Management Discussion and Analysis of Financial Condition and Results of Operations for the Nine Months Ended September 30, 2023 and 2022

GMA Network and its subsidiaries (GMA/the Company) concluded the nine months ended September 30, 2023 with consolidated revenues reaching ₱13,766 million, which was a tad higher than the previous year's top line, excluding the extraordinary boost from the 2022 national elections. Meanwhile, due to the absence of the windfall from aforesaid political advocacies and advertisements last year, the Company's overall sales performance for the past three quarters this year resulted in a sales reduction of 18% vis-à-vis the robust revenues of ₱16,751 million a year ago.

Income Data	9M 2023 <i>(in millions PhP)</i>	9M 2022 <i>(in millions PhP)</i>	Inc/(Dec) <i>(in millions PhP)</i>	%
Revenues				
Advertising revenue	12,681.56	15,770.05	(3,088.49)	-20%
Consumer sales				
Sale of services	816.66	715.17	101.48	14%
Sale of goods	268.26	266.02	2.24	1%
	13,766.48	16,751.25	(2,984.77)	-18%
Total operating expenses	10,596.70	10,136.29	460.41	5%
EBITDA	4,878.76	8,012.05	(3,133.29)	-39%
Net income	2,466.19	5,121.12	(2,654.92)	-52%
<i>Attributable to Equity Holders of Parent Co.</i>	2,469.55	5,090.25	(2,620.70)	-51%
<i>Noncontrolling Interest</i>	(3.36)	30.86	(34.22)	-111%

Household spending, which is one of the biggest contributors and key drivers of growth in the local economy, has weakened amid elevated inflation and rising borrowing costs. As a result, major fast-moving consumer goods clients of the Company which largely bank on individual purchasing power have likewise scaled down their ad spending.

Nonetheless, a marked improvement was seen in the third quarter of this year for the Company, with consolidated revenues sealing at ₱5,307 million, pulling ahead versus same quarter last year by close to half a billion pesos or up by 10%. Compared to the immediately preceding quarter, an even higher improvement was recorded in the top line this period, equivalent to 19% more than Q2 2023.

With revenues picking up in Q3 this year, nine-months consolidated top line of the Company finished at ₱13,766 million. Advertising revenues remained the lifeblood of the Company, comprising a huge chunk of the total revenue pie. This segment was also the hardest hit due to the absence of election-related placements this year.

The Company's consolidated total costs including cost of sales reached ₱10,597 million by the close of three quarters this year, increasing, albeit at a single-digit rate of 5% versus a year ago. Despite economic challenges, management made a deliberate effort to control expenses while ensuring the Company's commitment to providing high-quality entertainment and responsible news delivery to its viewers remains a priority. Both production and other direct expenses, along with general and administrative costs, showed higher figures compared to the same nine-month period of the previous year. Cost of sales also recorded increases between comparative periods aligned with the growth in the number of units sold for this business segment.

By the close of September this year, consolidated Earnings before interest, taxes, depreciation, and amortization (EBITDA) reached ₱4,879 million, behind previous year's solid figure of ₱8,012 million.

Meanwhile, consolidated Net Income After Tax still managed to reach nearly ₱2.5 billion, ending at ₱2,466 million despite the dearth in political advocacies and advertisements this year.

Revenues

Bereft of additional sales from last year's national and local elections, GMA's consolidated advertising revenues contracted by ₱3,088 million or 20% by the end of nine months this year. Excluding the impact of election-related placements in 2022, regular advertising revenues showed steady recovery particularly during the third quarter but has remained slightly below year-to-date recurring from a year ago.

Revenues	9M 2023 (in millions PhP)	9M 2022 (in millions PhP)	Inc/(Dec) (in millions PhP)	%
Advertising revenues	12,681.56	15,770.05	(3,088.49)	-20%
Consumer sales				
Sale of services	816.66	715.17	101.48	14%
Sale of goods	268.26	266.02	2.24	1%
	13,766.48	16,751.25	(2,984.77)	-18%

Mixed results were seen in the different revenue streams of the Company by the end of three quarters this year. Advertising revenues, which suffered the biggest setback dipped by 20%. On a per platform basis, flagship channel GMA 7 was the hardest hit due to the absence of election-related placements. Nonetheless, ratings-wise, the *Kapuso* Network's flagship channel continued its ratings supremacy during the period with leading newscast *24 Oras* topping the charts. For public affairs, long-running and highly-acclaimed *Kapuso Mo, Jessica Soho* also remained in the forefront of the ratings game. On the side of entertainment programs, the Network has consistently produced top-rating and high caliber soaps. Banner programs for the past nine months this year included culmination of the historical portal fantasy series on weekday primetime *Maria Clara at Ibarra* which did not falter in terms of its double-digit ratings until its finale in February this year, wherein it bade farewell at the top of the ratings chart. The program also consistently trended on Twitter and has been acclaimed by its wide range of audience and has garnered multitude awards for the program and its lead actors and actresses. During the first week of May, the mega-production, *Voltes V: Legacy* was also launched and has consistently occupied the top five post in nationwide ratings. Furthermore, debuting since September last year, the multi-awarded afternoon drama, *Abot Kamay na Pangarap* has already been airing for a year and still going strong in the ratings chart. It was also this year wherein the landmark partnership between GMA and erstwhile rival ABS-CBN came into fruition via the co-production of *Unbreak My Heart* featured in the primetime weekday block starting end of May, with Season 2 still on-going in Q3.

The Company's second free-to-air channel, Good TV or GTV remained staunch in terms of revenue generation. Ratings-wise, the channel was consistently in the top three spot in nationwide ratings for the past three quarters. After nine-months this year, GTV's cumulative top line recorded its highest since it was launched, overtaking comparable period last year's peg by 26%. Biggest revenue contributor for GTV was the weekday primetime movie offering, *G! Flicks*. Minus the impact of political advocacies and advertisements, GTV's revenue upswing from last year was even higher at 41%. For GTV, another GMA-ABS partnership was forged during the third quarter of this year, with the co-production of the latter's noontime show, *It's Showtime*, simultaneously airing in GTV, A2Z and Jeepney TV.

Minus the effect of election-related placements, Radio recorded a 6% improvement versus recurring sales of last year. Nevertheless, compared to same period last year's absolute sales, Radio missed prior year's top line by 19%. *Super Radyo DZBB* was heavily charged with election-related placements a year ago, thus, contributing to the drag this period. Partly mitigating the decline was the sales growth in *DWLS Barangay LS FM* which registered an improvement of 9%.

In operations across the regions, Regional TV (RTV) wrapped up the past nine months of this year also behind last year's top line, attuned to the same discussion on the absence of election-related revenues coming from both national and local placements. On a positive note, in terms of recurring sales, RTV finished three quarters this year at about the same level a year ago. The regional TV operations of the Company continued to expand its reach by launching early this year its 12th regional station in the Philippines and the 5th in Luzon via the local station in Ilocos Norte. This development was aimed at strengthening local news coverage in Ilocos Region and Central Luzon and further solidifying GMA Integrated News' position as the news authority among Filipinos.

The digital terrestrial television (DTT) channels, were able to post a net improvement in their top line by 28% after nine months this year. Political advocacies and advertisements barely affected the DTT channels. For 2023, the Company's DTT channels included Heart of Asia, I Heart Movies, Hallypop and Pinoy Hits, which was just launched in mid-January of this year.

Taking advantage of the changing landscape in viewer behavior and content consumption, online/digital advertising (advertising video on demand or AVOD) of the Network has made continued progress, trumping prior year's top line by a hefty 81%. Furthermore, minus election-related placements in 2022, this segment posted an even higher improvement in recurring sales by 89%.

In other sources, consumer sales recorded an 11% hike, settling over a billion pesos by the end of 9M this year. Biggest chunk of this revenue segment came from subscription revenues from GMA's international channels GMA Pinoy TV, Life TV, and News TV, albeit finishing slightly lower compared to same period last year. The churn in subscriber count influenced the revenue drop in this business segment. Meanwhile, following the popularity of over-the-top (OTT) platforms, particularly subscription video on demand (SVOD), GMA has geared towards leveraging its content to penetrate this market. Along with other content licensing deals, sales of this category was more than four times higher than the top line generated last year. Emerging business, OTT SVOD propelled the growth. These were comprised mainly of licensing deals with Viu and Netflix for the following programs: *Unbreak My Heart*, *The Write One*, *Love Before Sunrise*, and *Maria Clara at Ibarra*. Apart from this, production revenues, which mainly consists of external sales from subsidiaries, grew by 40% for the nine-month period ended this year. The hike mainly came from the top line generated from New Media, Alta, and GMA Music.

To conclude the Company's revenue stream, merchandise sales over the past nine months of the year cumulated to ₱268 million, a tad higher versus previous year – mainly from sales of GMA Affordabox. Foremost driver for the increase was the climb in number of units sold for the set-top box, which registered 12% higher than comparative period in 2022. Despite the notable hike in quantity sold, the revenue growth for GMA Affordabox was only at a single digit due to the permanent price reduction implemented in July of the previous year. Since its launch in mid-2020, GMA Affordabox has sold over 2.7 million units across the country.

Expenses

Cumulative nine months' result this year, consolidated total costs including cost of sales of the Company reached ₱10,597 million, marking an increase of ₱460 million, which translated into a modest single-digit rate of 5% versus a year ago. Direct production cost edged last year by 8% while general and administrative expenses inched up by a negligible 0.2%. Meanwhile, cost of sales grew by 12% in line with the hike in total units sold of the set-top box this period versus three quarters last year.

Operating Expenses	9M 2023 <i>(in millions PhP)</i>	9M 2022 <i>(in millions PhP)</i>	Inc/(Dec) <i>(in millions PhP)</i>	%
Production costs	5,770.25	5,345.76	424.49	8%
Cost of sales	257.08	230.55	26.53	12%
Total Direct Costs	6,027.33	5,576.31	451.02	8%
General and administrative expenses	4,569.37	4,559.99	9.38	0.2%
	10,596.70	10,136.29	460.41	5%

For the past nine months of 2023, the Company's consolidated production costs of ₱5,770 million registered an 8% increase of ₱424 million compared to the previous year. Cash production costs amounted to ₱4,538 million, ahead by a modest 3% from the previous year. Meanwhile, non-cash direct costs surged by 31%, settling at ₱1,232 million, up from ₱940 million a year ago. Amortization of program rights reached ₱888 million, considerably higher by 40% or ₱256 million compared to ₱633 million from the previous year. This rise in program rights amortization was mainly attributed to increased expenses related to rented programs for Ch-7 offerings, Good TV, and the DTT Channels. Finally, depreciation and amortization totaled ₱344 million, showing a 12% increase of ₱36 million compared to the previous year with the continuous DTT expansion projects accounting largely for the increase.

Production Costs	9M 2023 <i>(in millions PhP)</i>	9M 2022 <i>(in millions PhP)</i>	Inc/(Dec) <i>(in millions PhP)</i>	%
Talent fees and production personnel costs	2,979.64	2,782.74	196.90	7%
Rentals and outside services	595.30	386.36	208.94	54%
Other program expenses	963.31	1,236.59	(273.28)	-22%
Sub-total - Cash Production Costs	4,538.25	4,405.68	132.56	3%
Program rights amortization	888.20	632.52	255.69	40%
Depreciation and amortization	343.80	307.56	36.24	12%
Sub-total - Non-cash Production Costs	1,232.00	940.07	291.93	31%
Total production costs	5,770.25	5,345.76	424.49	8%

The Company's consolidated general and administrative expenses (GAEX) by the end of the September this year ended at nearly the same level as last year at ₱4,569 million. Personnel cost which comprised the bulk of this account even resulted in a reduction of ₱59 million or 2% due to lower midyear bonus this period, following the shortfall in revenues. Meanwhile, increases were recorded in Facilities cost, finishing slightly higher by 3% or ₱15 million more, due to the rise in utilities. Taxes and licenses also posted higher payments by 9% as a result of alignment in the tax rate per type of business activity by the local government of Quezon City. These, on the other hand, were offset by the 26% reduction in Outside services.

General and Administrative Expenses	9M 2023 <i>(in millions PhP)</i>	9M 2022 <i>(in millions PhP)</i>	Inc/(Dec) <i>(in millions PhP)</i>	%
Personnel costs	2,754.35	2,813.42	(59.06)	-2%
Facilities costs	440.81	426.03	14.78	3%
Outside services	337.76	380.39	(42.63)	-11%
Taxes and licenses	185.72	170.26	15.46	9%
Others	560.13	519.71	40.42	8%
Subtotal - Cash GAEX	4,278.77	4,309.81	(31.04)	-1%
Depreciation and amortization	259.76	206.00	53.75	26%
Provision for doubtful accounts	0.38	0.38	-	-
Amortization of software costs	30.47	43.80	(13.33)	-30%
Subtotal - Non-cash GAEX	290.60	250.18	40.42	16%
Total GAEX	4,569.37	4,559.99	9.38	0.2%

EBITDA

Due to lukewarm revenues aggravated by increased expenditure, the combined Earnings before interest, taxes, depreciation, and amortization (EBITDA) concluded the first three quarters of this year at ₱4,879 million, equivalent to a 39% decrease of ₱3,133 million from the strong EBITDA of over ₱8-billion recorded in the previous year.

Net Income

Likewise, Net Income After Tax by the end of the nine-month period this 2023 settled at ₱2,466 million, compared to the impressive bottom-line results of the previous year of ₱5,121 million.

Balance Sheet Accounts

As at end-September 2023, the Group's total consolidated assets stood at ₱25,777 million, exhibiting an increase of 4% or ₱1,047 million from December 31, 2022's ₱24,729 million.

Cash and cash equivalents amounting to ₱3,188 million climbed by ₱333 million or 12% from 2022 balance of ₱2,855 million as a result of higher net cash flows provided by operating activities which, as of September 30, 2023 amounted to ₱4,207 million. This was partially netted by acquisition of property and equipment and software costs during the nine-month period of 2023 amounting to ₱929 million and net payment of dividends and short-term loans amounting to ₱2,956 million. Program and other rights closed at ₱2,255 million, up ₱776 million or 52% versus end-2022's ₱1,479 million due to significant acquisitions of various program rights in between reporting periods.

Meanwhile, total consolidated liabilities also hiked by 43% or ₱3,955 million as at end of 3rd quarter of 2023 to ₱13,218 million from ₱9,263 million as at end-December in 2022, consequent to the increase in Short-term loans payable and Trade payables and other current liabilities by ₱2,485 million and ₱842 million, respectively. In addition, Obligation for program and other rights also grew in between reporting periods due to higher film and story rights acquisitions. Pension liability also climbed by ₱467 million or 10% to ₱5,234 million as of end-September 2023 as accruals were higher than the contributions made to the fund.

Equity attributable to Parent Company's stockholders of ₱12,503 million as at September 30, 2023 decreased by 19% or ₱2,886 million from December 31, 2022, directly due to declaration of cash dividends during the 2nd quarter of 2023 partially netted by the net income after tax earned for the first nine months of the year.

Cash Flows

Cash Flows	9M 2023 <i>(in millions PhP)</i>	9M 2022 <i>(in millions PhP)</i>
Net cash provided by operating activities	4,207.47	6,463.56
Net cash used in investing activities	(928.64)	(750.74)
Net cash used in financing activities	(2,955.61)	(7,286.30)
Effect of exchange rate changes on cash and cash equivalents	9.64	16.99
Net increase (decrease) in cash and cash equivalents	332.86	(1,556.49)
Cash and cash equivalents at beginning of year	2,855.47	4,793.57
Cash and cash equivalents at end of the period	3,188.33	3,237.08

Operating Activities

Net cash provided by operating activities measured at ₱4,207 million in 9M 2023. This stemmed from income before income tax of ₱3,287 million, adjusted mainly for Program rights usage of ₱888 million, Depreciation expense of ₱604 million, Interest expense of ₱98 million, Amortization of software costs of ₱30 million, Gain on sale of property and equipment of ₱29 million and Interest income amounting to ₱28 million, apart from the changes in working capital. The primary component of the changes in working capital included the ₱312 million and ₱262 million decreases in Trade and other receivables and inventory, respectively, plus the ₱835 million increase in Trade payables and other current liabilities.

Investing Activities

Net cash used in investing activities amounted to ₱929 million, coming primarily from the ₱860 million additions to Property and equipment and ₱50 million increase in Other noncurrent assets. These were partly offset by the ₱31 million proceeds from property sales.

