## Item 2. Dissenters' Right of Appraisal

Title X of the Corporation Code of the Philippines grants to a shareholder the right to dissent and demand payment of the fair value of his share in certain instances, to wit: (1) in case any amendment to the corporation's articles of incorporation has the effect of changing and restricting the rights of any shareholder or class of shares, or of authorizing preferences in any respect superior to those of outstanding shares of any class; (2) in case of any sale, lease, exchange, transfer, mortgage or other disposition of all or substantially all of the corporate property or assets; (3) in case of merger or consolidation; (4) in case the corporation decides to invest its funds in another corporation or business or for any purpose other than the primary purpose; and (5) extension or shortening of the term of corporate existence.

Under Section 42 of the Corporation Code, a stockholder is likewise given an appraisal right in cases where a corporation decides to invest its funds in another corporation or business. The appraisal right may be exercised by a stockholder who shall have voted against any of the foregoing corporate actions proposed in a meeting by making written demand on the corporation for the payment of the fair value of his/its shares within 30 days after the date on which the vote is taken. Failure to make written demand within such period shall be deemed a waiver of such right. If the proposed action is implemented, the corporation shall pay to a stockholder surrendering his/its stock certificates the fair value of such shares as of the day prior to the date on which the vote was taken; however, no payment shall be made to any stockholder unless the corporation has unrestricted retained earnings in its books to cover such payment. Within ten days after demanding payment for his shares, a dissenting stockholder shall submit his stock certificates for notation thereon that such shares are dissenting shares, failing which, his/its appraisal right shall, at the option of the corporation, terminate. Upon payment of the purchase price for the shares, the stockholder must transfer his shares to the corporation.

From the time a demand for payment of fair value until either the abandonment of the corporate action involved or the purchase of said shares by the corporation, all rights accruing to such shares, including voting and dividend rights, shall be suspended. If the dissenting stockholder is not paid the value of the shares within 30 days after the award, his voting and dividend rights shall be restored.

None of the proposed corporate actions qualifies as an instance for a possible exercise by security holders of their appraisal rights under Title X of the Corporation Code of the Philippines.

## Item 3. Interest of Certain Persons in or Opposition to Matters to be Acted Upon

- (a) There is no matter to be acted upon in which any Director or Executive Officer is involved or had a direct, indirect or substantial interest.
- (b) No Director has informed the Company of his opposition to any matter to be acted upon.

## **B. CONTROL AND COMPENSATION INFORMATION**

## **Securities and Principal Holders Thereof**

- (a) GMA Holdings, Inc. ("the Company") has 10,000 common shares subscribed and outstanding as of July 29, 2018. Every stockholder shall be entitled to one vote for each common share held as of the established record date.
- (b) All stockholders of record as of the closing of business on April 25, 2018 are entitled to notice of and to vote at the Company's Annual Stockholders' Meeting.
- (c) With respect to the election of directors, a stockholder may vote such number of shares for as many persons as there are directors to be elected or he may accumulate said shares and give one candidate as many votes as the number of directors to be elected or he may distribute them on the same principle among as many candidates as he shall see fit; provided, that the total number of votes cast by him shall not exceed the total number of shares owned by him multiplied by the whole number of directors to be elected.

No director has resigned or declined to stand for re-election to the Board of Directors since the date of the initial organization of the Company because of a disagreement with the Company on matters relating to the Company's operations, policies and practices.

### Certain Relationships and Related Transactions

On May 30, 2008, the Company engaged as its legal counsel Belo Gozon Elma Parel Asuncion & Lucila ("BGEPAL") where Atty. Felipe L. Gozon is a Senior Partner. Atty. Gozon is the Chairman and one of the major stockholders of the Company. The Company and BGEPAL are currently negotiating the fees in relation to the services provided, ensuring that the same is done on an arm's length basis.

On July 30, 2007, the Company issued PDRs relating to GMA Network, Inc. Common Shares. The proceeds owing to the selling shareholders of GMA Network, Inc. ("Selling Shareholders") whose Common Shares formed the underlying shares of the PDRs in the Company's Initial Public Offering were initially held by the Company then remitted to these Selling Shareholders. Please see Note 10 of the Company's Financial Statements.

Other than the foregoing, the Company has had no material transactions during the past two years, nor is any material transaction presently proposed between the Company and parties that fall outside the definition of "related parties" under SFAS/IAS No. 24, but with whom the registrants or its related parties have a relationship that enables the parties to negotiate terms of material transactions that may not be availed from other, more clearly independent parties on an arm's length basis.

## Results of Operations of GMA Holdings Inc.

For the three months ended March 31, 2018 and 2017

GMA Holdings Inc. ended the first quarter of 2018 with a net income of P1.35 million, 33% higher than last year's net income of P1.02 million, as a result of higher exercise fees.

Revenues for the first quarter reached P1.70 million, 24% higher than last year's level brought about by higher exercise fees of P1.23 million, generated from the conversion of 27,602,100 PDR shares to common shares as compared to 20,144,700 PDR shares converted in same period last year which generated exercise fees of P899 thousand. Likewise, interest income slightly increased to P472 thousand from last year's P471 thousand due to higher interest income earned on cash placement with Unicapital.

Operating expenses for the first quarter amounted to P237 thousand vis-a-vis P242 thousand in same quarter of 2017 mainly due to lower PSE listing fees, partly negated by higher professional fees, taxes and licenses, and PDR conversion fees. Listing fees for the quarter amounted to P114 thousand, a decrease of 9% as compared to P124 thousand in 2017 due to the offshoot of lower market cap. The P341 thousand unexpired portion of listing fee was included under "Other current assets" in the statements of financial position.

Professional fees for the first quarter ended higher at P108 thousand versus P104 thousand last year, which include accrual of audit fee, BDO trust fee and BGE professional fee. In the same manner, taxes and licenses representing amortization of local business tax for the quarter, went up to P9,481 from P8,753 in comparative period due to higher 2017 revenue which is the tax base for 2018 payment. Also, PDR conversion fees for the quarter increased to P3 thousand versus last year's P2 thousand due to higher number of PDR shares converted to common shares this year versus last year. Meanwhile, miscellaneous expenses of P2 thousand which represents maintenance fee on available-for-sale investment remained at par versus a year ago.

Financial Condition. Total assets as of March 31, 2018 amounted to P51.72 million, higher by 2% from P50.51 million as of end-2017 primarily due to the increase in cash and cash equivalents, on account of interest received from Unicapital cash placement and payment of receivables.

