

## That All May be One in Love and Service. The GMA Kapuso Foundation Prayer

Loving God, fount of goodness and compassion,
We humbly come before you to offer our praise and thanks,
for all the blessings that you have bestowed upon us.
We thank you, most especially, for calling us to be men and women of service,
sending us to others, as salt and light, to flavor life with hope and joy.

We pray that you renew us in Your love and likeness, so that peace may always reign in our hearts.

Be our strength, please continue to energize and rejuvenate our souls.

Bless and guide us, your people at GMA Kapuso Foundation, grow in our hearts and make us instruments of Your love.

Teach us the best way to share Your love to the least of our brothers and sisters.

We lift up to You, our Merciful Father, the most special of Your children; the poor and the needy, the broken and the homeless, the young, the aged, the sick and the lonely. Heal their bodies, heal their hearts, and heal their souls. Lead them to Your loving embrace – to find love and refuge.

We also entrust to your utmost care our generous donors and partners, the companies, individuals, groups and organizations who ceaselessly journey with us in serving others the Kapusong Totoo way, keep them in Your presence, and bring joy and peace to their generous hearts.

And as we continue to respond to the call of delivering Serbisyong Totoo, grant our Parent-Benefactor, GMA Network, Inc., Your choicest blessings. Bless its leaders and personnel with Your strength and inspiration, so they may carry on supporting the work of the foundation and fulfill their mission to communicate Your love and graciousness, all for Your glory and in the service of Your people.

AMFN.

### **VISION**

We are the most accomplished, most trusted and most credible non-government organization in the Philippines; the leader in serving and uplifting the lives of the underprivileged members of our society through Serbisyong Totoo and the responsible use of media.

### **MISSION**

We uplift the lives of underprivileged Filipinos all over the Philippines by:

- providing quick-response relief operations to fulfill the most immediate needs in times of crises;
- undertaking health, nutrition and medical projects to promote greater equity in health;
- Carrying out developmental programs designed to promote education and foster learning.

We value our relationship with local, national, and international partners and recognize the impact they have in our capability to provide help to those who need it most.

We are committed in ensuring sustainable operations to enable us to continue being a "strong bridge" for our donors and beneficiaries by actively promoting the Foundation's initiative to solicit sufficient funding.

In doing so, we effectively bridge the distance that comes between those who need help and those who extend a helping hand. As such, we recognize the power of media and its role in eliciting compassion and a sense of responsibility from our donors and in promoting volunteerism among Filipinos and shall continue to use it responsibly as a means to achieve our organizational goals.

### Message from the **CHAIRMAN**

We at the GMA Kapuso Foundation are gratified that we have been able to serve our children and "kababayan" in the areas of education, health, shelter, infrastructure, food, etc.

In particular, we have been at the forefront of providing immediate relief and assistance to victims of natural and man-made calamities in Luzon, Visayas and Mindanao.

Needless to say, we have been able to respond to all these with the help of our generous partners and donors.

Among others, our Operation Bayanihan distributes relief goods such as food, potable water and hygiene kits which are the basic needs of disaster victims. Close to my heart is the Kapuso Soup kitchen that makes and provides warm and nutritious rice porridge for the hungry victims. These are vital to their needs in time of calamities when resources are either scarce or not available.

Our desire and responsibility as a Kapuso has been to be there where and when we are needed.

We are grateful for the trust, support and help given to us to deliver genuine public service to our countrymen and women. May we continue to help and support one another.

Maraming salamat sa pagmamahal sa kapwa, Kapuso!

ATTY. FELIPE L. GOZON

### Message from the **PRESIDENT**

In the past year, the GMA Kapuso Foundation touched the lives of hundreds of thousands of Filipinos nationwide through our pillar projects.

Our Operation Bayanihan disaster relief projects helped a total of 161,197 individuals within the period through the expeditious delivery of basic emergency aid. Northern Luzon was battered by Ompong, the worst typhoon to hit the country this year, while the Naga district of Cebu suffered the loss of many lives due to a landslide. Relief goods were quickly distributed by GMAKF to the victims of these as well as other natural calamities which included fires, flood and earthquakes.

GMAKF's Unang Hakbang Sa Kinabukasan project served 80,000 indigent elementary students from all over the country. Of the belief that boosting the morale of elementary school students by providing complete sets of school supplies helps motivate them to study and stay in school, we further extended the scope of the program to include difficult to reach areas such as Tawi-Tawi, Lanao Del Norte & Sur, Zamboanga Del Norte, Bukidnon, Davao Oriental, Leyte, Romblon, Apayao, Mindoro Occidental, Samar and Negros Oriental.

Our Give-A-Gift: Alay sa Batang Pinoy Christmas project gave joy to 65,000 impoverished children throughout the country through the Noche Buena care packages gift giving program in 2018. Additionally, 311 malnourished kids from Danglas and San Isidro in Abra benefitted from our Give-A-Gift: Feed-A-Child 120 day feeding program which provided nutritious meals to these severely affected children.