Financing Activities

Net cash used in financing activities amounted to ₱2,956 million basically due to payment of cash dividends and short-term loans of ₱5,359 million and ₱1,015 million cushioned by the ₱3,500 million proceeds from loan availments.

Key Financial Performance Indicators

The key financial performance indicators that the Company monitors are the following:

Key Performance Indicators	9M 2023 <i>(in millions PhP)</i>	9M 2022 <i>(in millions PhP)</i>	Inc/(Dec) <i>(in millions PhP)</i>	%
Revenues	13,766.48	16,751.25	(2,984.77)	-18%
Advertising revenues	12,681.56	15,770.05	(3,088.49)	-20%
Cash operating expenses	9,074.10	8,946.04	128.06	1%
EBITDA	4,878.76	8,012.05	(3,133.29)	-39%
Net income before tax	3,286.82	6,818.60	(3,531.79)	-52%
Net income after tax	2,466.19	5,121.12	(2,654.92)	-52%

Key Performance Indicators	9M 2023	9M 2022	Inc/(Dec)	%
Current ratio	1.89	2.77	(0.87)	-32%
Asset-to-Equity ratio	2.05	1.84	0.21	11%
Interest Coverage Ratio	34.39	371.62	(337.23)	-91%
Gross Profit Margin	56%	67%	(0.10)	-16%
EBITDA Margin	35%	48%	(0.12)	-26%
Net Income Margin	18%	31%	(0.13)	-41%

See accompanying Notes to Consolidated Financial Statements.

GMA NETWORK, INC. AND SUBSIDIARIES
NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS

1. Corporate Information

GMA Network, Inc. (GNI or the Parent Company) and its subsidiaries (collectively referred to as “the Group”) are incorporated in the Philippines. The Group is primarily involved in the business of radio and television broadcasting. The Group is also involved in film production and other information and entertainment-related businesses. The Parent Company was registered with the Philippine Securities and Exchange Commission (SEC) on June 14, 1950. On July 20, 1995, the Board of Directors (BOD) approved the extension of the corporate term of the Parent Company for another 50 years from June 14, 2000. In 1997, the SEC approved the said extension.

The Parent Company’s shares of stock are publicly listed and traded in the Philippine Stock Exchange.

The registered office address of the Parent Company is GMA Network Center, Timog Avenue corner EDSA, Quezon City.

2. Basis of Preparation

Basis of Preparation

The consolidated financial statements of the Group have been prepared on a historical cost basis, except for financial assets at fair value through other comprehensive income (FVOCI) and land at revalued amounts, which are measured at fair value. The consolidated financial statements are presented in Philippine peso, which is the Parent Company’s functional and presentation currency. All values are rounded to the nearest peso, except when otherwise indicated.

Statement of Compliance

The Group’s consolidated financial statements have been prepared in compliance with Philippine Financial Reporting Standards (PFRS).

Basis of Consolidation

The consolidated financial statements comprise the financial statements of the Parent Company and its subsidiaries as at September 30, 2023 and December 31, 2022 and for each of the two years in the period ended September 30, 2023. The Group controls an investee if, and only if, the Group has:

- Power over the investee (i.e., existing rights that give it the current ability to direct the relevant activities of the investee);
- Exposure, or rights, to variable returns from its involvement with the investee; and
- The ability to use its power over the investee to affect its returns.

Generally, there is a presumption that a majority of voting rights results in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee
- Right arising from other contractual arrangements
- The Group’s voting rights and potential voting rights

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control.

Consolidation of a subsidiary begins when the Company obtains control over the subsidiary and ceases when the Company loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of comprehensive income from the date the Company gains control until the date the Company ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the Parent Company and to the non-controlling interests (NCI), even if this results in the NCI having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Parent Company's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

If the Company loses control over a subsidiary, it derecognizes the related assets (including goodwill), liabilities, NCI and other components of equity while any resultant gain or loss is recognized in the consolidated statement of comprehensive income. Any investment retained is recognized at fair value.

NCI represents the portion of profit or loss and the net assets not held by owners of the Parent Company and are presented separately in the consolidated statement of comprehensive income and within equity in the consolidated statements of financial position, separately from equity attributable to holders of the Parent Company. NCI shares in losses even if the losses exceed the non-controlling equity interest in the subsidiary. NCI represents the equity interest in RGMA Network, Inc. (RGMA Network), a subsidiary incorporated in the Philippines with principal place of business at GMA Network Center, Timog Avenue corner EDSA Quezon City.

The consolidated financial statements include additional information about subsidiary that have NCI that are material to the Parent Company. Management determined material partly-owned subsidiary as those with greater than 5% of non-controlling interests and/or subsidiaries whose activities are important to the Group as at end of the year.

The consolidated financial statements include the accounts of the Parent Company and the following subsidiaries as at September 30, 2023 and December 31, 2022:

Principal Activities		Percentage of Ownership	
		Direct	Indirect
Entertainment Business:			
Alta Productions Group, Inc. (Alta)	Pre- and post-production services	100	—

***Indirectly owned through GNMI			
****Indirectly owned through GNMI; ceased commercial operations in 2020			
*****Indirectly owned through Alta; ceased commercial operations in 2004			

Changes in Accounting Policies and Disclosures

The accounting policies adopted are consistent with those of the previous financial year, except for the adoption of new standards effective in 2022. The Group has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

Unless otherwise indicated, adoption of these new standards did not have an impact on the financial statements of the Group.

Effective beginning on or after January 1, 2022

- Amendments to PFRS 3, *Reference to the Conceptual Framework*

The amendments are intended to replace a reference to the Framework for the Preparation and Presentation of Financial Statements, issued in 1989, with a reference to the Conceptual Framework for Financial Reporting issued in March 2018 without significantly changing its requirements. The amendments added an exception to the recognition principle of PFRS 3, *Business Combinations* to avoid the issue of potential 'day 2' gains or losses arising for liabilities and contingent liabilities that would be within the scope of PAS 37, *Provisions, Contingent Liabilities and Contingent Assets* or Philippine-IFRIC 21, *Levies*, if incurred separately.

At the same time, the amendments add a new paragraph to PFRS 3 to clarify that contingent assets do not qualify for recognition at the acquisition date.

The amendments are effective for annual reporting periods beginning on or after January 1, 2022 and apply prospectively.

- Amendments to PAS 16, *Plant and Equipment: Proceeds before Intended Use*

The amendments prohibit entities deducting from the cost of an item of property, plant and equipment, any proceeds from selling items produced while bringing that asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Instead, an entity recognizes the proceeds from selling such items, and the costs of producing those items, in profit or loss.

The amendment is effective for annual reporting periods beginning on or after January 1, 2022 and must be applied retrospectively to items of property, plant and equipment made available for use on or after the beginning of the earliest period presented when the entity first applies the amendment.

- Amendments to PAS 37, *Onerous Contracts - Costs of Fulfilling a Contract*

The amendments specify which costs an entity needs to include when assessing whether a contract is onerous or loss-making. The amendments apply a “directly related cost approach”. The costs that relate directly to a contract to provide goods or services include both incremental costs and an allocation of costs directly related to contract activities. General and administrative costs do not relate directly to a contract and are excluded unless they are explicitly chargeable to the counterparty under the contract.

The amendments are effective for annual reporting periods beginning on or after January 1, 2022.

- Annual Improvements to PFRSs 2018-2020 Cycle

- Amendments to PFRS 1, *First-time Adoption of Philippine Financial Reporting Standards, Subsidiary as a first-time adopter*

The amendment permits a subsidiary that elects to apply paragraph D16(a) of PFRS 1 to measure cumulative translation differences using the amounts reported by the parent, based on the parent’s date of transition to PFRS. This amendment is also applied to an associate or joint venture that elects to apply paragraph D16(a) of PFRS 1.

The amendment is effective for annual reporting periods beginning on or after January 1, 2022 with earlier adoption permitted.

- Amendments to PFRS 9, *Financial Instruments, Fees in the ‘10 per cent’ test for derecognition of financial liabilities*

The amendment clarifies the fees that an entity includes when assessing whether the terms of a new or modified financial liability are substantially different from the terms of the original financial liability. These fees include only those paid or received between the borrower and the lender, including fees paid or received by either the borrower or lender on the other’s behalf. An entity applied the amendment to financial liabilities that are modified or exchanged on or after the beginning of the annual reporting period in which the entity first applies the amendment.

The amendment is effective for annual reporting periods beginning on or after January 1, 2022 with earlier adoption permitted. The Group applied the amendments to financial liabilities that are modified or exchanged on or after the beginning of the annual reporting period in which the entity first applies the amendment.

- Amendments to PAS 41, *Agriculture, Taxation in fair value measurements*

The amendment removes the requirement in paragraph 22 of PAS 41 that entities exclude cash flows for taxation when measuring the fair value of assets within the scope of PAS 41.

An entity applied the amendment prospectively to fair value measurements on or after the beginning of the first annual reporting period beginning on or after January 1, 2022 with earlier adoption permitted.

Standards Issued but not yet Effective

Pronouncements issued but not yet effective are listed below. The Group intends to adopt the following pronouncements when they become effective. Unless otherwise indicated, the Group does not expect that the future adoption of the said pronouncements will have a significant impact on its financial statements.

Effective beginning on or after January 1, 2023

- Amendments to PAS 12, *Deferred Tax related to Assets and Liabilities arising from a Single Transaction*

The amendments narrow the scope of the initial recognition exception under PAS 12, so that it no longer applies to transactions that give rise to equal taxable and deductible temporary differences.

The amendments also clarify that where payments that settle a liability are deductible for tax purposes, it is a matter of judgement (having considered the applicable tax law) whether such deductions are attributable for tax purposes to the liability recognized in the financial statements (and interest expense) or to the related asset component (and interest expense).

An entity applies the amendments to transactions that occur on or after the beginning of the earliest comparative period presented for annual reporting periods on or after January 1, 2023.

The Group is currently assessing the impact of adopting these amendments.

- Amendments to PAS 8, *Definition of Accounting Estimates*

The amendments introduce a new definition of accounting estimates and clarify the distinction between changes in accounting estimates and changes in accounting policies and the correction of errors. Also, the amendments clarify that the effects on an accounting estimate of a change in an input or a change in a measurement technique are changes in accounting estimates if they do not result from the correction of prior period errors.

An entity applies the amendments to changes in accounting policies and changes in accounting estimates that occur on or after January 1, 2023 with earlier adoption permitted.

- Amendments to PAS 1 and PFRS Practice Statement 2, *Disclosure of Accounting Policies*

The amendments provide guidance and examples to help entities apply materiality judgements to accounting policy disclosures. The amendments aim to help entities provide accounting policy disclosures that are more useful by:

- Replacing the requirement for entities to disclose their ‘significant’ accounting policies with a requirement to disclose their ‘material’ accounting policies, and
- Adding guidance on how entities apply the concept of materiality in making decisions about accounting policy disclosures

The amendments to the Practice Statement provide non-mandatory guidance. Meanwhile, the amendments to PAS 1 are effective for annual periods beginning on or after January 1, 2023. Early application is permitted as long as this fact is disclosed.

The Group is currently assessing the impact of adopting these amendments.

Effective beginning on or after January 1, 2024

- Amendments to PAS 1, *Classification of Liabilities as Current or Non-current*

The amendments clarify paragraphs 69 to 76 of PAS 1, *Presentation of Financial Statements*, to specify the requirements for classifying liabilities as current or non-current. The amendments clarify:

- What is meant by a right to defer settlement
- That a right to defer must exist at the end of the reporting period
- That classification is unaffected by the likelihood that an entity will exercise its deferral right
- That only if an embedded derivative in a convertible liability is itself an equity instrument would the terms of a liability not impact its classification

The amendments are effective for annual reporting periods beginning on or after January 1, 2023 and must be applied retrospectively. However, in November 2021, the International Accounting Standards Board (IASB) tentatively decided to defer the effective date to no earlier than January 1, 2024.

The Group is currently assessing the impact of adopting these amendments.

- Amendments to PFRS 16, *Lease Liability in a Sale and Leaseback*

The amendments specify how a seller-lessee measures the lease liability arising in a sale and leaseback transaction in a way that it does not recognize any amount of the gain or loss that relates to the right of use retained.

The amendments are effective for annual reporting periods beginning on or after January 1, 2024 and must be applied retrospectively. Earlier adoption is permitted and that fact must be disclosed.

The Group is currently assessing the impact of adopting these amendments.

Effective beginning on or after January 1, 2025

- PFRS 17, *Insurance Contracts*

PFRS 17 is a comprehensive new accounting standard for insurance contracts covering recognition and measurement, presentation and disclosure. Once effective, PFRS 17 will replace PFRS 4, *Insurance Contracts*. This new standard on insurance contracts applies to all types of insurance contracts (i.e., life, non-life, direct insurance and re-insurance), regardless of the type of entities that issue them, as well as to certain guarantees and financial instruments with discretionary participation features. A few scope exceptions will apply.

The overall objective of PFRS 17 is to provide an accounting model for insurance contracts that is more useful and consistent for insurers. In contrast to the requirements in PFRS 4, which are largely based on grandfathering previous local accounting policies, PFRS 17 provides a comprehensive model for insurance contracts, covering all relevant accounting aspects. The core of PFRS 17 is the general model, supplemented by:

- A specific adaptation for contracts with direct participation features (the variable fee approach)
- A simplified approach (the premium allocation approach) mainly for short-duration contracts

On December 15, 2021, the FRSC amended the mandatory effective date of PFRS 17 from January 1, 2023 to January 1, 2025. This is consistent with Circular Letter No. 2020-62 issued by the Insurance Commission which deferred the implementation of PFRS 17 by two (2) years after its effective date as decided by the IASB.

PFRS 17 is effective for reporting periods beginning on or after January 1, 2025, with comparative figures required. Early application is permitted.

PFRS 17 is not applicable to the Group since it is not engaged in providing insurance nor issuing insurance contracts.

Deferred effectivity

- Amendments to PFRS 10, *Consolidated Financial Statements*, and PAS 28, *Sale or Contribution of Assets between an Investor and its Associate or Joint Venture*

The amendments address the conflict between PFRS 10 and PAS 28 in dealing with the loss of control of a subsidiary that is sold or contributed to an associate or joint venture. The amendments clarify that a full gain or loss is recognized when a transfer to an associate or joint venture involves a business as defined in PFRS 3. Any gain or loss resulting from the sale or contribution of assets that does not constitute a business, however, is recognized only to the extent of unrelated investors' interests in the associate or joint venture.

On January 13, 2016, the Financial Reporting Standards Council deferred the original effective date of January 1, 2016 of the said amendments until the IASB completes its broader review of the research project on equity accounting that may result in the simplification of accounting for such transactions and of other aspects of accounting for associates and joint ventures.

The Group is currently assessing the impact of adopting these amendments.

3. Summary of Significant Accounting and Financial Reporting Policies

Current versus Noncurrent Classification

The Group presents assets and liabilities in consolidated statement of financial position based on current/noncurrent classification.

An asset is current when it is:

- expected to be realized or intended to be sold or consumed in normal operating cycle;
- held primarily for the purpose of trading;
- expected to be realized within twelve months after the reporting period; or
- cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as noncurrent.

A liability is current when:

- it is expected to be settled in normal operating cycle;
- it is held primarily for the purpose of trading;
- it is due to be settled within twelve months after the reporting period; or
- there is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as noncurrent.

Deferred tax assets and liabilities are classified as noncurrent assets and liabilities, respectively.

The Group also modifies classification of prior year amounts to conform to current year's presentation.

Cash and Cash Equivalents

Cash includes cash on hand and in banks. Cash equivalents are short-term highly liquid investments that are readily convertible to known amounts of cash with original maturities of six months or less from acquisition date and that are subject to an insignificant risk of change in value.

Fair Value Measurement

The Group measures financial instruments at fair value at each reporting date. Fair value related disclosures for financial instruments and non-financial assets that are measured at fair value or where fair values are disclosed, are summarized in the following notes:

- Disclosures for significant estimates and assumptions, see Note 4
- Quantitative disclosures of fair value measurement hierarchy, see Note 33
- Land, see Note 16
- Investment properties, see Note 17
- Financial instruments (including those carried at amortized cost), see Note 33

Fair value is the estimated price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- in the principal market for the asset or liability; or
- in the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the consolidated financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by reassessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

“Day 1” Difference

Where the transaction price in a non-active market is different from the fair value of other observable current market transactions in the same instrument or based on a valuation technique whose variables include only data from observable market, the Group recognizes the difference between the transaction price and fair value (a “Day 1” difference) in the consolidated statement of comprehensive income unless it qualifies for recognition as some other type of asset. In cases where the data used is not observable, the difference between the transaction price and model value is only recognized in profit or loss when the inputs become observable or when the instrument is derecognized. For each transaction, the Group determines the appropriate method of recognizing the “Day 1” difference amount.

