assets designated at FVOCI with no recycling of cumulative gains and losses upon derecognition (equity instruments)
- financial assets at FVPL

The Group does not have debt instruments at FVOCI and financial assets at FVPL as at March 31, 2026 and

December 31, 2025.

Financial Assets at Amortized Cost (Debt Instruments). The Group measures financial assets at amortized cost if both of the following conditions are met:

- The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are SPPI on the principal amount outstanding.

Financial assets at amortized cost are subsequently measured using the effective interest rate (EIR) method and are subject to impairment. Gains and losses are recognized in the consolidated statement of comprehensive income when the asset is derecognized, modified or impaired.

The Group's financial assets at amortized cost includes cash and cash equivalents, trade and other receivables and refundable deposits (included under "Other noncurrent assets" account in the consolidated statement of financial position) as at March 31, 2026 and December 31, 2025 (see Notes 8, 9, 18 and 33).

Financial Assets Designated at FVOCI (Equity Instruments). Upon initial recognition, the Group can elect to classify irrevocably its equity investments as equity instruments designated at FVOCI when they meet the definition of equity under PAS 32, *Financial Instruments: Presentation*, and are not held for trading. The classification is determined on an instrument-by-instrument basis.

Gains and losses on these financial assets are never recycled to profit or loss. Dividends are recognized as "Dividend income" included under "Others - Net" account in the consolidated statement of comprehensive income when the right of payment has been established, except when the Group benefits from such proceeds as a recovery of part of the cost of the financial asset, in which case, such gains are recorded in OCI. Equity instruments designated at FVOCI are not subject to impairment assessment.

The Group elected to classify irrevocably under this category its listed and non-listed equity instruments and investment in quoted club shares as at March 31, 2026 and December 31, 2025 (see Notes 13 and 33).

Derecognition of Financial Assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognized (i.e., removed from the Group's consolidated statement of financial position) when:

- the rights to receive cash flows from the asset have expired; or
- the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognize the transferred asset to the extent of its continuing involvement. In that case, the Group also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

Impairment of Financial Assets

The Group recognizes an allowance for ECLs for all debt instruments not held at FVPL. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original EIR. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECLs are recognized in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

For trade receivables, the Group applies a simplified approach in calculating ECLs. Therefore, the Group does not track changes in credit risk, but instead recognizes a loss allowance based on lifetime ECLs at each reporting date. The Group has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

For other financial assets such as due from related parties and advances to associates and joint ventures, the Group applies a general approach which measures ECL on either a 12-month or lifetime basis depending on whether a significant increase in credit risks has occurred since initial recognition or whether an asset is considered to be credit-impaired, adjusted for the effects of collateral, forward-looking factors and time value of money.

For cash and cash equivalents, the Group applies the low credit risk simplification. At every reporting date, the Group evaluates whether the debt instrument is considered to have low credit risk using all reasonable and supportable information that is available without undue cost or effort. In making that evaluation, the Group reassesses the external credit rating of the debt instrument or comparable instruments.

The Group, in general, considers a financial asset in default when contractual payments are 90 days past due. However, in certain cases, the Group may also consider a financial asset to be in default when internal or external information indicates that the Group is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group. A financial asset is written off, in whole or in part, when the asset is considered uncollectible, the Group has exhausted all practical recovery efforts and has concluded that it has no reasonable expectations of recovering the financial asset in its entirety or a portion thereof.

Financial Liabilities

Initial Recognition and Measurement. Financial liabilities are classified, at initial recognition, as financial liabilities at FVPL, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Group has not designated any financial liability as at FVPL as at March 31, 2026 and December 31, 2025.

Subsequent Measurement. The measurement of financial liabilities depends on their classification, as described below:

Loans and Borrowings. After initial recognition, interest-bearing loans and borrowings and other payables are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the EIR amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as "Interest expense" in the consolidated statement of comprehensive income.

This category generally applies to trade payables and other current liabilities (excluding payable to government agencies, customers' deposits and contract liabilities), short-term loans, obligations for program and other rights, dividends payable and lease liabilities (see Notes 19, 20, 21 and 33).

Derecognition of Financial Liabilities

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the consolidated statement of comprehensive income.

Program and Other Rights

Program and other rights are stated at cost less amortization and impairment in value. The estimated useful lives and the amortization method used depend on the manner and pattern of usage of the acquired rights. The cost of program and other rights with multiple number of runs within a specified term is amortized using straight line method up to the date of expiry or upon full airing of the acquired rights, whichever is earlier. The cost of program and other rights with indefinite lives are amortized using straight line method over 10 years.

For series of rights acquired, the cost is charged to profit or loss as each series is aired on a per episode basis.

For rights intended for airing over the international channels, the cost is amortized on a straight-line basis over the number of years indicated in the contract.

Amortization expense is shown as "Program and other rights usage" included under "Production costs" account in the consolidated statement of comprehensive income.

Prepaid Production Costs

Prepaid production costs, included under "Prepaid expenses and other current assets" account in the consolidated statement of financial position, represent costs paid in advance prior to the airing of the programs or episodes. These costs include talent fees of artists and production staff and other costs directly attributable to production of programs. These are charged to expense under "Production costs" account in the consolidated statement of comprehensive income upon airing of the related program or episodes. Costs related to previously taped episodes determined not to be aired are charged to expense.

Inventories

Merchandise inventory and materials and supplies inventory, included under "Prepaid expenses and other current assets" account in the consolidated statement of financial position, is stated at the lower of cost and net realizable value. Cost is determined using the weighted average method. Net realizable value of inventories that are for sale is the estimated selling price in the ordinary course of business, less the estimated costs necessary to make the sale. Net realizable value of inventories not held for sale is the current replacement cost.

Tax Credits

Tax credits represent claims from the government arising from airing of government commercials and advertisements availed under Presidential Decree (PD) No. 1362. Pursuant to PD No. 1362, these will be collected in the form of tax credits which the Group can use in paying for import duties and taxes on imported broadcasting related equipment. The tax credits cannot be used to pay for any other tax obligation to the government.

As at March 31, 2026 and December 31, 2025, the Group's tax credits are classified as current under "Prepaid expenses and other current assets" account in the consolidated statement of financial position.

Advances to Suppliers

Advances to suppliers, included under "Prepaid expenses and other current assets" account in the consolidated statement of financial position, are noninterest-bearing and are generally applied to acquisition of inventories, programs and other rights, availments of services and others.

Property and Equipment

Property and equipment, except for land, are stated at cost, net of accumulated depreciation and amortization and impairment losses, if any. Such cost includes the cost of replacing part of the property and equipment and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of property and equipment are required to be replaced at intervals, the Group recognizes such parts as individual assets with specific useful lives and depreciates them accordingly. All other repair and maintenance costs are recognized in profit or loss as incurred.

Land is initially measured at cost. After initial recognition, land is carried at revalued amounts, being its fair value at the date of the revaluation, less any subsequent impairment losses. Valuations are generally performed every three to five years or more frequently as deemed necessary to ensure that the fair value of a revalued asset does not differ materially from its carrying amount.

Any revaluation surplus is recorded in other comprehensive income and hence, credited to the "Revaluation increment on land - net of tax" account under equity, except to the extent that it reverses a revaluation decrease of the same asset previously recognized in profit or loss, in which case, the increase is recognized in profit or loss. A revaluation deficit is recognized in profit or loss, except to the extent that it offsets an existing surplus on the same asset recognized in the "Revaluation increment on land - net of tax" account.

Depreciation and amortization are computed on a straight-line basis over the following estimated useful lives of the assets:

Buildings, towers and improvements	11-20 years
Antenna and transmitter systems and broadcast equipment	5-10 years
Communication and mechanical equipment	3-5 years
Transportation equipment	4-5 years
Furniture, fixtures and equipment	5 years

An item of property and equipment and any significant part initially recognized is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss when the asset is derecognized.

The assets' residual values, useful lives and methods of depreciation and amortization are reviewed at each financial year and adjusted prospectively, if appropriate.

Fully depreciated assets are retained in the accounts until they are no longer in use and no further depreciation and amortization is credited or charged to current operations.

Construction in progress is stated at cost. This includes cost of construction, equipment under installation and other direct costs. Construction in progress is not depreciated until such time as the relevant assets are completed and put into operational use.

Investment Properties

Investment properties consist of real estate held for capital appreciation and rental.

Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties, except land, are measured at cost less accumulated depreciation and amortization and impairment in value. Land is stated at cost less any impairment in value.

Depreciation and amortization are computed using the straight-line method over 11-20 years.

The remaining useful lives and depreciation and amortization methods are reviewed and adjusted, if appropriate, at each financial year end.

Investment properties are derecognized when either they have been disposed of or when the investment properties are permanently withdrawn from use and no future economic benefits are expected from its disposal. Any gains or losses on the retirement or disposal of an investment property are recognized in profit or loss in the period of derecognition.

Investment in Artworks

Investment in artworks, included under "Other noncurrent assets" account in the consolidated statement of financial position, is stated at cost less any impairment in value.

Software Costs

Costs incurred in the acquisition and customization of new software, included under "Other noncurrent assets" account in the consolidated statement of financial position, are capitalized and amortized on a straight-line basis over three to ten years.

Impairment of Nonfinancial Assets

The carrying values of program and other rights, prepaid production costs, deferred production costs, tax credits, investments and advances, property and equipment, right-of-use assets, investment properties, software costs and investment in artworks are reviewed for impairment when events or changes in circumstances indicate that the carrying values may not be recoverable. If any such indication exists, and if the carrying value exceeds the estimated recoverable amount, the assets are considered impaired and are written down to their recoverable amount. The recoverable amount of these nonfinancial assets is the greater of an asset's or cash-generating unit's fair value less cost to sell or value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or group of assets. The fair value less cost to sell is the amount obtainable from the sale of an asset in an arm's length transaction less cost to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For an asset that does not generate largely independent cash inflows, the recoverable amount is determined for the cash generating unit (CGU) to which the asset belongs. Impairment losses, if any, are recognized in profit or loss in the consolidated statement of comprehensive income in those expense categories consistent with the function of the impaired asset.

An assessment is made at each reporting period as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If any such indication exists, the recoverable amount is estimated. A previously recognized impairment loss, except for land at revalued amount where the revaluation is taken to OCI, is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognized. If that is the case, the carrying amount of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of depreciation and amortization, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in profit or loss. After such a reversal, the depreciation and amortization charges are adjusted in future periods to allocate the asset's revised carrying amount, less any residual value, on a systematic basis over its remaining useful life. For land at revalued amounts, the reversal of impairment is also recognized in OCI up to the amount of any previous revaluation.