The Kapuso Tulay Para Sa Kaunlaran Program which involves the construction of sturdy concrete and steel hanging bridges in remote locations so the local communities can safely reach school and market centers successfully delivered another project. On May 16, 2018, we built our second bridge at Barangay San Ramon in Buhi, Camarines Sur which is also our longest to date at 100 meters in length.

Our Rebuild Marawi Project is our response to the need to build public elementary schools in Marawi City, Lanao Del Sur as many schools were reduced to rubble because of the siege.

On October 29, 2018, we inaugurated our first Kapuso school in Marawi, one year after its liberation from the armed conflict. Built with 4 classrooms and 8 gender sensitive restrooms at Camp Bagong Amai Pakpak Elementary School with the help of multisectoral partners, we were the first organization to complete a school building in the war-torn city. These new Kapuso classrooms now serve almost 300 students from Kindergarten to Grade 6.

On December 6, 2018, we turned over an additional two school buildings to Pendolonan Elementary School located at Barangay Bubong Punod, also in Marawi City. A total of 6 classrooms and 12 gender sensitive restrooms were built and rehabilitated there; again with the help of partners and donors.

The key feature of our Kapuso type classrooms is the use of reinforced concrete that is typhoon resistant, capable of withstanding winds of up to 250 kilometers per hour. GMAKF's Project Engineers also used materials that are resilient to bullets, fire, typhoon and termites to guarantee the sturdiness and durability of each classroom.

We continue to redouble our efforts driven by the constant, insatiable needs that surrounds us. Fueled by your continuing trust and support, we look forward to our making even more of a difference in the year to come together.

Maraming Salamat po sa inyong lahat sa patuloy ninyong pagtulong at pagtiwala.

GILBERTO R. DUAVIT, JR.

### Message from the **FOUNDER AND AMBASSADOR**

It was in 2017 that my long time dream was realized with the launching of the Kapuso Tulay Para Sa Kaunlaran Project. The construction of our first sturdy concrete and steel bridge at Barangay Iraya in Buhi, Camarines Sur connected remote communities to trade and learning centers.

I am elated with the success and continuity of this infrastructure project with the construction of our second and longest 100 meter bridge at the nearby Barangay San Ramon in 2018.

Both bridges served saved the lives of many during the onslaught of typhoon Usman in December 2018. Residents with their livestock ran to our bridges for safety when the water level of Lake Buhi rose. Indeed, this was God's work as both bridges were constructed prior to the calamity.

We couldn't have accomplished these life changing projects without the help of the partners and donors from all sectors of society. We are grateful for your trust in us and with this comes a great responsibility to continue to serve the public with utmost integrity. May you continue to support us in giving Serbisyong Totoo.

Maraming salamat po sa patuloy na pagtulong sa mga nangangailangan, Kapuso!

The ligages CARMELA C. TIANGCO

### Message from the **EXECUTIVE VICE PRESIDENT/COO**

The Kapuso School Development Project in Marawi City was quite difficult to execute. Both workers and materials suppliers were trepidatious about going into a war zone despite the fact that Marawi had already been declared liberated, 8 months earlier. But we at GMA Kapuso Foundation were determined to see the Rebuild Marawi project through despite all challenges in our way, for the sake of the children of Marawi. The 2017 school year was disrupted because of the siege which went on for 6 months, starting just when school was about to start in May. For 6 months fighting raged on, resulting in a mass exodus of residents. In KF's experience, during times of conflict, it is the least or weakest among the population who bear the most suffering and these are usually the innocent children.

Aside from conducting massive relief operations for displaced Marawi residents, your GMA Kapuso Foundation focused our efforts and resources on the construction of sturdy and functional classrooms for the benefit of the children of Marawi. We could not have done this without guidance from above and the generous help of partners, donors and sponsors. Heartfelt thanks to the AFP's Western Mindanao Command for lending its engineers to help us with construction work and for keeping us safe as we did our work, to the DPWH Region IX for speedily doing necessary ground work like soil tests and for lending us its equipment like earth moving machines and trucks, to the Marawi City Schools Division for providing us with valuable input on schools needing help and to the Department of Education (National).

Finally, our deepest gratitude to Filipinos here in the country and abroad who trusted GMA Kapuso Foundation with their hard earned monetary and material donations. There is a saying that the strongest of steel is forged in the hottest of fires. The Marawi siege tested our resilience as a united people and with God's grace and the kindness of Filipinos everywhere, we were able to pull through and hopefully, in the years to come, Marawi and its precious children will flourish.

**RIKKI ESCUDERO-CATIBOG** 

GMA Kapuso Foundation served a total of

## 334,449 individuals

in 2018 through its Disaster Relief (161,296 individuals), Education (80,000 individuals), Values Formation (75,402 individuals) and Health (17,751 individuals) programs.

This number includes students currently using classrooms constructed and rehabilitated under the Kapuso School Development (KSD) Project.

