Management Discussion and Analysis of Financial Condition and Results of Operations for the Nine Months Ended September 30, 2009.

The Network strides forward in the face of a volatile business environment as it ended the first three quarters of 2009 with \$\mathbb{P}2,149\$ million in net income, equivalent to a double-digit growth of 10% year-on-year.

Despite the uncertainty in the world economy which impacts on the local advertising industry, consolidated gross revenues increased by 7% to \$\mathbb{P}10,025\$ million from same period last year. Top-line contribution from international operations continued to be a major source of growth for the Company, while airtime revenues from QTV Channel 11 likewise showed considerable improvement over the same period in 2008.

Total operating expenses grew 9% year-on-year, ending the period at ₱5,555 million. Production costs increased by 2% to ₱2,922 million. On the other hand, general and administrative expenses increased by 18%, closing at ₱2,632 million for the first nine months of 2009.

Revenues

Consolidated gross revenues, consisting of airtime revenues from television and radio, subscription revenue from international operations, and other revenues from subsidiaries, were up 7% or £661 million, sealing nine-month performance at £10,025 million from £9,364 million in 2008

	9M '09 (in millions)	9M '08 (in millions)	Inc/(Dec) (in millions)	
Television and radio airtime	9,243.2	8,800.4	442.8	5%
Production and others	781.6	563.4	218.2	39%
Gross revenues	10,024.8	9,363.8	661.0	7%

Airtime revenues from TV and radio, which made up 92% of all revenues, posted a 5% increase to \$\mathbb{P}9,243\$ million despite the contraction in major advertisers' ad spending. Channel 7 airtime revenues – the Company's lifeblood, contributing 87% of the total revenue pie – grew to \$\mathbb{P}8,672\$ million, 5% higher than last year's performance. QTV Channel 11's airtime revenues climbed 11% to \$\mathbb{P}315\$ million for the first nine months buoyed by another successful season of the *American Idol* series. Airtime revenues from radio operations improved by 10% to \$\mathbb{P}256\$ million versus \$\mathbb{P}232\$ million generated last year.

Meanwhile, subscription revenues from international operations provided a hefty boost to the top line, soaring 54% from last year to \$\mathbb{P}633\$ million. Apart from the steady growth in subscriber count from its main channel, GMA Pinoy TV, the launch of the second international channel – GMA Life TV – further contributed to the revenue upswing in this segment. On the other hand, subsidiaries brought in other revenues of \$\mathbb{P}148\$ million, including \$\mathbb{P}67M\$ grossed by GMA Films, which produced two profitable movies to date this year – the Richard Gutierrez-KC Concepcion romance When I Met You and Robin Padilla's suspense-thriller Sundo.

Expenses

Total operating expenses, composed of production cost and general and administrative expenses, were conscientiously managed, with a single-digit increase of 9% to \$\mathbb{P}5,555\$ million.

	9M '09	9M '08	Inc/(Dec)	%
Production Costs	(in millions)	(in millions)	(in millions)	
Talent fees	1,383.5	1,504.1	(120.6)	-8%
Rentals and outside services	438.4	394.7	43.8	11%
Other program expenses	721.0	606.9	114.1	19%
Sub-total - cash production cost	2,542.9	2,505.6	37.3	1%
Program rights amortization	379.4	357.8	21.6	6%
Total production cost	2,922.3	2,863.4	58.9	2%

Production-related expenses, which accounted for 53% of total operating expenses, increased by 2% to \$\text{P2,922}\$ million compared to last year's \$\text{P2,863}\$ million. Cash production costs inched up by 1% or \$P37\$ million due to the growth in rentals and other program-related expenses that outweighed the drop in talent fees. This was compounded by the 6% hike in the cost of program rights used.

Consolidated general and administrative expenses (GAEX) amounted to \$\mathbb{P}2,632\$ million, reflecting an increase of 18% or \$\mathbb{P}402\$ million versus \$\mathbb{P}2,231\$ million in 2008. Personnel cost, followed by taxes and licenses were the major drivers for the year-on-year increase.

	9M '09	9M '08	Inc/(Dec)	%
GAEX	(in millions)	(in millions)	(in millions)	
Personnel costs	1,130.3	855.6	274.7	32%
Facilities costs	252.6	238.1	14.5	6%
Outside services	357.6	345.8	11.9	3%
Taxes and licenses	143.4	106.9	36.4	34%
Others	324.5	321.5	3.0	1%
Subtotal - Cash GAEX	2,208.4	1,867.9	340.5	18%
Depreciation and amortization	410.0	350.4	59.7	17%
Amortization of software cost	14.0	12.4	1.6	13%
Subtotal - Non-cash GAEX	424.0	362.7	61.3	17%
Total GAEX	2,632.4	2,230.6	401.7	18%

Personnel cost amounted to ₱1,130 million, representing an increase of 32% from last year's ₱856 million. The Company paid out a sizable signing bonus as it inked a new collective bargaining agreement covering the next three years. Aside from this extraordinary, non-recurring item, the sheer rise in manpower count on top of annual salary increases drove personnel costs to a double-digit escalation year-on year.

Facilities cost – composed of utilities and repairs and maintenance – increased 6% or P15 million, ending the period at P253 million, primarily due to the operations of the new GMA Studios which was launched in October last year.

Outside services, consisting of advertising and promotions, management and professional fees, and sales incentives, increased by 3% to \$\mathbb{P}358\$ million. Management and professional fees accounted for the increase as some fees that had been recorded only at year-end in 2008 were accrued earlier in 2009. This rise was partly offset by a cutback in the Company's spending for certain promotional activities.