In the case of investments in associate and interests in joint ventures, after application of the equity method, the Group determines whether it is necessary to recognize any additional impairment loss with respect to the Group's investments in associate and interests in joint ventures. The Group determines at each reporting period whether there is any objective evidence that the investments in associate and interests in joint ventures are impaired. If this is the case, the Group calculates the amount of impairment as being the difference between the recoverable amount of investments in associate and interests in joint ventures, and the acquisition cost and recognizes the amount in the consolidated statement of comprehensive income.

Investments in an Associate and Joint Ventures

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies.

A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

The considerations made in determining significant influence or joint control are similar to those necessary to determine control over subsidiaries.

The Group's investments in its associate and joint ventures are accounted for using the equity method.

Equity

Capital stock is measured at par value for all shares issued. Incremental costs incurred directly attributable to the issuance of new shares are shown in equity as a deduction from proceeds, net of tax. Proceeds and/or fair value of considerations received in excess of par value are recognized as additional paid-in capital.

Retained earnings include all current and prior period results of operations as reported in the consolidated statement of comprehensive income, net of any dividend declaration, adjusted for the effects of changes in accounting policies as may be required by PFRS' transitional provisions.

Revenue Recognition

a. PFRS 15, *Revenue from Contracts with Customers*

   Revenue from contracts with customers is recognized when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services. The Group assesses its revenue arrangements against specific criteria to determine if it is acting as principal or agent. The Group has generally concluded that it is the principal in its revenue arrangements because it typically controls the goods or services before transferring them to the customer.

   Revenue is recognized when the Group satisfies a performance obligation by transferring a promised good or service to the customer, which is when the customer obtains control of the good or service. A performance obligation may be satisfied at a point in time or over time. The amount of revenue recognized is the amount allocated to the satisfied performance obligation.

   The following specific recognition criteria must also be met before revenue is recognized:

   Advertising Revenue. Revenue is recognized in the period the advertisements are aired.

Payments received for advertisements before broadcast (pay before broadcast) are recognized as income on the dates the advertisements are aired. Prior to liquidation, these are classified as unearned revenue under "Contract liabilities" under "Trade payables and other current liabilities" account, in the consolidated statement of financial position.

Goods received in exchange for airtime usage pursuant to exchange deal contracts executed between the Group and its customers are recorded at fair market values of assets received. Fair market value is the current market price.

Tax credits on aggregate airtime credits from government sales availed of under PD No. 1362 are recognized as revenue when there is reasonable certainty that these can be used to pay duties and taxes on imported broadcasting related equipment.

Subscription Revenue. Subscription fees are recognized over the subscription period in accordance with the terms of the subscription agreements.

Sale of goods. Sale of goods pertain to sale of set-top boxes, digital TV mobile receivers and other merchandises. Revenue is recognized at a point in time when delivery has taken place and transfer of control has been completed. These are stated net of sales discounts.

Revenue from Distribution and Content Provisioning. Revenue is recognized upon the license start date or delivery of the licensed content, whichever comes later.

Production Revenue. Production revenue is recognized at a point in time when project-related services are rendered.

Commission from Artists. Revenue is recognized as revenue on an accrual basis in accordance with the terms of the related marketing agreements.

b. Revenue Recognition Outside the Scope of PFRS 15

Rental Income. Revenue from lease of property and equipment and investment properties is accounted for on a straight-line basis over the lease term.

Interest Income. Revenue is recognized as the interest accrues, taking into account the effective yield on the asset.

Equity in Net Earnings (Losses) of Joint Ventures. The Group recognizes its share in the net income or loss of joint ventures proportionate to the equity in the economic shares of such joint ventures, in accordance with the equity method.

Other Income. Other income is recognized when there is an incidental economic benefit, other than the usual business operations, that will flow to the Group through an increase in asset or reduction in liability that can be measured reliably.

Contract Balances

Trade Receivables. A receivable represents the Group's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Refer to the accounting policies of Financial Instruments section.

Contract Assets. A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Group performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognized for the earned consideration that is conditional.

Contract Liabilities. A contract liability is the obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Group transfers goods or services to the customer, a contract liability is recognized when the payment is made or the payment is due, whichever is earlier. Contract liabilities are recognized as revenue when the Group performs under the contract.

Incremental Costs to Obtain a Contract
The Group pays sales commissions to its account executives for each contract that they obtain for advertising agreements with customers. The Group has elected to apply the optional practical expedient for costs to obtain a contract which allows the Group to immediately expense sales commissions (presented as part of "Marketing expense" under "General and administrative expenses" account in the consolidated statement of comprehensive income) because the amortization period of the asset that the Group otherwise would have used is less than one year.

Pension and Other Long-Term Employee Benefits
The Parent Company has a funded, noncontributory defined benefit retirement plan covering permanent employees. Other entities are covered by Republic Act (R.A.) 7641, otherwise known as "The Philippine Retirement Pay Law", which provides for qualified employees to receive an amount equivalent to a certain percentage of monthly salary at normal retirement age. In addition, the Group has agreed to pay the cash equivalent of the accumulated unused vacation leave of the employees upon separation from the Group.

The cost of providing benefits under the defined benefit plans is determined using the projected unit credit method.

Defined Benefit Plans. The net defined benefit liability or asset is the aggregate of the present value of the defined benefit obligation at the end of the reporting period reduced by the fair value of plan assets (if any), adjusted for any effect of limiting a net defined benefit asset to the asset ceiling.

The asset ceiling is the present value of any economic benefits available in the form of refunds from the plan or reductions in future contributions to the plan.

The cost of providing benefits under defined benefit plan is determined using the projected unit credit method.

Remeasurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognized immediately in the statement of financial position with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Remeasurements are not reclassified to profit or loss in subsequent periods.

Past service costs are recognized in profit or loss on the earlier of:

- The date of the plan amendment or curtailment, and
- The date that the Group recognizes related restructuring costs

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Group recognizes the following changes in the net defined benefit obligation under "Production costs" and "General and administrative expenses" accounts in consolidated statements of comprehensive income (by function):

- Service costs comprising current service costs, past service costs, gains and losses on curtailments and non-routine settlements.
- Net interest expense or income

Plan assets are assets that are held by a long-term employee benefit fund. Fair value of plan assets is based on market price information. When no market price is available, the fair value of plan assets is estimated by discounting expected future cash flows using a discount rate that reflects both the risk associated with the plan assets and the maturity or expected disposal date of those assets (or, if they have no maturity, the expected period until the settlement of the related obligations). If the fair value of the plan assets is higher than the present value of the defined benefit obligation, the measurement of the resulting defined benefit asset is limited to the present value of economic benefits available in the form of refunds from the plan or reductions in future contributions to the plan.

The Group's right to be reimbursed of some or all of the expenditure required to settle a defined benefit obligation is recognized as a separate asset at fair value when and only when reimbursement is virtually certain.

Leases

Leases. The Group assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Group as Lessee. The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognizes lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

- *Right-of-use Assets*. The Group recognizes right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognized, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received and estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease, unless those costs are incurred to produce inventories. Unless the Group is reasonably certain to obtain ownership of the leased asset at the end of the lease term, the recognized right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term as follow:

Land	2 to 25 years
Buildings, studio and office spaces	2 to 15 years

  Right-of-use assets are subject to impairment.

- *Lease Liabilities.* At the commencement date of the lease, the Group recognizes lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating a lease, if the lease term reflects the Group exercising the option to terminate. The variable lease payments that do not depend on an index or a rate are recognized as expense in the period on which the event or condition that triggers the payment occurs.

  In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced

for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the in-substance fixed lease payments or a change in the assessment to purchase the underlying asset.

- *Short-term Leases.* The Group applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date or initial application of PFRS 16 and do not contain a purchase option). Lease payments on short-term leases are recognized as expense on a straight-line basis over the lease term.

Group as Lessor. Leases where the Group does not transfer substantially all the risks and benefits of ownership of the asset are classified as operating leases. Rental income from operating leases are recognized as income in the consolidated statement of comprehensive income on a straight-line basis over the lease term. Initial direct costs incurred in negotiating an operating lease are added to the carrying amount of the leased asset and recognized over the lease term on the same basis as rental income. Contingent rents are recognized as revenue in the period in which they are earned.

Foreign Currency-denominated Transactions

Transactions in foreign currencies are initially recorded in the functional currency exchange rate at the date of the transactions. Monetary assets and liabilities denominated in foreign currencies are retranslated at the functional currency closing exchange rate at financial reporting period. All differences are taken to profit or loss in the consolidated statements of comprehensive income. Nonmonetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Nonmonetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. For income tax purposes, foreign exchange gains and losses are treated as taxable income or deductible expenses when realized.

Taxes

Current Income Tax. Current income tax assets and liabilities for the current period are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantially enacted at reporting period.

Current income tax relating to items recognized directly in equity is recognized in equity and not in profit or loss. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred Tax. Deferred tax is provided using the liability method on temporary differences at reporting period between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting period.

Deferred tax assets are recognized for all deductible temporary differences, carryforward benefits of excess minimum corporate income tax (MCIT) over regular corporate income tax (RCIT) and unused net operating loss carryover (NOLCO), to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carryforward benefits of excess MCIT over RCIT and unused NOLCO can be utilized, except:

- where the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit; and

- in respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint arrangements, deferred tax assets are recognized only to the extent that it is probable that the

temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax assets to be utilized. Unrecognized deferred tax assets are reassessed at each reporting period and are recognized to the extent that it has become probable that future taxable profit will allow the deferred tax assets to be recovered.

Deferred tax liabilities are recognized for all taxable temporary differences, except:

- where the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit; and

- in respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint arrangements, where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the year when the asset is realized or the liability is settled, based on tax rates and tax laws to be enacted or substantially enacted at the reporting period.

Deferred tax relating to items recognized outside profit or loss is recognized outside profit or loss. Deferred tax items recognized in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Creditable Withholding Taxes. Creditable withholding taxes represent amounts withheld by the Group's customers and is deducted from the Group's income tax payable.

Value-added Tax (VAT). Revenue, expenses and assets are recognized net of the amount of VAT, if applicable.

When VAT from sales of goods and/or services (output VAT) exceeds VAT passed on from purchases of goods or services (input VAT), the excess is recognized as payable in the consolidated statement of financial position. When VAT passed on from purchases of goods or services (input VAT) exceeds VAT from sales of goods and/or services (output VAT), the excess is recognized as an asset in the consolidated statement of financial position to the extent of the recoverable amount.

The net amount of VAT recoverable from, or payable to, the taxation authority is included as part of "Prepaid expenses and other current assets" or "Trade payables and other current liabilities" accounts in the consolidated statement of financial position.

Earnings Per Share (EPS)

Basic EPS is computed by dividing the net income for the year attributable to the equity holders of the Parent Company, net of income attributable to preferred shares, by the weighted average number of common shares outstanding during the year, after considering the retroactive adjustments for any stock dividends declared, if any.