Also included in this number are the current residents of Barangay San Ramon in Buhi, Camarines Sur where we constructed a 100 meter long steel and concrete hanging bridge under our Kapuso Tulay Para Sa Kaunlaran Project.

## JANUARY 26,674

### **Operation Bayanihan**

- 18,733 victims of Mayon Volcano eruption in Albay received relief goods.
- 1,700 feeding beneficiaries among evacuees from Mayon Volcano eruption.

 318 pupils at Pendolonan Elementary School benefitted from the planting of vegetables (Kalabasa, pechay and sitaw) during the groundbreaking ceremony of the school.

#### **Bisig Bayan Medical Assistance Project**

• **67** walk-in patients were given medical assistance.

GMA Kapuso Foundation's Operation Bayanihan disaster relief project provides immediate relief and assistance to victims of natural and manmade calamities in the country such as typhoons, fires, flood and earthquakes.

The year 2018 fortunately, had few typhoons. Most of the damaging ones were in Luzon. Typhoon Josie struck Northern Luzon in July 2018 and relief goods were given by GMA Kapuso Foundation to over 2,400 beneficiaries in Zambales , 4,900 in Bataan and 11,800 individuals in Pangasinan and Tarlac. Typhoon Ompong also ravaged Northern Luzon and over 38,000 individuals were given relief packs in Cagayan, llocos Norte, Baguio City and Benguet, Tarlac and Rizal.

Flood incidents caused by "Hanging Habagat" or monsoons in the National Capital Region and Northern Luzon were quickly responded to by GMA Kapuso Foundation. Over 16,000 individuals in depressed areas in Marikina, San Mateo and Rodriguez, Rizal and Pangasinan were given relief goods during the rainy months of July and August.

Fire accidents were the most rampant among all calamities in 2018. A total of 43,840 fire victims were given relief goods and hygiene kits in the Visayas (Cebu City, Lapu-Lapu City, Minglanilla and Talisay in Cebu, Mandaue City, Lapu Lapu City), Luzon (Pasig City, Quezon City, Navotas, Las Pinas City, Malabon City, Taytay in Rizal, Bacoor in Cavite) and Mindanao (Jolo in Sulu).

A landslide also struck Naga, Cebu and the Kapuso Foundation served over 2,400 beneficiaries.

Key infrastructure projects like the Rebuild Marawi Project and the Kapuso Tulay Para Sa Kaunlaran Project in San Ramon, Buhi, Camarines Sur are all in aid of disaster stricken provinces, be they man-made (in the case of Marawi City) or natural (in the case of CamSur).

	H-Part			4-9-60 A
Calamity	Date	Area/s served	No of beneficiaries	Assistance provided
Typhoon Josie	July 21, 2018	Barangays San Pablo, Castillejos, Liwliwa and San Felipe in Zambales	2,420 500	Relief goods Soup Kitchen

Feature Story:

### The Onslaught of Typhoon Ompong on Northern Luzon

The country's worst storm of the year blew in September 12, 2018. Typhoon Ompong ravaged a large part of Luzon from as far south as Camarines Sur to as far north as Cagayan Province. Forewarned by the GMA News IMReady Weather Desk, GMAKF deployed teams with trucks laden with relief goods to Baguio and the Mountain Province, Cagayan, Ilocos Norte and Camarines Sur. GMAKF also responded to post-typhoon distress calls emanating from Dagupan, Pangasinan, Tarlac and San Mateo, Rizal.

Worst hit were the northern provinces of Cagayan, particularly, Baggao and land slide devastated Itogon, Benguet. Estimated damage to property was pegged at P14.3 billion by the National Disaster Coordinating Council.

GMAKF was the first foundation to respond and 38,832 individuals, all victims of Typhoon Ompong, received much needed relief goods. GMAKF worked closely with different battalions and brigades of the AFP's Northern Luzon Command, whose trucks and soldiers brought KF relief goods through impassable roads and terrain.

Two months after Typhoon Ompong hit, GMA Kapuso Foundation held its last quarter medical mission in Baggao, Cagayan de Oro with the help of the Philippine Army's 5th Infantry Division and the generous monetary donation of AMCHAM, the American Chamber Foundation of the Philippines, Inc. The 4th quarter medical mission of GMA Kapuso Foundation for 2018 was held at the Antonio Pallagao Gymnasium, Poblacion, Baggao, Cagayan. 1800 beneficiary-patients were seen to by KF volunteer doctors and nurses and were given free medicine and vitamins. 212 were given free prescription eyeglasses courtesy of Ideal Vision.

KF meeting with MGen. Arnold Depakakibo, the AFP's Chief Engineer in July 2017.

