Prospects for 2018

- Confident that Revenues/Income and even Dividends will be bigger in 2018 vs 2017 despite the 1Q results. There was a recovery in Ch 7 Sales in April by over 170M though currently 20% behind in May.

Digital TV

- GMA's digital signal is now available in Mega Manila up to parts of Tarlac. Will reach Mindanao by end June this year. When our digitization project is completed, we will cover 83% of the Philippines with our digital signal.
- GMA's digital device will be smaller and cheaper than ABS' box and is set to launch very soon
- Waiting for the official partnership (with a Telco) because the soon to be partner will immediately distribute the device. The target initial release as agreed will be one million..
- Cannot specify yet which model (monetization) will be used for Digital as it is still being studied.
- Investment in Digital is around PhP 700M