## For the years ended December 31, 2017 and 2016

GMA Holdings Inc. ended the year with a total comprehensive income amounting to P2.77 million, 164% higher than last year's total comprehensive income of P1.05M, due to higher exercise fees of P2.80 million generated from the conversion of 62,722,000 PDR shares to common shares as compared to P508 thousand exercise fees from 11,387,000 PDR shares converted in 2016. Likewise, net income after tax grew to P3.03 million, an increase of P2.00 million from last year's net income after tax of P1.03 million. This year's revenues reached P4.72 million, an improvement of 88% or P2.21 million from last year's level of P2.51 million mainly brought about by the increase in exercise fees as mentioned earlier. Interest income, however, declined to P1.92 million in 2017 versus P2.00 million in 2016 due to lower interest income earned on cash placement.

Operating expenses for the year 2017 totaled P1.11 million vis-a-vis P1.06 million in 2016 mainly due to the increase in professional fees to P518 thousand versus P383 thousand in 2016. Local business tax went up to P35 thousand from last year's P32 thousand due to higher 2016 tax base used in assessing the 2017 business tax payment. On the other hand, listing fees amounted to P498 thousand, a decrease of 19% as compared with P614 thousand in 2016 due to the offshoot of lower market cap.

On April 5, 2018, the Board of Directors approved the cash dividend of P3.10 million to be paid to the common stockholders from the retained earnings of the Company as of December 31, 2017.

Financial Condition. Total assets amounted to P50.51 million, higher by 4% than last year's P48.71 million primarily due to the increase in cash and cash equivalents, on account of interest received from Unicapital cash placement and Available-for-sale (AFS) investment. Receivables also increased subsequent to higher exercise fees.

## For the years ended December 31, 2016 and 2015

GMA Holdings Inc. ended the year 2016 with a total comprehensive income amounting to P1.05 million, a reversal from previous year's P91 thousand total comprehensive loss due to 2016 unrealized gain on Available-for-sale (AFS) investment of P20 thousand, brought about by changes in its fair value. Likewise, net income after tax amounted to P1.03 million, an increase of P397 thousand from 2015 net income after tax of P635 thousand mainly due to higher revenues coupled with lower operating expenses. Revenues for 2016 reached P2.51 million, an improvement of 17% or P363 thousand from previous year's level of P2.14 million mainly brought about by the increase in exercise fees generating P508 thousand from the conversion of 11,387,000 PDR shares to common shares compared with P89 thousand from the 1,995,900 PDR shares converted during the same period of 2015. Interest income, however, declined to P2.00 million in 2016 versus P2.05 million in 2015 due to lower interest income earned on cash placement.

Operating expenses for the year 2016 totaled P1.06 million vis-a-vis P1.09 million in 2015 mainly due to the decrease in professional fees to P308 thousand versus P400 thousand in 2015. On the other hand, listing fees amounted to P614 thousand, an increase of 7% as compared with P576 thousand in 2015 due to the offshoot of higher market cap. Local business tax went up to P32 thousand from previous year's P20 thousand due to higher 2015 tax base used for 2016 payment.

On March 27, 2017, the Board of Directors approved the Company's cash dividend declaration of P1.00 million to its common stockholders from the retained earnings of the Company as of December 31, 2016.

Financial Condition. Total assets amounted to P48.71 million, a tad higher than P48.22 million in 2015, primarily due to the increase in accounts receivable caused by more conversion of PDR shares to common shares in 2016.

## For the years ended December 31, 2015 and 2014

GMA Holdings Inc. ended the year 2015 with a pre-tax income of P1.05 million, an increase of P443 thousand from 2014 pre-tax income of P607 thousand mainly due to higher revenues despite higher operating expenses. Likewise, net income after tax amounted to P635 thousand versus P350 thousand net income after tax in 2014. Revenues in 2015 reached P2.14 million, an improvement of 30% or P490 thousand from 2014 level of P1.65 million mainly brought about by the climb in interest income of P2.05 million. For 2015, a total of P2.00 million PDR shares were converted to common shares which generated exercise fees of P89 thousand visa-vis P9.16 million PDR shares in 2014, for an exercise fee of P409 thousand.

Operating expenses inched up by 5% to P1.09 million from P1.05 million in 2014 due to higher professional fees partly negated by lower PSE listing fees and miscellaneous expenses. Professional fees settled at P400 thousand, 95% more than the P205 thousand posted in 2014 which included payment to BGE for the amendment of Articles of Incorporation. On the other hand, listing fees of P576 thousand dropped by 17% from P690 thousand in 2014 as an offshoot of lower market cap.

On April 8, 2016, the BOD approved the company's declaration and distribution of P600 thousand dividends from the retained earnings of the corporation as of December 31, 2015. These were paid out to the Company's common stockholders on May 17, 2016.

Financial Condition. Total assets amounted to P48.52 million, a tad lower from P48.91 million in 2014, primarily due to the decrease in the fair market value of Available-for-sale investment (under non-current asset).

## KEY VARIABLE AND OTHER QUALITATIVE OR QUANTITATIVE FACTORS

- i. Trends, demands, commitments, events or uncertainties that will have a material impact on the issuer's liquidity.
  - As of March 31, 2018, there were no known trends, demands, commitments, events or uncertainties that will have a material impact on the issuer's liquidity.
- ii. Events that will trigger direct or contingent financial obligation that is material to the company, including any default or acceleration or an obligation.
  - As of March 31, 2018, there were no events which may trigger a direct or contingent financial obligation that is material to the Company.
- iii. Material off-balance sheet transactions, arrangements, obligations (including contingent obligations), and other relations of the company with unconsolidated entities or other persons created during the reporting period.
  - There were no off-balance sheet transactions, arrangements, obligations (including contingent obligations), and other relations of the company with unconsolidated entities or other persons created as of March 31, 2018.

#### VI. Corporate Governance

The Board of Directors has established a set of policies and initiatives to ensure that GMA Holding's business practices are compliant with the best practices in corporate governance. The Company has adopted a Revised Manual on Corporate Governance to institutionalize the Company's adherence to these principles. This Revised Manual clearly sets out the principles of good management and defines the specific responsibilities of the Board, the Board Committees, and management within the over-all governance framework.

The Revised Manual sets out the principles of good management and defines the specific responsibilities of the Board, the Board Committees, and Management within the over-all governance framework.