Diluted EPS is calculated by dividing the net income for the year attributable to the equity holders of the Parent Company (inclusive of income attributable to preferred shares) by the weighted average number of common shares outstanding during the year, plus the weighted average number of common shares that would be issued upon conversion of all dilutive potential common shares.

Segment Reporting
For management purposes, the Group's operating businesses are organized and managed separately into television and radio airtime, international subscriptions and other business activities. Such business segments are the basis upon which the Group reports its primary segment information. The Group considers television and radio operations as the major business segment. The Group operates in two geographical areas where it derives its revenue. Financial information on business segments is presented in Note 7 to the consolidated financial statements.

Provisions
Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Group expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognized as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the consolidated statement of comprehensive income net of any reimbursement.

Contingencies
Contingent liabilities are not recognized in the consolidated financial statements. These are disclosed in the notes to consolidated financial statements unless the possibility of an outflow of resources embodying economic benefits is remote. Contingent assets are not recognized in the consolidated financial statements but are disclosed in the notes to consolidated financial statements when an inflow of economic benefits is probable.

Events after Reporting Period
Post year-end events that provide additional information about the Group's position at the reporting period (adjusting events) are reflected in the consolidated financial statements. Post year-end events that are not adjusting events are disclosed in the notes to consolidated financial statements when material.

4. Significant Accounting Judgments, Estimates and Assumptions

The preparation of the consolidated financial statements requires management to make judgments, estimates and assumptions that affect amounts reported in the consolidated financial statements and related notes at the end of the reporting period. However, uncertainty about these judgments, estimates and assumptions could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

Judgments
In the process of applying the Group's accounting policies, management has made the following judgments, which have the most significant effect on the amounts recognized in the consolidated financial statements.

Consolidation of Entities in which the Group holds less than Majority of Voting Rights. The Group considers that it controls RGMA Network even though it owns less than 50% of the voting rights. This is because the Group is the single largest shareholder of RGMA Network with a 49% equity interest. The remaining 51% of the equity shares in RGMA Network are owned by several parties. Since September 27, 1995, which is the date of incorporation of RGMA Network, there is no history of the other shareholders collaborating to exercise their votes collectively or to outvote the Group. The carrying amount of NCI as at March 31, 2026 and December 31, 2025 amounted to ₱45.74 million and ₱46.03 million, respectively.

Operating Leases - Group as Lessor. The Group has entered into various lease agreements as lessor. The Group had determined that the risks and rewards of ownership of the underlying property were retained by the Group. Accordingly, the leases are classified as an operating lease.

Total rental income amounted to ₱1.73 million and ₱1.94 million in March 31, 2026 and 2025, respectively (see Note 29).

Allowance for ECL. The following information explains the inputs, assumptions and techniques used by the Group in estimating ECL for trade receivables:

- Definition of default for trade receivables

  The Group defines a trade receivable as in default, when it meets one or more of the following criteria:

  - The counterparty is experiencing financial difficulty or is insolvent
  - The receivable is more than 360 days past due. The determination of the period is based on the Group's practice and agreement with their customers within the industry.

- Grouping of instruments for losses measured on collective basis

  For expected credit loss provisions modelled on a collective basis, a grouping of exposures is performed on the basis of shared risk characteristics, such that risk exposures within a segmentation are homogeneous. The Group segmentized its receivables based on the type of customer (e.g., corporate and individuals).

- Incorporation of forward-looking information

  The Group considers a range of relevant forward-looking macro-economic assumptions for the determination of unbiased general industry adjustments that support the calculation of ECLs. A broad range of forward-looking information are considered as economic inputs such as the gross domestic product, inflation rate, unemployment rates and other economic indicators.

  The macroeconomic factors are aligned with information used by the Group for other purposes such as strategic planning and budgeting.

  The Group identifies and documents key drivers of credit risk and credit losses of each portfolio of financial instruments and, using an analysis of historical data, has estimated relationships between macro-economic variables and credit risk and credit losses.

  Predicted relationship between the key macro-economic indicators and default and loss rates on various portfolios of financial assets have been developed based on analyzing historical data over the past 5 years. The methodologies and assumptions including any forecasts of future economic conditions are reviewed regularly.

Contingencies. The Group is currently involved in various claims and legal proceedings. The estimate of the probable costs for the resolution of these claims has been developed in consultation with legal counsel handling the defense in these matters and is based upon an analysis of potential results. The Group currently does not believe that these proceedings will have a material adverse effect on the Group's financial position.

Estimates and Assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting period that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Group based its assumptions and estimates on parameters available when the consolidated financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

Estimating the Incremental Borrowing Rate. The Group cannot readily determine the interest rate implicit in the lease, therefore, it uses its incremental borrowing rate (IBR) to measure lease liabilities. The IBR is the rate of interest that the Group would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The IBR therefore reflects what the Group 'would have to pay', which requires estimation when no observable rates are

available (such as for subsidiaries that do not enter into financing transactions) or when they need to be adjusted to reflect the terms and conditions of the lease. The Group estimates the IBR using observable inputs (such as market interest rates) when available and is required to make certain entity-specific estimates (such as the counterparty's stand-alone credit rating).

The Group's lease liability amounted to ₱146.75 million and ₱130.25 million as at March 31, 2026 and December 31, 2025, respectively (see Note 30).

Estimating Allowance for ECL. The Group uses a simplified approach for calculating ECL on trade receivables through the use of provision matrix to calculate ECLs. The provision rates are based on days past due for groupings of customer segments that have similar loss patterns (i.e., by customer type).

The provision matrix is initially based on the Group's historical observed default rates. The Group then calibrates the matrix to adjust the historical credit loss experience with forward-looking information. For instance, if forecast economic conditions (e.g., gross domestic product, inflation rate, unemployment rate) are expected to deteriorate over the next year which can lead to an increased number of defaults in the Group's operating segments, the historical default rates are adjusted. At every reporting date, the historical observed default rates are updated and changes in the forward-looking factors specific to the debtors and the economic environment are updated to consider the impact of the coronavirus pandemic.

The assessment of the correlation between historical observed default rates, forecast economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and of forecast economic conditions. The Group's historical credit loss experience and forecast of economic conditions may also not be representative of customer's actual default in the future.

Provision for ECL amounted to ₱0.13 million as of March 31, 2026 and 2025. The allowance for ECL amounted to ₱1,048.12 million and ₱1,048.00 million as at March 31, 2026 and December 31, 2025, respectively. The carrying amounts of trade and other receivables amounted to ₱6,322.24 million and ₱6,392.19 million as at March 31, 2026 and December 31, 2025, respectively (see Note 9).

Classification and Amortization of Program and Other Rights. Portions of program and other rights are classified as current and noncurrent assets. Current portion represents those expected to be aired any time within its normal operating cycle, whereas the noncurrent portion represents those without definite expiration.

The Group estimates the amortization of program and other rights with finite lives using straight line method up to the date of expiry, which is the manner and pattern of usage of the acquired rights. In addition, estimation of the amortization of program and other rights is based on the Group's experience with such rights. It is possible, however, that future results of operations could be materially affected by changes in estimates brought about by changes in the factors mentioned above. The amounts and timing of recorded expenses for any period would be affected by changes in these factors and circumstances.

Program and other rights usage amounted to ₱282.95 million and ₱320.26 million for the periods of March 31, 2026 and 2025, respectively (see Note 26). Program and other rights, net of accumulated impairment loss of ₱2.70 million, amounted to ₱1,940.46 million and ₱2,152.44 million as at March 31, 2026 and December 31, 2025, respectively (see Note 10).

Estimating Allowance for Inventory Losses. The Group provides allowance for inventory losses whenever the net realizable value becomes lower than cost due to damage, physical deterioration, obsolescence, changes in price levels or other causes. The allowance account is reviewed periodically to reflect the accurate valuation of the inventories.

The carrying value of merchandise inventory and materials and supplies inventory in the consolidated statement of financial position, amounted to ₱787.24 million and ₱814.35 million as at March 31, 2026 and December 31, 2025, respectively (see Note 11). There were no provisions for inventory losses as of March 31, 2026 and 2025.

Estimating Useful Lives of Property and Equipment, Software Costs and Investment Properties. The Group estimates the useful lives of property and equipment, software costs and investment properties based on the period over which the assets are expected to be available for use. The estimated useful lives of property and equipment, software costs and investment properties are reviewed periodically and are updated if expectations differ from previous estimates due to physical wear and tear, technical or commercial obsolescence and legal or other limits on the use of the assets. In addition, estimation of the useful lives of property and equipment, software costs and investment properties is based on collective assessment of industry practice, internal technical evaluation and experience with similar assets. It is possible, however, that future results of operations could be materially affected by changes in estimates brought about by changes in the factors mentioned above. The amounts and timing of recorded expenses for any period would be affected by changes in these factors and circumstances. A reduction in the estimated useful lives of property and equipment, software costs and investment properties would increase the recorded general and administrative expenses and decrease noncurrent assets.

There has been no change in the Group's estimate of useful lives of its property and equipment, software costs and investment properties as of March 31, 2026 and December 31, 2025.

Total depreciation and amortization expense for the periods ended March 31, 2026 and 2025 amounted to ₱208.07 million and ₱219.75 million, respectively (see Notes 15, 17, 18, 26 and 27).

Revaluation of Land. The Group engages an accredited appraiser to determine the fair value of the land used in operations. Fair value is determined by reference to market-based evidence adjusted based on certain elements of comparison. The fair value amount would differ if the Group made different judgments and estimates or utilized a different basis for determining fair value.

Valuations from an accredited appraiser are performed every three to five years or more frequently as deemed necessary to ensure that the fair value of a revalued asset does not differ materially from its carrying amount.

Total additional revaluation increment, net of tax, recognized in 2025 amounted to ₱434.29 million. There were no additional revaluation increment, net of tax, recognized in March 31, 2025. The revalued amount of land, which is classified under "Property and equipment" account in the statements of financial position, amounted to ₱9,392.33 as at March 31, 2026 and December 31, 2025 (see Notes 16 and 33). In 2025, the Group assessed those certain parcels of land at revalued amounts have significant movements in its current carrying values and obtained updated appraisals as at December 31, 2025. For the land that were not appraised as of March 31, 2026 and December 31, 2025, 2024, the Group assessed that carrying values approximates fair values as of reporting dates

Impairment of Nonfinancial Assets. For prepaid production costs, tax credits, investments and advances, property and equipment, right-of-use assets, investment properties, program and other rights, investments in artworks, deferred production costs and software costs, impairment testing is performed whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable.

The factors that the Group considers important which could trigger an impairment review include the following:

- significant underperformance relative to expected historical or projected future operating results;
- significant changes in the manner of use of the acquired assets or the strategy for overall business;
- significant negative industry or economic trends; and
- obsolescence or physical damage of an asset.