Financial Instruments

A financial instrument is any contract that give rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial Assets

Initial Recognition and Measurement. Financial assets are classified, at initial recognition, as subsequently measured at amortized cost, FVOCI, and fair value through profit or loss (FVPL).

The classification of financial assets at initial recognition depends on the financial asset’s contractual cash flow characteristics and the Group’s business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient, the Group initially measures a financial asset at its fair value plus, in the case of a financial asset not at FVPL, transaction costs. Trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient are measured at the transaction price determined under PFRS 15, *Revenue from Contracts with Customers*.

In order for a financial asset to be classified and measured at amortized cost or FVOCI, it needs to give rise to cash flows that are ‘solely payments of principal and interest’ (SPPI) on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level.

The Group’s business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognized on the trade date, i.e., the date that the Group commits to purchase or sell the asset.

Subsequent Measurement. For purposes of subsequent measurement, financial assets are classified in four categories:

- financial assets at amortized cost (debt instruments)
- financial assets at FVOCI with recycling of cumulative gains and losses (debt instruments)
- financial assets designated at FVOCI with no recycling of cumulative gains and losses upon derecognition (equity instruments)
- financial assets at FVPL

The Group does not have debt instruments at FVOCI and financial assets at FVPL as at September 30, 2023 and December 31, 2022.

Financial Assets at Amortized Cost (Debt Instruments). The Group measures financial assets at amortized cost if both of the following conditions are met:

- The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are SPPI on the principal amount outstanding.

Financial assets at amortized cost are subsequently measured using the effective interest rate (EIR) method and are subject to impairment. Gains and losses are recognized in the consolidated statement of comprehensive income when the asset is derecognized, modified or impaired.

The Group's financial assets at amortized cost includes cash and cash equivalents, trade and other receivables and refundable deposits (included under "Other noncurrent assets" account in the consolidated statement of financial position) as at September 30, 2023 and December 31, 2022 (see Notes 8, 9, 18 and 33).

Financial Assets Designated at FVOCI (Equity Instruments). Upon initial recognition, the Group can elect to classify irrevocably its equity investments as equity instruments designated at FVOCI when they meet the definition of equity under PAS 32, *Financial Instruments: Presentation*, and are not held for trading. The classification is determined on an instrument-by-instrument basis.

Gains and losses on these financial assets are never recycled to profit or loss. Dividends are recognized as "Dividend income" included under "Others - Net" account in the consolidated statement of comprehensive income when the right of payment has been established, except when the Group benefits from such proceeds as a recovery of part of the cost of the financial asset, in which case, such gains are recorded in OCI. Equity instruments designated at FVOCI are not subject to impairment assessment.

The Group elected to classify irrevocably under this category its listed and non-listed equity instruments and investment in quoted club shares as at September 30, 2023 and December 31, 2022 (see Notes 13 and 33).

Derecognition of Financial Assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognized (i.e., removed from the Group's consolidated statement of financial position) when:

- the rights to receive cash flows from the asset have expired; or
- the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognize the transferred asset to the extent of its continuing involvement. In that case, the Group also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

Impairment of Financial Assets

The Group recognizes an allowance for ECLs for all debt instruments not held at FVPL. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original EIR. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECLs are recognized in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

For trade receivables, the Group applies a simplified approach in calculating ECLs. Therefore, the Group does not track changes in credit risk, but instead recognizes a loss allowance based on lifetime ECLs at each reporting date. The Group has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

For other financial assets such as due from related parties and advances to associates and joint ventures, the Group applies a general approach which measures ECL on either a 12-month or lifetime basis depending on whether a significant increase in credit risks has occurred since initial recognition or whether an asset is considered to be credit-impaired, adjusted for the effects of collateral, forward-looking factors and time value of money.

For cash and cash equivalents, the Group applies the low credit risk simplification. At every reporting date, the Group evaluates whether the debt instrument is considered to have low credit risk using all reasonable and supportable information that is available without undue cost or effort. In making that evaluation, the Group reassesses the external credit rating of the debt instrument or comparable instruments.

The Group, in general, considers a financial asset in default when contractual payments are 90 days past due. However, in certain cases, the Group may also consider a financial asset to be in default when internal or external information indicates that the Group is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group. A financial asset is written off, in whole or in part, when the asset is considered uncollectible, the Group has exhausted all practical recovery efforts and has concluded that it has no reasonable expectations of recovering the financial asset in its entirety or a portion thereof.

Financial Liabilities

Initial Recognition and Measurement. Financial liabilities are classified, at initial recognition, as financial liabilities at FVPL, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Group's financial liabilities include trade payables and other current liabilities (excluding payable to government agencies, customers' deposits and contract liabilities), short-term loans, obligations for program and other rights, dividends payable and lease liabilities.

Subsequent Measurement. The measurement of financial liabilities depends on their classification, as described below:

Financial Liabilities at FVPL. Financial liabilities at FVPL include financial liabilities held for trading and financial liabilities designated upon initial recognition as at FVPL. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationships as

defined by PFRS 9. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognized in the consolidated statement of comprehensive income.

Financial liabilities designated upon initial recognition at FVPL are designated at the initial date of recognition, and only if the criteria in PFRS 9 are satisfied. The Group has not designated any financial liability as at FVPL as at September 30, 2023 and December 31, 2022.

Loans and Borrowings. After initial recognition, interest-bearing loans and borrowings and other payables are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the EIR amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as “Interest expense” in the consolidated statement of comprehensive income.

This category generally applies to trade payables and other current liabilities (excluding payable to government agencies, customers’ deposits and contract liabilities), short-term loans, obligations for program and other rights, dividends payable and lease liabilities (see Notes 19, 20, 21 and 33).

Derecognition of Financial Liabilities

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the consolidated statement of comprehensive income.

Classification of Financial Instruments Between Liability and Equity

A financial instrument is classified as liability if it provides for a contractual obligation to:

- deliver cash or another financial asset to another entity;
- exchange financial assets or financial liabilities with another entity under conditions that are potentially unfavorable to the Group; or
- satisfy the obligation other than by the exchange of a fixed amount of cash or another financial asset for a fixed number of own equity shares.

If the Group does not have an unconditional right to avoid delivering cash or another financial asset to settle its contractual obligation, the obligation meets the definition of a financial liability.

The components of issued financial instruments that contain both liability and equity elements are accounted for separately, with the equity component being assigned the residual amount after deducting from the instrument as a whole the amount separately determined as the fair value of the liability component on the date of issue.

Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount is reported in the consolidated statement of financial position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously. The Group assesses that it has a currently enforceable right of offset if the right is not contingent on a future event, and is legally enforceable in the normal course of business, event of default, and event of insolvency or bankruptcy of the Group and all of the counterparties.

Program and Other Rights

Program and other rights with finite lives are stated at cost less amortization and impairment in value. The estimated useful lives and the amortization method used depend on the manner and pattern of usage of the acquired rights. The cost of program and other rights with multiple number of runs within a specified term is amortized using straight line method up to the date of expiry.

From September 1, 2019, the Group changed its accounting policy for amortizing the cost of program and other rights with no definite expiration from accelerated method based on the sum of the year's digit of ten years with salvage value of 10% of the total cost to straight-line method over ten years based on the current book values so as to allow recognition of amortization equally and to be consistent with the method of amortizing program rights with multiple number of runs within a specified term. Management takes the view that this policy provides reliable and more relevant information because it is reflective of the pattern of consumption of program rights.

Amortization expense is shown as "Program and other rights usage" included under "Production costs" account in the consolidated statement of comprehensive income.

For series of rights acquired, the cost is charged to profit or loss as each series is aired on a per episode basis.

For rights intended for airing over the international channels, the cost is amortized on a straight-line basis over the number of years indicated in the contract.

Prepaid Production Costs

Prepaid production costs, included under "Prepaid expenses and other current assets" account in the consolidated statement of financial position, represent costs paid in advance prior to the airing of the programs or episodes. These costs include talent fees of artists and production staff and other costs directly attributable to production of programs. These are charged to expense under "Production costs" account in the consolidated statement of comprehensive income upon airing of the related program or episodes. Costs related to previously taped episodes determined not to be aired are charged to expense.

Inventories

Merchandise inventory and materials and supplies inventory, included under "Prepaid expenses and other current assets" account in the consolidated statement of financial position, is stated at the lower of cost and net realizable value. Cost is determined using the weighted average method. Net realizable value of inventories that are for sale is the estimated selling price in the ordinary course of business, less the estimated costs necessary to make the sale. Net realizable value of inventories not held for sale is the current replacement cost.

Tax Credits

Tax credits represent claims from the government arising from airing of government commercials and advertisements availed under Presidential Decree (PD) No. 1362. Pursuant to PD No. 1362, these will be collected in the form of tax credits which the Group can use in paying for import duties and taxes on imported broadcasting related equipment. The tax credits cannot be used to pay for any other tax obligation to the government.

As at September 30, 2023 and December 31, 2022, the Group's tax credits are classified as current under "Prepaid expenses and other current assets" account in the consolidated statement of financial position.

Advances to Suppliers

Advances to suppliers, included under "Prepaid expenses and other current assets" account in the consolidated statement of financial position, are noninterest-bearing and are generally applied to acquisition of inventories, programs and other rights, availments of services and others.

Property and Equipment

Property and equipment, except for land, are stated at cost, net of accumulated depreciation and amortization and impairment losses, if any. Such cost includes the cost of replacing part of the property and equipment and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of property and equipment are required to be replaced at intervals, the Group recognizes such parts as individual assets with specific useful lives and depreciates them accordingly. All other repair and maintenance costs are recognized in profit or loss as incurred.

Land is measured at fair value less accumulated impairment losses, if any, recognized after the date of the revaluation. Valuations are generally performed every three to five years or more frequently as deemed necessary to ensure that the fair value of a revalued asset does not differ materially from its carrying amount.

Any revaluation surplus is recorded in other comprehensive income and hence, credited to the “Revaluation increment on land - net of tax” account under equity, except to the extent that it reverses a revaluation decrease of the same asset previously recognized in profit or loss, in which case, the increase is recognized in profit or loss. A revaluation deficit is recognized in profit or loss, except to the extent that it offsets an existing surplus on the same asset recognized in the “Revaluation increment on land - net of tax” account.

Depreciation and amortization are computed on a straight-line basis over the following estimated useful lives of the assets:

Buildings, towers and improvements	11-20 years
Antenna and transmitter systems and broadcast equipment	5-10 years
Communication and mechanical equipment	3-5 years
Transportation equipment	4-5 years
Furniture, fixtures and equipment	5 years

An item of property and equipment and any significant part initially recognized is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss when the asset is derecognized.

The assets’ residual values, useful lives and methods of depreciation and amortization are reviewed at each financial year-end and adjusted prospectively, if appropriate.

Fully depreciated assets are retained in the accounts until they are no longer in use and no further depreciation and amortization is credited or charged to current operations.

Construction in progress is stated at cost. This includes cost of construction, equipment under installation and other direct costs. Construction in progress is not depreciated until such time as the relevant assets are completed and put into operational use.

Investment Properties

Investment properties consist of real estate held for capital appreciation and rental.

Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties, except land, are measured at cost less accumulated depreciation and amortization and impairment in value. Land is stated at cost less any impairment in value.

Depreciation and amortization are computed using the straight-line method over 11-20 years.

The remaining useful lives and depreciation and amortization method are reviewed and adjusted, if appropriate, at each financial year-end.

Investment properties are derecognized when either they have been disposed of or when the investment properties are permanently withdrawn from use and no future economic benefits are expected from its disposal. Any gains or losses on the retirement or disposal of an investment property are recognized in profit or loss in the period of derecognition.

Transfers are made to or from investment property only when there is a change in use. For a transfer from investment property to owner-occupied property, the deemed cost for subsequent accounting is the fair value at the date of change in use. If owner-occupied property becomes an investment property, the Group accounts for such property in accordance with the policy stated under property and equipment up to the date of change in use.

Investment in Artworks

Investment in artworks, included under “Other noncurrent assets” account in the consolidated statement of financial position, is stated at cost less any impairment in value.

Software Costs

Costs incurred in the acquisition and customization of new software, included under “Other noncurrent assets” account in the consolidated statement of financial position, are capitalized and amortized on a straight-line basis over three to ten years.

Impairment of Nonfinancial Assets

The carrying values of program and other rights, prepaid production costs, deferred production costs, tax credits, investments and advances, property and equipment, right-of-use assets, investment properties, software costs and investment in artworks are reviewed for impairment when events or changes in circumstances indicate that the carrying values may not be recoverable. If any such indication exists, and if the carrying value exceeds the estimated recoverable amount, the assets are considered impaired and are written down to their recoverable amount. The recoverable amount of these nonfinancial assets is the greater of an asset’s or cash-generating unit’s fair value less cost to sell or value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or group of assets. The fair value less cost to sell is the amount obtainable from the sale of an asset in an arm’s length transaction less cost to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For an asset that does not generate largely independent cash inflows, the recoverable amount is determined for the cash generating unit (CGU) to which the asset belongs. Impairment losses, if any, are recognized in profit or loss in the consolidated statement of comprehensive income in those expense categories consistent with the function of the impaired asset.

An assessment is made at each reporting period as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If any such indication exists, the recoverable amount is estimated. A previously recognized impairment loss, except for land at revalued amount where the revaluation is taken to OCI, is reversed only if there has been a change in the estimates used to determine the asset’s recoverable amount since the last impairment loss was recognized. If that is the case, the carrying amount of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of depreciation and amortization, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in profit or loss. After such a reversal, the depreciation and amortization charges are adjusted in future periods to allocate the asset’s revised carrying amount, less any residual value, on a systematic basis over its remaining useful life. For land at revalued amounts, the reversal of impairment is also recognized in OCI up to the amount of any previous revaluation.

In the case of investments in associate and interests in joint ventures, after application of the equity method, the Group determines whether it is necessary to recognize any additional impairment loss with respect to the Group’s

investments in associate and interests in joint ventures. The Group determines at each reporting period whether there is any objective evidence that the investments in associate and interests in joint ventures are impaired. If this is the case, the Group calculates the amount of impairment as being the difference between the recoverable amount of investments in associate and interests in joint ventures, and the acquisition cost and recognizes the amount in the consolidated statement of comprehensive income.

Investments in an Associate and Joint Ventures

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies.

A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

The considerations made in determining significant influence or joint control are similar to those necessary to determine control over subsidiaries.

The Group's investments in its associate and joint ventures are accounted for using the equity method.

Under the equity method, the investment in an associate or a joint venture is initially recognized at cost. The carrying amount of the investment is adjusted to recognize changes in the Group's share of net assets of the associate or joint venture since the acquisition date.

Goodwill relating to the associate or joint venture is included in the carrying amount of the investment and is not tested for impairment individually.

The Group's share of the results of operations of the associate or joint venture is included in profit or loss. Any change in OCI of those investees is presented as part of the Group's OCI. In addition, when there has been a change recognized directly in the equity of the associate or joint venture, the Group recognizes its share of any changes, when applicable, in the consolidated statement of changes in equity. Unrealized gains and losses resulting from transactions between the Group and the associate or joint venture are eliminated to the extent of the interest in the associate or joint venture.

The aggregate of the Group's share of profit or loss of an associate and a joint venture is shown on the face of the consolidated statement of comprehensive income outside operating profit and represents profit or loss after tax and NCI in the subsidiaries of the associate or joint venture.

If the Group's share of losses of an associate or a joint venture equals or exceeds its interest in the associate or joint venture, the Group discontinues recognizing its share of further losses.

The financial statements of the associate or joint venture are prepared for the same reporting period as the Group. When necessary, adjustments are made to bring the accounting policies in line with those of the Group.

After application of the equity method, the Group determines whether it is necessary to recognize an impairment loss on its investment in associate or joint venture. At each reporting date, the Group determines whether there is objective evidence that the investment in the associate or joint venture is impaired. If there is such evidence, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate or joint venture and its carrying value, and then recognizes the loss under "Equity in net earnings (losses) of joint ventures" in the consolidated statement of comprehensive income.