Taxes and licenses recorded an increase of \$\mathbb{P}36\$ million or 34% from the previous year's \$\mathbb{P}107\$ million as a result of higher real property taxes. Apart from this, royalty taxes paid in relation to subscriptions revenues from international operations accounted for a considerable portion of the increase in taxes, as revenues from this segment continued to grow.

The expansion of international operations contributed as well to the \$\mathbb{P}3\$ million increase in other cash GAEX, largely due to rental charges for the additional satellite transponder for the second international channel.

Total non-cash GAEX climbed 17% from ₱363 million in 2008 to ₱424 million this year. Depreciation expense was up by 17% or ₱60 million resulting from the regional expansion projects and from the new GMA Studios, which boasts state-of-the art broadcast equipment and studio facilities.

Interest and financing charges on short-term loans

Interest expense and financing charges for the period of \$\mathbb{P}8.2\$ million was 6% lower compared to last year's \$\mathbb{P}8.7\$ million due to the decrease in short-term notes payable balance.

Interest income from short-term investments

Interest income from short-term investments ended lower than last year at P44 million generally due to lower interest rates and lower average monthly placements this period.

Net Income

The strong improvement in the top-line complemented by managed cost increases drove nine-month earnings before interest, taxes, depreciation and amortization (EBITDA) to \$\mathbb{P}3,713\$ million, 4% higher compared to 2008 figures. With the legislated reduction in income tax rate from 35% to 30% effective this year, net income further improved by 10% to \$\mathbb{P}2,149\$ million from \$\mathbb{P}1,961\$ million last year.

Balance Sheet Accounts

Consolidated assets totaled \$\mathbb{P}\$13,061 million, 5% higher than the 2008 year-end figure. The strong surge in revenues in the second and third quarters increased trade receivables to \$\mathbb{P}\$4,835 million. Collection efforts likewise picked up, increasing cash and cash equivalents to \$\mathbb{P}\$1,894 million, and reducing days sales outstanding (DSO) from 141 days at the end of 2008 to 138 days at the close of the first nine months of 2009.

The growth in net income drove return on assets (ROA) and return on equity (ROE) to rise to 22% and 28%, respectively, from 19% and 24% on a year-on-year basis.

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

1. Basis of Preparation

The consolidated financial statements of the Group have been prepared using the historical cost basis, except for available-for-sale (AFS) financial assets, which have been measured at fair value, and land used in operations, which is carried at revalued amounts. The consolidated financial statements are presented in Philippine peso, which is the Parent Company's functional and presentation currency under Philippine Financial Reporting Standards (PFRS). All values are rounded to the nearest peso, except when otherwise indicated.

Statement of Compliance

The accompanying consolidated financial statements of the Group have been prepared in compliance with PFRS. PFRS includes statements named PFRS and Philippine Accounting Standards (PAS) issued by the Financial Reporting Standards Council.

.

2. Changes in Accounting Policies

The accounting policies adopted are consistent with those of the previous financial year except for the following new Philippine Interpretations from International Financial Reporting Interpretations Committee (IFRIC) which the Group has adopted during the year:

- Philippine Interpretation IFRIC 11, PFRS 2 Group and Treasury Share Transactions, requires arrangements whereby an employee is granted rights to an entity's equity instruments to be accounted for as an equity-settled scheme by the entity even if (a) the entity chooses or is required to buy those equity instruments (e.g., treasury shares) from another party, or (b) the shareholders of the entity provide the equity instruments needed. It also provides guidance on how subsidiaries, in their separate financial statements, account for such schemes when their employees receive rights to the equity instruments of the parent. As the Group has no such transaction, the adoption of this interpretation has no impact on the consolidated financial statements.
- Philippine Interpretation IFRIC 12, Service Concession Arrangements, covers contractual arrangements arising from public-to-private service concession arrangements if control of the assets remains in public hands but the private sector operator is responsible for construction activities, as well as for operating and maintaining the public sector infrastructure. No member of the Group is an operator and, therefore, this interpretation has no impact on the consolidated financial statements.
- Philippine Interpretation IFRIC 14, PAS 19, The Limit on a Defined Benefit Asset, Minimum Funding Requirements and their Interaction, provides guidance on how to assess the limit on the amount of surplus in a defined benefit scheme that can be recognized as an asset under PAS 19, Employee Benefits. The Group's defined benefit plan has been in deficit, therefore the adoption of this interpretation has no impact on its financial position or performance.

Future Changes in Accounting Policies

The Group did not early adopt the following standards and Philippine Interpretations that have been approved but are not yet effective:

- PFRS 2, *Share-based Payment (Revised)*, will become effective for financial years beginning on or after January 1, 2009. It restricts the definition of "vesting condition" to a condition that includes an explicit or implicit requirement to provide services. Any other conditions are non-vesting conditions, which have to be taken into account to determine the fair value of the equity instruments granted. In case the award does not vest as result of a failure to meet a non-vesting condition that is within the control of either the entity or the counterparty, it must be accounted for as a cancellation. As the Group has no such transaction, the revised standard will have no impact on the consolidated financial statements.
- PFRS 3, Business Combinations (Revised), and PAS 27, Consolidated and Separate Financial Statements (Revised), will become effective for financial years beginning on or after July 1, 2009. The revised PFRS 3 introduces a number of changes in the accounting for business combinations that will impact the amount of goodwill recognized, the reported results in the period that an acquisition occurs and future reported results. The revised PAS 27 requires that a change in the ownership interest of a subsidiary be accounted for as an equity transaction. Therefore, such a change will have no impact on goodwill, nor will it give rise to a gain or loss. Furthermore, the amended standard changes the accounting for losses incurred by the subsidiary, as well as the loss of control of a subsidiary. The changes introduced by the revised standards must be applied prospectively and will affect future acquisitions and transactions with minority interests. The changes in the standards will have no impact on the consolidated financial statements.
- PFRS 8, Operating Segments, will replace PAS 14, Segment Reporting, and will become effective for financial years beginning on or after January 1, 2009. It adopts a management approach in reporting segment information. The information reported would be that which management uses internally for evaluating the performance of operating segments and allocating resources to those segments. Such information may be different from that reported in the consolidated balance sheets and consolidated statements of income and companies will need to provide explanations and reconciliations of the differences. The Group will assess the impact of this standard to its current manner of reporting segment information when it adopts the standard on January 1, 2009.
- PAS 1, Presentation of Financial Statements (Revised), will become effective for financial years beginning on or after January 1, 2009. It separates owner and non-owner changes in equity. The consolidated statements of changes in stockholders' equity will include only details of transactions with owners, with all non-owner changes in equity presented as a single line. In addition, the standard introduces the statement of comprehensive income, which presents all items of income and expense recognized in profit or loss, together with all other items of recognized income and expense, either in one single statement, or in two linked statements. The Group is currently assessing the impact of this revised standard on the consolidated financial statements.
- PAS 23, *Borrowing Costs (Revised)*, will become effective for financial years beginning on or after January 1, 2009. The standard has been revised to require capitalization of

borrowing costs when such costs relate to a qualifying asset. A qualifying asset is an asset that necessarily takes a substantial period of time to get ready for its intended use or sale. In accordance with the transition requirements of the standard, the Group will adopt this as a prospective change. Accordingly, borrowing costs, if any, will be capitalized on qualifying assets starting January 1, 2009.

- PAS 32, Financial Instrument: Presentation, and PAS 1, Presentation of Financial Statements Puttable Financial Instruments and Obligations Arising on Liquidation (Amendments), will become effective for financial years beginning on or after January 1, 2009. The amendment to PAS 32 requires certain puttable financial instruments and obligations arising on liquidation to be classified as equity if certain criteria are met. The amendment to PAS 1 requires disclosure of certain information relating to puttable instruments classified as equity. The Group expects that the amendments will have no impact on its financial position or performance.
- PAS 39, Financial Instruments: Recognition and Measurement Eligible Hedged Items (Amendment), will become effective for financial years beginning on or after July 1, 2009. The amendment addresses the designation of a one-sided risk in a hedged item, and the designation of inflation as a hedged risk or portion in particular situations. It clarifies that an entity is permitted to designate a portion of the fair value changes or cash flow variability of a financial instrument as a hedged item. The amendment will not have any impact on the consolidated financial statements as the Group has not entered into any such hedges.
- Philippine Interpretation IFRIC 13, *Customer Loyalty Programmes*, will become effective for financial years beginning on or after July 1, 2008. It requires customer loyalty award credits to be accounted for as a separate component of the sales transaction in which they are granted and therefore, part of the fair value of the consideration received is allocated to the award credits and deferred over the period that the award credits are fulfilled. The Group expects that this interpretation will have no impact on the consolidated financial statements as no such schemes currently exist.
- Philippine Interpretation IFRIC 15, Agreements for the Construction of Real Estate, will become effective for financial years beginning on or after January 1, 2012. The interpretation is to be applied retroactively. It clarifies when and how revenue and related expenses from the sale of real estate should be recognized if an agreement between a developer and a buyer is reached before the construction of the real estate is completed. Furthermore, the interpretation provides guidance on how to determine whether an agreement is within the scope of PAS 11, Construction Contracts, or PAS 18, Revenue. The interpretation will not have an impact on the consolidated financial statements because the Group does not have such activity.
- Philippine Interpretation IFRIC 16, Hedges of a Net Investment in Foreign Operations, will become effective for financial years beginning on or after October 1, 2008. It provides guidance on identifying the foreign currency risks that qualify for hedge accounting in the hedge of a net investment, where within the Group the hedging instruments can be held in the hedge of a net investment and how an entity should determine the amount of foreign currency gain or loss, relating to both the net investment and the hedging instrument, to be recycled on disposal of the net investment. The interpretation will have no impact on the consolidated financial statements.

Improvements to Existing Accounting Standards

The Group did not early adopt the following improvements to existing accounting standards that have been approved but are not yet effective. The Group is currently assessing the impact of the following improvements to existing standards but anticipates that the changes will have no material effect on the consolidated financial statements.