The Group recognizes an impairment loss whenever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of fair value less costs to sell and the asset's value in use. Recoverable amounts are estimated for individual assets or, if it is not possible, for the CGU to which the asset belongs.

As at March 31, 2026 and December 31, 2025, the Group did not identify any indicator of impairment on its nonfinancial assets, hence, no impairment tests were carried out.

The carrying values of nonfinancial assets as at March 31, 2026 and December 31, 2025 follow:

	March 31, 2026 (Unaudited)	December 31, 2025 (Audited)
Land at revalued amounts (see Note 16)	**9,392,333,955**	9,392,333,955
Property and equipment - at cost (see Note 15)	**2,817,561,729**	2,969,765,662
Program and other rights (see Note 10)	**1,940,460,234**	2,152,441,529
Prepaid production costs (see Note 12)	**347,547,551**	344,356,644
Investments and advances (see Note 14)	**167,482,267**	167,651,596
Tax credits (see Note 12)	**163,184,436**	125,645,165
Right-of-use assets (see Note 30)	**124,578,608**	105,738,829
Investment properties (see Note 17)	**29,019,750**	29,384,113
Investment in artworks (see Note 18)	**10,186,136**	10,186,136
Software costs (see Note 18)	**8,321,757**	9,982,360
Deferred production costs (see Note 18)	**1,883,174**	1,706,914

Estimating Realizability of Deferred Tax Assets. The Group reviews its deferred tax assets at each reporting date and reduces the carrying amount to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. The Group's assessment on the recognition of deferred tax assets on deductible temporary difference and carryforward benefits of NOLCO and excess MCIT over RCIT is based on the projected taxable income in the following periods.

Pension and Other Employee Benefits. The determination of the Group's obligation and cost of pension benefits is dependent on the selection of certain assumptions used by actuaries in calculating such amounts. Due to the complexity of the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions.

Pension liability amounted to ₱6,202.62 million and ₱6,034.06 million as at March 31, 2026 and December 31, 2025, respectively.

Determination of Fair Value of Financial Assets at FVOCI. Financial assets at FVOCI are carried and disclosed at fair value, which requires extensive use of accounting estimates and judgments. When the fair values cannot be derived from active markets, they are determined using a variety of valuation techniques that include the use of mathematical models. The input to these models is taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. The fair value of financial assets at FVOCI are enumerated in Note 33.

Determination of Fair Value of Investment Properties. PFRS requires disclosure of fair value of investment properties when measured at cost. The Group used the services of an independent professional appraiser in estimating the fair value of properties. The appraisers conducted an actual inspection of the property and considered the following in the study and analyses in arriving at the estimate of fair value: (a) extent, character and utility of the property; (b) sales and holding prices of similar properties; and (c) highest and best use of the property. The description of valuation techniques used and key inputs to fair valuation of investment properties are enumerated in Note 17 of the consolidated financial statements.

5. Seasonality or Cyclicality of Interim Operations

The Group's operations are not generally affected by any seasonality or cyclicality.

6. Nature and Amount of Changes in Estimates

2025 figures were restated to conform to the current period's presentation.

7. Segment Information

Business Segments

For management purposes, the Group is organized into business units based on its products and services and has three reportable segments, as follows:

- The television and radio segment, which engages in television and radio broadcasting activities and which generates revenue from sale of national and regional advertising time.
- The international subscription segment which engages in subscription arrangements with international cable companies.
- Other businesses which include movie production, consumer products and other services.

The Executive Committee, the chief operating decision maker, and Management monitor the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on net income or loss and is measured consistently with net income or loss in the consolidated financial statements. On a consolidated basis, the Group's performance is evaluated based on consolidated net income for the year.

Geographical Segments

The Group operates in two major geographical segments - local and international. Local refers to revenues earned in the Philippines, the home country. Significant portion of the revenues earned locally pertain to television and radio airtime. International refers to revenues earned in United States and in other locations (which include Middle East, Europe, Australia, Canada, Guam, Singapore, Hongkong and Japan). The Group ties up with cable providers to bring local television programming outside the Philippines.

The Group's revenues are mostly generated in the Philippines, which is the Group's country of domicile.

Noncurrent assets consist of property and equipment, land at revalued amounts, investment properties and intangible assets which are all located in the Philippines.

The Group does not have a single external customer whose revenue accounts for 10% or more of the Group's revenues.

Inter-segment Transactions

Segment revenues, segment expenses and segment results include transfers among business segments and among geographical segments. The transfers are accounted for at competitive market prices charged to unrelated customers for similar services. Such transfers are eliminated upon consolidation.

Measurement Basis

The amount of segment assets and liabilities and segment profit or loss are based on measurement principles that are similar to those used in measuring the assets and liabilities and profit or loss in the consolidated financial statements, which is in accordance with PFRS.

Please refer to Exhibit 1 for the comparative segment information for the three months ended March 31, 2026 and 2025.

8. Cash and Cash Equivalents

This account consists of:

	March 31, 2026 (Unaudited)	December 31, 2025 (Audited)
Cash on hand and in banks	**1,170,526,226**	1,111,193,731
Short-term placements	**177,004,755**	350,191,984
	1,347,530,981	1,461,385,715

Cash in banks earn interest at the respective bank deposit rates. Short-term deposits are made for varying periods of up to nine months depending on the immediate cash requirements of the Group and earn interest at the respective short-term deposit rates.

Interest income earned from bank deposits and short-term investments amounted to ₱4.43 million and ₱4.11 million for the three months ended March 31, 2026 and 2025, respectively.

9. Trade and Other Receivables

This account consists of:

	March 31, 2026 (Unaudited)	December 31, 2025 (Audited)
Trade:		
Television and radio airtime	**6,965,743,581**	7,037,135,333
Subscription receivable	**162,249,837**	185,583,575
Others	**223,344,461**	175,378,616
Nontrade:		
Advances to officers and employees	**7,193,306**	6,280,963
Others	**11,829,928**	35,808,443
	7,370,361,113	7,440,186,930
Less allowance for doubtful accounts	**1,048,120,683**	1,047,995,683
	6,322,240,430	6,392,191,247

Trade Receivables

Television and Radio Airtime. Television and radio airtime receivables are unsecured, noninterest-bearing and are generally on a 60–90 days terms upon receipt of invoice by the customer. The receivables are normally collected within the next reporting period.

Television and radio airtime receivables include unbilled airtime receivables, arising when advertisements have been aired during the year but billing or acceptance by the customer has been delayed due to time lag in

completing all required documents. As at March 31, 2026 and December 31, 2025, the total unbilled airtime receivables, assessed as contract assets, amounted to ₱67.49 million and ₱50.27 million, respectively.

Subscriptions Receivable. Subscriptions receivable include receivables pertaining to revenue generated from international channel subscriptions and advertisements. These are noninterest-bearing and normally collected within the next reporting period.

Other Trade Receivables. Other trade receivables mainly consist of receivables from customers relating to advertising placements on other platforms other than TV and Radio, sale of merchandise and content provisioning services. These are unsecured, noninterest-bearing and are generally on 60-90 day terms upon receipt of invoice by the customers.

Nontrade Receivables

Advances to Officers and Employees and Other Nontrade Receivables. Other nontrade receivables pertain to loans of regular and project employees and advances given to talents and project employees. These are noninterest-bearing and are normally collected within the next financial year

Allowance for ECL

The movements in the allowance for doubtful accounts on trade receivables are as follows:

	March 31, 2026 (Unaudited)		
	Corporate	**Individual**	**Total**
Balance at beginning of the year	**1,037,686,145**	**10,309,538**	**1,047,995,683**
Provision for the year	**125,000**	**-**	**125,000**
Balance at end of the period	**1,037,811,145**	**10,309,538**	**1,048,120,683**

	December 31, 2025 (Audited)		
	Corporate	Individual	Total
Balance at beginning of the year	909,368,277	10,309,538	919,677,815
Provision for the year	128,317,868	-	128,317,868
Balance at end of the year	1,037,686,145	10,309,538	1,047,995,683

10. Program and Other Rights

Details and movements in this account are as follows:

	March 31, 2026 (Unaudited)			
	Program and Film Rights	**Story / Format Rights**	**Program Rights - Incidentals**	**Total**
Cost:				
Balance at beginning of period	**2,040,117,258**	**59,097,398**	**55,929,133**	**2,155,143,789**
Additions	**61,692,010**	**-**	**9,277,260**	**70,969,270**
Program and other rights usage (see No	**(256,991,289)**	**(15,735,818)**	**(10,223,458)**	**(282,950,565)**
Balance at end of period	**1,844,817,979**	**43,361,580**	**54,982,935**	**1,943,162,494**
Accumulated impairment in value	**(2,702,260)**	**-**	**-**	**(2,702,260)**
	1,842,115,719	**43,361,580**	**54,982,935**	**1,940,460,234**
Less noncurrent portion	**448,837,447**	**-**	**7,469,413**	**456,306,860**
	1,393,278,272	**43,361,580**	**47,513,522**	**1,484,153,374**

	December 31, 2025 (Audited)			
	Program and Film Rights	Story / Format Rights	Program Rights - Incidentals	Total
Cost:				
Balance at beginning of period	2,196,008,470	90,090,350	52,976,642	2,339,075,462
Additions	1,055,727,439	43,049,650	73,020,548	1,171,797,637
Program and other rights usage	(1,211,618,651)	(74,042,602)	(70,068,057)	(1,355,729,310)
Balance at end of period	2,040,117,258	59,097,398	55,929,133	2,155,143,789
Accumulated impairment in value -	(2,702,260)	-	-	(2,702,260)
	2,037,414,998	59,097,398	55,929,133	2,152,441,529
Less noncurrent portion	440,990,796	-	22,587,299	463,578,095
	1,596,424,202	59,097,398	33,341,834	1,688,863,434

11. Inventories

This account consists of the following:

	March 31, 2026 (Unaudited)	December 31, 2025 (Audited)
Merchandise inventory	**618,545,001**	642,203,371
Materials and supplies inventory	**168,694,665**	172,144,965
	787,239,666	814,348,336

The following are the details of merchandise inventory account:

	March 31, 2026 (Unaudited)	December 31, 2025 (Audited)
Set-top box	**616,793,634**	640,460,812
ITE chipset dongle	**1,751,367**	1,742,559
	618,545,001	642,203,371

Merchandise inventory consists mainly of set-top boxes, digital TV mobile receivers and other merchandises for sale by the Group. In 2020, the Group launched the GMA Affordabox, a digital box which allows users to receive clear pictures and sounds in their television sets through digital transmission. Cost of sales related to digital boxes amounted to ₱22.80 million and ₱28.98 million as of March 31, 2026 and 2025, respectively.