Cover Story:

## The Rebuild Marawi Project- Camp Bagong Amai Pakpak and Pendolonan Elementary Schools

### **How It All Began**

For 6 months from May 23 until October 17, 2017, the Battle of Marawi raged on between government troops and local ISIS terrorist branch, the Maute Group. It will be known in local military annals as one of the largest urban operations launched by the Armed Forces of the Philippines after World War 2. Unbeknownst to the general public, by early July, the AFP was already meeting with the Department of Education and NGOs like GMA Kapuso Foundation to discuss the rebuilding of schools after war torn Marawi City is delivered from the clutches of terrorists. At this point, not even the AFP could say when the fighting would stop, just that when it did, Marawi would need the help of government, non-government organizations and the private sector, to rise again. GMAKF met with the AFP's Chief Engineer, then Major General Arnold Depakakibo for crucial inputs on how to proceed as the entire island of Mindanao was under martial law (as it remains today). Subsequent meetings with Education Undersecretary Alain Pascua, assigned to oversee the rebuilding of schools in Marawi, yielded the definitive information that schools inside the most affected area were not to be touched. Unexploded bombs needed to be weeded out first. But other schools outside the main battle area, needed rehabilitation as well. These schools were anticipated to get an influx of new students, displaced from their original schools in ground zero but seeking to return to Marawi City, once the situation normalized. GMAKF personnel waited for the war in Marawi to finish, using the 6 month period of unabated fighting to attend more planning sessions with the DepEd, other concerned government agencies and the AFP. GMAKF also organized no less than 7 mercy missions to Marawi City, coming to the aid of the locally displaced population of Bakwit who sought refuge in evacuation centers in nearby Baloi, Iligan and Cagayan de Oro. Finally, towards the end of the 6th month of fighting, in October of 2017, President Rodrigo Roa Duterte announced that the Maute brothers, the brains of the attempted terrorist take-over of Marawi City, were killed by military snipers. The battle of Marawi was over and government troops emerged victorious. But what was left of Marawi City? The answer for GMAKF would not be clear until a couple of months later.

### **First Look**

GMA Kapuso Foundation would not be given the all clear by the AFP to go inside Marawi City until close to Christmas

Inspecting Pendolonan School in Marawi City in December 2017.

of 2017, GMAKF EVP and COO Rikki Escudero Catibog travelled to Marawi City on December 22, 2017 and went around the liberated city accompanied by Lt. Col Jonjie Juguillon and his troops from the 549th Engineer Batallion of the ARMY'S 54th Engineer Brigade. They sought the input of Marawi City Schools Division Superintendent Pharida Sansarona as to which schools would need help in rehabilitation. Superintendent Sansarona tasked Marawi Schools **Division Education Program Supervisor** Omaimah Daluma to accompany GMAKF to 3 public elementary

schools: Pendolonan Elementary School located close to the Sagonsongan relocation area, Camp Bagong Amai Pakpak located within the compound of the Philippine National Police and finally, Datu Saber Elementary School located in one of the most populous barangays in Marawi City, Brgy. Datu Saber.

The GMAKF team arrived in Marawi City just after Typhoon Vinta blew into Northern Mindanao causing landslides in Bukidnon and flooding in Cagayan de Oro, Iligan and Marawi City. Amidst grey skies and pouring rain, the GMAKF team went to its 3 potential, beneficiary schools and started assessing the existing buildings as well as where new classrooms could be built. For 2018, two schools in Marawi City would get a total of 10 new and rehabilitated classrooms and 20 gender sensitive toilets.

### **Breaking Ground, Construction Challenges**

First site: Camp Bagong Amai Pakpak Elementary School located within the PNP compound in Barangay Brgy. Biaba Damag in Marawi City. GMAKF broke ground here on June 29, 2018 and would build 4 classrooms in a graduated level design following the natural terrain of the school grounds. GMAKF classrooms are made of reinforced concrete (buhos) and are typhoon resistant, meaning they stand firm and strong even against winds of up to 250 kilometers per hour. The classrooms are also built to withstand up to Intensity 7 earthquakes. There is also a unique feature to each and every classroom: two separate restrooms (toilet and sink) for boys and girls. This was the special request of the Marawi City Schools Division in view of strict, gender separation traditions in Muslim culture. GMAKF had to bring its own construction crew to Marawi City, augmented by hardworking Army engineers from the Western Mindanao Command's 54th Engineer Brigade (549th Engineer Batallion) and some local laborers.

### The Kindness of Donors (Plus Dabarkads and Alden)

By the grace of God and the kindness of the Filipino people, donations poured in for GMA Kapuso Foundation's Rebuild Marawi Fund.

The top monetary donors for the first phase of KF's Rebuild Marawi Project are:

Federation of Filipino-Chinese Chambers of Commerce & Industry Inc. (FFCCII)
Dato Sri Dr. Becky M. Leogardo, Honorary Princess of Lanao
Wilcon Depot

The top material donors for the project are:

Mariwasa Siam Ceramics, Inc. Fortune Buddies Corporation Republic Cement Cemex TAPE Incorporated
NKD International Corporation
Hocheng Philippines Corporation/HCG
Ramgo International Corporation