- PFRS 7, *Financial Instruments: Disclosures*, removes the reference to "total interest income" as a component of finance costs.
- PAS 1, Presentation of Financial Statements, provides that assets and liabilities classified as held for trading in accordance with PAS 39, Financial Instruments: Recognition and Measurement, are not automatically classified as current in the consolidated balance sheets.
- PAS 8, Accounting Policies, Changes in Accounting Estimates and Errors, clarifies that
 only the implementation guidance that is an integral part of a PFRS is mandatory when
 selecting accounting policies.
- PAS 10, Events after the Balance Sheet Date, clarifies that dividends declared after the end of reporting period are not obligations.
- PAS 16, *Property, Plant and Equipment*, replaces the term "net selling price" with "fair value less costs to sell". It further clarifies that items of property, plant and equipment held for rental that are routinely sold in the ordinary course of business after rental are transferred to inventory when rental ceases and they are held for sale.
- PAS 18, *Revenue*, replaces the term "direct costs" with "transaction costs" as defined in PAS 39, *Financial Instruments: Recognition and Measurement*.
- PAS 19, Employee Benefits, revises the definition of past service costs, return on plan assets and short-term and long-term employee benefits. Amendments to plans that result in reduction in benefits related to future services are accounted for as curtailment. It deletes the reference to the recognition of contingent liabilities to ensure consistency with PAS 37, Provisions, Contingent Liabilities and Contingent Assets.
- PAS 20, Accounting for Government Grants and Disclosure of Government Assistance, provides that loans granted in the future with no or low interest rates will not be exempt from the requirement to impute interest. The difference between the amount received and the discounted amount is accounted for as government grant. Various terms were revised to be consistent with other PFRS.
- PAS 23, *Borrowing Costs*, revises the definition of borrowing costs to consolidate the two types of items that are considered components of borrowing costs into one the interest expense calculated using the effective interest method calculated in accordance with PAS 39, *Financial Instruments: Recognition and Measurement*.
- PAS 27, Consolidated and Separate Financial Statements, states that when a parent entity accounts for a subsidiary in accordance with PAS 39, Financial Instruments: Recognition and Measurement, in its separate financial statements, this treatment continues when the subsidiary is subsequently classified as held for sale.

- PAS 28, Investment in Associates, establishes that if an associate is accounted for at fair value in accordance with PAS 39, Financial Instruments: Recognition and Measurement, only the requirement of PAS 28 to disclose the nature and extent of any significant restrictions on the ability of the associate to transfer funds to the entity in the form of cash or repayment of loans applies.
- PAS 29, Financial Reporting in Hyperinflationary Economies, revises the reference to the exception to measure assets and liabilities at historical costs, such that it notes property, plant and equipment as being an example, rather than implying that it is a definitive list. Various terms were revised to be consistent with other PFRS.
- PAS 31, Interest in Joint Ventures, provides that if a joint venture is accounted for at fair value in accordance with PAS 39, Financial Instruments: Recognition and Measurement, only the requirement of PAS 31 to disclose the commitments of the venturer and the joint venture as well as summary financial information about the assets, liabilities, income and expense will apply.
- PAS 34, *Interim Financial Reporting*, requires that earnings per share be disclosed in interim financial reports if an entity is within the scope of PAS 33, *Earnings per Share*.
- PAS 36, *Impairment of Assets*, provides that if discounted cash flows are used to estimate "fair value less costs to sell", additional disclosure is required about the discount rate, consistent with the disclosures required when the discounted cash flows are used to estimate "value in use."
- PAS 38, *Intangible Assets*, requires that expenditure on advertising and promotional
 activities be recognized as an expense when the Group has either the right to access the
 goods or has received the services.
- PAS 39, Financial Instruments: Recognition and Measurement, changes in circumstances relating to derivatives are not reclassification and therefore maybe either removed from, or included in, the "fair value through profit or loss" (FVPL) classification after initial recognition. It removes the reference to a segment when determining whether an instrument qualifies as a hedge. It further requires the use of the revised effective interest rate when remeasuring a debt instrument on the cessation of fair value hedge accounting.
- PAS 40, Investment Property, revises the scope such that property under construction or development for future use as an investment property is classified as investment property. If fair value cannot be reliably determined, the investment under construction will be measured at cost until such time that fair value can be determined or construction is complete. It revises the conditions for a voluntary change in accounting policy to be consistent with PAS 8, Accounting Policies, Changes in Accounting Estimates and Errors, and clarifies that the carrying amount of investment property held under lease is the valuation obtained, increased by any recognized liability.
- PAS 41, *Agriculture*, removes the reference to the use of pre-tax discount rate to determine fair value. It likewise removes the prohibition to take into account cash flows resulting from any additional transformations when estimating fair value. Furthermore, it replaces the term "point-of-sale costs" with "costs to sell".

3. Seasonality or Cyclicality of Interim Operations

The company's operations are not generally affected by any seasonality or cyclicality.

4. Nature and Amount of Changes in Estimates

2008 figures were restated to conform to the current period's presentation.

5. Repayments of Debt

The company has no long-term debt in both periods presented.

6. Dividends paid

On March 19, 2007, the BOD approved the Parent Company's declaration and distribution of cash dividend of \$\mathbb{P}0.35\$ a share amounting to \$\mathbb{P}1,500\$ million to all stockholders of record as of declaration date.

On May 10, 2007, the SEC approved the application of the Parent Company, filed on April 27, 2007, to increase its authorized capital stock from \$\mathbb{P}5,000\$ million to \$\mathbb{P}6,500\$ million, divided into 5,000 million common shares with par value of \$\mathbb{P}1.00\$ each and 7,500 million preferred shares with par value of \$\mathbb{P}0.20\$ each. The increase in authorized capital stock of \$\mathbb{P}1,500\$ million consists of 1,500 million common shares.

25% of the approved increased in authorized capital stock on May 10, 2007 has been subscribed and was fully paid for by means of stock dividends equivalent to the aggregate amount of \$\mathbb{P}375\$ million declared out of the retained earnings of the Corporation as of December 31, 2006 payable to all stockholders of record of the Corporation.