The Revised Manual conforms to the requirements of the Philippine Securities and Exchange Commission and covers policies, among others:

(a) independent directors, (b) key board committees (e.g. Executive Committee, Nomination Committee, Audit Committee, Compensation and Remuneration Committee); (c) independent auditors, (d) internal audit, (e) disclosure system of company's governance policies, (f) stockholder rights, (g) monitoring and assessment, and (h) penalties for non-compliance.

To ensure adherence to corporate governance, the Board designated a Compliance Officer. The Compliance Officer is responsible for monitoring compliance by the Company with the provisions and requirements of good corporate governance.

Based on the Revised Manual on Corporate Governance Manual (attached to the Company's letter to the Securities and Exchange Commission dated May 23, 2017) as well as the Company's Integrated Annual Corporate Governance Report for 2017 filed with the Securities and Exchange Commission, there have been no deviations from the Company's Manual as of date.

## INDEPENDENT AUDITOR'S REPORT

The Board of Directors and Stockholders GMA Holdings, Inc. 5D Tower One, One Mckinley Place New Global Bonifacio City Fort Bonifacio, Taguig City

# Report on the Audit of the Financial Statements

We have audited the financial statements of GMA Holdings, Inc. (the Company), which comprise the statements of financial position as at December 31, 2017 and 2016, and the statements of comprehensive income, statements of changes in equity and statements of each flows for each of the three years in the period ended December 31, 2017, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at December 31, 2017 and 2016, and its financial performance and its cash flows for each of the three years in the period ended December 31, 2017 in accordance with Philippine Financial Reporting Standards (PFRSs).

## Basis for Opinion

We conducted our audits in accordance with Philippine Standards on Auditing (PSAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics for Professional Accountants in the Phillippines (Code of Ethics) together with the ethical requirements that are relevant to our audit of the financial statements in the Philippines, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For the matter below, our description of how our audit addressed the

matter is provided in that context.

MA. GRACIA AURODAL--

We have fulfilled the responsibilities described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the financial statements. The results of our audit procedures, including the procedures performed to address the matter below, provide the basis for our audit opinion on the accompanying

Fair Valuation of Investment in Unquoted Debt Security Classified as Available-for-Sale Investment

As at December 31, 2017, the Company has an available-for-sale (AFS) investment in an unquoted debt security amounting to P20,570,501. The valuation of this investment is a key audit matter as it is material to the financial statements, representing 41% of the Company's total assets as at December 31, 2017, and its valuation involves the exercise of Management's judgment and the use of estimates. The Company used the discounted cash flow model to value the investment, and the discount rates used were based on the spot yield curve derived from government securities of different tenors plus an estimate of the counterparty's credit spread.

The Company's disclosures on the fair value of the AFS investment are included in Notes 8, 14 and 15 to the financial statements.

We traced the terms (e.g., principal amount, interest rate, and repayment dates) used in the Company's valuation to the investment agreement. We reviewed the inputs used in determining the discount rates based on observable yields of benchmark government securities and credit rating of the counterparty. We tested the mathematical accuracy of the Company's calculation. We also assessed the Company's disclosures on the fair value measurement of the AFS investment based on the requirements of PFRS 13, Fair Value Measurement.

Management is responsible for the other information. The other information comprises the information included in the SEC Form 20-IS (Definitive Information Statement), SEC Form 17-A and Annual Report for the year ended December 31, 2017, but does not include the financial statements and our auditor's report thereon. The SEC Form 20-IS (Definitive Information Statement), SEC Form 17-A and Annual Report for the year ended December 31, 2017 are expected to be made available to us after the date of this

Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audits of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements of quitable assertions services OF QUINCE TAXPAYERS ASSISTANCE DIVISION audits, or otherwise appears to be materially misstated. Those charged with governance are responsible for overseeing the Company's financial reporting process.

# Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high-level of assurance, but is not a guarantee that an audit conducted in accordance with PSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with PSAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to visiting as a going concern. APR 13 2010 Date

Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

# Report on the Supplementary Information Required Under Revenue Regulations 15 2010

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplementary information required under Revenue Regulations 15-2010 in Note 19 to the financial statements is presented for purposes of filing with the Bureau of Internal Revenue and is not a required part of the basic financial statements. Such information is the responsibility of the management of GMA Holdings, Inc. The information has been subjected to the auditing procedures applied in our audit of the basic financial statements. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

# NOTES TO FINANCIAL STATEMENTS

### Corporate Information

GMA Holdings, Inc. (the Company) is incorporated in the Philippines to invest in, purchase or otherwise acquire and own, hold, use, sell, assign, transfer, mortgage, pledge, exchange or otherwise dispose real and personal property of every kind and description. The registered office address of the Company is 5D Tower One, One McKinley Place, New Global Bonifacio City, Fort Bonifacio, Taguig City. The Company was registered with the Securities and Exchange Commission (SEC) on

The accounting and administrative functions of the Company are undertaken by GMA Network, Inc. (GMA), a company under common control.

In 2007, the Company issued Philippine Deposit Receipts (PDRs), which were listed and traded in The Philippine Stock Exchange Inc. (PSE) (see Note 6)

The Company will not engage in any business or purpose other than in connection with the issuance of the PDRs, the performance of the obligations under the PDRs and the acquisition and holding of the underlying shares of GMA in respect of the PDRs issued. This includes maintaining the Company's listing with the PSE and maintaining its status as a Philippine person for as long as the Philippine law prohibits ownership of GMA's shares by non-Philippine person.

No reportable segment information is presented as the Company's limited operations are adequately presented in the statements of comprehensive income.

The accompanying financial statements of the Company were approved and authorized for issuance in accordance with a resolution of the Board of Directors (BOD) on April 5, 2018.

# Basis of Preparation and Statement of Compliance

The financial statements of the Company have been prepared on a historical cost basis, except for available for sale (AFS) investment, which is measured at fair value. The financial statements are presented in Philippine peso, which is the Company's functional and presentation currency. All values are rounded to the nearest peso, except when otherwise indicated.

The Company's financial statements have been prepared in accordance with Philippine Financial Reporting Standards (PFRS).

# 3. Summary of Significant Changes in Accounting Policies and Disclosures

the following new pronouncements which the Company adopted starking languages 2017 on 1850N adoption of these pronouncements did not have significant impact on the Company's financial TSIS position or performance unless otherwise indicated.