Another boon was granted to Camp Bagong Amai Pakpak Elementary School by close partners of GMA Network: TAPE, Inc., the production company behind the iconic noontime show, EAT BULAGA and APT Entertainment Inc., the coproducer of the Sunday noontime comedic variety show, SUNDAY PINASAYA. It was the expressed wish of the Principal and teachers of Camp Bagong Amai Pakpak to have a new stage. A stage is an integral part of Maranao school life, where numerous programs, awardings and celebrations are held. The old stage was falling apart and had to be demolished to make way for the new school building, GMA Kapuso Foundation EVP and COO Rikki Escudero Catibog approached the legendary producer/director Antonio "Tony" Tuviera, President of Tape Inc. and Chairman of APT Entertainment for help. Surely if a man would be inclined to help build a stage, then it would be the man behind EAT BULAGA, the longest running, daily, noontime variety show on Philippine TV, airing on GMA Network. It turns out, Tony Tuviera didn't need convincing to help out. In a touching manifestation of the kindness and generosity he is known for, Mr. Tuviera willingly pledged to cover the amount needed for a brand new, outdoor school stage. It would later be designed by GMAKF Senior Engineer Edgar Eniego to have sarimanok tails, locally known as "OKIR" or "PANOLONG" on its roof, an homage to the rich Maranao culture of Lanao Del Sur. Mr. Tuviera also pledged

to provide a complete set of top of the line, audio equipment so the children studying at Camp Bagong Amai Pakpak would have the best acoustics for their programs and performances. CBAPES Principal Sarah Basir Bantuas exclaimed in delight, "The entire barangay can hear the music played so clearly and flawlessly from the school's new sound system! We are all so happy! Thank you Allah! Thank you GMA Kapuso Foundation! Thank you EAT BULAGA! Thank you SUNDAY PINASAYA! Thank you Mr. Tony Tuviera!"

Alden donated part of the proceeds from his successful concert produced by GMA Records to the construction of classrooms at Pendolonan Elementary School in Marawi.

Eat Bulaga APT Entertainment, Inc.'s Tony Tuviera commits to funding Camp Bagong Amai Pakpak Elementary School's stage and audio equipment.

**Second Site:** Pendolonan Elementary School located in Barangay Bubong Punod, is very close to the government's Sagonsongan resettlement village, also in Marawi City. GMAKF broke ground here on June 29, 2018 and would build a brand new building with 4 classrooms and 8 comfort rooms as well as rehabilitate another building with 2 classrooms and 4 comfort rooms for a total project commitment of 6 classrooms and 12 gender sensitive comfort rooms. Located at the foot of nearby mountains, Pendolonan Elementary School looked like it was frozen in time from decades ago. On one side of the school square stood an old, decrepit school building whose wooden, inner partitions had long rotted away, leaving teachers to teach different classes simultaneously in one cavernous space. It was a puzzle as to how lessons were learned under such chaotic circumstances. The old hollow block walls were cracked and had holes. The wooden shutters were broken and sagging and most were eaten by termites. The wooden beams holding up the roof were sagging. The roof itself had holes in some parts and was heavily rusted. GMAKF Senior Engineer Edgar Eniego pronounced the structure dangerous and no longer fit for use. In fact, earlier on before our inspection, the teachers already stopped holding classes

BEFORE

in the structure and just used it as some sort of repository of broken school chairs. Members of the 549th Engineer Batallion of the Army's 54th Engineer Brigade spearheaded the

demolition of the structure so we could start with a clean slate. Kapuso actor and Eat Bulaga mainstay, Alden Richards donated part of the proceeds from his successful 2018 concert mounted by GMA Records, to help fund the construction of classrooms in Pendolonan Elementary School. The nearby two classroom building, pronounced as "still workable" by GMAKF engineers, would be rehabbed, its walls fortified, its roof raised, its doors and windows replaced with steel doors and shutters impervious to termites and the floor area, widened to accommodate 4 gender sensitive toilets. The time came towards October 2018, when the KF construction crew and the army engineers had to cover both school work sites and work double time to ensure the timely finish of both schools. The Principal of Pendolonan and its teachers also requested that the school's quadrangle be cemented as there was no place for the students to congregate. When it rains, the existing square became muddy and slippery. Apart from the cemented school square, GMAKF also designed a cemented walkway and ramp so deliveries can be made into the school using trolleys and carts.

Pendolonan ES Principal Monaoray Taratingan exclaimed: "We are so happy that our children have new classrooms, CRs and a school quadrangle where we can hold assemblies without fear of dirt and mud. Allah be praised! Thank you GMA Kapuso Foundation and Alden!"

Again, with cooperation and hard work, (the army engineers worked without sleep for 36 hours prior to inauguration day, to ensure the stage of Amai Pakpak would be finished in time for planned festivities) and infinite graces from God, both schools were completed on time, according to schedule.

### GMAKF: The First To Turn Over A Finished School For The Children Of Marawi City

Your GMA Kapuso Foundation was the very first organization to finish a school in post war Marawi City. GMAKF turned over the 4 classroom/8 CR school building and stage to Camp Bagong Amai Pakpak Elementary School on October 29, 2018, 4 months after ground was broken and one year after President Rodrigo Roa Duterte declared Marawi City liberated by government troops from the Maute terrorist group.