On July 2, 2007, the BOD approved the Parent Company's declaration and distribution of cash dividend amounting to \$\mathbb{P}\$1,000 million to all stockholders of record as of declaration date.

On May 21, 2008, the BOD approved the Parent Company's declaration and distribution of cash dividends of \$\mathbb{P}0.25\$ per share totaling to \$\mathbb{P}1,214.16\$ million to all stockholders of record as of June 11, 2008.

On April 2, 2009, the BOD approved the Parent Company's declaration and distribution of cash dividends of \$\mathbb{P}0.35\$ per share totaling \$\mathbb{P}1,701.33\$ million to all stockholders of record as of April 21, 2009.

7. EPS Computation

The computation of basic EPS follows:

	2009	2008
Net income (a)	P2,148,849,201	₽1,960,547,093
Less attributable to preferred shareholders	663,154,405	605,070,151
Net income attributable to common shareholders (b)	P1,485,694,796	₽1,355,476,942

Common shares issued at the beginning of year	3,364,692,000	3,364,692,000
Treasury shares (see Note 17)	(3,645,000)	(3,645,000)
Underlying shares on acquired PDRs (see Note 17)	(750,000)	(750,000)
Weighted average number of common shares for		_
basic EPS (c)	3,360,297,000	3,340,322,667
Basic EPS (b/c)	P0.442	₽0.403

The computation of diluted EPS follows:

	2009	2008
Net income (a)	P2,148,849,201	₽1,960,547,093
Weighted average number of common shares	3,360,297,000	3,340,322,667
Effect of dilution - assumed conversion of preferred		
shares	1,499,901,437	1,500,000,000
Weighted average number of common shares		
adjusted for the effect of dilution (d)	4,860,198,437	4,840322,667
Diluted EPS (a/d)	P0.442	₽0.403

As mentioned in Note 6, the SEC approved the increase in the Parent Company's authorized capital stock from \$\mathbb{P}2,000\$ million to \$\mathbb{P}5,000\$ million on February 17, 2006.

As further mentioned in Note 6, the SEC likewise approved the increase in the Parent Company's authorized capital stock from \$\mathbb{P}5,000\$ million to \$\mathbb{P}6,500\$ million on May 10, 2007.

8. Material Events

A. Any known trends, demands, commitments, events or uncertainties that will have a material impact on the issuer's liquidity.

As of September 30, 2009, there are no known trends, demands, commitments, events or uncertainties that will have a material impact on the issuer's liquidity.

B. Any material commitments for capital expenditures, the general purpose of such commitments and the expected sources of funds for such expenditures.

The 2009 Capital Expenditure budget of the parent company amounts to \$\mathbb{P}660\$ million. This will be partly financed by remaining proceeds from IPO listing and the balance from internally generated funds.

C. Any known trends, events or uncertainties that have had or that are reasonably expected to have a material favorable or unfavorable impact on net sales/revenues/income from continuing operations.

GMA Network's results of operations depend largely on the ability to sell airtime for advertising. The company's business may be affected by the general condition of the economy of the Philippines.

D. Any events that will trigger direct or contingent financial obligation that is material to the company, including any default or acceleration or an obligation.

As of September 30, 2009, there are no events which may trigger a direct or contingent financial obligation that is material to the Company.

E. Any significant elements of income or loss that did not arise from the issuer's continuing operations.

As of September 30, 2009, there are no significant elements of income or loss that did not arise from the issuer's continuing operations.

F. Any seasonal aspects that had a material effect on the financial condition or results of operations.

There are no seasonal aspects that had a material effect on the financial condition or results of operations.

G. Any material events that were unusual because of their nature, size or incidents affecting assets, liabilities, equity, net income, or cash flows.

There are no material events that were unusual because of their nature, size or incidents affecting assets, liabilities, equity, net income, or cash flows.

H. Any material events subsequent to the end of the interim period that that have not been reflected in the financial statements for the interim period.

There are no material events, subsequent to the end of the interim period that have not been reflected in the financial statements for the interim period.

9. Business Segment Results

The Group considers television operations as the major business segment. This accounts for 89% of the Group's gross revenue, net income, assets and liabilities. Other operations account for 10% of the Group's gross revenue, net income, asset and liabilities.

10. Changes in Composition of Issuer

There are no changes in the composition of the Issuer since the last balance sheet date.

11. Changes in Contingent Liabilities or Assets

As of September 30, 2009, the Group has no contingent assets or liabilities.

12. Material Contingencies

There are no contingent liabilities, events or transactions that will materially affect the company's financial position and results of operations.

13. SFAS 16 / IAS 16, Property, Plant and Equipment

GMA Foundation and Alta Tierra

Some of the trustees of GMA Foundation are also the stockholders of the Parent Company. The Parent Company and Alta Tierra have certain common stockholders.

RGMA

RGMA became an associate of the Parent Company in 2007. In previous years, the Parent Company and RGMA have certain common stockholders. The advances made by the Parent Company to RGMA were intended for future capital subscription.

Mont-Aire

Mont-Aire became an associate of the Parent Company in 2006. The advances made by the Parent Company to Mont-Aire in previous years were intended for future capital subscription.

Image One

In 2006, the Parent Company's investments in Image One were declared as property dividends to the major stockholders of the Parent Company.