Amendment to PFRS 12, Disclosure of Interests in Other Entities, Clarification of the Scope of the Standard (Part of Annual Improvements to PFRSs 2014 - 2016 Cycle)

The amendments clarify that the disclosure requirements in PFRS 12, other than those relating to summarized financial information, apply to an entity's interest in a subsidiary, a joint venture or an associate (or a portion of its interest in a joint venture or an associate) that is classified (or v included in a disposal group that is classified) as held for sale.

Adoption of these amendments did not have any impact on the Company's financial statements.

Amendments to Philippine Accounting Standards (PAS) 7, Statement of Cash Flows, Disclosure

The amendments require entities to provide disclosure of changes in their liabilities arising from financing activities, including both changes arising from each flows and non-cash changes (such as foreign exchange gains or losses).

The Company has provided the required information in Note 17 to the financial statements. As allowed under the transition provisions of the standard, the Company did not present comparative information for the year ended December 31, 2016.

Amendments to PAS 12, Income Taxes, Recognition of Deferred Tax Assets for Unrealized

The amendments clarify that an entity needs to consider whether tax law restricts the sources of taxable profits against which it may make deductions on the reversal of that deductible temporary difference. Furthermore, the amendments provide guidance on how an entity should determine future taxable profits and explain the circumstances in which taxable profit may include the recovery of some assets for more than their carrying amount.

Since the Company's practice is in line with the clarifications issued, the Company does not expect any effect on its financial statements.

Pronouncements issued but not yet effective are listed below. Unless otherwise indicated, the Company does not expect that the future adoption of the sald pronouncements to have a significant impact on its financial statements. The Company intends to adopt the following pronouncements when these become effective.

Effective beginning on or after January 1, 2018

Amendments to PFRS 2, Share-based Payment, Classification and Measurement of Share-based Payment Transactions

The amendments to PFRS 2 address three main areas; the effects of vesting conditions on the measurement of a cash-settled share-based payment transaction; the classification of a sharebased payment transaction with net settlement features for withholding tax obligations; and the accounting where a modification to the terms and conditions of a share-based payment transaction changes its classification from each settled to equity settled.

On adoption, entities are required to apply the amendments without restating prior periods, but retrospective application is permitted if elected for all three amendments and if other criteria are met. Early application of the amendments is permitted.

The amendments are not applicable to the Company since the Company has no share-based payment transactions.

### PFRS 9, Financial Instruments

PFRS 9 reflects all phases of the financial instruments project and replaces PAS 39, Financial 4 Instruments: Recognition and Measurement, and all previous versions of PFRS 9. The standard introduces new requirements for classification and measurement, impairment, and hedge accounting. Retrospective application is required, but comparative information is not compulsory. For hedge accounting, the requirements are generally applied prospectively, with some limited exceptions.

The adoption of PFRS 9 will have an effect on the classification and measurement of the Company's financial assets and impairment methodology for financial assets, but will have no impact on the classification and measurement of the Company's financial liabilities.

The Company is currently assessing the impact of adopting this standard.

# Amendments to PFRS 4, Insurance Contracts, Applying PFRS 9 with PFRS 4

The amendments address concerns arising from implementing PFRS 9, the new financial instruments standard before implementing the new insurance contracts standard. The amendments introduce two options for entities issuing insurance contracts: a temporary exemption from applying PFRS 9 and an overlay approach. The temporary exemption is first applied for reporting periods beginning on or after January 1, 2018. An entity may elect the overlay approach when it first applies PFRS 9 and apply that approach retrospectively to financial assets designated on transition to PFRS 9. The entity restates comparative information reflecting the overlay approach if, and only if, the entity restates comparative information when applying

The amendments are not applicable to the Company since the Company has no activities that are predominantly connected with insurance or issue insurance contracts.

# PFR\$ 15, Revenue from Contracts with Customers

PFRS 15 establishes a new five-step model that will apply to revenue arising from contracts with customers. Under PFRS 15, revenue is recognized at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer. The principles in PPRS 15 provide a more structured approach to measuring and recognizing revenue.

The new revenue standard is applicable to all entities and will supersede all current revenue recognition requirements under PFRS. Either a full or modified retrospective application is required for annual periods beginning on or after January 1, 2018. Early adoption is permitted.

The Company is currently assessing the impact of adopting this standard.

Amendments to PAS 28, Measuring an Associate or Joint Venture at Fair Value (Part of Annual Improvements to PFRSs 2014 - 2016 Cycle)

The amendments clarify that an entity that is a venture capital organization, or other qualifying entity, may elect, at initial recognition on an investment-by-investment basis, to measure its investments in associates and Joint ventures at fair value through profit or loss. They also clarify that if an entity that is not itself an investment entity has an interest in an associate or joint venture that is an investment entity, the entity may, when applying the equity method, elect to retain the fair value measurement applied by that investment entity associate or joint venture to the investment entity associate's or joint venture's interests in subsidiaries. This election is made separately for each investment entity associate or joint venture, at the later of the date on which (a) the investment entity associate or joint venture is initially recognized; (b) the associate or joint venture becomes an investment entity; and (c) the investment entity associate or joint venture first becomes a parent. The amendments should be applied retrospectively, with earlier application permitted.

The amendments are not applicable to the Company since the Company does not have investment in associate or joint venture.

Amendments to PAS 40, Investment Property, Transfers of Investment Property

The amendments clarify when an entity should transfer property, including property under construction or development into, or out of investment property. The amendments state that a change in use occurs when the property meets, or ceases to meet, the definition of investment property and there is evidence of the change in use. A more change in management's intentions for the use of a property does not provide evidence of a change in use. The amendments should be applied prospectively to changes in use that occur on or after the beginning of the annual reporting period in which the entity first applies the amendments. Retrospective application is only permitted if this is possible without the use of hindsight.

The amendments are not expected to have any impact on the Company's financial statements.

Philippine Interpretation International Pinancial Reporting Interpretations Committee (IFRIC) 22, Foreign Currency Transactions and Advance Consideration

The interpretation clarifies that, in determining the spot exchange rate to use on initial recognition of the related asset, expense or income (or part of it) on the derecognition of a non-monetary asset or non-monetary liability relating to advance consideration, the date of the transaction is the date on which an entity initially recognizes the nonmonetary asset or non-monetary liability arising from the advance consideration. If there are multiple payments or receipts in advance, then the entity must determine a date of the transactions for each payment or receipt of advance consideration. Entities may apply the amendments on a fully retrospective basis. Alternatively, an entity may apply the interpretation prospectively to all assets, expenses and income in its scope that are initially recognized on or after the beginning of the reporting period in which the entity first applies the interpretation or the beginning of a prior reporting period presented as comparative information in the financial statements of the reporting period in which the entity first applies the interpretation.