Upon loss of significant influence over the associate or joint control over the joint venture, the Group measures and recognizes any retained investment at its fair value. Any difference between the carrying amount of the associate or joint venture upon loss of significant influence or joint control and the fair value of the retained investment and proceeds from disposal is recognized in the consolidated statement of comprehensive income.

Equity

Capital stock is measured at par value for all shares issued. Incremental costs incurred directly attributable to the issuance of new shares are shown in equity as a deduction from proceeds, net of tax. Proceeds and/or fair value of considerations received in excess of par value are recognized as additional paid-in capital.

Retained earnings include all current and prior period results of operations as reported in the consolidated statement of comprehensive income, net of any dividend declaration, adjusted for the effects of changes in accounting policies as may be required by PFRS' transitional provisions.

Treasury Stocks and Underlying Shares of the Acquired Philippine Deposit Receipts (PDRs)

The Parent Company's own reacquired equity instruments are deducted from equity. No gain or loss is recognized in the consolidated statement of comprehensive income on the purchase, sale, issuance or cancellation of the Group's own equity instruments.

The Parent Company's ownership of the PDRs are presented similar to treasury shares in the consolidated statement of financial position. Each PDR entitles the holder to the economic interest of the underlying common share of the Parent Company.

Dividends on Common Shares of the Parent Company

Dividends on common shares are recognized as liability and deducted from equity when approved by the BOD of the Parent Company. Dividends for the year that are approved after reporting period are dealt with as an event after reporting period.

Revenue Recognition

a. *PFRS 15, Revenue from Contracts with Customers*

Revenue from contracts with customers is recognized when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services. The Group assesses its revenue arrangements against specific criteria to determine if it is acting as principal or agent. The Group has generally concluded that it is the principal in its revenue arrangements because it typically controls the goods or services before transferring them to the customer.

Revenue is recognized when the Group satisfies a performance obligation by transferring a promised good or service to the customer, which is when the customer obtains control of the good or service. A performance obligation may be satisfied at a point in time or over time. The amount of revenue recognized is the amount allocated to the satisfied performance obligation.

The following specific recognition criteria must also be met before revenue is recognized:

Advertising Revenue. Revenue is recognized in the period the advertisements are aired.

Payments received for advertisements before broadcast (pay before broadcast) are recognized as income on the dates the advertisements are aired. Prior to liquidation, these are classified as unearned revenue under "Contract liabilities" under "Trade payables and other current liabilities" account, in the consolidated statement of financial position.

Goods received in exchange for airtime usage pursuant to exchange deal contracts executed between the Group and its customers are recorded at fair market values of assets received. Fair market value is the current market price.

Tax credits on aggregate airtime credits from government sales availed of under PD No. 1362 are recognized as revenue when there is reasonable certainty that these can be used to pay duties and taxes on imported broadcasting related equipment.

Subscription Revenue. Subscription fees are recognized over the subscription period in accordance with the terms of the subscription agreements.

Sale of goods. Sale of goods pertain to sale of set-top boxes, digital TV mobile receivers and other merchandises. Revenue is recognized at a point in time when delivery has taken place and transfer of control has been completed. These are stated net of sales discounts.

Revenue from Distribution and Content Provisioning. Revenue is recognized upon delivery of the licensed content to customers.

Production Revenue. Production revenue is recognized at a point in time when project-related services are rendered.

Commission from Artist Center. Revenue is recognized as revenue on an accrual basis in accordance with the terms of the related marketing agreements.

b. Revenue Recognition Outside the Scope of PFRS 15

Rental Income. Revenue from lease of property and equipment and investment properties is accounted for on a straight-line basis over the lease term.

Dividend Income. Revenue is recognized when the Group's right to receive payment is established.

Interest Income. Revenue is recognized as the interest accrues, taking into account the effective yield on the asset.

Equity in Net Earnings (Losses) of Joint Ventures. The Group recognizes its share in the net income or loss of joint ventures proportionate to the equity in the economic shares of such joint ventures, in accordance with the equity method.

Other Income. Other income is recognized when there is an incidental economic benefit, other than the usual business operations, that will flow to the Group through an increase in asset or reduction in liability that can be measured reliably.

Contract Balances

Trade Receivables. A receivable represents the Group's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Refer to the accounting policies of Financial Instruments section.

Contract Assets. A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Group performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognized for the earned consideration that is conditional.

Contract Liabilities. A contract liability is the obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Group transfers goods or services to the customer, a contract liability is recognized when the payment is made or the payment is due, whichever is earlier. Contract liabilities are recognized as revenue when the Group performs under the contract.

Incremental Costs to Obtain a Contract

The Group pays sales commissions to its account executives for each contract that they obtain for advertising agreements with customers. The Group has elected to apply the optional practical expedient for costs to obtain a contract which allows the Group to immediately expense sales commissions (presented as part of “Marketing expense” under “General and administrative expenses” account in the consolidated statement of comprehensive income) because the amortization period of the asset that the Group otherwise would have used is less than one year.

Borrowing Costs

Borrowing costs directly attributable to the acquisition or construction of an asset that necessarily take a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the asset. All other borrowing costs are expensed in the period they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

Expenses

Expenses, presented as “Production costs”, “Cost of sales”, and “General and administrative expenses” in the consolidated statement of comprehensive income, are recognized as incurred.

Pension and Other Long-Term Employee Benefits

The Parent Company has a funded, noncontributory defined benefit retirement plan covering permanent employees. Other entities are covered by Republic Act (R.A.) 7641, otherwise known as “The Philippine Retirement Pay Law”, which provides for qualified employees to receive an amount equivalent to a certain percentage of monthly salary at normal retirement age. In addition, the Group has agreed to pay the cash equivalent of the accumulated unused vacation leave of the employees upon separation from the Group.

The cost of providing benefits under the defined benefit plans is determined using the projected unit credit method.

Defined Benefit Plans. The net defined benefit liability or asset is the aggregate of the present value of the defined benefit obligation at the end of the reporting period reduced by the fair value of plan assets (if any), adjusted for any effect of limiting a net defined benefit asset to the asset ceiling.

The asset ceiling is the present value of any economic benefits available in the form of refunds from the plan or reductions in future contributions to the plan.

The cost of providing benefits under defined benefit plan is determined using the projected unit credit method.

Remeasurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognized immediately in the statement of financial position with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Remeasurements are not reclassified to profit or loss in subsequent periods.

Past service costs are recognized in profit or loss on the earlier of:

- The date of the plan amendment or curtailment, and
- The date that the Group recognizes related restructuring costs

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Group recognizes the following changes in the net defined benefit obligation under “Production costs” and “General and administrative expenses” accounts in consolidated statements of comprehensive income (by function):

- Service costs comprising current service costs, past service costs, gains and losses on curtailments and non-routine settlements.
- Net interest expense or income

Plan assets are assets that are held by a long-term employee benefit fund. Fair value of plan assets is based on market price information. When no market price is available, the fair value of plan assets is estimated by discounting expected future cash flows using a discount rate that reflects both the risk associated with the plan assets and the maturity or expected disposal date of those assets (or, if they have no maturity, the expected period until the settlement of the related obligations). If the fair value of the plan assets is higher than the present value of the defined benefit obligation, the measurement of the resulting defined benefit asset is limited to the present value of economic benefits available in the form of refunds from the plan or reductions in future contributions to the plan.

The Group’s right to be reimbursed of some or all of the expenditure required to settle a defined benefit obligation is recognized as a separate asset at fair value when and only when reimbursement is virtually certain.

Leases

Leases. The Group assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Group as Lessee. The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognizes lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

- *Right-of-use Assets.* The Group recognizes right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognized, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received and estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease, unless those costs are incurred to produce inventories. Unless the Group is reasonably certain to obtain ownership of the leased asset at the end of the lease term, the recognized right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term as follow:

Land	2 to 25 years
Buildings, studio and office spaces	2 to 15 years

Right-of-use assets are subject to impairment.

- *Lease Liabilities.* At the commencement date of the lease, the Group recognizes lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating a lease, if the lease term reflects the Group exercising the option to terminate. The variable lease payments that do not depend on an index or a rate are recognized as expense in the period on which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the in-substance fixed lease payments or a change in the assessment to purchase the underlying asset.

- *Short-term Leases.* The Group applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date or initial application of PFRS 16 and do not contain a purchase option). Lease payments on short-term leases are recognized as expense on a straight-line basis over the lease term.

Group as Lessor. Leases where the Group does not transfer substantially all the risks and benefits of ownership of the asset are classified as operating leases. Rental income from operating leases are recognized as income in the consolidated statement of comprehensive income on a straight-line basis over the lease term. Initial direct costs incurred in negotiating an operating lease are added to the carrying amount of the leased asset and recognized over the lease term on the same basis as rental income. Contingent rents are recognized as revenue in the period in which they are earned.

Foreign Currency-denominated Transactions

Transactions in foreign currencies are initially recorded in the functional currency exchange rate at the date of the transactions. Monetary assets and liabilities denominated in foreign currencies are retranslated at the functional currency closing exchange rate at financial reporting period. All differences are taken to profit or loss in the consolidated statements of comprehensive income. Nonmonetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Nonmonetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. For income tax purposes, foreign exchange gains and losses are treated as taxable income or deductible expenses when realized.

Taxes

Current Income Tax. Current income tax assets and liabilities for the current period are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantially enacted at reporting period.

Current income tax relating to items recognized directly in equity is recognized in equity and not in profit or loss. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation, and establishes provisions where appropriate.

Deferred Tax. Deferred tax is provided using the liability method on temporary differences at reporting period between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting period.

Deferred tax assets are recognized for all deductible temporary differences, carryforward benefits of excess minimum corporate income tax (MCIT) over regular corporate income tax (RCIT) and unused net operating loss carryover (NOLCO), to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carryforward benefits of excess MCIT over RCIT and unused NOLCO can be utilized, except:

- where the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit; and

- in respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint arrangements, deferred tax assets are recognized only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax assets to be utilized. Unrecognized deferred tax assets are reassessed at each reporting period and are recognized to the extent that it has become probable that future taxable profit will allow the deferred tax assets to be recovered.

Deferred tax liabilities are recognized for all taxable temporary differences, except:

- where the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit; and
- in respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint arrangements, where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the year when the asset is realized or the liability is settled, based on tax rates and tax laws to be enacted or substantially enacted at the reporting period.

Deferred tax relating to items recognized outside profit or loss is recognized outside profit or loss. Deferred tax items recognized in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Creditable Withholding Taxes. Creditable withholding taxes represent amounts withheld by the Group's customers and is deducted from the Group's income tax payable.

Value-added Tax (VAT). Revenue, expenses and assets are recognized net of the amount of VAT, if applicable.

When VAT from sales of goods and/or services (output VAT) exceeds VAT passed on from purchases of goods or services (input VAT), the excess is recognized as payable in the consolidated statement of financial position. When VAT passed on from purchases of goods or services (input VAT) exceeds VAT from sales of goods and/or services (output VAT), the excess is recognized as an asset in the consolidated statement of financial position to the extent of the recoverable amount.

The net amount of VAT recoverable from, or payable to, the taxation authority is included as part of "Prepaid expenses and other current assets" or "Trade payables and other current liabilities" accounts in the consolidated statement of financial position.

Earnings Per Share (EPS)

Basic EPS is computed by dividing the net income for the year attributable to the equity holders of the Parent Company, net of income attributable to preferred shares, by the weighted average number of common shares outstanding during the year, after considering the retroactive adjustments for any stock dividends declared, if any.

Diluted EPS is calculated by dividing the net income for the year attributable to the equity holders of the Parent Company (inclusive of income attributable to preferred shares) by the weighted average number of common shares

outstanding during the year, plus the weighted average number of common shares that would be issued upon conversion of all dilutive potential common shares.

Segment Reporting

For management purposes, the Group's operating businesses are organized and managed separately into television and radio airtime, international subscriptions and other business activities. Such business segments are the basis upon which the Group reports its primary segment information. The Group considers television and radio operations as the major business segment. The Group operates in two geographical areas where it derives its revenue. Financial information on business segments is presented in Note 7 to the consolidated financial statements.

Provisions

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Group expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognized as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the consolidated statement of comprehensive income net of any reimbursement.

Contingencies

Contingent liabilities are not recognized in the consolidated financial statements. These are disclosed in the notes to consolidated financial statements unless the possibility of an outflow of resources embodying economic benefits is remote. Contingent assets are not recognized in the consolidated financial statements but are disclosed in the notes to consolidated financial statements when an inflow of economic benefits is probable.

Events after Reporting Period

Post year-end events that provide additional information about the Group's position at the reporting period (adjusting events) are reflected in the consolidated financial statements. Post year-end events that are not adjusting events are disclosed in the notes to consolidated financial statements when material.

4. Significant Accounting Judgments, Estimates and Assumptions

The preparation of the consolidated financial statements requires management to make judgments, estimates and assumptions that affect amounts reported in the consolidated financial statements and related notes at the end of the reporting period. However, uncertainty about these judgments, estimates and assumptions could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

Judgments

In the process of applying the Group's accounting policies, management has made the following judgments, which have the most significant effect on the amounts recognized in the consolidated financial statements.

Consolidation of Entities in which the Group holds less than Majority of Voting Rights. The Group considers that it controls RGMA Network even though it owns less than 50% of the voting rights. This is because the Group is the single largest shareholder of RGMA Network with a 49% equity interest. The remaining 51% of the equity shares in RGMA Network are owned by several parties. Since September 27, 1995, which is the date of incorporation of RGMA Network, there is no history of the other shareholders collaborating to exercise their votes collectively or to outvote the Group. The carrying amount of NCI as at September 30, 2023 and December 31, 2022 amounted to ₱56.04 million and ₱77.25 million, respectively.

Assessment of Significant Influence over the Investee. The Parent Company holds 25% ownership interest in Optima Digital, Inc. as at September 30, 2023 and December 31, 2022. Even with more than 20% voting rights, management assessed that the Parent Company does not have the power to participate in the policy-making processes, including decisions to affect its returns in the form of dividends. Further, the Parent Company does not

have the ability to participate in the financial and operational policies decision-making of the investee to affect its relevant activities as the Group has only one (1) board seat out of the total five (5) board seats. The investment is presented as a financial asset at FVOCI amounting to ₱0.66 million as at September 30, 2023 and December 31, 2022.

Determination of Lease Term of Contracts with Renewal and Termination Options – Group as a Lessee (Starting January 1, 2019 - Upon Adoption of PFRS 16). The Group determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised.

The Group has several lease contracts that include extension and termination options. The Group applies judgment in evaluating whether it is reasonably certain whether or not to exercise the option to renew or terminate the lease. That is, it considers all relevant factors that create an economic incentive for it to exercise either the renewal or termination. After the commencement date, the Group reassesses the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise or not to exercise the option to renew or to terminate (e.g., construction of significant leasehold improvements or significant customization to the leased asset).

The Group did not include the renewal period as part of the lease term for its leases as these are subject to mutual agreement and are not reasonably certain to be exercised. Furthermore, the periods covered by termination options are included as part of the lease term only when they are reasonably certain not to be exercised.

Operating Leases - Group as Lessor. The Group has entered into various lease agreements as lessor. The Group had determined that the risks and rewards of ownership of the underlying property were retained by the Group. Accordingly, the leases are classified as an operating lease.

Total rental income amounted to ₱5.39 million and ₱4.10 million in September 30, 2023 and 2022, respectively (see Note 29).

Estimates and Assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Group based its assumptions and estimates on parameters available when the consolidated financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

Estimating the Incremental Borrowing Rate (Starting January 1, 2019 - Upon Adoption of PFRS 16). The Group cannot readily determine the interest rate implicit in the lease, therefore, it uses its incremental borrowing rate (IBR) to measure lease liabilities. The IBR is the rate of interest that the Group would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The IBR therefore reflects what the Group ‘would have to pay’, which requires estimation when no observable rates are available (such as for subsidiaries that do not enter into financing transactions) or when they need to be adjusted to reflect the terms and conditions of the lease. The Group estimates the IBR using observable inputs (such as market interest rates) when available and is required to make certain entity-specific estimates (such as the counterparty’s stand-alone credit rating).

The Group’s lease liability amounted to ₱160.38 million and ₱167.11 million as at September 30, 2023 and December 31, 2022, respectively (see Note 30).