GMPI has an existing agreement with Image One whereby GMPI shall be the sole and exclusive contractor for the marketing and sale of advertising spots of Image One's electronic outdoor and indoor billboards. In consideration for the said services, GMPI receives from Image One a marketing fee based on a certain percentage of Image One's annual collection.

BGE Law

BGE Law is the legal counsel of the Group. The Parent Company's Chairman of the Board is a principal partner of BGE Law.

FLG, San Mateo, 3LM Koblenz, Majent

These companies are owned or partly owned by some officers of the Parent Company and GMPI. GMPI employs the services of these related parties in sourcing and hiring competent and capable personnel and in conducting studies to improve GMPI's capability in providing efficient services to clients.

The compensation of key management personnel of the Group, by benefit type, follows:

	9M '09	9M '08
Salaries and other short-term benefits	P136,278,254	₽136,346,918
Pension benefits	28,606,499	28,163,799
	P164,884,753	₽164,507,718

15. SFAS 28 / IAS 28, Accounting for Investments in Associates

The Group's investments in associates are accounted for under the equity method. An associate is an entity in which the Group has significant influence and which is neither a subsidiary nor a joint venture of the Group. The investments in associates are carried in the unaudited interim consolidated balance sheets at cost plus post-acquisition changes in the Group's share in the net assets of the associates, less any impairment in value. The unaudited interim consolidated statements of income include the Group's share in the results of operations of the associates. Unrealized gains arising from transactions with associates are eliminated to the extent of the Group's interest in the associates, against the investments in the associates. Unrealized losses are eliminated similarly but only to the extent that there is no evidence of impairment of the asset transferred.

The carrying values of investments accounted for under the equity method and the related advances are as follows:

16. Long-term Receivable from a Related Party

As of September 30, 2009, the Group has no long-term receivable from a related party.

17. Equity

The composition of capital stock as of September 30, 2009 and December 31, 2008 follows:

	Number o	of Preferred	Number of	Common
<u></u>		Shares		Shares
	2009	2008	2009	2008
Authorized - P0.20 par value				_
per preferred share/\mathbb{P}1.00 par				
value per common share	7, 500,000,000 7,5	500,000,000 5,0	00,000,000 5,00	00,000,000
Subscribed and issued at				
beginning of year	7 , 500 , 000 , 000 7,5	500,000,000 3,3 6	64,692,000 3,30	64,692,000
Subscribed and issued at end of

On April 26, 2007, the BOD and stockholders approved the increase in the Parent Company's authorized capital stock from \$\mathbb{P}\$5,000 million to \$\mathbb{P}\$6,500 million, divided into 5,000 million common shares with \$\mathbb{P}\$1.00 par value and 7,500 million preferred shares with \$\mathbb{P}\$0.20 par value. On the same date, the BOD and stockholders approved the declaration of stock dividends amounting to \$\mathbb{P}\$375 million representing 375 million common shares to all stockholders of record as of April 25, 2007. The stock dividends will be taken from the increase in authorized capital stock. The increase in the Parent Company's authorized capital stock was approved by the SEC on May 10, 2007.

The preferred shares are of equal rank, preference and priority and are identical in all respect regardless of series. Preferred shares are participating at the rate of one fifth (1/5th) of the dividend paid to common shares, which rate is adjusted proportionately by the Parent Company's BOD consequent to any stock split or stock dividend declaration affecting the common shares and preferred shares. Preferred shares are convertible at the option of the shareholders at the rate of five (5) preferred shares to one (1) common share, based on par value.

Preferred shares enjoy priority over common shares in the distribution of assets of the Parent Company in the event of dissolution and liquidation, at such rates, terms and conditions as the BOD may determine. Each preferred share is entitled to one vote and shall have the same voting rights as the common shares.

The Parent Company's BOD may specify other terms and conditions, qualifications, restrictions and privileges of the preferred shares or series/classes thereof, insofar as such terms, conditions, qualifications, restrictions and privileges are not inconsistent with the articles of incorporation and any applicable law or regulation.

<u>IPO</u>

The BOD of the PSE, in its regular meeting on June 27, 2007, approved the Parent Company's application to list its common shares with the PSE. On July 16, 2007, the SEC declared the

Parent Company's Registration Statement in respect of the IPO effective and issued the "Certificate of Permit to Offer Securities for Sale" in respect of the offer shares.

On July 30, 2007, the Parent Company completed its IPO of 91,346,000 common shares, at an offer price of ₽8.50 a share, from its authorized and unissued capital stock by way of a primary offer (the Domestic Share Offer). In addition, 822,115,000 Philippine Deposit Receipts (PDRs), at an issue price of ₽8.50 per PDR, were issued by GMA Holdings, Inc. (GHI), an affiliate. Of the PDRs issued by GHI, 91,346,000 PDRs covered 91,346,000 common shares of the Parent Company (the Primary PDR Offer) and 730,769,000 PDRs covered 730,769,000 common shares of certain shareholders of the Parent Company (the Secondary PDR Offer).

The total gross proceeds from the Domestic Share Offer and Primary PDR Offer amounted to \$\mathbb{P}\$ 1,552.88 million while the total gross proceeds for the Secondary PDR Offer amounted to \$\mathbb{P}\$ 6,211.54 million. The Parent Company did not receive any proceeds from the Secondary PDR Offer. The net proceeds from the Domestic Share Offer and Primary PDR Offer were intended to be used primarily for improvements to existing facilities, investments in capacity expansion and general corporate purposes. Direct costs incurred relative to the IPO amounting to \$\mathbb{P}135.00\$ million were charged against the corresponding additional paid in capital arising therefrom.