This interpretation is not expected to have any impact on the Company's financial statements.

Effective beginning on or after January 1, 2019

Amendments to PPRS 9, Prepayment Features with Negative Compensation

The amendments to PFRS 9 allow debt instruments with negative compensation prepayment features to be measured at amortized cost or fair value through other comprehensive income. An entity shall apply these amendments for annual reporting periods beginning on or after January 1, 2019 Earlier application is permitted.

The amendments are not applicable to the Company since the Company has no debt instruments with negative compensation prepayment features.

PFRS 16 sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases under a single on-balance sheet model similar to the accounting for finance leases under PAS 17, Leases. The standard includes two recognition exemptions for lessees - leases of low-value assets (e.g., personal computers) and short term leases (i.e., leases with a lease term of 12 months or less). At the commencement date of a lease, a lessee will recognize a liability to make lease payments (i.e., the lease liability) and an asset representing the right to use the underlying asset during the lease term (i.e., the right-ofuse asset). Lessees will be required to separately recognize the interest expense on the lease liability and the depreciation expense on the right-of-use asset.

Lessees will be also required to remeasure the lease liability upon the occurrence of certain events (e.g., a change in the lease term, a change in future lease payments resulting from a change in an index or rate used to determine those payments). The lessee will generally recognize the amount of the remeasurement of the lease liability as an adjustment to the right-of-use asset.

Lessor accounting under PPRS 16 is substantially unchanged from today's accounting under PAS 17. Lessors will continue to classify all leases using the same classification principle as in PAS 17 and distinguish between two types of leases; operating and finance leases.

PFRS 16 also requires lessees and lessors to make more extensive disclosures than under PAS 17

Early application is permitted, but not before an entity applies PFRS 15. A lessee can choose to apply the standard using either a full retrospective or a modified retrospective approach. The standard's transition provisions permit certain reliefs.

This standard is not expected to have any impact on the Company's financial statements.

Amendments to PAS 28, Long-term Interests in Associates and Joint Ventures

The amendments to PAS 28 clarify that entities should account for long-term interests in an associate or joint venture to which the equity method is not applied using PFRS 9. An entity shall apply these amendments for annual reporting periods beginning on or after January 1, 2019. Earlier application is permitted.

The amendments are not expected to have any impact on the Company's financial statements.

Philippine Interpretation IFRIC 23, Uncertainty over Income Tax Treatments

The interpretation addresses the accounting for income taxes when tax treatments involve uncertainty that affects the application of PAS 12 and does not apply to taxes or levies outside the scope of PAS 12, nor does it specifically include requirements relating to interest and penalties associated with uncertain tax treatments.

The interpretation specifically addresses the following:

Whether an entity considers uncertain tax treatments separately

- The assumptions an entity makes about the examination of tax treatments by taxation
- How an entity determines taxable profit (tax loss), tax bases, unused tax losses, unused tax
- credits and tax rates How an entity considers changes in facts and circumstances

An entity must determine whether to consider each uncertain tax treatment separately or together with one or more other uncertain tax treatments. The approach that better predicts the resolution of the uncertainty should be followed.

The Company is currently assessing the impact of adopting this interpretation.

#### Deferred effectivity

Amendments to PFRS 10 and PAS 28, Sale or Contribution of Assets between an Investor and its Associate or Joint Venture

The amendments address the conflict between PFRS 10 and PAS 28 in dealing with the loss of control of a subsidiary that is sold or contributed to an associate or joint venture. The amendments clarify that a full gain or loss is recognized when a transfer to an associate or joint venture involves a business as defined in PFRS 3, Business Combinations. Any gain or loss resulting from the sale or contribution of assets that does not constitute a business, however, is recognized only to the extent of unrelated investors, interests in the associate or joint venture.

On January 13, 2016, the Einancial Reporting Standards Council deferred the original effective date of January 1, 2016 of the said amendments until the International Accounting Standards Board (IASB) completes its broader review of the research project on equity accounting that may result in the simplification of accounting for such transactions and of other aspects of accounting for associates and joint ventures.

# 4. Summary of Significant Accounting Policies

The Company presents assets and liabilities in statement of financial position based on current/noneurrent classification.

An asset as current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle;
- Held primarily for the purpose of trading; Expected to be realized within twelve months after the reporting period; or

Cash and cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

### A liability is current when:

It is expected to be settled in normal operating cycle;

It is held primarily for the purpose of trading;

It is due to be settled within twelve months after the reporting period; or

There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Company classifies all other assets and liabilities as noncurrent.

Deferred tax assets and liabilities are classified as noncurrent.

Cash includes cash on hand and in banks. Cash equivalents are short-term, highly liquid investments Cash and Cash Equivalents that are readily convertible to known amounts of cash with original maturities of three months or less from dates of placement and are subject to an insignificant risk of change in value.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible to the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their best

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

Assets and liabilities for which fair value is measured or disclosed in the Company's financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 Quoted (unadjusted) market prices in active markets for identical assets or
- Level 2 Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by reassessing categorization (based on the lowest-level input that is significant to the fair value measurement as a whole) at the end of each reporting date.

The Company determines the policies and procedures for both recurring and non-recurring fair value measurements. At each reporting date, the management analyzes the movements in the values of assets and liabilities which are required to be remeasured or reassessed as per the Company's accounting policies. For this analysis, the management verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities documents. on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair

Details as to how the fair value of assets and liabilities are measured are provided in Note 15.

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Initial Recognition and Measurement. Financial assets are classified, at initial recognition, as financial assets at fair value through profit or loss (FVPI), loans and receivables, held-to-maturity (HTM) investments, available for sale (AFS) financial assets, or as derivatives designated as hedging instruments in an effective hedge, as appropriate. All financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at PVPL, transaction costs that are attributable to the acquisition of the financial asset.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognized on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

The Company has no financial assets at FVPL, HTM investments and derivatives designated as hedging instruments in an effective hedge as at December 31, 2017 and 2016.

Subsequent Measurement. The subsequent measurement of the financial assets depends on their · classification as described below.