Materials and supplies inventory includes the Group's promotional items, office supplies, spare parts and production materials. In 2025, the Company reclassified chipset dongle that are intended to be used for promotions amounting to ₱155.54 million from merchandise inventory to materials and supplies inventory.

12. Prepaid Expenses and Other Current Assets

This account consists of:

	March 31, 2026 (Unaudited)	December 31, 2025 (Audited)
Input VAT	**379,746,871**	393,784,795
Prepaid production costs	**347,547,551**	344,356,644
Prepaid expenses	**346,616,127**	155,536,900
Tax credits	**163,184,436**	125,645,165
Advances to suppliers	**120,037,056**	116,497,191
Creditable withholding taxes	**73,707,368**	46,187,797
Others	**1,383,379**	1,180,753
	1,432,222,788	1,183,189,245

Input VAT pertains to VAT on purchase or importation of goods and services which are to be claimed and credited in the succeeding month's filing of VAT return.

Prepaid production represents costs paid in advance prior to the airing of the programs or episodes. The Group expects to air the related programs or episodes within the next financial year.

Prepaid expenses include prepayments for rentals, insurance and other expenses.

Tax credits represent claims of the Parent Company from the government arising from airing of government commercials and advertisements. The Parent Company expects to utilize these tax credits within the next financial year.

Advances to suppliers are noninterest-bearing and are generally applied to acquisition of program and other rights, inventories, availment of services and others within the next financial year.

Creditable withholding taxes represent amounts withheld by the Company's customers and is deducted from the Group's income tax payable.

13. Financial Assets at Fair Value Through Other Comprehensive Income

This account consists of the following:

	March 31, 2026 (Unaudited)	December 31, 2025 (Audited)
Listed equity instruments	**408,895,128**	403,139,728
Non-listed equity instruments	**1,325,851**	1,325,851
	410,220,979	404,465,579

In 2026 and 2025, the Group purchased additional investments in Wavemaker Three-Sixty Health II-A,LP. totaling ₱5.76 million and ₱28.74 million, respectively.

Dividend income earned from financial assets at FVOCI amounted to nil in March 31, 2026 and 2025.

IP E-Games

In 2015, IP E-Games Ventures, Inc. (IPE) issued 13 billion of its own common shares to the Group in exchange of the Group's investment in X-Play Online Games Incorporated (X-Play) and in settlement of ₱30.00 million advances and ₱50.00 million airtime credits granted by the Group to X-Play. At initial recognition, the Group recognized at fair value the IPE shares as AFS financial assets amounting to ₱130.00 million. The carrying values of investment in IPE amounted to ₱1.23 million as at March 31, 2026 and December 31, 2025.

Of the ₱50.00 million airtime credits, ₱12.42 million and ₱30.00 million has not been implemented at date of exchange and therefore was recognized by the Group as unearned revenue presented as "Contract liabilities", included as part of trade payables and other current liabilities as at March 31, 2026 and December 31, 2025 (see Note 20).

14. Investments and Advances

This account consists of:

	March 31, 2026 (Unaudited)	December 31, 2025 (Audited)
Investments in an associate and interests in joint ventures	**58,042,684**	58,042,684
Permanent advances in an associate (see Note 24)	**109,439,583**	109,608,912
	167,482,267	167,651,596

The movements in the accounts are as follows:

	March 31, 2026 (Unaudited)	December 31, 2025 (Audited)
Investments in an associate and joint ventures		
Acquisition cost -		
Balance at beginning and end of period	**131,722,056**	131,722,056
Accumulated equity in net losses:		
Balance at beginning of period	**(73,679,372)**	(69,720,250)
Equity in net earnings during the period	**-**	(3,959,122)
Balance at end of period	**(73,679,372)**	(73,679,372)
	58,042,684	58,042,684
Advances to an associate:		
Balance at beginning of period	**107,227,090**	106,166,972
Advances during the period	**-**	1,060,118
Balance at end of period	**107,227,090**	107,227,090
Advances to joint ventures:		
Balance at beginning of period	**2,381,822**	2,257,737
Advances (collections) during the period	**(169,329)**	124,085
Balance at end of period	**2,212,493**	2,381,822
Total investments and advances	**167,482,267**	167,651,596

The ownership interests in an associate and joint ventures, which were all incorporated in the Philippines, and are accounted for under the equity method, as at March 31, 2026 and December 31, 2025 follows:

	Principal Activities	Percentage of Ownership	
Associate -		Direct	Indirect
Mont-Aire Realty and Development Corporation (Mont-Aire)	Real Estate	49	–
Joint Ventures:			
INQ7 Interactive, Inc. (INQ7)*	Internet Publishing	50	–
Philippine Entertainment Portal (PEP)**	Internet Publishing	–	50
Gamespan, Inc. (Gamespan)**	Betting Games	–	50

**Not operational.*
***Indirect investment through GNMI.*

The carrying values of investments and the related advances are as follows:

	March 31, 2026 (Unaudited)		
	Investments	**Advances** (see Note 24)	**Total**

	58,042,684	109,608,912	167,651,596

The associate and joint ventures are not listed in any public stock exchanges.

Mont-aire

Mont-Aire ceased its commercial operations in 2009 and began its rental operations in 2024. Assets include real estate and parcels of land located at Tagaytay City, Cavite with an aggregate cost of ₱105.08 million and fair market value of ₱150.75 million, as determined by an accredited appraiser as at December 31, 2023 and June 3, 2019. Management believes that there are no events or changes in circumstances indicating a significant unfavorable change in the fair value of the abovementioned properties from the last appraisal made.

PEP

On April 16, 2007, the Group and Summit Publishing, Co. entered into a shareholder's agreement for the establishment of PEP. The joint venture was organized to design, conceptualize, operate and maintain websites that make available all kinds of show business, entertainment and celebrity information, video or pictures in the internet worldwide web or other forms of seamless communication.

No share in net earnings (losses) of PEP was recognized for the three months period ended March 31, 2026 and 2025.

Gamespan

On March 22, 2012, the Group, through GNMI, executed a Shareholder's Agreement with Manila Jockey Club (MJC) for the establishment of Gamespan, a joint venture corporation. The joint venture was organized to operate and manage the hardware and software owned by MJC, set-up new media infrastructure for offering and taking bets in horse racing and other sports.

Gamespan has not started its commercial operations since its establishment. In 2014, the Group and MJC agreed to terminate its shareholder's agreement and to close Gamespan. As at March 31, 2026 and December 31, 2025, the joint venture is not yet operating since they have a pending registration with the Bureau of Internal Revenue (BIR). However, Gamespan is taking actions to amend their GIS and reactivate their dormant bank accounts. Since Gamespan has yet to start its operations, the Group did not recognize any share in net earnings as of March 31, 2026 and 2025.

INQ7

Losses of INQ7 recognized under the equity method in excess of the Group's carrying value of investment were applied against its advances to the Parent Company thereby reducing both advances and investments to zero as at March 31, 2026 and December 31, 2025. INQ7 ceased operations in 2007. In 2013, INQ7 submitted a request to liquidate its assets to SEC. The liquidation is still ongoing as at March 31, 2026.

The Group believes that its interests in joint ventures are not individually material.

15. Property and Equipment at Cost

Please refer to Exhibit 3 for the rollforward analysis of property and equipment at cost.

Construction in progress pertains to the costs incurred for installation of equipment, signal strengthening of transmitters nationwide and construction/improvement of studios and stations in the regions.

The Group leases out a portion of its property and equipment at cost. Total rental income recognized for the leased portion amounted to ₱1.73 million and ₱1.94 million as of March 31, 2026 and 2025, respectively (see Note 29).

The Group disposed various property and equipment as at March 31, 2026 and 2025 resulting to the recognition of gain on sale amounting to ₱6.17 million and ₱10.96 million, respectively (see Note 29).

As at March 31, 2026 and December 31, 2025, no property and equipment have been pledged as collateral or security for any of the Group's liabilities.

16. Land at Revalued Amounts

The following are the details of this account as at March 31, 2026 and December 31, 2025:

Cost	**526,025,559**
Revaluation increment	**8,866,308,396**
	9,392,333,955

The fair value from the March 31, 2026 and December 31, 2025 appraisals were determined using the "Market Data Approach" as determined by independent professionally qualified appraisers and based on its highest and best use. The fair value represents the amount that would be received to sell the property in an orderly transaction

between market participants at the date of valuation in accordance with International Valuation Standards. The fair value is categorized under Level 3 of the fair value hierarchy.

As of March 31, 2026 and December 31, 2025, the fair value of land is directly proportional to the asking price of the comparable land and adjusted according to the following considerations:

Significant unobservable input	
Asking price per square meter	₱270 to ₱350,000
Sales price adjustment	5% to 10%
Lot size adjustment	5% to 20%

Significant increase (decrease) in asking price per square meter would result to significantly higher (lower) fair value of the properties. Significant increase (decrease) in the sales price adjustment and lot size adjustment would result in a significantly lower (higher) fair value.

Management believes that the carrying value of land as of March 31, 2026 and December 31, 2025 approximates the fair values as at March 31, 2026 and December 31, 2025.

As at March 31, 2026 and December 31, 2025, no land has been pledged as collateral or security for any of the Group's liabilities and the Group has no restrictions on the realizability of its land and no contractual obligation to purchase, construct or develop land or for repairs, maintenance and enhancements.

17. **Investment Properties**

	March 31, 2026 (Unaudited)		
	Land and Improvements	**Buildings and Improvements**	**Total**
Cost:

	23,761,823	**5,257,927**	**29,019,750**

	December 31, 2025 (Audited)		
	Land and Improvements	Buildings and Improvements	Total
Cost:			
Balance at beginning and end of period	23,761,823	73,777,963	97,539,786
Accumulated depreciation:			
Balance at beginning of period	-	62,845,581	62,845,581
Depreciation during the period	-	1,457,451	1,457,451
Balance at end of period	-	64,303,032	64,303,032
Accumulated impairment:			
Balance at beginning and end of period	-	3,852,641	3,852,641
	23,761,823	5,622,290	29,384,113

The fair value of investment properties owned by the Group amounted to ₱305.18 million as at March 31, 2026 and December 31, 2025. Land used in operations was last appraised on December 31, 2023 by an accredited firm of appraisers and is valued in terms of its highest and best use.

The fair value was arrived at through the use of the "Market Data Approach". The fair value represents the amount that would be received to sell the property in an orderly transaction between market participants at the date of valuation.

The description of the valuation techniques used and key inputs to fair valuation are as follows:

	Valuation Technique	Significant Unobservable Inputs	Range
Land	Market comparable assets	Price per square meter	₱1,400-₱11,700
Building for lease	Market comparable assets	Price per square meter	₱22,000-₱117,000

As at March 31, 2026 and December 31, 2025, no investment properties have been pledged as collateral or security for any of the Group's liabilities and the Group has no restriction on the realizability of its investment properties and no contractual obligation to purchase, construct or develop investment properties or for repairs, maintenance and enhancements.