ESOP

On April 26, 2007, the Parent Company's BOD and shareholders approved the Parent Company's ESOP. The Parent Company allocated a maximum of 57.00 million shares from its unissued common shares to be made available to its regular employees, talents and consultants under the terms of the ESOP. The purpose of the ESOP is to allow regular employees of the Group, as well as qualified Filipino consultants and talents, to be part owners of the Parent Company and to share in its profits by giving them the opportunity to own common shares.

Under the terms of the ESOP, regular employees with at least three years of service with the Group are allowed to subscribe to a maximum number of shares equivalent to six times of their gross monthly salary at the offer price. Employees with less than three years of service are allowed to subscribe to a maximum of three times their gross monthly salary at the offer price during listing. The shares to be subscribed by the employees, however, cannot be less than the minimum number of shares set by the Parent Company. In the event that the total number of shares applied for by all the employees exceeded the number of shares made available under the ESOP, the number of shares applied for by each employee will be reduced proportionately.

At least 25% of the subscription had to be paid while the balance will be payable over maximum period of one and a half years in 36 equal semi-monthly installments through payroll deductions, without interest. In the case of talents and consultants, the number of shares allotted shall be determined by the Parent Company.

The ESOP is administered by a board of administrators consisting of five members who are appointed by the Parent Company's BOD. The board of administrators oversees the implementation of the ESOP and decides on any matters which may arise regarding its implementation. The Parent Company's Executive Committee has the authority to modify the terms of the ESOP as it may deem necessary or beneficial for the Parent Company.

The ESOP was fully subscribed and was fully paid in February 2009.

Treasury Stock and Underlying Shares of Acquired PDRs

In 2008, the Parent Company reacquired common shares and preferred shares totaling 1,000,000 and 492,816, respectively, at acquisition cost of \$\mathbb{P}7.82\$ million.

In 2007, the Parent Company reacquired common shares totaling 2,645,000 at acquisition cost of \$\mathbb{P}20.66\$ million.

The Parent Company likewise acquired 750,000 PDRs at acquisition cost of \$\mathbb{P}5.79\$ million in 2007.

18. Revenue

Dividends	17,941	401,253
Others	23,963,651	51,720,309
	P24,412,292	₽52,867,371

22. Financial Risk Management Objectives and Policies

The Group's principal financial instruments include nonderivative instruments such as cash and cash equivalents, short-term investments, guarantee and other deposits, short-term loans and obligations for program rights. The main purposes of these financial instruments include raising financing for the Group's operations and managing identified financial risks. The Group has various other financial assets and liabilities such as trade receivables and trade payables, which arise directly from its operations. The main risks arising from the use of financial instruments are liquidity risk, foreign exchange risk, interest rate risk and credit risk.

The Board of Directors reviews and approves the Group's objectives and policies.

Liquidity Risk. The Group is exposed to the possibility that adverse changes in the business environment and/or its operations would result to substantially higher working capital requirements and the subsequent difficulty in financing additional working capital.

The Group manages liquidity risk by maintaining a pool of credit lines from financial institutions that exceeds expected financing requirements for working capital. The Group likewise regularly evaluates other financing instruments and arrangements to broaden the Group's range of financing sources.

The following table summarizes the maturity profile of the Group's financial liabilities based on contractual undiscounted payments as of September 30, 2009:

		Less than	3 to 12	
	On Demand	3 Months	Months	Total
Trade payables and other current				
liabilities	₽479,351,127	₽442,208,410	₽278,307,438	₽1,199,866,976
Obligations for program rights	_	36,367,847	6,759,496	43,127,343
Dividends payable	1,874,848	_	_	1,874,848
	₽481,225,975	₽478,576,257	P285,066,934	₽1,244,869,167

^{*} Excluding payable to government agencies amounting to \$\mathbb{P}732.38\$ million and \$\mathbb{P}630.58\$ million as of September 30, 2009 and December 31, 2008, respectively, the amounts of which are not considered financial liabilities.

Foreign Exchange Risk. The Group's exposure to foreign exchange risk results from its business transactions denominated in foreign currencies. It is the Group's policy to ensure that capabilities exist for active but conservative management of its foreign exchange risk.

The Group's foreign currency-denominated monetary assets and liabilities amounted to ₱418.83 million (US\$8.80 million) and ₱51.84 million (US\$1.09 million), respectively, as of September 30, 2009 and ₱213.39 million (US\$4.49 million) and ₱122.66 million (US\$2.58 million), respectively, as of December 31, 2008.

In translating the foreign currency-denominated monetary assets and liabilities into peso amounts, the exchange rates used were \$\mathbb{P}47.59\$ to US\$1.00 and \$\mathbb{P}47.52\$ to US\$1.00, the Philippine peso to U.S. dollar exchange rates as of September 30, 2009 and December 31, 2008, respectively.

The following table demonstrates the sensitivity to a reasonably possible change in US\$ exchange rate, with all other variables held constant, of the Group's income before income tax from balance sheet date up to next reporting date (due to changes in the fair value of monetary assets and liabilities). There is no impact on the Group's equity.

Increase (Decrease) in ₽ to US\$ rate	Effect on Income Before Income Tax
₽0.50	(P 3,855,545)
(0.50)	3,855,545

The increase in P to US\$ rate means stronger peso against the U.S. dollar while a decrease in P to US\$ means stronger U.S. dollar against the peso.