Estimating Allowance for ECL. The following information explains the inputs, assumptions and techniques used by the Group in estimating ECL for trade receivables:

- Simplified approach for trade receivables

The Group uses a simplified approach for calculating ECL on receivables through the use of provision matrix to calculate ECLs. The provision rates are based on days past due for groupings of customer segment that have similar loss patterns (i.e., by customer type).

The provision matrix is initially based on the Group's historical observed default rates. The Group then calibrates the matrix to adjust the historical credit loss experience with forward-looking information. For instance, if forecast economic conditions (e.g, gross domestic product, inflation rate, unemployment rate) are expected to deteriorate over the next year which can lead to an increased number of defaults in the Group's operating segments, the historical default rates are adjusted. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analyzed.

- Definition of default for trade receivables

The Group defines a trade receivable as in default, when it meets one or more of the following criteria:

- The counterparty is experiencing financial difficulty or is insolvent
- The receivable is more than 360 days past due. The determination of the period is based on the Group's practice and agreement with their customers within the industry.

- Grouping of instruments for losses measured on collective basis

For expected credit loss provisions modelled on a collective basis, a grouping of exposures is performed on the basis of shared risk characteristics, such that risk exposures within a segmentation are homogeneous. The Group segmentized its receivables based on the type of customer (e.g., corporate and individuals).

- Incorporation of forward-looking information

The Group considers a range of relevant forward-looking macro-economic assumptions for the determination of unbiased general industry adjustments that support the calculation of ECLs. A broad range of forward-looking information are considered as economic inputs such as the gross domestic product, inflation rate, unemployment rates and other economic indicators.

The macroeconomic factors are aligned with information used by the Group for other purposes such as strategic planning and budgeting.

The Group identifies and documents key drivers of credit risk and credit losses of each portfolio of financial instruments and, using an analysis of historical data, has estimated relationships between macro-economic variables and credit risk and credit losses.

Predicted relationship between the key macro-economic indicators and default and loss rates on various portfolios of financial assets have been developed based on analyzing historical data over the past 5 years. The methodologies and assumptions including any forecasts of future economic conditions are reviewed regularly.

The assessment of the correlation between historical observed default rates, forecast economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and of forecast economic conditions. As uncertainties in the market trend and economic conditions may remain persistent amidst the continuous spread of COVID-19, the Group's historical credit loss experience and forecast of economic conditions may also not be representative of customer's actual default in the future.

Provision for ECL amounted to ₱0.38 million as of September 30, 2023 and 2022. The allowance for ECL amounted to ₱909.04 and ₱908.67 million as at September 30, 2023 and December 31, 2022, respectively. The

carrying amounts of trade and other receivables amounted to ₱5,560.19 million and ₱5,862.07 million as at September 30, 2023 and December 31, 2022, respectively (see Note 9).

Classification and Amortization of Program and Other Rights. Portions of program and other rights are classified as current and noncurrent assets. Current portion represents those expected to be aired any time within its normal operating cycle, whereas the noncurrent portion represents those without definite expiration.

The Group estimates the amortization of program and other rights with finite lives using straight line method up to the date of expiry, which is the manner and pattern of usage of the acquired rights. In addition, estimation of the amortization of program and other rights is based on the Group's experience with such rights. It is possible, however, that future results of operations could be materially affected by changes in estimates brought about by changes in the factors mentioned above. The amounts and timing of recorded expenses for any period would be affected by changes in these factors and circumstances.

Program and other rights usage amounted to ₱888.20 million and ₱632.52 million for the periods ended September 30, 2023 and 2022, respectively (see Note 26). Program and other rights, net of accumulated impairment loss of ₱2.70 million, amounted to ₱2,254.58 million and ₱1,479.02 million as at September 30, 2023 and December 31, 2022, respectively (see Note 10).

Estimating Allowance for Inventory Losses. The Group provides allowance for inventory losses whenever the net realizable value becomes lower than cost due to damage, physical deterioration, obsolescence, changes in price levels or other causes. The allowance account is reviewed periodically to reflect the accurate valuation of the inventories.

The carrying value of merchandise inventory and materials and supplies inventory in the consolidated statement of financial position, amounted to ₱1,207.64 million and ₱1,469.19 million as at September 30, 2023 and December 31, 2022, respectively (see Note 11). There were no provisions for inventory losses as of September 30, 2023 and 2022.

Estimating Useful Lives of Property and Equipment, Software Costs and Investment Properties. The Group estimates the useful lives of property and equipment, software costs and investment properties based on the period over which the assets are expected to be available for use. The estimated useful lives of property and equipment, software costs and investment properties are reviewed periodically and are updated if expectations differ from previous estimates due to physical wear and tear, technical or commercial obsolescence and legal or other limits on the use of the assets. In addition, estimation of the useful lives of property and equipment, software costs and investment properties is based on collective assessment of industry practice, internal technical evaluation and experience with similar assets. It is possible, however, that future results of operations could be materially affected by changes in estimates brought about by changes in the factors mentioned above. The amounts and timing of recorded expenses for any period would be affected by changes in these factors and circumstances. A reduction in the estimated useful lives of property and equipment, software costs and investment properties would increase the recorded general and administrative expenses and decrease noncurrent assets.

There has been no change in the Group's estimate of useful lives of its property and equipment, software costs and investment properties in as of September 30, 2023 and December 31, 2022.

Total depreciation and amortization expense for the periods ended September 30, 2023 and 2022 amounted to ₱634.02 million and ₱557.36 million, respectively (see Notes 15, 17, 18, 26 and 27).

Revaluation of Land. The Group engages an accredited appraiser to determine the fair value of the land used in operations. Fair value is determined by reference to market-based evidence adjusted based on certain elements of comparison. The fair value amount would differ if the Group made different judgments and estimates or utilized a different basis for determining fair value.

Valuations from an accredited appraiser are performed every three to five years or more frequently as deemed necessary to ensure that the fair value of a revalued asset does not differ materially from its carrying amount.

As of September 30, 2023, there is no additional revaluation increment on land due to insignificant movements in the fair value of the land. In 2022, the Group assessed those certain parcels of land at revalued amounts, comprising majority of the balance of the account have significant movements in its current carrying values and obtained updated appraisals as at December 31, 2022. For the land that were not appraised, the Group referred to the published comparable prices for the fair values. Total additional revaluation increment recognized in 2022 amounted to ₱2,737.72 million, net of tax.

The revalued amount of land, which is classified under “Property and equipment” account in the statements of financial position, amounted to ₱6,619.90 million as at September 30, 2023 and December 31, 2022 (see Note 16).

Impairment of Nonfinancial Assets. For prepaid production costs, tax credits, investments and advances, property and equipment, right-of-use assets, investment properties, program and other rights, investments in artworks, deferred production costs and software costs, impairment testing is performed whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable.

The factors that the Group considers important which could trigger an impairment review include the following:

- significant underperformance relative to expected historical or projected future operating results;
- significant changes in the manner of use of the acquired assets or the strategy for overall business;
- significant negative industry or economic trends; and
- obsolescence or physical damage of an asset.

The Group recognizes an impairment loss whenever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of fair value less costs to sell and the asset’s value in use. Recoverable amounts are estimated for individual assets or, if it is not possible, for the CGU to which the asset belongs.

As at September 30, 2023 and December 31, 2022, the Group did not identify any indicator of impairment on its nonfinancial assets, hence, no impairment tests were carried out.

The carrying values of nonfinancial assets as at September 30, 2023 and December 31, 2022 follow:

	September 30, 2023	December 31, 2022
	(Unaudited)	(Audited)
Property and equipment - at cost (see Note 15)	3,638,045,213	3,361,149,279
Land at revalued amounts (see Note 16)	6,619,895,148	6,619,895,148
Program and other rights (see Note 10)	2,254,576,248	1,479,018,423
Prepaid production costs (see Note 12)	800,188,378	783,499,847
Investments and advances (see Note 14)	175,654,826	175,705,006
Right-of-use assets (see Note 30)	147,890,212	159,900,385
Software costs (see Note 18)	52,255,324	73,791,869
Investment properties (see Note 17)	31,068,269	32,105,060
Tax credits (see Note 12)	15,958,647	169,447,579
Investment in artworks (see Note 18)	10,186,136	10,186,136
Deferred production costs (see Note 18)	1,498,615	1,321,925

Estimating Realizability of Deferred Tax Assets. The Group reviews its deferred tax assets at each reporting date and reduces the carrying amount to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. The Group’s assessment on the recognition of

deferred tax assets on deductible temporary difference and carryforward benefits of NOLCO and excess MCIT over RCIT is based on the projected taxable income in the following periods.

Pension and Other Employee Benefits. The determination of the Group's obligation and cost of pension benefits is dependent on the selection of certain assumptions used by actuaries in calculating such amounts. Due to the complexity of the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions.

Pension liability amounted to ₱5,233.77 million and ₱4,767.25 million as at September 30, 2023 and December 31, 2022, respectively.

Determination of Fair Value of Financial Assets and Financial Liabilities. Certain financial assets and financial liabilities are carried and disclosed at fair value, which requires extensive use of accounting estimates and judgments. While significant components of fair value measurement were determined using verifiable objective evidence (i.e., foreign exchange rates and interest rates), the amount of changes in fair value would differ if the Group utilized a different valuation methodology. Any changes in the assumptions could affect the fair value of these financial assets and financial liabilities. The fair value of financial assets and liabilities are enumerated in Note 33.

Determination of Fair Value of Investment Properties. PFRS requires disclosure of fair value of investment properties when measured at cost.

The Group used the services of an independent professional appraiser in estimating the fair value of properties. The appraisers conducted an actual inspection of the property and considered the following in the study and analyses in arriving at the estimate of fair value: (a) extent, character and utility of the property; (b) sales and holding prices of similar properties; and (c) highest and best use of the property. The description of valuation techniques used and key inputs to fair valuation of investment properties are enumerated in Note 16 of the consolidated financial statements.

Contingencies. The Group is currently involved in various claims and legal proceedings. The estimate of the probable costs for the resolution of these claims has been developed in consultation with legal counsel handling the defense in these matters and is based upon an analysis of potential results. The Group currently does not believe that these proceedings will have a material adverse effect on the Group's financial position.

5. Seasonality or Cyclicity of Interim Operations

The Group's operations are not generally affected by any seasonality or cyclicity.

6. Nature and Amount of Changes in Estimates

2022 figures were restated to conform to the current period's presentation.

7. Segment Information

Business Segments

For management purposes, the Group is organized into business units based on its products and services and has three reportable segments, as follows:

- The television and radio segment, which engages in television and radio broadcasting activities and which generates revenue from sale of national and regional advertising time.

- The international subscription segment which engages in subscription arrangements with international cable companies.
- Other businesses which include movie production, consumer products and other services.

The Executive Committee, the chief operating decision maker, and Management monitor the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on net income or loss and is measured consistently with net income or loss in the consolidated financial statements. On a consolidated basis, the Group's performance is evaluated based on consolidated net income for the year.

Geographical Segments

The Group operates in two major geographical segments - local and international. Local refers to revenues earned in the Philippines, the home country. Significant portion of the revenues earned locally pertain to television and radio airtime. International refers to revenues earned in United States and in other locations (which include Middle East, Europe, Australia, Canada, Guam, Singapore, Hongkong and Japan). The Group ties up with cable providers to bring local television programming outside the Philippines.

The Group's revenues are mostly generated in the Philippines, which is the Group's country of domicile.

Noncurrent assets consist of property and equipment, land at revalued amounts, investment properties and intangible assets which are all located in the Philippines.

The Group does not have a single external customer whose revenue accounts for 10% or more of the Group's revenues.

Inter-segment Transactions

Segment revenues, segment expenses and segment results include transfers among business segments and among geographical segments. The transfers are accounted for at competitive market prices charged to unrelated customers for similar services. Such transfers are eliminated upon consolidation.

Measurement Basis

The amount of segment assets and liabilities and segment profit or loss are based on measurement principles that are similar to those used in measuring the assets and liabilities and profit or loss in the consolidated financial statements, which is in accordance with PFRS.

Please refer to Exhibit 1 for the comparative segment information for the nine months ended September 30, 2023 and 2022.

8. Cash and Cash Equivalents

This account consists of:

	September 30, 2023 (Unaudited)	December 31, 2022 (Audited)
Cash on hand and in banks	2,381,815,677	2,170,723,381
Short-term placements	806,513,371	684,743,833
	3,188,329,048	2,855,467,214

Cash in banks earn interest at the respective bank deposit rates. Short-term deposits are made for varying periods of up to nine months depending on the immediate cash requirements of the Group, and earn interest at the respective short-term deposit rates.

Interest income earned from bank deposits and short-term investments amounted to ₱27.88 million and ₱14.79 million for the nine months ended September 30, 2023 and 2022, respectively.

9. Trade and Other Receivables

This account consists of:

	September 30, 2023 (Unaudited)	December 31, 2022 (Audited)
Trade:		
Television and radio airtime	6,043,684,535	6,287,590,963
Subscription receivable	226,403,347	231,894,197
Others	162,621,499	192,396,251
Nontrade:		
Advances to officers and employees	3,272,845	3,696,291
Others	33,245,513	55,154,475
	6,469,227,739	6,770,732,177
Less allowance for doubtful accounts	909,041,285	908,666,285
	5,560,186,454	5,862,065,892

Trade Receivables

Television and Radio Airtime. Television and radio airtime receivables are unsecured, noninterest-bearing and are generally on a 60–90 days terms upon receipt of invoice by the customer. The receivables are normally collected within 360 days.

Television and radio airtime receivables include unbilled airtime receivables, arising when advertisements have been aired during the year but billing or acceptance by the customer has been delayed due to time lag in completing all required documents. As at September 30, 2023 and December 31, 2022, the total unbilled airtime receivables, assessed as contract assets, amounted to ₱289.92 million and ₱20.70 million, respectively.

Subscriptions Receivable. Subscriptions receivable include receivables pertaining to revenue generated from international channel subscriptions and advertisements. These are noninterest-bearing and normally collected within 360 days.

Other Trade Receivables. Other trade receivables mainly consist of receivables from customers relating to advertising placements on other platforms other than TV and Radio, sale of merchandise and content provisioning services. These are unsecured, noninterest-bearing and are generally on 60-90 day terms upon receipt of invoice by the customers.

Nontrade Receivables

Advances to Officers and Employees and Other Nontrade Receivables. Other nontrade receivables pertain to loans of regular and project employees and advances given to talents and project employees. These are noninterest-bearing and are normally collected within the next financial year

Allowance for ECL

The movements in the allowance for doubtful accounts on trade receivables are as follows:

September 30, 2023 (Unaudited)			
	Corporate	Individual	Total
Balance at beginning of the year	898,757,935	9,908,350	908,666,285
Provision (reversal) for the year	375,000	-	375,000
Balance at end of the period	899,132,935	9,908,350	909,041,285

December 31, 2022 (Audited)			
	Corporate	Individual	Total
Balance at beginning of the year	899,187,044	9,908,350	909,095,394
Provision for the year	1,457,228	-	1,457,228
Reversal for the year	(1,886,337)	-	(1,886,337)
Balance at end of the year	898,757,935	9,908,350	908,666,285

10. Program and Other Rights

Details and movements in this account are as follows:

September 30, 2023 (Unaudited)				
	Program and Film Rights	Story / Format Rights	Program Rights - Incidentals	Total
Cost:				
Balance at beginning of period	1,425,742,313	41,070,810	14,907,560	1,481,720,683
Additions	1,310,339,919	257,816,870	95,604,050	1,663,760,839
Program and other rights usage (see Note 2)	(755,744,667)	(51,729,022)	(80,729,325)	(888,203,014)
Balance at end of period	1,980,337,565	247,158,658	29,782,285	2,257,278,508
Accumulated impairment in value	(2,702,260)	-	-	(2,702,260)
	1,977,635,305	247,158,658	29,782,285	2,254,576,248

	1,423,040,053	41,070,810	14,907,560	1,479,018,423
Less noncurrent portion	232,446,242	-	-	232,446,242
	1,190,593,811	41,070,810	14,907,560	1,246,572,181

11. Inventories

This account consists of the following:

	September 30, 2023 (Unaudited)	December 31, 2022 (Audited)
Merchandise inventory	1,185,115,517	1,443,352,533
Materials and supplies inventory	22,521,878	25,841,351
	1,207,637,395	1,469,193,884

The following are the details of merchandise inventory account:

	September 30, 2023 (Unaudited)	December 31, 2022 (Audited)
Set-top boxes model	976,575,915	1,233,966,042
ITE chipset dongle	208,539,602	209,386,491
	1,185,115,517	1,443,352,533

Merchandise inventory consists mainly of set-top boxes, digital TV mobile receivers and other merchandises for sale by the Group. In 2020, the Group launched the GMA Affordabox, a digital box which allows users to receive clear pictures and sounds in their television sets through digital transmission. Cost of sales related to digital boxes amounted to ₱257.08 million and ₱230.55 million by the end of September 30, 2023 and 2022, respectively.