The Company's financial assets are under the loans and receivables and AFS financial assets

Loans and Receivables. Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest rate (EIR) method, less impairment. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization and the losses arising from impairment are recognized in statement of comprehensive income.

The Company's cash and cash equivalents, and accounts receivable are included under this category.

AFS Investments. The Company's AFS financial asset pertains to debt securities. Debt securities in this category are those that are intended to be held for an indefinite period of time and that may be sold in response to needs for liquidity or in response to changes in the market conditions.

After initial measurement, AFS financial assets are subsequently measured at fair value with unrealized gains or losses recognized in other comprehensive income (QCI) and credited to the AFS reserve until the investment is derecognized, at which time, the cumulative gain or loss is recognized in other operating income, or the investment is determined to be impaired, when the cumulative loss is reclassified from the AFS reserve to the statement of profit or loss in finance costs. Interest earned whilst holding AFS financial assets is reported as interest income using the EIR method.

Derecognition. A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognized (i.e., removed from the statement of financial position) when:

The rights to receive cash flows from the asset have expired, or

The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement, and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset nor transferred control of the asset, the Company continues to recognize the transferred asset to the extent of its continuing involvement. In that case, the Company also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

Impairment of Financial Assets. The Company assesses, at each reporting date, whether there is objective evidence that a financial asset or a group of financial assets is impaired. An impairment exists if one or more events that has occurred since the initial recognition of the asset (an incurred 'loss event'), has an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated. Evidence of impairment may include indications that the debtors or a group of debtors is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganization and observable data indicating that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with

Financial Assets Carried at Amortized Cost. For financial assets carried at amortized cost, the Company first assesses whether impairment exists individually for financial assets that are individually significant, or collectively for financial assets that are not individually significant. If the Company determines that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, it includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses them for impairment. Assets that are

individually assessed for impairment and for which an impairment loss is, or continues to be, recognized are not included in a collective assessment of impairment.

The amount of any impairment loss identified is measured as the difference between the asset's carrying amount and the present value of estimated future eash flows (excluding future expected credit losses that have not yet been incurred). The present value of the estimated future cash flows is discounted at the financial asset's original EIR.

The carrying amount of the asset is reduced through the use of an allowance account and the loss is recognized in the statement of comprehensive income. Interest income continues to be accrued on the reduced carrying amount using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss. Loans, together with the associated allowance are written off when there is no realistic prospect of future recovery and all collateral has been realized or has been transferred to the Company. If, in a subsequent year, the amount of the estimated impairment, loss increases or decreases because of an event occurring after the impairment was recognized, the previously recognized impairment loss is increased or reduced by adjusting the allowance account. If a write-off is later recovered, the recovery is credited to other income in the statement of comprehensive income.

AFS Investments. For AFS financial assets, the Company assesses at each reporting date whether there is objective evidence that an investment or a group of investments is impaired.

In the case of debt instruments classified as AFS, the impairment is assessed based on the same criteria as financial assets carried at amortized cost. However, the amount recorded for impairment is the cumulative loss measured as the difference between the amortized cost and the current fair value, less any impairment loss on that investment previously recognized in profit or loss.

Future interest income continues to be accrued based on the reduced carrying amount of the asset, using the rate of interest used to discount the future eash flows for the purpose of measuring the impairment loss. The interest is recorded as part of interest income. If, in a subsequent year, the fair value of a debt instrument increases and the increase can be objectively related to an event occurring after the impairment loss was recognized in profit or loss, the impairment loss is reversed through profit or loss.

### Financial Liabilities

Initial Recognition and Measurement. Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company's accounts payable and other current liabilities (excluding deferred output VAT) and due to shareholders are included under this category.

Subsequent Measurement. The subsequent measurement of financial liabilities depends on their classification as described below.

Payables. After initial recognition, payables are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the EIR amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as interest expense in the statement of comprehensive income.

\*Derecognition. A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit or loss.

Financial assets and financial liabilities are offset and the net amount is reported in the statement of Offsetting of Financial Instruments financial position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liabilities simultaneously. The Company assesses that it has a currently enforceable right of offset if the right is not contingent on a future event, and is legally enforceable in the normal course of business, event of default, and event of insolvency or bankruptcy of the Company and all of the counterparties.

Capital Stock. Capital stock is measured at par value for all shares issued. Incremental costs incurred directly attributable to the issuance of new shares are shown in equity as a deduction from proceeds, net of tax.

Retained Earnings. Retained earnings represent the Company's accumulated earnings, net of dividends declared.

Dividends. The Company recognizes a liability to make cash distribution to its equity holders when the distribution is authorized and the distribution is no longer at the discretion of the Company. As per the corporate laws in the Philippines, a distribution is authorized when it is approved by the BOD., A corresponding amount is recognized directly in the equity. Dividends for the year that are approved after the financial reporting date are dealt with as an event after the reporting date.

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when payment is received. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duty. The Company assesses its revenue arrangements against specific criteria in order to defermine if it is acting as principal or agent. The Company has concluded that it is acting as a principal in all its revenue arrangements.

The following specific recognition criteria must also be met before revenue is recognized:

Interest Income. Revenue is recognized as the interest accrues, taking into account the effective yield on the asset.

Exercise Fees. Revenue is recognized upon conversion of PDRs to common shares.

Expenses presented as "Operating expenses" account in the statement of comprehensive income are recognized as incurred.

Current Income Tax. Current income tax assets and liabilities for the current period are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantially enacted at reporting date.

Current income tax relating to items recognized directly in equity is recognized in equity and not in profit or loss. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions

Deferred Tax. Deferred tax is provided using the liability method on all temporary differences at reporting date between the tax bases of assets and habilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax assets are recognized for all deductible temporary differences, carryforward benefits of excess minimum corporate income tax (MCIT) over regular corporate income tax (RCIT) and net operating loss carryover (NOLCO), to the extent that it is probable that faxable income will be available against which the deductible temporary differences, and the carryforward benefits of excess MCIT over RCIT and NOLCO can be utilized except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting income nor taxable profit or loss, and
- In respect of deductible temporary differences associated with investments in subsidiaries and associates and interest in joint arrangements, deferred income tax assets are recognized only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable income will be available against which the temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax assets to be utilized. Unrecognized deferred income tax assets are reassessed at each reporting date and are recognized to the extent that it has become probable that future taxable profit will allow the deferred income tax assets to be recovered.