Interest Rate Risk. The Group's exposure to changes in interest rates is minimal as the Group has no long-term obligations.

The Group's policy is to manage its interest cost using a mix of fixed and variable rate debts.

The following table demonstrates the sensitivity to a reasonably possible change in interest rates, with all other variables held constant, of the Group's income before income tax from balance sheet date up to next reporting date. There is no impact on the Group's equity.

Increase (Decrease) in Basis Points	Effect on Income Before Income Tax
50	₽9,472,119
(50)	(9,472,119)

Credit Risk. Credit risk, or the risk of counterparties defaulting, is controlled by the application of credit approvals, limits and monitoring procedures. It is the Group's policy to enter into transactions with a diversity of creditworthy parties to mitigate any significant concentration of credit risk. The Group ensures that sales of products and services are made to customers with appropriate credit history. The Group has an internal mechanism to monitor the granting of credit and management of credit exposures. The Group has made provisions, where necessary, for potential losses on credits extended.

-	Neither Past Due	Past Due But Not	
	Nor Impaired	Impaired	Total
Cash and cash equivalents	₽1,894,423,789	₽–	₽1,894,423,789
Short-term investments	23,872,694	_	23,872,694
Trade and other receivables	3,172,464,615	1,662,085,208	4,834,549,824
Guarantee and other deposits	15,050,724	_	15,050,724
AFS financial assets	105,096,848	_	105,096,848
	£ 5,210,908,669	₽1,662,085,208	₽6,872,993,879

The Group's past due trade receivables include those that are past due but are still collectible. These past due trade receivables are assessed by the management of the Group as good and collectible.

The Group's exposure to credit risk arises from default of the counterparty with a maximum exposure equal to the carrying amount of these instruments.

Counterparties to financial instruments consist of a large number of prime financial institutions. The Group does not expect any counterparty to default in its obligations, given the high credit ratings. The Group has no significant concentration of credit risk with any counterparty.

Capital Management

The primary objective of the Group's capital management is to ensure that it maintains a strong credit rating and healthy capital ratios in order to support its business and maximize shareholder value.

The Group manages its capital structure and makes adjustments to it, in the light of changes in economic conditions. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, pay-off existing debts, return capital to shareholders or issue new shares.

The Group monitors its capital gearing by measuring the ratio of interest-bearing debt to total stockholders' equity. Interest-bearing debt includes all short-term and long-term debt.

The Group's ratios of interest-bearing debt to total stockholders' equity as of September 30, 2009 and December 31, 2008 follow:

	2009	2008
Total interest-bearing debt (a) -		
Notes payable	₽–	₽-
Total stockholders' equity (b)	P10,191,270,290 P 9,75	5,123,346
Interest-bearing debt to total stockholders'		
equity (a/b)	_	

23. Financial Assets and Liabilities

The table below presents the carrying values and fair values of the Group's financial instruments by category and by class as of September 30, 2009 and December 31, 2008, respectively:

	P1,244,869,167	P1,244,869,167	₽1,112,594,139	P1,112,594,139

^{*} Excluding payable to government agencies amounting to £732.38 million and £630.58 million as of June 30, 2009 and December 31, 2008, respectively, the amounts of which are not considered financial liabilities.

Fair Value of Financial Instruments

The following methods and assumptions are used to estimate the fair value of each class of financial instruments:

Cash and Cash Equivalents, Short-term Investments and Trade and Other Receivables. The carrying values of cash and cash equivalents, short-term investments and trade and other receivables approximate fair values primarily due to the relatively short-term maturity of these financial instruments.

Guarantee and Other Deposits. The fair value of guarantee and other deposits is based on the present value of the future discounted cash flows. Discount rates used range from 5.55% to 6.32% as of September 30, 2009 and 6.10% to 6.21% as of December 31, 2008.

AFS Financial Assets. These are investments in quoted and unquoted shares of stock. The fair value of quoted shares is based on quoted market prices. In the absence of a reliable basis in determining fair values of unquoted shares, the investments are carried at cost, net of impairment in value.

Notes Payable. The carrying value of notes payable that are re-priced every 3 months approximates fair value because of the recent and regular re-pricing based on current market rates. The fair value of notes payable with fixed interest rate is determined by discounting the future cash flows using the prevailing rate as of reporting date.

Trade Payables and Other Current Liabilities and Obligations for Program Rights. The carrying values of trade payables and other current liabilities and obligations for program rights approximate fair values due to the relatively short-term maturity of these financial instruments.

24. Causes for Material Changes in the Financial Statements

Balance Sheet (September 30, 2009 vs. December 31, 2008)

- Cash and cash equivalents increased by 12% to P1.894 million due to net cash generated from normal operating activities exceeding net cash used for financing and investing activities.
- Accounts receivable increased by 8% to \$\mathbb{P}4,835\$ million as cumulative net sales for the last nine months outpaced collections.
- Program rights dropped by 16% to \$\mathbb{P}696\$ million mainly due to higher usage vis-\angle-vis rate of acquisition.
- Obligation for program rights decreased by 61% to \$\mathbb{P}43\$ million as payments exceeded total acquisitions on account.
- Despite the increase in net income, income tax payable decreased by 8% to ₱470 million as the result of the lowering of the corporate income tax rate from 35% to 30% effective January 1, 2009.

25. Other Notes to 2nd Quarter 2009 Operations and Financials

The key performance indicators that the Company monitors are the following:

	<u>9M '09</u>	<u>9M '08</u>