Materials and supplies inventory includes Group's office supplies, spare parts and production materials.

12. Prepaid Expenses and Other Current Assets

This account consists of:

	September 30, 2023 (Unaudited)	December 31, 2022 (Audited)
Prepaid production costs	800,188,378	783,499,847
Advances to suppliers	624,987,929	850,951,231
Input VAT	371,679,425	245,732,638
Prepaid expenses	191,029,062	115,718,638
Creditable withholding taxes	51,587,666	60,886,401
Tax credits	15,958,647	48,070,848
Others	1,464,705	1,519,261
	2,056,895,812	2,106,378,864

Prepaid production represents costs paid in advance prior to the airing of the programs or episodes. The Group expects to air the related programs or episodes within the next financial year.

Advances to suppliers are noninterest-bearing and are generally applied to acquisition of program and other rights, inventories, availment of services and others within the next financial year.

Input VAT pertains to VAT on purchase or importation of goods and services which are to be claimed and credited in the succeeding month's filing of VAT return.

Prepaid expenses include prepayments for rentals, insurance and other expenses.

Tax credits represent claims of the Parent Company from the government arising from airing of government commercials and advertisements. The Parent Company expects to utilize these tax credits within the next financial year.

Creditable withholding taxes represent amounts withheld by the Company's customers and is deducted from the Group's income tax payable.

13. Financial Assets at Fair Value Through Other Comprehensive Income

This account consists of the following:

	September 30, 2023 (Unaudited)	December 31, 2022 (Audited)
Listed equity instruments	299,044,824	257,799,260
Non-listed equity instruments	24,814,847	24,814,847
	323,859,671	282,614,107

Investment in equity instruments pertains to shares of stock and club shares which are not held for trading. The Group assessed the equity instruments to be strategic in nature.

In 2022, the Group purchased ₱106.77 million, ₱35.69 million, ₱13.66 million and ₱12.55 million worth of preference shares of PX Ventures PTE Ltd, a regional direct-to-patient telehealth startup that provides affordable access to quality healthcare for men and women, shares of stock of TNB Aura Fund 2 Ltd, a Regional Venture Capital fund focused on making Series A and B investments in Southeast Asia, capital shares of Wavemaker Three-Sixty Health II-A,LP., a seed and early stage venture capital firm focused on the US healthcare industry and Simple Agreement for Future Equity (SAFE) from Cloudeats PTE Ltd, a cloud kitchen and restaurant business that utilizes a house of brands model, respectively.

Dividend income earned from financial assets at FVOCI amounted to nil in 2023 and 2022.

IP E-Games

In 2015, IP E-Games Ventures, Inc. (IPE) issued 13 billion of its own common shares to the Group in exchange of the Group's investment in X-Play Online Games Incorporated (X-Play) and in settlement of ₱30.00 million advances and ₱50.00 million airtime credits granted by the Group to X-Play. At initial recognition, the Group recognized at fair value the IPE shares as AFS financial assets amounting to ₱130.00 million.

Of the ₱50.00 million airtime credits, ₱22.00 million has not been implemented at date of exchange and therefore was recognized by the Group as unearned revenue presented as "Contract liabilities", included as part of trade payables and other current liabilities as at September 30, 2023 and December 31, 2022.

14. Investments and Advances

This account consists of:

	September 30, 2023 (Unaudited)	December 31, 2022 (Audited)
Investments in an associate and interests in joint ventures	73,904,784	73,904,784
Permanent advances in an associate (see Note 24)	101,750,042	101,800,222
	175,654,826	175,705,006

The movements in the accounts are as follows:

	September 30, 2023 (Unaudited)	December 31, 2022 (Audited)
Investments in an associate and joint ventures		
Acquisition cost -		
Balance at beginning and end of period	131,722,056	131,722,056
Accumulated equity in net losses:		
Balance at beginning of period	(57,817,272)	(48,785,436)
Equity in net earnings during the period	-	(9,031,836)
Balance at end of period	(57,817,272)	(57,817,272)
	73,904,784	73,904,784
Advances to an associate:		
Balance at beginning of period	99,618,209	99,531,728
Advances during the period	-	86,481
Balance at end of period	99,618,209	99,618,209
Advances to joint ventures:		
Balance at beginning of period	2,182,013	2,322,677
Collections during the period	(50,180)	(140,664)
Balance at end of period	2,131,833	2,182,013
Total investments and advances	175,654,826	175,705,006

The ownership interests in an associate and joint ventures, which were all incorporated in the Philippines, and are accounted for under the equity method, as at September 30, 2023 and December 31, 2022 follows:

	Principal Activities	Percentage of Ownership	
		Direct	Indirect
Associate -			
Mont-Aire Realty and Development Corporation (Mont-Aire)	Real Estate	49	-
Joint Ventures:			
INQ7 Interactive, Inc. (INQ7)*	Internet Publishing	50	-
Philippine Entertainment Portal (PEP)**	Internet Publishing	-	50
Gamespan, Inc. (Gamespan)**	Betting Games	-	50

*Not operational.

**Indirect investment through GNMI.

The carrying values of investments and the related advances as at September 30, 2023 and December 31, 2022 are as follows:

	September 30, 2023		
	Investments	Advances (see Note 24)	Total
Associate - Mont-Aire	38,350,619	99,618,209	137,968,828
Joint ventures:			
Gamespan	8,947,966	1,959,670	10,907,636

	35,554,165	2,131,833	37,685,998
	73,904,784	101,750,042	175,654,826

	December 31, 2022		
	Investments	Advances (see Note 24)	Total
Associate - Mont-Aire	38,350,619	99,618,209	137,968,828
Joint ventures:			
Gamespan	8,947,966	1,959,670	10,907,636
PEP	26,606,199	222,343	26,828,542
	35,554,165	2,182,013	37,736,178
	73,904,784	101,800,222	175,705,006

The associate and joint ventures are not listed in any public stock exchanges.

Mont-aire

The table below shows the condensed financial information of Mont-Aire as at September 30, 2023 and December 31, 2022:

Current assets	P53,469,276
Noncurrent assets	120,275,583
	173,744,859
Current liabilities	1,269,154
Noncurrent liabilities	94,209,136
	95,478,290
Net assets	78,266,569
Proportion of the Group's ownership	49%
Carrying amount of investment	P38,350,619

Mont-Aire ceased its commercial operations in 2009. Assets include real estate and parcels of land with an aggregate cost of P105.08 million and fair market value of P158.64 million, as determined by an accredited appraiser as at June 3, 2019, enough to cover for the carrying amount of the Group's investment in Mont-Aire. Management believes that there are no events or changes in circumstances indicating a significant unfavorable change in the fair value of the abovementioned properties from the last appraisal made.

PEP

On April 16, 2007, the Group and Summit Publishing, Co. entered into a shareholder's agreement for the establishment of PEP. The joint venture was organized to design, conceptualize, operate and maintain websites that make available all kinds of show business, entertainment and celebrity information, video or pictures in the internet worldwide web or other forms of seamless communication.

No share in net earnings (losses) of PEP was recognized for the nine months period ended September 30, 2023 and 2022.

Gamespan

On March 22, 2012, the Group, through GNMI, executed a Shareholder's Agreement with Manila Jockey Club (MJC) for the establishment of Gamespan, a joint venture corporation. The joint venture was organized to operate and manage the hardware and software owned by MJC, set-up new media infrastructure for offering and taking bets in horse racing and other sports.

Gamespan has not started its commercial operations since its establishment. In 2014, the Group and MJC agreed to terminate its shareholder's agreement and to close Gamespan. As at September 30, 2023, the process of

cessation of Gamespan is ongoing. Since Gamespan already ceased its operation, the Group did not recognize any share in net earnings as of September 30, 2023 and 2022.

INQ7

Losses of INQ7 recognized under the equity method in excess of the Group's carrying value of investment were applied against its advances to the Parent Company thereby reducing both advances and investments to zero as at September 30, 2023 and December 31, 2022. INQ7 ceased operations in 2007. In 2013, INQ7 submitted a request to liquidate its assets to SEC. The liquidation is still ongoing as at September 30, 2023.

The Group believes that its interests in joint ventures are not individually material.

15. Property and Equipment at Cost

Please refer to Exhibit 3 for the rollforward analysis of property and equipment at cost.

Construction in progress pertains to the costs incurred for installation of equipment, signal strengthening of transmitters nationwide and construction/improvement of studios and stations in the regions.

The reclassification relates to the software that were transferred to other noncurrent assets amounting to ₱1.53 million in December 31, 2022 included under "Prepaid expenses and other current assets" (see Note 18).

The Group leases out a portion of its property and equipment at cost. Total rental income recognized for the leased portion amounted to ₱3.66 million and ₱2.04 million as of September 30, 2023 and 2022, respectively (see Note 29).

The Group disposed various property and equipment as at September 30, 2023 and 2022 resulting to the recognition of gain on sale amounting to ₱28.57 million and ₱29.82 million, respectively (see Note 29).

As at September 30, 2023 and December 31, 2022, no property and equipment have been pledged as collateral or security for any of the Group's liabilities.

16. Land at Revalued Amounts

The following are the details of this account as at September 30, 2023 and December 31, 2022:

Cost	526,025,559
Revaluation increment	6,093,869,589
	6,619,895,148

In 2022, the Group assessed that certain parcels of land at revalued amounts comprising majority of the balance of the account have significant movements in its current carrying values and obtained updated appraisals as at December 31, 2022. Total additional revaluation increment recognized in 2022 based on updated appraisals amounted to ₱3,650.29 million.

The fair value from the 2022 appraisals was determined using the "Market Data Approach" as determined by independent professionally qualified appraisers. The fair value represents the amount that would be received to sell the property in an orderly transaction between market participants at the date of valuation.

	Comparables			
	1	2	3	4
Adjusted asking price (per square meters)	₱283,500	₱252,000	₱330,750	₱330,750
Adjustments to asking price	5%	—	5%	5%
Lot size (square meters)	1,382.4	1,284	5,000	8,866
Location	Timog Avenue South Triangle Quezon City	Mother Ignacia Avenue South Triangle Lanao del Norte	Epifanio Delos Santos Avenue Bago Bantay Quezon City	Epifanio Delos Santos Avenue Unang Sigaw Quezon City

The appraised value of land is directly proportional to the asking price of the comparable land and adjusted according to the following appraisal considerations:

- Property Rights Conveyed
- Financing/Conditions of Sale/Listing
- Market Conditions (Time of Sale)
- Location
- Size and shape
- Topography, etc.

There was no additional revaluation increment on land as of September 30, 2023 due to insignificant movements in the fair value of the land.

Also on October 1, 2022, the Network purchased a parcel of land in Poblacion 5, Don Rufino Alonzo Street, Cotabato City amounting to ₱12.03 million as a suitable final relocation site for the transfer of GMA TV-12 Cotabato. Other acquisitions of land in Tagaytay, Laguna, Catanduanes, and Albay were also made during 2022 amounting to ₱6.02 million, ₱3.70 million, ₱1.55 million and ₱1.00 million respectively. Management believes that the fair values as at acquisition date approximates the fair values as at December 31, 2022.

For the land that were not appraised, the Group referred to the published comparable prices for the fair values.

As at September 30, 2023 and December 31, 2022, no land has been pledged as collateral or security for any of the Group's liabilities and the Group has no restrictions on the realizability of its land and no contractual obligation to purchase, construct or develop land or for repairs, maintenance and enhancements.

17. Investment Properties

	September 30, 2023 (Unaudited)		
	Land and Improvements	Buildings and Improvements	Total
Cost:			
Balance at beginning and end of period	23,761,823	72,276,684	96,038,507
Accumulated depreciation:			
Balance at beginning of period	-	60,080,806	60,080,806
Depreciation during the period	-	1,036,791	1,036,791
Balance at end of period	-	61,117,597	61,117,597
Accumulated impairment:			
Balance at beginning and end of period	-	3,852,641	3,852,641
	23,761,823	7,306,446	31,068,269

	December 31, 2022 (Audited)		
	Land and Improvements	Buildings and Improvements	Total
Cost:			
Balance at beginning and end of period	23,761,823	72,276,684	96,038,507
Accumulated depreciation:			
Balance at beginning of period	-	58,698,419	58,698,419
Depreciation during the period	-	1,382,387	1,382,387

Accumulated impairment:			
Balance at beginning and end of period	-	3,852,641	3,852,641
	23,761,823	8,343,237	32,105,060

The fair value of investment properties owned by the Group amounted to ₱203.90 million as at September 30, 2023 and December 31, 2022. Land used in operations was last appraised on November 19, 2018 by an accredited firm of appraisers and is valued in terms of its highest and best use.

The fair value was arrived at through the use of the “Market Data Approach”. The fair value represents the amount that would be received to sell the property in an orderly transaction between market participants at the date of valuation.

The description of the valuation techniques used and key inputs to fair valuation are as follows:

	Valuation Technique	Significant Unobservable Inputs	Range
Land	Market comparable assets	Price per square metre	₱1,400-₱3,500
Building for lease	Market comparable assets	Price per square metre	₱22,000-₱117,000

The fair value is categorized under Level 3 of the fair value hierarchy and represents the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

As at September 30, 2023 and December 31, 2022, no investment properties have been pledged as collateral or security for any of the Group’s liabilities and the Group has no restriction on the realizability of its investment properties and no contractual obligation to purchase, construct or develop investment properties or for repairs, maintenance and enhancements.

18. Other Noncurrent Assets

This account consists of:

	September 30, 2023	December 31, 2022
	(Unaudited)	(Audited)
Refundable deposits (see Notes 32 and 33)	86,467,780	26,501,499
Software costs	52,255,324	73,791,869
Restricted cash	52,722,572	52,722,572
Deferred input VAT	12,693,210	22,291,602
Investments in artworks	10,186,136	10,186,136
Facilities	7,564,742	7,564,742
Guarantee deposits	2,162,420	2,162,420
Deferred production costs	1,498,615	1,321,925
Others	506,124	735,294
	226,056,923	197,278,059

Software cost relates to software applications and website development costs which provide an edge on the Group's online presence and other software issues.

Restricted cash pertains to time deposits under the custody of the courts as a collateral for pending litigation.

Deferred input VAT pertains to the VAT on the Group's acquisitions of capital goods exceeding ₱1.00 million in any given month which are to be amortized over the 60 months or the life of the asset, whichever is shorter.

Refundable deposits pertain to the deposits made to various electric companies across the country.

Guarantee and other deposits consist of the Meralco refund and refundable rental deposits used for Parent Company's programs.

Investments in artworks are the paintings and other work of art usually displayed in the Parent Company's hallways.

Facilities relate to the paid deposit for facilities paid in advance and used for productions by the Group.

Advances to contractors pertain to advance payments made by the Parent Company for the construction of assets to be classified as property and equipment.

Deferred production costs pertain to the costs incurred in relation to the production of music compact discs and are measured at cost upon recognition. Deferred production costs are being amortized as the related compact discs are sold.

The movements in software costs follow:

	September 30, 2023 (Unaudited)	December 31, 2022 (Audited)
Cost:		
Balance at beginning of period	553,398,992	534,552,087
Additions during the period	8,931,356	17,316,702
Reclassifications during the period	-	1,530,203
Balance at end of period	562,330,348	553,398,992
Accumulated amortization:		
Balance at beginning of period	479,607,123	421,343,225
Amortization during the period (see Notes 27)	30,467,901	58,263,898
Balance at end of period	510,075,024	479,607,123
	52,255,324	73,791,869

19. Short-term Loans

The Group obtained unsecured short-term peso from local bank in 2022. Details and movements of the short-term loans are as follows:

	September 30, 2023 (Unaudited)	December 31, 2022 (Audited)
Balance at beginning of period	27,125,200	739,485,500
Additions	3,500,000,000	1,027,125,200
Payments	(1,014,624,200)	(1,685,850,000)
Revaluation	-	(53,635,500)
Balance at end of period	2,512,501,000	27,125,200

The loans consist of fixed rate notes with the following details:

Lender	Currency	Interest Rate (per annum)	Terms	September 30, 2023 (Unaudited)	December 31, 2022 (Audited)
BPI	Peso	6.25% - 6.30%	Availed in 2023; payable up to March 2024	₱1,500,000,000	₱—
MBTC	Peso	6.25%	Availed in 2023; payable up to October 2023	500,000,000	—
BDO	Peso	6.30%	Availed in 2023; payable up to December 2023	500,000,000	—
Security Bank	Peso	2.75%	Availed in 2022; payable up to December 2023	12,501,000	27,125,000

Interest expense on US dollar denominated loans amounted to nil and ₱2.78 million for the nine-month period ended September 30, 2023 and 2022, respectively, while interest expense on peso denominated loans amounted to ₱89.39 million and ₱7.85 million for the nine-month period ended September 30, 2023 and 2022, respectively.