Deferred tax liabilities are recognized for all taxable temporary differences, except:

- When the deferred income tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- In respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable

Deferred tax assets and liabilities are measured at the tax rates applicable to the year when the asset is realized or the liability is settled, based on tax rates and tax laws that have been to be enacted or substantively enacted at the reporting date.

Deferred tax assets and liabilities are offset if a legally enforceable right exists to offset current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the

Income tax relating to OCI is recognized in OCI section of the statements of comprehensive income.

Value-added Tax (VAT). Revenues, expenses, and assets are recognized net of the amount of VAT, if

When VAT from sales of goods and/or services (output VAT) exceeds VAT passed on from purchases of goods or services (input VAT), the excess is recognized as payable in the statement of financial position. When VAT passed on from purchases of goods or services (input VAT) exceeds VAT from sales of goods and/or services (output VAT), the excess is recognized as an asset in the statement of financial position to the extent of the recoverable amount.

The net amount of VAT recoverable from, or payable to, the taxation authority is presented as "Input VAT" or part of "Accounts payable and other current liabilities" accounts in the statement of financial position, respectively.

Basic BPS amounts are calculated by dividing net income for the year by the weighted average number of ordinary shares outstanding during the year. The Company has no dilutive potential common shares outstanding, therefore, basic EPS is the same as diluted EPS.

Provisions are recognized when the Company has a present obligation (legal or constructive) where, as a result of a past event, it is probable that an outflow of assets embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as interest expense. Where the Company expects a provision to be reimbursed, the reimbursement is recognized as a separate asset but only when the receipt of the reimbursement is virtually certain.

Contingent liabilities are not recognized in the financial statements. These are disclosed in the notes to financial statements unless the possibility of an outflow of resources embodying economic benefits is remote Contingent assets are not recognized in the financial statements but are disclosed in the notes to financial statements when an inflow of economic benefits is probable.

Post year end events that provide additional information about the Company's position at the reporting date (adjusting events) are reflected in the financial statements. Post year-end events that are not adjusting events are disclosed in the notes to financial statements when material.

# 5. Summary of Significant Accounting Judgments, Estimates and Assumptions

The preparation of the financial statements in compliance with PFRS requires the Company to make estimates and assumptions that affect the reported amounts of assets, liabilities, income and expenses and disclosure of contingent assets and liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Estimates are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be determinable under the circumstances. The key estimates and assumptions concerning the future and other key sources of estimation uncertainty at reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are discussed below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments however, may change due to market changes or circumstances arising beyond the control of the Company. Such changes are reflected in the assumptions when these occur.

Determining Fair Value of AFS Investment. The Company has no intention of selling its AFS investment in the near term. It is being held indefinitely and may be sold in response to liquidity requirements or changes in market condition.

Since the AFS investment is not traded in an active market, the fair value is determined using appropriate valuation technique, which is the discounted cash flow methodology. The inputs to the model are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair value.

The determination of the fair value of the AFS investment is discussed in Note 15.

Impairment of AFS Investment. The assessment for impairment of AFS debt instrument requires an estimation of the present value of the expected future cash flows and the selection of an appropriate discount rate. Judgment by management is required in the estimation of the amount and timing of future cash flows when determining if allowance is required. Such estimates are based on assumptions about a number of factors and actual results may differ. Allowance may be based on any deterioration in the internal rating of the investment since it was acquired. These internal ratings take into consideration factors such as any deterioration in risk, industry, and the financial health and nearterm business outlook of the issuer, as well as identified structural weaknesses or deterioration in cash

There was no provision for impairment loss in 2017, 2016 and 2015. The carrying value of AFS investment amounted to ₱20.57 million and ₱20.83 million as at December 31, 2017 and 2016, respectively (see Note 8).

Estimating Realizability of Deferred Income Tax Assets. The Company's assessment on the recognition of deferred income tax assets on carryforward benefits of NOLCO and excess MCIT is based upon the likely timing and level of forecasted taxable income in the subsequent periods. This forecast is based on the Company's future expectations on revenue and expenses.

The Company did not recognize deferred income tax assets amounting to \$\mathbb{P}0.50\$ million and P0.73 million as at December 31, 2017 and 2016, respectively as management believes that sufficient taxable profit will not be available against which the deductible temporary differences can be utilized (see Note 12).

## Philippine Deposit Receipts

On July 30, 2007 and August 21, 2007, the Company issued 822,115,000 and 123,317,000 PDRs relating to GMA shares, respectively. Total number of issued PDRs is 945,432,000 for a consideration of P8.50 per share or P8,036,172,000.

Each PDR grants the holders, upon payment of the exercise price and subject to certain other conditions, the delivery of one GMA share or the sale of and delivery of the proceeds of such sale of one GMA share. The Company remains to be the registered owner of the GMA shares covered by the PDRs. The Company also retains the voting rights over the GMA shares.

The GMA shares are still subject to ownership restrictions on shares of corporations engaged in mass media and GMA may reject the transfer of shares to persons other than Philippine nationals. The PDRs were listed in the PSP on July 30, 2007, and the same may be exercised at any time from said PDRs were listed in the PSP on July 30, 2007, and the same may be exercised at any time from said edge. Upon exercise of the PDRs, an exercise price of \$\mathbb{P}0.05\$ (VAT inclusive) per share shall be paid by the PDR holders. The exercise price is shown as "Exercise fees" account in the statement of comprehensive income. Exercise fees amounted to \$\mathbb{P}2.80\$ million, \$\mathbb{P}0.51\$ million and \$\mathbb{P}0.09\$ million in 2017, 2016 and 2015, respectively.

Immediately prior to the closing of the PDR offering and additional issuances described above, GMA, to which the Company is affiliated, transferred 945;432,000 GMA shares to the Company in relation to which the PDRs were issued. For as long as the PDRs are not exercised, the shares underlying the to which the PDRs were issued. For as long as the PDRs are not exercised, the shares underlying the PDRs will continue to be registered in the name of, and owned by the Company, and all rights pertaining to these shares, including voting rights, shall be exercised by the Company. The obligations of the Company to deliver the GMA shares on exercise of the right contained in the PDRs obligations of the Pledge of Shares in favor of the Pledge Trustee acting on behalf of each holder of a are secured by the Pledge of Shares in favor of the Pledge Trustee acting on behalf of each holder of a PDR over the GMA shares.