18. Other Noncurrent Assets

This account consists of:

	March 31, 2026 (Unaudited)	December 31, 2025 (Audited)
Restricted cash	**302,604,243**	302,604,243
Refundable deposits (see Notes 32 and 33)	**44,331,507**	44,238,770
Investments in artworks	**10,186,136**	10,186,136
Software costs	**8,321,757**	9,982,360
Facilities	**6,605,462**	6,605,462
Guarantee deposits	**2,162,420**	2,162,420
Deferred production costs	**1,883,174**	1,706,914
Deferred input VAT	**476,429**	724,012
	376,571,128	378,210,317

Restricted cash pertains to time deposits under the custody of the courts and other regulators such as national labor relations commission as a bond or surety for the Group's Court appearance or commitment on pending labor cases and litigation.

Refundable deposits pertain to the deposits made to various electric companies across the country.

Investments in artworks are the paintings and other work of art usually displayed in the Parent Company's hallways.

Software cost relates to software applications and website development costs which provide an edge on the Group's online presence and other software issues.

The movements in software costs follow:

	March 31, 2026 (Unaudited)	December 31, 2025 (Audited)
Cost:		
Balance at beginning of period	**574,654,918**	569,296,236
Additions during the period	**-**	5,358,682
Balance at end of period	**574,654,918**	574,654,918
Accumulated amortization:		
Balance at beginning of period	**564,672,558**	547,314,923
Amortization during the period (see Notes 27)	**1,660,603**	17,357,635
Balance at end of period	**566,333,161**	564,672,558
	8,321,757	9,982,360

Facilities relate to the paid deposit for facilities paid in advance and used for productions by the Group.

Guarantee deposits consist of the Meralco refund and refundable rental deposits used for Parent Company's programs.

Deferred production costs pertain to the costs incurred in relation to the production of music compact discs and are measured at cost upon recognition. Deferred production costs are being amortized as the related compact discs are sold.

Deferred input VAT pertains to the VAT on the Group's acquisitions of capital goods exceeding ₱1.00 million in any given month which are to be amortized over the 60 months or the life of the asset, whichever is shorter.

19. Short-term Loans

The Group obtained unsecured short-term peso from local banks in March 31, 2026 and December 31, 2025. Details and movements of the short-term loans are as follows:

	March 31, 2026 (Unaudited)	December 31, 2025 (Audited)
Balance at beginning of period	**1,476,683,750**	3,720,545,000
Payments	**(851,190,000)**	(4,043,861,250)
Additions	**-**	1,800,000,000
Balance at end of period	**625,493,750**	1,476,683,750

The loans consist of fixed rate notes with the following details:

Lender	Annual interest rate	Terms	**March 31, 2026**	December 31, 2025
Banco de Oro	5.10% to 5.50%	Availed in 2025, payable in 280-310 days	**₱150,000,000**	₱750,000,000
Metropolitan Bank	5.10% to 5.50%	Availed in 2024, payable in 180-355 days	**450,000,000**	700,000,000
Security Bank	2.75%	Availed in 2025, payable in 360 days	**25,493,750**	26,683,750
			₱625,493,750	₱1,476,683,750

Interest expense on peso denominated loans amounted to ₱14.42 million and ₱43.32 million for the three-month period ended March 31, 2026 and 2025, respectively.

20. Trade Payables and Other Current Liabilities

This account consists of:

	March 31, 2026 (Unaudited)	December 31, 2025 (Audited)
Accrued expenses:		
Utilities and others	**645,397,819**	495,478,114
Payroll and talent fees	**133,508,145**	127,544,191
Production costs	**219,532,713**	293,261,177
Commissions	**79,772,297**	80,832,325
Payable to government agencies	**875,986,875**	896,640,948
Trade payables	**605,610,422**	732,772,643
Contract liabilities	**520,494,419**	54,243,746
Customers' deposits	**94,252,219**	96,375,378
Others	**72,797,090**	89,240,922
	3,247,351,999	2,866,389,444

Accrued expenses and other payables are noninterest-bearing and are generally settled within the next 12 months.

Payable to government agencies is composed of the Group's statutory compensation-related contributions to government agencies and net VAT and withholding taxes payable to the Bureau of Internal Revenue (BIR). The difference between the accrual accounting under the accounting standards and cash-basis accounting as prescribed by the BIR for service-related companies caused the Group to normally incur deferred output VAT which forms a substantial part of the Group's payable to government agencies. These payables are remitted within 30 days after reporting period.

Trade payables to suppliers are noninterest-bearing and are normally settled on terms ranging from seven to 60 days.

Contract liabilities pertain to payments received before broadcast and before delivery of goods and services amounting to ₱520.49 million and ₱54.24 million as at March 31, 2026 and December 31, 2025, respectively. These are recognized as revenue when the Group performs the obligation under the contract. As of March 31, 2026 and December 31, 2025, this account also includes contract liabilities of ₱12.42 million and ₱30.00 million, respectively. from airtime credits that have not been implemented resulting from the exchange of the Group's interests in X-Play in 2015 (see Note 13). Contract liabilities are recognized as revenue when the Group performs the obligation under the contract.

Customers' deposits include guaranty deposits from advertising agencies to secure payment of bills by advertisers. These deposits are non-interest bearing and normally refunded once the related broadcasts are paid by the advertisers. It also includes deposits from the Group's lessees upon inception of the lease agreements.

Others include unpaid subscriptions and retention payables. These are noninterest-bearing and are normally settled within one year.

21. **Obligations for Program and Other Rights**

Obligations for program and other rights represent liabilities to foreign and local film suppliers for program and other rights purchased by the Group. Outstanding unpaid current balance as at March 31, 2026 and December 31, 2025 are as follows:

	March 31, 2026 (Unaudited)	December 31, 2025 (Audited)
Current obligation for program rights	**556,826,854**	631,972,080
Noncurrent obligation for program rights	**14,147,368**	56,589,474
	570,974,222	688,561,554

Obligations for program and other rights are noninterest-bearing and are generally payable in equal monthly or quarterly installments.

22. **Material Events**

A. Any known trends, demands, commitments, events or uncertainties that will have a material impact on the issuer's liquidity.

As of March 31, 2026, there are no known trends, demands, commitments, events or uncertainties that will have a material impact on the issuer's liquidity.

B. Any material commitments for capital expenditures, the general purpose of such commitments and the expected sources of funds for such expenditures.

The 2026 Capital Expenditure budget of the parent company amounts to ₱236.49 million. This will be financed from internally-generated funds.

C. Any known trends, events or uncertainties that have had or that are reasonably expected to have a material favorable or unfavorable impact on net sales/revenues/income from continuing operations.

GMA Network's results of operations depend largely on the ability to sell airtime for advertising. The Company's business may be affected by the general condition of the economy of the Philippines.

D. Any events that will trigger direct or contingent financial obligation that is material to the company, including any default or acceleration or an obligation.

As of March 31, 2026, there are no events which may trigger a direct or contingent financial obligation that is material to the Company.

E. Any significant elements of income or loss that did not arise from the issuer's continuing operations.

As of March 31, 2026, there are no significant elements of income or loss that did arise from the issuer's continuing operations.

F. Any seasonal aspects that had a material effect on the financial condition or results of operations.

There are no seasonal aspects that had a material effect on the financial condition or results of operations.

G. Any material events that were unusual because of their nature, size or incidents affecting assets, liabilities, equity, net income, or cash flows.

There are no material events that were unusual because of their nature, size or incidents affecting assets, liabilities, equity, net income, or cash flows.

H. Any material events subsequent to the end of the interim period that have not been reflected in the financial statements for the interim period.

There were no material events, subsequent to the end of interim period that have not been reflected in the financial statements for the interim period.

23. Equity

a. Capital Stock

Details of capital stock as at March 31, 2026 and December 31, 2025 are as follow:

	No. of Shares	Amount
Common - ₱1.00 par value		
Authorized	5,000,000,000	₱5,000,000,000
Subscribed and issued	3,364,692,000	₱3,364,692,000
Preferred - ₱0.20 par value		
Authorized	7,500,000,000	₱1,500,000,000
Subscribed and issued	7,500,000,000	₱1,500,000,000

The cumulative preferred shares are of equal rank, preference and priority and are identical in all respect regardless of series. Preferred shares are participating at the rate of one fifth (1/5) of the dividend paid to common shares, the rate of which is adjusted proportionately by the Parent Company's BOD consequent to any stock split or stock dividend declaration affecting the common shares and preferred shares. Preferred shares are convertible at the option of the shareholders at the ratio of five preferred shares to one common share, based on par value.

Preferred shares enjoy priority over common shares in the distribution of assets of the Parent Company in the event of dissolution and liquidation, at such rates, terms and conditions as the BOD may determine. Each preferred share is entitled to one vote and shall have the same voting rights as the common shares.

The Parent Company's BOD may specify other terms and conditions, qualifications, restrictions and privileges of the preferred shares or series/classes thereof, insofar as such terms, conditions, qualifications, restrictions and privileges are not inconsistent with the articles of incorporation and any applicable law or regulation.

The following summarizes the information on the Parent Company's registration of securities with the SEC which was approved on June 20, 2007, as required by Revised Securities Regulation Code Rule 68:

Securities	Authorized and issued shares	Issue/Offer Price
Initial public offering	91,346,000	8.50
Underlying common share of PDRs	945,432,000	8.50
Over-allotment common shares	13,701,000	8.50
Common shares covering employee stock option plan	57,000,000	8.50

In prior years, the Parent Company has acquired 750,000 PDRs issued by GMA Holdings, Inc. at acquisition cost of ₱5.79 million. In as much as each PDR share grants the holder, upon payment of the exercise price and subject to certain other conditions, the delivery of one (1) Parent Company share or the sale and delivery of the proceeds of such sale of Parent Company share, such PDRs held by the Parent Company is being treated similar to a treasury share.

On October 4, 2021, the Parent Company's BOD approved to contribute its treasury common and preferred shares and PDRs to the Group's retirement plan. The contribution of the 3,645,000 treasury common shares and 492,816 treasury preferred shares was executed on December 31, 2022 at a transaction price of ₱13.90 per share and ₱2.77 per share, respectively. As the preferred shares are unlisted, the transaction price was based on the market price of the Parent Company's listed common shares on the transaction date, with the value of the treasury preferred shares computed based on the ratio of 1:5 preferred shares to common shares. The contribution of the 750,000 PDRs was executed on December 20, 2022 at a transaction price of ₱13.02 per share, which resulted to additional paid-in capital amounted to ₱27.52 million.

b. Retained Earnings

The Parent Company's BOD approved the declaration of the following cash dividends:

Year	Declaration Date	Record Date	Cash Dividend Per Share	Total Cash Dividend Declaration
2026	**March 25, 2026**	**April 20, 2026**	**P0.40**	**P1,945,876,800**
2025	March 31, 2025	April 29, 2025	P0.50	2,432,346,000
2024	April 3, 2024	April 24, 2024	P0.60	2,918,815,200

The Parent Company's outstanding dividends payable amounts to ₱1,984.72 million and ₱39.59 million as at March 31, 2026 and December 31, 2025, respectively.