The new school buildings of Pendolonan Elementary School with a total of 6 classrooms and a dozen gender sensitive toilets, as well as its concrete quadrangle and entrance/exit ramp, took 5 months to finish and turn over rites to the ARMM Department of Education's Marawi City Schools Division, the Principal, teachers and excited students were done on December 6, 2018.

Feature Story:

#### Kapuso Tulay Para Sa Kaunlaran: San Ramon, Buhi, Camarines Sur

GMAKF's longest bridge to date was constructed to spur local trade and economic activity, hence the project title of our bridge building efforts is "Kapuso Tulay Para Sa Kaunlaran"

The longest also happens to be the second bridge built by GMAKF in the vicinity of Buhi, Camarines Sur, very close to where our first bridge is, in Barangay Iraya. The Kapuso bridge in Barangay San Ramon is also a hanging bridge but one with a ramp off both ends to accommodate motorcycles, carts and carabaos. The bridge measures 100 meters and is made of steel and concrete and its decking, of expanded metal mesh as suggested by GMAKF Founder and Ambassador Mel Tiangco so water can pass through in case of flooding. Tita Mel saw a similar bridge design while touring Brazil's famous Iguazu waterfalls.

The commanding Kapuso bridge in San Ramon, Buhi was turned over on May 16, 2018 and serves an estimated population of 2,250, mostly belonging to the indigenous Agta tribe who farm and plant root crops as their primary means of livelihood. The Kapuso bridge replaced the old, narrow, wobbly wooden bridge. Now the residents' security and safety are guaranteed and they are able to transport their produce to the main market in Iriga City, faster and more efficiently. Visitors to the area can also use the Kapuso bridge as access to the sanctuaries of the endangered Sinarapan fish (touted as the world's smallest edible fish). Bridge partners are the Department of Public Works and Highways, the Southern Luzon Command of the AFP and the LGU of Buhi, Camarines Sur. Bridge sponsors are: Republic Cement, Steel Asia and Equator Energy Corporation for solar lamps.

Both Kapuso bridges in Buhi, Camarines Sur saved precious lives during the onslaught of typhoon Usman on the cusp of the new year (December 2018 / January 2019). When the water level of Lake Buhi rose and flooded nearby communities, residents ran to the sturdy Kapuso bridges for safety. Without both bridges, more people would have drowned. May God be praised!

SAN RAMON, BUHI, CAMARINES SUR

#### KALUSUGAN KARAVAN

Kalusugan Karavan is a roving medical mission facilitated in far-flung areas nationwide where basic health services are inaccessible. It also serves as a disaster relief response to address urgent medical and health needs of calamity victims. A total of **8,801** individuals were served by our Kalusugan Karavan in 2018 through free medical consultations, the provision of basic medicine and antibiotics, hygiene packs distribution, dental services, complete eye examinations by ophthalmologists, circumcision operations, laboratory services and minor surgeries.

## 1st MISSION

Typhoon Urduja struck the province of Samar and Biliran in December 2017. The Kapuso Foundation team facilitated a medical mission on January 26, 2019 at Barangay Sto. Nino, Naval, Biliran and served **1,300** victims through free medical consultations and the provision of basic medicine and antibiotics.

Meanwhile, the Mayon volcano eruption prompted Kapuso Foundation to give aid to **1,800** individuals at Barangay Bangkaras, Camalig, Albay on March 9, 2018. Hygiene packs distribution, free medical consultation and the provision of basic medicine and antibiotics were provided to the said beneficiaries.

# 2nd MISSION

A medical mission with free doctors' consultations and the provision of basic medicine was facilitated by the Kapuso Foundation team on May 18, 2018 in Buhi, Camarines Sur during the inauguration of the Kapuso Tulay Para Sa Kaunlaran bridge in Barangay San Ramon.

**410** individuals were served and **250** patients were also given hygiene packs. An annual medical mission sponsored by the GMA Regional Engineering Department was held on May 18, 2018 in Barlig, Mountain Province which served 1,073 individuals. They were given free medical consultations, basic medicine and antibiotics and dental services.

# 3rd MISSION

Kalusugan Karavan went to Jolo, Sulu in response to a devastating fire incident. **1,067** individuals were served through free medical consultations and the provision of basic medicine and antibiotics at Barangay Busbos on September 28, 2018. **1,113** individuals were also given free medical consultations, basic medicine and antibiotics at Barangay Walled City on September 29, 2018.

## 4th MISSION

Typhoon Ompong walloped Cagayan Valley in the last quarter of 2018. The Kapuso Foundation team traveled to Baggao, Cagayan on November 10, 2018 for a medical mission and served **1,738** individuals through free medical consultations, complete eye examinations by opthalmologists, the provision of basic medicine and antibiotics, dental services such as tooth extractions and check up, circumcision operations, minor surgeries and laboratory services.