At any time after the PDR offering, a GMA shareholder may, at his option and from time to time, deliver shares to the Company in exchange for an equal number of PDRs. The exchange is based on prevailing traded value of GMA shares at the time of transaction with the corresponding PDR option price.

As discussed above, the Company retains the rights to receive the cash flows from its investment in GMA and assumes a contractual obligation to pay those cash flows to the PDR holders, net of operating expenses (as 'pass through' arrangement). The 'pass through' test is met because the operating expenses (as 'pass through' arrangement). The 'pass through' test is met because the operating expenses (as 'pass through' arrangement). The 'pass through' test is met because the operating expenses (as 'pass through' arrangement). The 'pass through' test is met because the operating expenses (as 'pass through' arrangement) in GMA collects equivalent amounts from its Company (a) has no obligation to the PDR holders from the obligation to pay the cash flows, and (c) has an other than as security to the PDR holders for the obligation to pay the cash flows, and (c) has an obligation to remit any cash flows from the investment in GMA to the PDR holders without material obligation to remit any cash flows from the investment in GMA to the PDR holders without material delay.

Under the "pass-through" test, the Company is deemed to have transferred substantially the risks and rewards of its investment in GMA. Accordingly, the investment in GMA and the liabilities related to the issuance of the PDRs are not recognized by the Company.

This amount will be used for the liquidation of expenses related to the issuance of the PDRs. Any excess is to be remitted to the selling shareholders.

The Company's key management personnel are employed by GMA and no part of their salaries was allocated to the Company.

# 14. Financial Risk Management Objectives and Policies

The Company's principal financial instruments include cash and cash equivalents and AFS investment. The main purpose of these financial instruments is to finance the Company's operations. The Company has other financial assets and liabilities such as accounts receivable, accounts payable and other current liabilities (excluding deferred output VAT) and due to shareholders, which arise directly from its operations.

The main risks arising from the Company's financial statements are as follows:

- Liquidity Risk. Liquidity risk arises from the possibility that the Company may encounter difficulties in raising funds to meet commitments from financial instruments.
- Interest Rate Risk. Interest rate risk is the risk that the fair value of a financial instrument will fluctuate because of changes in market interest rates.
- Credit Risk. Credit risk arises from default of the counterparty.

The BOD reviews and approves the Company's objectives and policies.

The Company's objective in liquidity management is to ensure that the Company has sufficient liquidity to meet obligations under normal and adverse circumstances and is able to take advantage of investment opportunities as they arise.

The Company manages its liquidity risk by using its each and each equivalents from operations and interest income from AFS investment to meet its short-term liquidity needs. The Company likewise regularly evaluates other financing instruments and arrangements to broaden the Company's range of financing sources.

The tables below summarize the maturity profile of the Company's financial assets used for liquidity risk management purposes and financial liabilities based on contractual undiscounted payments as at December 31:

With respect to credit risk arising from cash and cash equivalents, accounts receivable and AFS investment, the Company's exposure to credit risk arises from default of the counterparty. The maximum exposure of accounts receivables and AFS investment are equal to their carrying amounts, maximum exposure of accounts receivables and AFS investment are equal to their carrying amounts. For cash and cash equivalents, the maximum exposure is \$\mathbb{P}28.30\$ million and \$\mathbb{P}26.30\$ million as at

December 31, 2017 and 2016, respectively, or the carrying amount less insured amount by the Philippine Deposit Insurance Corporation equivalent to the actual cash in bank balance to a maximum of P0.50 million per depositor per bank. It is the Company's policy to enter into transactions with a diversity of creditworthy parties to mitigate any significant concentration of credit risk. The diversity of creditworthy parties to mitigate any significant concentration of credit round company has an internal mechanism to monitor the granting of credit and management of credit company will make provisions, when necessary, for potential losses on credits exposures. The Company does not require any collateral for its financial assets.

As at December 31, 2017 and 2016, the financial assets are generally viewed by management as good and collectible considering the credit history of the counterparties. No financial assets were identified by the Company as past due or impaired financial assets as at December 31, 2017 and 2016.

The credit quality of financial assets is managed by the Company using high grade and standard grade as internal credit ratings.

High Grade. This pertains to a counterparty who is not expected by the Company to default in settling its obligations, thus credit risk exposure is minimal. This normally includes large prime financial institutions and related parties.

Standard Grade. Other financial assets not classified as high grade are included in this category.

The Company classified its eash and eash equivalents (excluding eash on hand), accounts receivable and AFS investment as high grade financial assets as at December 31, 2017 and 2016.

The primary objective of the Company's capital management is to ensure that it maintains a strong credit rating and healthy capital ratios in order to support its business and maximize shareholder \ value

The Company manages its capital structure and makes adjustments to it, in the light of changes in economic conditions. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, payoff existing debts, return capital to shareholders or issue new shares.

No changes were made in the objectives, policies or processes for the three years ended December 31, 2017, 2016 and 2015.

The Company's capital management is undertaken by GMA. The Company's capital includes the total equity, before other comprehensive income, which amounted to \$\mathbb{P}3.24\$ million and \$\mathbb{P}1.21\$ million as at December 31, 2017 and 2016, respectively.

The Company is not subject to externally imposed capital requirements.

## 15. Financial Assets and Liabilities

The following methods and assumptions are used to estimate the fair value of each financial instrument for which it is practicable to estimate such value

Cash and Cash Equivalents, Accounts Receivable, Accounts Pavable and Other Current Liabilities (excluding Deferred Output VAT) and Due to Shareholders

The carrying amounts of these financial instruments approximate their fair values due to the shortterm maturities of these financial instruments.

The estimated fair value of AFS debt investment is based on the discounted values of future cash flows. The discount rates used were based on the spot yield curve derived from government securities of different tenors plus an estimate of the counterparty's credit spread, which is based on the counterparty's credit rating. The fair value is under level 2 of the fair value hierarchy.

The following table below demonstrates the sensitivity of credit spread (through the impact on other comprehensive income).

# Cultural Center of the Philippines SENTRONG PANGKULTURA NG PILIPINAS

To Whom It May Concern:

This is to certify that Mr. JAIME C. LAYA is an incumbent Trustee (Director) of the Cultural Center of the Philippines (CCP).

There is nothing in the law (P.D 15, as amended) governing the CCP which prohibits a trustee of the CCP from becoming a director of a private corporation. Thus, Mr. Laya has the authorization of CCP to be a Director of a private sector corporation.

Issued this 6th day of March 2018.