24. Related Party Disclosures

Parties are considered to be related if one party has the ability, directly and indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. Parties are also considered to be related if they are subject to common control. Related parties may be individual or corporate entities.

The Parent Company has an approval requirement such that material related party transactions (RPTs) shall be reviewed by the Audit and Risk Management Committee (the Committee) and submitted to the BOD for approval. Material RPTs are those transactions that meet the threshold value amounting to ten percent (10%) or higher of the Company's total consolidated assets based on its latest audited financial statements either individually, or in aggregate over a twelve (12)-month period with the same related party.

Outstanding balances at year-end are unsecured and settlement occurs in cash throughout the financial year. There have been no guarantees provided or received for any related party receivables or payables. For periods ended

March 31, 2026 and December 31, 2025, the Group has not recorded any impairment of receivables on amounts owed by the related parties. The assessment is undertaken each financial year through examining the financial position of the related party and the market in which the related party operates.

In the ordinary course of business, the Group transacts with associates, affiliates, jointly controlled entities and other related parties on advances, reimbursement of expenses, and future stock subscriptions.

The transactions and balances of accounts as at and for the periods ended March 31, 2026 and December 31, 2025 with related parties are as follows:

Related Party	Category	Year	Amount/ Volume of Transactions	Receivables (Payables)	Terms	Conditions
Associate -						
Mont-Aire	Advances (see Note 14)	**2026**	**-**	**107,227,090**	Noninterest-bearing	Unsecured; not impaired
		2025	1,060,118	107,227,090		
Common stockholders:						
GMA Kapuso Foundation, Inc.	Reimbursable charges	**2026**	**6,344,674**	**1,553,929**	On demand, noninterest-bearing	Unsecured; not impaired
		2025	3,075,170	1,427,856		
Belo, Gozon, Elma Law	Legal, consulting and retainers' fees	**2026**	**5,094,716**	**-**	On demand, noninterest-bearing	Unsecured; not impaired
		2025	21,208,856	-		
Joint ventures:						
Gamespan	Advances (see Note 14)	**2026**	**-**	**1,959,670**	Noninterest-bearing	Unsecured; not impaired
		2025	-	1,959,670		
PEP	Advances (see Note 14)	**2026**	**-**	**252,823**	Noninterest-bearing	Unsecured; not impaired
		2025	124,085	422,152		

The advances made by the Parent Company to Mont-Aire and PEP are intended for future capital subscription. On the other hand, the advances to INQ7 were fully impaired as a result of the application of the Group's share in the losses of INQ7 recognized under the equity method in excess of the Group's carrying value of investment.

Compensation of Key Management Personnel

The compensation of key management personnel of the Group, by benefit type, follows:

	March 31, 2026 (Unaudited)	March 31, 2025
Salaries and short-term benefits	**184,844,041**	159,208,484
Pension benefits	**64,877,467**	53,454,703
	249,721,508	212,663,187

Equity Investments of the Retirement Fund

The Group's retirement fund includes equity investments in GMA Network, Inc. and GMA PDRs amounting to ₱376.32 million and ₱104.81 million as at March 31, 2025, respectively, and ₱355.30 million and ₱98.13 million as at December 31, 2025, respectively.

25. **Revenues**

Set out below is the disaggregation of the Group's revenues from contract with customers for the three months ended March 31:

	March 31, 2026	March 31, 2025
	(Unaudited)	
Revenue source		
Sale of service		
Advertising revenue	**2,980,620,509**	4,348,932,157
Subscription revenue	**156,497,072**	166,396,420
Revenue from distribution and content provisioning	**74,384,491**	27,939,183
Production revenue	**130,522,978**	118,198,646
Sale of goods	**19,673,985**	23,009,881
Total revenue from contracts with customers	**3,361,699,035**	4,684,476,287
Geographical markets

Sick and vacation leaves expense	**54,656,518**	170,234,817
	1,844,323,904	2,144,725,522

The said amounts were distributed as follows:

	March 31, 2026 (Unaudited)	March 31, 2025
Production costs (see Note 26)	**952,921,434**	1,062,149,868
General and administrative expenses (see Note 27)	**891,402,470**	1,082,575,654
	1,844,323,904	2,144,725,522

29. **Others** - Net

This account consists of the following income (expenses):

	March 31, 2026 (Unaudited)	March 31, 2025
Commissions from Artist Center	**52,393,448**	56,085,054
Gain on sale of property and equipment	**6,169,562**	10,957,178
Merchandising license fees and others	**5,708,150**	5,827,864
Rental	**1,728,009**	1,943,160
Bank charges	**(345,203)**	(270,641)
Others	**246,604**	73,006
	65,900,570	74,615,621

Merchandising license fees and others include income from mall shows, rental and sale of wardrobe and props rental and sale of scraps.

30. **Agreements**

Lease Agreements

Group as a Lessee

The Group entered into various lease agreements for land, building, studio and office spaces that it presently occupies and uses for periods ranging from two to 12 years. The lease agreements can be renewed subject to mutual agreement and can be terminated at the option of the Group. Previously, these leases were classified as operating leases under PAS 17.

The Group also has certain leases with lease terms of 12 months or less. The Group applies the "short-term lease" recognition exemptions for these leases.

The rollforward analysis of right-of-use assets follows:

	March 31, 2026 (Unaudited)		
	Right-of-use: Land	**Right-of-use: Buildings, studio and office spaces**	**Right-of-use: Total**

Noncurrent portion	**126,971,660**	113,658,993
	146,753,166	130,249,135

The rollforward analysis of dismantling provision follows:

	March 31, 2026 (Unaudited)	December 31, 2025 (Audited)
Balance at the beginning of the year	**29,141,656**	52,557,654
Accretion of interest	**332,350**	2,512,482
Derecognition	**-**	(25,928,480)
Balance at the beginning of the period	**29,474,006**	29,141,656

Total rental expense on short-term leases amounted to ₱116.17 million and ₱138.68 million as of March 31, 2026 and 2025, respectively (see Notes 26 and 27).

Group as Lessor. The Group leases out certain properties for a period of one year, renewable annually. The leased-out properties include investment properties, and broadcasting equipment. Total rental income amounted to ₱1.73 million and ₱1.94 million as of March 31, 2026 and 2025, respectively (see Note 29).

Subscription Agreements

The Parent Company entered into various subscription agreements with international cable providers for the airing of its programs and shows abroad. The agreements generally have terms of three to five years and are based on certain agreed service package rates.

Total subscription revenues amounted to ₱156.50 million and ₱166.40 million for the three months ended March 31, 2026 and 2025, respectively (see Note 25).

31. EPS Computation

The computation of basic EPS follows:

	March 31, 2026 (Unaudited)	March 31, 2025
Net income attributable to Equity Holders of Parent Company (a)	**102,473,100**	801,676,376
Less attributable to preferred shareholders	**31,596,995**	247,192,333
Net income attributable to common shareholders (b)	**70,876,105**	554,484,043
Weighted average number of common shares for basic EPS (c)	**3,362,494,500**	3,362,494,500
Weighted average number of common shares	**3,362,494,500**	3,362,494,500
Effect of dilution - assumed conversion of preferred shares	**1,500,000,000**	1,500,000,000
Weighted average number of common shares adjusted for the effect of dilution (d)	**4,864,692,000**	4,864,692,000
Basic EPS (b/c)	**0.021**	0.165
Diluted EPS (a/d)	**0.021**	0.165

32. Financial Risk Management Objectives and Policies

The Group's principal financial instruments include cash and cash equivalents. The main purposes of these financial instruments include raising financing for the Group's operations and managing identified financial risks. The Group has other financial assets and liabilities such as trade and other receivables, refundable deposits, trade payables and other current liabilities (excluding payable to government agencies, customers' deposits and contract liabilities), short-term loans, obligations for program and other right, dividends payable and other long-term employee benefits, which arise directly from its operations, and financial assets at FVOCI. The main risks arising from the use of financial instruments are liquidity risk, foreign currency exchange risk and credit risk. The Group is not exposed to interest rate risk as most of its financial assets and financial liabilities have fixed rates.

The BOD reviews and approves the Group's objectives and policies.

Liquidity Risk. The Group is exposed to the possibility that adverse changes in the business environment and/or its operations would result in substantially higher working capital requirements and subsequently pose difficulty in financing the additional working capital.

The Group manages liquidity risk by using its cash and cash equivalents from operations to meet its short-term liquidity needs. The Group likewise regularly evaluates other financing instruments and arrangements to broaden the Group's range of financing sources.

The tables below summarize the maturity profile of the Group's financial assets used for liquidity risk based on contractual undiscounted payments as at March 31, 2026 and December 31, 2025:

	March 31, 2026 (Unaudited)

Foreign Currency Exchange Risk. Foreign currency exchange risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign currency exchange rates. The Group's exposure to foreign currency exchange risk results from its business transactions denominated in foreign currencies. It is the Group's policy to ensure that capabilities exist for active but conservative management of its foreign currency exchange risk.

The Group's foreign currency-denominated monetary assets and liabilities are as follows:

	March 31, 2026 (Unaudited)		December 31, 2025 (Audited)	
Assets

In translating the foreign currency-denominated monetary assets and liabilities into Philippine peso amounts, the exchange rate used were ₱60.75 to US$1.00 and ₱58.79 to US$1.00 as at March 31, 2026 and December 31, 2025, respectively. The exchange rate for Philippine peso to Canadian dollar was ₱43.63 to CAD$1.00 and ₱43.01 to CAD$1.00 as at March 31, 2026 and December 31, 2025, respectively. The peso equivalents for the Singaporean Dollar, Australian Dollar, Dirham, Euro, Pound, and HongKong Dollar were ₱47.05, ₱41.60, ₱16.54, ₱69.63, ₱80.11, and ₱7.75, respectively as at March 31, 2026. The peso equivalents for the Singaporean Dollar, Australian Dollar, Dirham, Euro, and Pound were ₱45.82, ₱39.38, ₱16.01, ₱69.25, and ₱79.41, respectively as at December 31, 2025.