20. Trade Payables and Other Current Liabilities

This account consists of:

	September 30, 2023 (Unaudited)	December 31, 2022 (Audited)
Payable to government agencies	1,510,264,176	1,242,808,934
Contract liabilities	668,987,877	369,733,835
Trade payables	561,406,365	562,649,076
Accrued expenses:		
Utilities and others	512,548,953	443,486,485
Payroll and talent fees	250,499,729	180,710,548
Production costs	203,780,596	108,293,100
Commissions	63,120,072	53,693,413
Customers' deposits	74,270,412	52,596,784
Others	82,373,896	70,876,368
	3,927,252,076	3,084,848,543

Payable to government agencies is composed of the Group's statutory compensation-related contributions to government agencies and net VAT and withholding taxes payable to the Bureau of Internal Revenue (BIR). The difference between the accrual accounting under the accounting standards and cash-basis accounting as prescribed by the BIR for service-related companies caused the Group to normally incur deferred output VAT which forms a substantial part of the Group's payable to government agencies. These payables are remitted within 30 days after reporting period.

Contract liabilities pertain to payments received before broadcast and before delivery of goods and services amounting to ₱668.99 million and ₱369.73 million as at September 30, 2023 and December 31, 2022, respectively. These are recognized as revenue when the Group performs the obligation under the contract. This account also includes contract liabilities of ₱22.00 million from airtime credits that have not been implemented resulting from the exchange of the Group's interests in X-Play in 2015 (see Note 13).

Trade payables to suppliers are noninterest-bearing and are normally settled on terms ranging from seven to 60 days.

Accrued expenses and other payables are noninterest-bearing and are generally settled within the next 12 months.

Customers' deposits include guaranty deposits from advertising agencies to secure payment of bills by advertisers. These deposits are non-interest bearing and normally refunded once the related broadcasts are paid by the advertisers. It also includes deposits from the Group's lessees upon inception of the lease agreements.

Others include unpaid subscriptions and retention payables. These are noninterest-bearing and are normally settled within one year.

21. Obligations for Program and Other Rights

Obligations for program and other rights represent liabilities to foreign and local film suppliers for program and other rights purchased by the Group. Outstanding unpaid balance as at September 30, 2023 and December 31,

2022 amounted to ₱438.91 million and ₱209.17 million, respectively. Obligations for program and other rights are noninterest-bearing and are generally payable in equal monthly or quarterly installments.

22. Material Events

- A. Any known trends, demands, commitments, events or uncertainties that will have a material impact on the issuer's liquidity.

As of September 30, 2023, there are no known trends, demands, commitments, events or uncertainties that will have a material impact on the issuer's liquidity.

- B. Any material commitments for capital expenditures, the general purpose of such commitments and the expected sources of funds for such expenditures.

The 2023 Capital Expenditure budget of the parent company amounts to ₱1,779.41 million. This will be financed from internally-generated funds.

- C. Any known trends, events or uncertainties that have had or that are reasonably expected to have a material favorable or unfavorable impact on net sales/revenues/income from continuing operations.

GMA Network's results of operations depend largely on the ability to sell airtime for advertising. The Company's business may be affected by the general condition of the economy of the Philippines.

- D. Any events that will trigger direct or contingent financial obligation that is material to the company, including any default or acceleration or an obligation.

As of September 30, 2023, there are no events which may trigger a direct or contingent financial obligation that is material to the Company.

- E. Any significant elements of income or loss that did not arise from the issuer's continuing operations.

As of September 30, 2023, there are no significant elements of income or loss that did arise from the issuer's continuing operations.

- F. Any seasonal aspects that had a material effect on the financial condition or results of operations.

There are no seasonal aspects that had a material effect on the financial condition or results of operations.

- G. Any material events that were unusual because of their nature, size or incidents affecting assets, liabilities, equity, net income, or cash flows.

There are no material events that were unusual because of their nature, size or incidents affecting assets, liabilities, equity, net income, or cash flows.

- H. Any material events subsequent to the end of the interim period that have not been reflected in the financial statements for the interim period.

There were no material events, subsequent to the end of interim period that have not been reflected in the financial statements for the interim period.

23. Equity

a. Capital Stock

Details of capital stock as at September 30, 2023 and December 31, 2022 are as follow:

	No. of Shares		Amount	
	2023	2022	2023	2022
Common - ₱1.00 par value				
Authorized	5,000,000,000	5,000,000,000	₱5,000,000,000	₱5,000,000,000
Subscribed and issued	3,364,692,000	3,364,692,000	₱3,364,692,000	₱3,364,692,000
Preferred - ₱0.20 par value				
Authorized	7,500,000,000	7,500,000,000	₱1,500,000,000	₱1,500,000,000
Subscribed and issued	7,500,000,000	7,500,000,000	₱1,500,000,000	₱1,500,000,000

The cumulative preferred shares are of equal rank, preference and priority and are identical in all respect regardless of series. Preferred shares are participating at the rate of one fifth (1/5) of the dividend paid to common shares, the rate of which is adjusted proportionately by the Parent Company's BOD consequent to any stock split or stock dividend declaration affecting the common shares and preferred shares. Preferred shares are convertible at the option of the shareholders at the ratio of five preferred shares to one common share, based on par value.

Preferred shares enjoy priority over common shares in the distribution of assets of the Parent Company in the event of dissolution and liquidation, at such rates, terms and conditions as the BOD may determine. Each preferred share is entitled to one vote and shall have the same voting rights as the common shares.

The Parent Company's BOD may specify other terms and conditions, qualifications, restrictions and privileges of the preferred shares or series/classes thereof, insofar as such terms, conditions, qualifications, restrictions and privileges are not inconsistent with the articles of incorporation and any applicable law or regulation.

The following summarizes the information on the Parent Company's registration of securities with the SEC which was approved on June 20, 2007, as required by Securities Regulation Code Rule 68, As Amended (2011):

Securities	Authorized and issued shares	Issue/Offer Price
Initial public offering	91,346,000	8.50
Underlying common share of PDRs	945,432,000	8.50
Over-allotment common shares	13,701,000	8.50
Common shares covering employee stock option plan	57,000,000	8.50

In prior years, the Parent Company has acquired 750,000 PDRs issued by GMA Holdings, Inc. at acquisition cost of ₱5.79 million. In as much as each PDR share grants the holder, upon payment of the exercise price and subject to certain other conditions, the delivery of one (1) Parent Company share or the sale and delivery of the proceeds of such sale of Parent Company share, such PDRs held by the Parent Company is being treated similar to a treasury share.

On October 4, 2021, the Parent Company's BOD approved to contribute its treasury common and preferred shares and PDRs to the Group's retirement plan. The contribution of the 3,645,000 treasury common shares and 492,816 treasury preferred shares was executed on December 31, 2021 at a transaction price of ₱13.90 per share and ₱2.77 per share, respectively. As the preferred shares are unlisted, the transaction price was based on the market price of the Parent Company's listed common shares on the transaction date, with the value of the treasury preferred shares computed based on the ratio of 1:5 preferred shares to common shares. The contribution of the 750,000 PDRs was executed on December 20, 2021 at a transaction price of ₱13.02 per share.

b. Retained Earnings

The Parent Company's BOD approved the declaration of the following cash dividends:

Year	Declaration Date	Record Date	Cash Dividend Per Share	Total Cash Dividend Declaration
2022	March 25, 2022	April 22, 2022	P1.45	P7,053,803,400
2021	March 26, 2021	April 22, 2021	P1.35	P6,561,267,889
2020	June 15, 2020	June 24, 2020	P0.30	P1,458,059,531

The Parent Company's outstanding dividends payable amounts to ₱40.29 million and ₱30.53 million as at September 30, 2023 and December 31, 2022, respectively.

On March 31, 2023, the Parent Company's BOD approved the declaration and distribution of cash dividends amounting to ₱1.10 per share totaling ₱5,351.16 million to all stockholders of record as at April 21, 2023 and paid starting May 16, 2023.

24. Related Party Disclosures

Parties are considered to be related if one party has the ability, directly and indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. Parties are also considered to be related if they are subject to common control. Related parties may be individual or corporate entities.

The Parent Company has an approval requirement such that material related party transactions (RPTs) shall be reviewed by the Audit and Risk Management Committee (the Committee) and submitted to the BOD for approval. Material RPTs are those transactions that meet the threshold value amounting to ten percent (10%) or higher of the Company's total consolidated assets based on its latest audited financial statements either individually, or in aggregate over a twelve (12)-month period with the same related party.

Outstanding balances at year-end are unsecured and settlement occurs in cash throughout the financial year. There have been no guarantees provided or received for any related party receivables or payables. For periods ended September 30, 2023 and December 31, 2022, the Group has not recorded any impairment of receivables on amounts owed by the related parties. The assessment is undertaken each financial year through examining the financial position of the related party and the market in which the related party operates.

In the ordinary course of business, the Group transacts with associates, affiliates, jointly controlled entities and other related parties on advances, reimbursement of expenses, and future stock subscriptions.

The transactions and balances of accounts as at and for the periods ended September 30, 2023 and December 31, 2022 with related parties are as follows:

Related Party	Category	Year	Amount/ Volume of Transactions	Receivables (Payables)	Terms	Conditions
Associate -						
Mont-Aire	Advances (see Note 14)	2023 2022	- 500	99,618,210 99,532,228	Noninterest- bearing	Unsecured; not impaired
Common stockholders:						
GMA Kapuso Foundation, Inc.	Reimbursable charges	2023 2022	475,000 94,000	852,901 1,169,823	On demand, noninterest- bearing	Unsecured; not impaired
Belo, Gozon, Elma Law	Legal, consulting and retainers' fees	2023 2022	3,998,400 1,803,935	- -	On demand, noninterest- bearing	Unsecured; not impaired
Joint ventures:						
Gamespan	Advances (see Note 14)	2023 2022	- -	1,959,670 1,959,670	Noninterest- bearing	Unsecured; not impaired
PEP	Advances (see Note 14)	2023 2022	- -	172,163 222,343	Noninterest- bearing	Unsecured; not impaired

The advances made by the Parent Company to Mont-Aire and PEP are intended for future capital subscription. On the other hand, the advances to INQ7 were fully impaired as a result of the application of the Group's share in the losses of INQ7 recognized under the equity method in excess of the Group's carrying value of investment.

Compensation of Key Management Personnel

The compensation of key management personnel of the Group, by benefit type, follows:

	September 30, 2023	September 30, 2022
	(Unaudited)	
Salaries and short-term benefits	623,378,625	637,630,951
Pension benefits	144,712,387	139,146,525
	768,091,012	776,777,476

Equity Investments of the Retirement Fund

The Group's retirement fund includes equity investments in GMA Network, Inc. and GMA PDRs amounting to ₱531.97 million and ₱6.15 million as at September 30, 2023, respectively and ₱757.31 million and ₱7.92 million as at December 31, 2022, respectively.

25. Net Revenues

Set out below is the disaggregation of the Group's revenues from contract with customers for the nine months ended September 30:

	September 30, 2023	September 30, 2022
	(Unaudited)	
Type of service		
Sale of service		
Advertising revenue	12,681,557,330	15,770,050,111

28. Personnel Costs

This account consists of:

	September 30, 2023	September 30, 2022
	(Unaudited)	
Talent fees	2,805,973,839	2,686,508,229
Salaries and wages	1,640,203,382	1,380,976,145
Employee benefits and allowances	613,048,464	922,689,116
Sick and vacation leaves expense	183,991,604	138,976,453
Pension expense	490,777,919	467,002,477
	5,733,995,208	5,596,152,420

The said amounts were distributed as follows:

	September 30, 2023	September 30, 2022
	(Unaudited)	
Production costs (see Note 26)	2,979,640,410	2,782,736,258
General and administrative expenses (see Note 27)	2,754,354,798	2,813,416,162
	5,733,995,208	5,596,152,420

29. Others - Net

This account consists of the following income (expenses):

	September 30, 2023	September 30, 2022
	(Unaudited)	
Commissions from Artist Center	140,713,785	86,866,116
Gain on sale of property and equipment	28,569,161	29,816,517
Merchandising license fees and others	6,457,136	8,542,790
Rental	5,385,853	4,096,340
Bank charges	(1,312,464)	(942,576)
Others	2,029,376	4,514,865
	181,842,847	132,894,052

30. Agreements

Lease Agreements

Group as a Lessee

The Group entered into various lease agreements for land, building, studio and office spaces that it presently occupies and uses for periods ranging from two to 12 years. The lease agreements can be renewed subject to mutual agreement and can be terminated at the option of the Group. Previously, these leases were classified as operating leases under PAS 17.

The Group also has certain leases with lease terms of 12 months or less. The Group applies the “short-term lease” recognition exemptions for these leases.

The rollforward analysis of right-of-use assets follows:

	September 30, 2023		
	(Unaudited)		
	Right-of-use:		
	Right-of-use:	Buildings, studio	Right-of-use:
	Land	and office spaces	Total
Cost -			
Balance at the beginning of the year	188,940,715	81,152,897	270,093,612
Additions	-	10,294,015	10,294,015
Balance at the end of the period	188,940,715	91,446,912	280,387,627
Accumulated Depreciation			
Balance at the beginning of the year	60,688,849	49,504,378	110,193,227
Depreciation (see Note 27)	9,305,752	12,998,436	22,304,188
Balance at the end of the period	69,994,601	62,502,814	132,497,415

Net Book Value	128,251,866	31,648,519	159,900,385

The rollforward analysis of lease liabilities follows:

	September 30, 2023 (Unaudited)	December 31, 2022 (Audited)
Balance at the beginning of the year	167,111,004	119,385,902
Additions	13,111,320	76,992,722
Accretion of interest	6,807,944	9,290,443
Payments	(26,653,115)	(28,506,823)
Termination	-	(10,051,240)
Balance at the end of the period	160,377,153	167,111,004

	September 30, 2023 (Unaudited)	December 31, 2022 (Audited)
Current portion	47,587,148	21,155,761
Noncurrent portion	112,790,005	145,955,243
	160,377,153	167,111,004

The rollforward analysis of dismantling provision follows:

	September 30, 2023 (Unaudited)	December 31, 2022 (Audited)
Balance at the beginning of the year	49,009,014	46,097,449
Accretion of interest	1,402,197	2,911,565
Balance at the beginning of the period	50,411,211	49,009,014

Total rental expense on short-term leases amounted to ₱611.29 million and ₱402.75 million as of September 30, 2023 and 2022, respectively (see Notes 26 and 27).

Group as Lessor. The Group leases out certain properties for a period of one year, renewable annually. The leased-out properties include investment properties, and broadcasting equipment. Total rental income amounted to ₱5.39 million and ₱4.10 million as of September 30, 2023 and 2022, respectively (see Note 29).

Subscription Agreements

The Parent Company entered into various subscription agreements with international cable providers for the airing of its programs and shows abroad. The agreements generally have terms of three to five years and are based on certain agreed service package rates.

Total subscription revenues amounted to ₱636.91 million and ₱578.55 million for the nine months ended September 30, 2023 and 2022, respectively (see Note 25).