#### **BISIG BAYAN MEDICAL ASSISTANCE**

Over sixteen thousand, six hundred people (16,634) were directly aided by GMA Kapuso Foundation's various projects aimed at improving the over-all health of Filipinos, as well as providing much needed free medical aid to the poor.

From January to December of 2018, GMA Kapuso Foundation's tri-weekly Bisig Bayan Free Medical Assistance Program for the indigent catered to 969 beneficiaries. Financially hard-up individuals line up at the GMAKF office along Samar Avenue in Quezon City and are served on a first come-first served basis. They provide their certificates of indigency as well as doctors' R/X and other requirements to avail of free medicine and laboratory procedures. From this pool of beneficiaries, GMAKF chooses the most compelling medical cases as subjects of appeal that will be featured on our thrice a week segment on GMA Network's primetime news program, 24 Oras, co-anchored by Ms. Mel Tiangco, founder and former EVP and now, Ambassador of GMA Kapuso Foundation. This allows GMAKF to fundraise for the beneficiary to ensure that he/she gets the medical treatment needed. For 2018, eighteen (18) compelling medical cases from our Bisig Bayan Free Medical Assistance Program were featured in the multi-weekly Kapusong Totoo segment on 24 Oras.

GMA Kapuso Foundation also mounts monthly health projects in keeping with the commemorative calendar of the Department of Health. Together with its loyal partners and sponsors, GMAKF goes around the country, particularly to provinces affected by natural and man-made disasters, as well to provinces included in the Philippines' list of poorest, to make available free health services to the less fortunate.

## HEALTH PROGRAM

# KAPUSO PARA SA KAWAL

Feature Story:

#### **Kapuso Para Sa Kawal 2018**

To honor and help our brave Filipino soldiers, we launched the Kapuso Para Sa Kawal project in December, 2017, after the liberation of Marawi City. The said project was implemented in 2018. It provides free leg and arm prostheses, physical rehabilitation and psychotherapies to soldiers who fought and sustained amputation injuries in various battles against terrorists and insurgents all over the Philippines, 2017, onwards. The beneficiaries for the project were chosen by the AFP Health Service Command.

A supporting Memorandum of Agreement was signed on July 19, 2018 between GMA Kapuso Foundation, the Philippine Army General Hospital, Exceed Prosthetics and Orthotics Philippines Incorporated, LN-4 Foundation and the Makati Medical Center Foundation. This significant event was held at the Philippine Army Gym in Fort Bonifacio, Taguig and was covered live by GMA's Unang Hirit morning program. Attending as signatories were Rikki Escudero-Catibog, GMAKF Executive Vice President and Chief Operating Officer; Lieutenant General Rolando Bautista, then Philippine Army Commanding General; Major General Joselito Reyes, then Commander of the Army Support Command and the Army General Hospital; Doctor Victor Gisbert, Makati Medical Center Foundation President; Kenneth McCrea, Exceed Prosthetics and Orthotics Chief Executive Officer; and Grace Cabato, LN-4 Foundation Ambassador to the Philippines.

PROGRAM

#### **UNANG HAKBANG SA KINABUKASAN**

Unang Hakbang Sa Kinabukasan is a pillar project of GMA Kapuso Foundation. It is supported by long-time partner, the Go Tong Foundation. UHSK aims to reduce the dropout rate among poor Filipino children due to the lack of school materials. This annual project provides backpacks with complete sets of school supplies (5 notebooks, 2 pads of paper, 2 pencils, a sharpener, an eraser and a set of crayons) to incoming Kindergarten and Grade 1 students from public elementary schools in the National Capital Region, Luzon, Visayas and Mindanao. This year, we served a total of **80,000** pupils in depressed areas, nationwide.

#### **UHSK AREAS IN 2018:**

NCR: Quezon City, Navotas, Antipolo and Valenzuela

**LUZON**: Quirino , Occidental Mindoro, Sorsogon, Masbate, Camarines Sur, Romblon, Apayao, Albay and Nueva Ecija

VISAYAS: Negros Oriental, Samar, Cebu and Bohol

**MINDANAO:** Zamboanga Del Norte, Tawi-Tawi, Surigao Del Norte, Bukidnon, Lanao Del Norte, Lanao Del Sur, Sarangani, Davao Oriental, Compostela Velley and Leyte.

#### **KULAYAN ANG KINABUKASAN 2018**

The Kapuso School Development project aims to foster integral education by providing decent and functional classrooms, water and sanitation facilities to underserved students in public elementary and integrated schools.

Under this project is the Kulayan ang Kinabukasan school repainting activity which restores previously constructed Kapuso schools nationwide.

In 2018, the Kulayan ang Kinabukasan project resulted in the minor repair and repainting of **34** Kapuso classrooms in Romblon, Oriental Mindoro, Ilocos Norte and Bohol. The Sponsor for Kulayan ang Kinabukasan 2018 is Davies Paint.