The following table demonstrates the sensitivity to a reasonably possible change in US$ exchange rate, with all other variables held constant, of the Group's income before income tax from reporting date up to next reporting date (due to changes in the fair value of monetary assets and liabilities). There is no impact on the Group's equity other than those already affecting profit or loss.

Credit Risk. Credit risk, or the risk of counterparties defaulting, is controlled by the application of credit approvals, limits and monitoring procedures. It is the Group's policy to enter into transactions with a diversity of creditworthy parties to mitigate any significant concentration of credit risk.

The Group ensures that sales of products and services are made to customers with appropriate credit history. The Group has an internal mechanism to monitor the granting of credit and management of credit exposures. The Group has made provisions, where necessary, for potential losses on credits extended. The Group's exposure to credit risk arises from default of the counterparty with a maximum exposure equal to the carrying amount of the instruments. The Group does not require any collateral for its financial assets, thus, maximum exposure to credit risk is equal to the carrying value of the financial instruments.

The following table shows the maximum exposure to credit risk for the components of the consolidated financial position as at March 31, 2026 and December 31, 2025:

	March 31, 2026 (Unaudited)	December 31, 2025 (Audited)
Financial assets at amortized cost		
Cash and cash equivalents*	**1,243,784,528**	1,393,780,579
Trade receivables:		
Television and radio airtime	**6,965,743,581**	7,037,135,333
Subscription	**162,249,837**	185,583,575
Others	**223,344,461**	175,378,616
Nontrade receivables:		
Advances to officers and employees	**7,193,306**	6,280,963
Others	**11,829,928**	35,808,443
Refundable deposit**	**44,331,507**	44,238,770
	8,658,477,148	8,878,206,279
Financial assets at FVOCI	**410,220,979**	404,465,579
	9,068,698,127	9,282,671,858

**Excluding cash on hand and production fund amounting to P103.75 million and P67.61 million as at March 31, 2026 and December 31, 2025, respectively.*

***Included under "Other noncurrent assets" account in the consolidated statements of financial position (see Note 18).*

The maximum exposure for cash and cash equivalents (excluding cash on hand) is the carrying amount less insured amount by the Philippine Deposit Insurance Corporation equivalent to the actual cash balance to a maximum of ₱0.50 million per depositor per bank. Beginning March 15, 2025, the insured amount has increased to ₱1.00 million per depositor per bank. The maximum exposure of trade and non-trade receivables and refundable deposits is equal to its carrying amount.

Credit quality of Financial Assets, Other than Trade Receivables

The financial assets of the Group are grouped according to stage whose description is explained as follows:

Stage 1 - Those that are considered current and up to 120 past due and based on change in rating delinquencies and payment history, do not demonstrate significant increase in credit risk.

Stage 2 - Those that, based on change in rating, delinquencies and payment history, demonstrate significant increase in credit risk, and/or are considered more than 120 to 360 days past due but does not demonstrate objective evidence of impairment as of reporting date.

Stage 3 - Those that are considered in default or demonstrate objective evidence of impairment as of reporting date.

The credit quality of the Group's financial assets are as follows:

***Included under "Other noncurrent assets" account in the consolidated statements of financial position (see Note 18).*

Credit Quality of Trade Receivables

An impairment analysis is performed at each reporting date using a provision matrix to measure expected credit losses. The provision rates are based on days past due for groupings of various customer segment with similar loss patterns (i.e., by customer type). The calculation reflects the probability-weighted outcome, the time value of money and reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions.

Set out below is the information about the credit risk exposure of the Group's trade receivables using provision matrix:

	March 31, 2026 (Unaudited)						
	Days past due						
	Current	**0-30 days**	**31-60 days**	**61-90 days**	**91-360 days**	**Over 360 days**	**Total**

Capital Management

The primary objective of the Group's capital management is to ensure that it maintains a strong credit rating and healthy capital ratios in order to support its business and maximize shareholder value.

The Group manages its capital structure and makes adjustments to it, in the light of changes in economic conditions. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, pay off existing debts, return capital to shareholders or issue new shares.

The Parent Company is not subject to externally imposed capital requirements.

No changes were made in the objectives, policies or processes for periods ended March 31, 2026 and December 31, 2025.

The Group monitors its capital gearing by measuring the ratio of interest-bearing loan to total equity. The Group's interest-bearing loans, which are short-term loans, amounted to ₱625.49 million and ₱1,476.68 million as at March 31, 2026 and December 31, 2025, respectively. The Group's total equity attributable to equity holders of the Parent Company as at March 31, 2026 and December 31, 2025 amounted to ₱11,572.51 million and ₱13,423.27 million, respectively.

33. Fair Value Measurement

The table below presents the carrying values and fair values of the Group's assets and liabilities, by category and by class, as at March 31, 2026 and December 31, 2025:

	March 31, 2026 (Unaudited)			
		Fair Value		
	Carrying Value	Quoted Prices in Active Market (Level 1)	Significant bservable Input (Level 2)	Significant Unobservable Inputs (Level 3)
Assets Measured at Fair Value				
Land at revalued amount	**9,392,333,955**	**-**	**-**	**9,392,333,955**
AFS financial assets	**410,220,979**		**16,300,000**	**393,920,979**
Assets for which Fair Value are Disclosed				
Investment properties	**29,019,750**	**-**	**-**	**29,019,750**
	9,831,574,684	**-**	**-**	**9,815,274,684**
Liabilities				
Financial liabilities at amortized cost -				
Obligation for program and other rights	**14,147,368**	**-**	**-**	**14,147,368**

	December 31, 2025 (Audited)			
		Fair Value		
	Carrying Value	Quoted Prices in Active Market (Level 1)	Significant Observable Input (Level 2)	Significant Unobservable Inputs (Level 3)
Assets Measured at Fair Value				
Land at revalued amount	9,392,333,955	-	-	9,392,333,955
Financial assets at FVOCI	404,465,579	-	16,300,000	388,165,579
Assets for which Fair Value are Disclosed				
Investment properties	29,384,113	-	-	29,384,113
	9,826,183,647	-	16,300,000	9,809,883,647
Liabilities				
Financial liabilities at amortized cost -				
Obligation for program and other rights	56,589,474	-	-	56,589,474

As at March 31, 2026 and December 31, 2025, the fair value of equity instruments in a listed entity is classified under Level 3 due to the investee Company's suspension of trading in the market.

The fair values of equity instruments in listed and non-listed companies classified under Level 3 were determined through asset-based approach. Asset-based approach is based on the value of all the tangible and intangible assets and liabilities of the investee Company.

Presented below are the significant unobservable inputs used in the market approach valuation of the Group's financial assets as at March 31, 2026 and December 31, 2025:

		Range	
Description	**Unobservable Inputs**	**March 31, 2026**	December 31, 2025
Listed equity instrument:			
Casinos and gaming industry	Discount for lack of marketability	**10%-30%**	10%-30%
	Discount for lack of control	**10%-30%**	10%-30%
Non-listed equity instruments:			
Media and entertainment industry	Discount for lack of marketability	**10%-30%**	10%-30%
	Discount for lack of control	**10%-30%**	10%-30%

An increase (decrease) in the significant unobservable inputs used in the valuation of the equity investments will decrease (increase) the fair value of the equity investments.

Fair Value Determination

The following methods and assumptions are used to estimate the fair value of each asset and liability for which it is practicable to estimate such value:

Cash and Cash Equivalents, Trade and Other Receivables, Refundable Deposits, Trade Payables and Other Current Liabilities (excluding Payable to Government Agencies, Contract Liabilities and Customer Deposits), Short-term Loans, Obligations for Program and Other Rights and Dividends Payable

The carrying values of cash and cash equivalents and trade and other receivables, trade payables and other current liabilities, short-term loans, current portion of obligations for program and other rights and dividends payable approximate their fair values primarily due to the relatively short-term maturity of these financial instruments.

The carrying value of refundable deposits (included under "Other noncurrent assets" account in the consolidated statements of financial position) approximates fair value due to unavailability of information as to the repayment date that would provide a reasonable basis for the fair value measurement.

Financial assets at FVOCI
The Group's investments in club shares were based on prices readily available from brokers and other regulatory agencies as at reporting date (Level 2).The fair values of equity investments in listed and non-listed companies have been estimated using the net asset value model. The valuation using adjusted net asset approach requires the management to measure the fair value of the individual assets and liabilities recognized in an investee's statement of financial position as well as the fair value of any unrecognized assets and liabilities at the measurement date.

Investment Properties and Land at Revalued Amount
The valuation for the disclosure of the fair value of investment properties and for the recognition of land at revalued amount was derived through market data approach based upon prices paid in actual market transactions. This approach relies on the comparison of recent sale transactions or offerings of similar properties which have occurred and/or offered with close proximity to the subject property adjusted based on certain elements of comparison (e.g. market conditions, location, physical condition and amenities). Significant unobservable valuation input in determining the fair value of investment properties includes adjusted price per square meter and lot size adjustments (see Notes 14 and 16).

34. **Causes for Material Changes in the Financial Statements**

Statements of Financial Position (at March 31, 2026 and December 31, 2025)

- Cash and cash equivalents of ₱1,348 million dropped by ₱114 million or 8% from 2025 balance of ₱1,461 million as a result of lower net cash flows provided by operating activities which as of end of reporting period amounted to ₱786 million. This was used in acquisition of property and equipment during the first three months of 2026 amounting to ₱49 million. There were also payments of short-term loans and interest expense amounting to ₱868 million.
- Program and other rights also decreased by 17% or ₱396 million as acquisitions were last than the amortization for the period.
- Short-term loans were down to ₱625 million from ₱1,477 million in December 2025 due to loan repayments made during the reporting period.
- Equity attributable to Parent Company stockholders of ₱11,573 million as at March 31, 2026 declined by 14% or ₱1,851 million, mainly due declaration of cash dividends at the end of the 1st quarter of the year, partly evened out by the net income attributable to Parent Company earned as of end-March 2026.

35. **Other Notes to 2026 and 2025 Operations and Financials**

The key performance indicators that the Group monitors are the following:

	March 31, 2026	March 31, 2025
	(Unaudited)	
Revenues	**3,361,699,035**	4,684,476,287
Airtime revenues	**2,599,735,007**	3,967,725,152
Cash operating expenses	**2,833,546,178**	3,113,672,000
EBITDA	**631,752,474**	1,646,793,569
Net income before tax	**128,466,329**	1,065,215,558
Net income after tax	**102,178,112**	800,838,400

	March 31, 2026 (Unaudited)	December 31, 2025 (Audited)
Current ratio	**1.73**	2.25
Asset-to-Equity ratio	**2.16**	1.89
Debt-to-Equity ratio	**0.05**	0.11

	March 31, 2026 (Unaudited)	March 31, 2025
Interest Coverage ratio	**8.43**	24.23
EBITDA margin	**19%**	35%
Net income margin	**3%**	17%