31. EPS Computation

The computation of basic EPS follows:

	September 30, 2023	September 30, 2022
	(Unaudited)	
Net income attributable to Equity Holders of Parent Company (a)	2,469,553,885	5,090,253,673
Less attributable to preferred shareholders	761,472,839	1,569,550,654
Net income attributable to common shareholders (b)	1,708,081,046	3,520,703,019
Weighted average number of common shares for basic EPS (c)	3,362,494,500	3,362,494,500
Weighted average number of common shares	3,362,494,500	3,362,494,500
Effect of dilution - assumed conversion of preferred shares	1,500,000,000	1,500,000,000
Weighted average number of common shares adjusted for the effect of dilution (d)	4,862,445,219	4,862,494,500
Basic EPS (b/c)	0.508	1.047
Diluted EPS (a/d)	0.508	1.047

32. Financial Risk Management Objectives and Policies

The Group's principal financial instruments include cash and cash equivalents. The main purposes of these financial instruments include raising financing for the Group's operations and managing identified financial risks. The Group has other financial assets and liabilities such as trade and other receivables, refundable deposits, trade payables and other current liabilities (excluding payable to government agencies, customers' deposits and contract liabilities), short-term loans, obligations for program and other right, dividends payable and other long-term employee benefits, which arise directly from its operations, and financial assets at FVOCI. The main risks arising from the use of financial instruments are liquidity risk, foreign currency exchange risk and credit risk. The Group is not exposed to interest rate risk as most of its financial assets and financial liabilities have fixed rates.

The BOD reviews and approves the Group's objectives and policies.

Liquidity Risk. The Group is exposed to the possibility that adverse changes in the business environment and/or its operations would result in substantially higher working capital requirements and subsequently pose difficulty in financing the additional working capital.

The Group manages liquidity risk by using its cash and cash equivalents from operations to meet its short-term liquidity needs. The Group likewise regularly evaluates other financing instruments and arrangements to broaden the Group's range of financing sources.

The tables below summarize the maturity profile of the Group's financial assets used for liquidity risk based on contractual undiscounted payments as at September 30, 2023 and December 31, 2022:

September 30, 2023 (Unaudited)					
	On Demand	> 3 Months	3 to 12 Months	More than 1 year	Total
Cash and cash equivalents	2,381,815,677	806,513,371	-	-	3,188,329,048

*Included under "Other noncurrent assets" account in the consolidated statements of financial position (see Note 18).

** Excluding payable to government agencies, customers' deposits and contract liabilities amounting to P1,242.81 million, P52.60 million and P369.73 million, respectively (see Note 20).

***Gross contractual payments.

Foreign Currency Exchange Risk. Foreign currency exchange risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign currency exchange rates. The Group's exposure to foreign currency exchange risk results from its business transactions denominated in foreign

currencies. It is the Group's policy to ensure that capabilities exist for active but conservative management of its foreign currency exchange risk.

The Group's foreign currency-denominated monetary assets and liabilities are as follows:

	September 30, 2023		December 31, 2022	
	(Unaudited)		(Audited)	
Assets				
Cash and cash equivalents	\$8,802,130	P498,024,504	\$7,863,029	P438,442,485
	C\$258,363	10,910,682	C\$166,862	6,881,384
Trade receivables	\$3,223,814	182,403,396	\$3,628,902	202,347,566
	C\$818,727	34,574,825	C\$478,316	19,725,741
	S\$190,756	7,956,425	S\$198,925	8,271,298
	A\$21,490	786,533	A\$22,947	867,410
	DH43,982	682,162	DH44,644	682,162
	P735,338,528		P677,218,046	
Liabilities				
Trade payables	\$1,740,327	P98,467,702	\$817,128	P45,563,057
	€-	-	€78,902	4,698,614
	S\$-	-	S\$2,036	83,965

	P499,046,407		P192,967,728	
	P236,292,121		P484,250,318	

In translating the foreign currency-denominated monetary assets and liabilities into Philippine peso amounts, the exchange rate used were ₱55.43 to US\$1.00 and ₱55.76 to US\$1.00 as at September 30, 2023 and December 31, 2022, respectively. The exchange rate for Philippine peso to Canadian dollar was ₱41.78 to CAD\$1.00 as at September 30, 2023. The peso equivalents for the Singaporean Dollar, Australian Dollar, Dirham and Euro are ₱40.83, ₱36.62, ₱15.07 and ₱60.16, respectively as at September 30, 2023.

The following table demonstrates the sensitivity to a reasonably possible change in US\$ exchange rate, with all other variables held constant, of the Group's income before income tax from reporting date up to next reporting date (due to changes in the fair value of monetary assets and liabilities). There is no impact on the Group's equity other than those already affecting profit or loss.

		Effect on Income before Income Tax						
	Appreciation/ (Depreciation) of Peso	USD	CAD	SGD	AUD	AED	EUR	Total
September 30, 2023	0.50 (0.50)	₱984,081 (984,081)	₱134,636 (134,636)	₱23,844 (23,844)	₱2,686 (2,686)	₱5,498 (5,498)	₱- -	₱1,150,745 (1,150,745)
December 31, 2022	0.50 (0.50)	₱6,154,529 (6,154,529)	₱322,589 (322,589)	₱100,480 (100,480)	₱11,474 (11,474)	₱22,322 (22,322)	₱39,451 (39,451)	₱6,650,845 (6,650,845)

Credit Risk. Credit risk, or the risk of counterparties defaulting, is controlled by the application of credit approvals, limits and monitoring procedures. It is the Group's policy to enter into transactions with a diversity of creditworthy parties to mitigate any significant concentration of credit risk.

The Group ensures that sales of products and services are made to customers with appropriate credit history. The Group has an internal mechanism to monitor the granting of credit and management of credit exposures. The Group has made provisions, where necessary, for potential losses on credits extended. The Group's exposure to credit risk arises from default of the counterparty with a maximum exposure equal to the carrying amount of the

instruments. The Group does not require any collateral for its financial assets, thus, maximum exposure to credit risk is equal to the carrying value of the financial instruments.

The following table shows the maximum exposure to credit risk for the components of the consolidated financial position as at September 30, 2023 and December 31, 2022:

	September 30, 2023 (Unaudited)	December 31, 2022 (Audited)
Financial assets at amortized cost		
Cash and cash equivalents*	2,317,733,477	2,398,015,725
Trade receivables:		
Television and radio airtime	6,043,684,535	5,483,578,974
Subscription	226,403,347	202,565,315
Others	162,621,499	117,070,837
Nontrade receivables:		
Advances to officers and employees	3,272,845	3,696,291
Others	33,245,513	55,154,475
Refundable deposit**	86,467,780	26,501,499
	8,873,428,996	8,286,583,116
Financial assets at FVOCI	323,859,671	282,614,107
	9,197,288,667	8,569,197,223

**Excluding cash on hand and production fund amounting to P870.60 million and P437.10 million as at September 30, 2023 and December 31, 2022, respectively.*

***Included under "Other noncurrent assets" account in the consolidated statements of financial position (see Note 18).*

The maximum exposure for cash and cash equivalents (excluding cash on hand) is the carrying amount less insured amount by the Philippine Deposit Insurance Corporation equivalent to the actual cash balance to a maximum of ₱0.50 million per depositor per bank. The maximum exposure of trade and non-trade receivables and refundable deposits is equal to its carrying amount.

Credit quality of Financial Assets, Other than Trade Receivables

The financial assets of the Group are grouped according to stage whose description is explained as follows:

Stage 1 - Those that are considered current and up to 120 past due and based on change in rating delinquencies and payment history, do not demonstrate significant increase in credit risk.

Stage 2 - Those that, based on change in rating, delinquencies and payment history, demonstrate significant increase in credit risk, and/or are considered more than 120 to 360 days past due but does not demonstrate objective evidence of impairment as of reporting date.

Stage 3 - Those that are considered in default or demonstrate objective evidence of impairment as of reporting date.

The credit quality of the Group's financial assets are as follows:

September 30, 2023
(Unaudited)

	ECL Staging			Total
	Stage 1	Stage 2	Stage 3	
	12-month ECL	Lifetime ECL	Lifetime ECL	
Financial assets at amortized cost

**Included under "Other noncurrent assets" account in the consolidated statements of financial position (see Note 18).

Credit Quality of Trade Receivables

An impairment analysis is performed at each reporting date using a provision matrix to measure expected credit losses. The provision rates are based on days past due for groupings of various customer segment with similar loss patterns (i.e., by customer type). The calculation reflects the probability-weighted outcome, the time value of money and reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions.

Set out below is the information about the credit risk exposure of the Group's trade receivables using provision matrix:

September 30, 2023 (Unaudited)						
	Days past due					Total
	Current	0-30 days	31 - 60 days	61 - 90 days	91 days and above	
Expected credit loss rate	1%	17%	11%	11%	53%	
Estimated total gross carrying amount at default	P4,205,199,225	P367,446,514	P159,800,930	P75,728,544	P1,257,047,461	P 6,065,222,673

Capital Management

The primary objective of the Group's capital management is to ensure that it maintains a strong credit rating and healthy capital ratios in order to support its business and maximize shareholder value.

The Group manages its capital structure and makes adjustments to it, in the light of changes in economic conditions. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, payoff existing debts, return capital to shareholders or issue new shares.

The Parent Company is not subject to externally imposed capital requirements.

No changes were made in the objectives, policies or processes for periods ended September 30, 2023 and December 31, 2022.

The Group monitors its capital gearing by measuring the ratio of interest-bearing loan to total equity. The Group's interest-bearing loans, which are short-term loans, amounted to P2,512.50 million and P27.13 million as at September 30, 2023 and December 31, 2022, respectively. The Group's total equity attributable to equity holders of the Parent Company as at September 30, 2023 and December 31, 2022 amounted to P12,502.80 million and P15,388.77 million, respectively.

33. Fair Value Measurement

The table below presents the carrying values and fair values of the Group's assets and liabilities, by category and by class, as at September 30, 2023 and December 31, 2022:

	September 30, 2023 (Unaudited)			
	Fair Value			Significant
	Quoted Prices in	Significant	Unobservable	
	Active Market	Observable Input	Inputs	
	(Level 1)	(Level 2)	(Level 3)	
Carrying Value				
<i>Assets Measured at Fair Value</i>				
Land at revalued amount	6,619,895,148	-	-	6,619,895,148
AFS financial assets	323,859,671		13,371,842	310,487,829
<i>Assets for which Fair Value are Disclosed</i>				
Investment properties	31,068,269	-	-	203,902,548
Loans and receivables - Refundable deposits*	86,467,780	-	-	68,264,769
	7,061,290,868	-	-	7,202,550,294

*Included under "Other noncurrent assets" account in the consolidated statements of financial position (see Note 18).

	December 31, 2022 (Audited)			
		Fair Value		
	Carrying Value	Quoted Prices in Active Market (Level 1)	Significant Observable Input (Level 2)	Significant Unobservable Inputs (Level 3)
<i>Assets Measured at Fair Value</i>				
Land at revalued amount	2,945,297,014	-	-	2,945,297,014
Financial assets at FVOCI	188,756,153	-	13,371,842	175,384,311
<i>Assets for which Fair Value are Disclosed</i>				
Investment properties	33,487,447	-	-	203,902,548
Loans and receivables - Refundable deposits*	22,165,836	-	-	17,499,532
	3,189,706,450	-	13,371,842	3,342,083,405

As at September 30, 2023 and December 31, 2022, the fair value of equity instruments in a listed entity is classified under Level 3 due to the investee Company's suspension of trading in the market.

The fair values of equity instruments in listed and non-listed companies classified under Level 3 were determined through asset-based approach. Asset-based approach is based on the value of all the tangible and intangible assets and liabilities of the investee Company.

Presented below are the significant unobservable inputs used in the market approach valuation of the Group's financial assets as at September 30, 2023 and December 31, 2022:

Description	Unobservable Inputs	Range	
		September 30, 2023	December 31, 2022
Listed equity instrument:			
Casinos and gaming industry	Discount for lack of marketability	10%-30%	10%-30%
	Discount for lack of control	10%-30%	10%-30%
Non-listed equity instruments:			
Media and entertainment industry	Discount for lack of marketability	10%-30%	10%-30%
	Discount for lack of control	10%-30%	10%-30%

An increase (decrease) in the significant unobservable inputs used in the valuation of the equity investments will decrease (increase) the fair value of the equity investments.

Fair Value Determination

The following methods and assumptions are used to estimate the fair value of each asset and liability for which it is practicable to estimate such value:

Cash and Cash Equivalents, Short-term Investments and Trade and Other Receivables

The carrying values of cash and cash equivalents, short-term investments and trade and nontrade receivables approximate their fair values primarily due to the relatively short-term maturity of these financial instruments.

Refundable Deposits

The fair value of refundable deposits is based on the present value of the future discounted cash flows. Discount rates used range from 3.26% to 4.44% as at September 30, 2023 and December 31, 2022.

Financial assets at FVOCI

The Group's investments in club shares were based on prices readily available from brokers and other regulatory agencies as at reporting date. The fair values of equity investments in listed and non-listed companies have been estimated using the net asset value model and market approach. The valuation using market approach requires management to make certain judgments in deriving the set of comparable companies for each entity and in the selection of the appropriate multiples within the range, considering qualitative and quantitative factors specific to the measurement.

Investment Properties and Land at Revalued Amount

The valuation for investment properties and land at revalued amount was derived through market data approach based upon prices paid in actual market transactions. This approach relies on the comparison of recent sale transactions or offerings of similar properties which have occurred and/or offered with close proximity to the subject property adjusted based on certain elements of comparison (e.g. market conditions, location, physical condition and amenities). Significant unobservable valuation input in determining the fair value of investment properties includes adjusted price per square meter that ranges from ₱1,400 to ₱117,000. On the other hand, significant unobservable valuation input in determining fair value of land at revalued amounts include adjusted price per square meter that ranges from ₱283,500 to ₱330,750.

Significant increases (decreases) in estimated price per square meter would result in a significantly higher (lower) fair value of the properties.

Trade Payables and Other Current Liabilities (excluding Payable to Government Agencies, Customers' Deposits and Contract Liabilities), Short-term Loans, Obligations for Program and Other Rights and Dividends Payable

The carrying values of trade payables and other current liabilities, short-term loans, current portion of obligations for program and other rights and dividends payable approximate their fair values due to the relatively short-term maturity of these financial instruments.

Lease liabilities

The fair value is based on the discounted value of future cash flows using the applicable rates for similar types of loans plus the applicable credit spread. Discount rates used ranged from 3.39% to 6.78% as at September 30, 2023 and December 31, 2022.

Obligation for program and other rights

Estimated fair value is based on the discounted value of future cash flows using the applicable risk-free rates for similar types of loans adjusted for credit risk.

34. Causes for Material Changes in the Financial Statements

Statements of Financial Position (September 30, 2023 vs. December 31, 2022)

- Cash and cash equivalents of ₱3,188.33 million climbed by ₱332.86 million or 12% from 2022 balance of ₱2,855.47 million as a result of higher net cash flows provided by operating activities which as of end of reporting period amounted to ₱4,207.47 million. This was primarily offset by acquisition of property and equipment and software costs during the nine-month period of 2023 amounting to ₱928.64 million and net cash used by financing activities accumulating to ₱2,955.61 million primarily due to payment of cash dividends and portion of short-term loans of ₱6,373.87 million, partially offset by the ₱3,500 million proceeds from availment of short-term loans.
- Trade and other receivables closed at ₱5,560.19 million, 5% lower than end-2022's ₱5,862.07 million as a result of lower sales and collection effort as of September 30, 2023.
- Inventories declined by 18% or ₱261.56 million, directly attributable to sales of merchandise inventory during the first nine months of 2023.

- Obligation for program and other rights also hiked by 110% or ₱229.74 million as at end of 3rd quarter of 2023 this year to ₱438.91 million from ₱209.17 million in 2022 as a result of higher acquisition during the period.
- Equity attributable to Parent Company stockholders of ₱12,502.80 million as at September 30, 2023 declined by 19% or ₱2,885.98 million, mainly due to the declaration of cash dividends during year netted by the net income attributable to Parent Company earned as of end-September 2023.

35. Other Notes to 2023 and 2022 Operations and Financials

The key performance indicators that the Group monitors are the following:

	September 30, 2023	September 30, 2022
	(Unaudited)	
Revenues	13,766,476,889	16,751,246,054
Airtime revenues	11,610,946,144	15,153,620,525
Cash operating expenses	9,074,096,195	8,946,039,366
EBITDA	4,878,760,876	8,012,051,436
Net income before tax	3,286,815,730	6,818,601,198
Net income after tax	2,466,193,904	5,121,118,563

	September 30, 2023	December 31, 2022
	(Unaudited)	(Audited)
Current ratio	1.89	3.45
Asset-to-Equity ratio	2.05	1.60
Debt-to-Equity ratio	0.200	0.002

	September 30, 2023	September 30, 2022
	(Unaudited)	
Interest Coverage ratio	34.39	371.62
EBITDA margin	35%	48%
Net income margin	18%	31%