#### GMA Kapuso Foundation's Kulayan Ang Kinabukasan Repainting Project Beneficiaries:

PROVINCE	SCHOOL	NO. OF CLASSROOMS	NO. OF BENEFICIARIES
	Alegria Elementary School	6 classrooms	
	Mabini Elementary School (Municipality of Corcuera)	3 classrooms	
Rombion	San Fernando Elementary School	4 classrooms	
	Mabini Elementary School (Municipality of San Fernando)	4 classrooms	1, 360
	Doña Martina F. Ganan Memorial School	2 classrooms	
	Josefina Fetalino Malayo Elementary School	3 classrooms	
Oriental Mindoro	Teresita Elementary School Salvacion Elemetary School	2 classrooms 3 classrooms	648
Ilocos Norte	Caruan Elementary School Bayog Elementary School Abaca Elementary School	3 classrooms 2 classrooms 2 classrooms	568
			TOTAL BENEFICIARIES: 2,576

## KAPUSO FOUNDATION'S GIVE-A-GIFT (G-A-G) ALAY SA BATANG PINOY PROJECT

The Give-A-Gift Alay Sa Batang Pinoy Christmas Project, as the title hints, gives specialized gifts that addresses the unique needs of indigent children from seven (7) identified sectors namely:

- Malnourished children are enrolled in a 6 month feeding program that begins in June and ends in December to help them gain much needed weight and height (G-A-G Feed A Child)
- Children with congenital defects are gifted with free surgery and medicine to help them live normal lives.
   (G-A-G Surgical Outreach and Operation Bukol)
- Children with cancer are enrolled in a 6 month medical aid program that gifts them with free chemotherapy.
   (G-A-G Kapuso Cancer Champions)
- Part of the G-A-G Project, a total of 65 Thousand Noche Buena packs laden with food and toys are given to the following:
  - Children of Farmers and Fisherfolk so they no longer have to work on Christmas day.
  - Children of Incarcerated Mothers so they can feel love and caring even if their mothers are not with them to celebrate Christmas.
  - Frequently overlooked because of the remoteness of their homes and the danger surrounding their communities are:
    - ► Children of Indigenous Peoples
    - ► Children living in conflict areas

VALUES FORMATION PROGRAM

#### **FEED-A-CHILD PROJECT**

GMA Kapuso Foundation's annual Give-A-Gift (GAG): Feed a Child Project supports malnourished public elementary school children not included in the Department of Education's feeding program (usually because the numbers of wasted/severely wasted students per school do not reach the quota needed). Chosen beneficiaries belonging to clustered schools are given nutritious lunches, vitamins and milk for 6 months or 120 days. The project has been a longstanding commitment of GMAKF in the fight against hunger and malnutrition among Filipino children.

This year, **311** wasted to severely wasted beneficiaries from Kinder to Grade 3 were chosen from schools in Danglas and San Isidro, Abra:

- Abaquid Elementary School
- Danglas Central School
- Manganip Elementary School
- Nagaparan Elementary School
- Padangitan Elementary School
- Dalimag Elementary School
- San Isidro Central School
- · San Marcial Elementary School

GMAKF's feeding program started on June 28, 2018 and the kids "graduated" on December 20, 2018. It was heart warming to see that after finishing the 120-day feeding program, the beneficiaries gained an average weight of 1.9 kilos and there was also an increase in their height: an average growth of 2.6 centimeters.

The major sponsors for 2018's Give-A-Gift Feed-A-Child project were: Alaska Fortified Milk; CDO Foodsphere/Odyssey Foundation Inc.; SL Agritech Corporation/Doña Maria Rice; San Miguel Foods,Inc./Magnolia Chicken; Coca-Cola Beverages; Masflex; Limketkai Manufacturing Corp./Marca Leon and Tita's Choice Food Manufacturing and Trading Inc.

#### The month to month progress report of the feeding beneficiaries are as follows:

MONTH	RESULT	
JULY	234 out of 311 or 75.24% pupils gained weight     53 out of 311 or 17.04% of pupils exhibated weight loss due to sickness brought about by common allments like cough, cold, fever 24 out of 311 pupils or 7.72% maintained their weight     0.44 kg - average weight gain of 311 pupils	
AUGUST	260 out of 311 or 83.60% of pupils gained weight     39 out of 311 or 12.54% of pupils lost weight due to sickness brought about by common ailments like cough, cold, fever     12 of 311 pupils or 3.86% maintained their weight     0.82 kg – average weight gain of 311 pupils	
SEPTEMBER	276 out of 311 or 88.75% of pupils gained weight     22 out of 311 or 7.07% of pupils lost weight due to sickness brought about by common ailments like cough, cold, fever and changes in weather condition     13 out of 311 or 4.18% pupils maintained their weight from the previous weigh- in for the month of August     1.14 kg - average weight gain of 311 pupils	
OCTOBER	234 out of 311 or 75.24% of pupils gained weight     36 out of 311 or 11.57% of pupils lost     weight due to sickness brought about by common ailments like cough, cold, fever and changes in weather condition and school semester break     41 out of 311 or 13.18% of pupils maintained their weight from the previous weigh-in for the month of September     1.29 kg - average weight gain of 311 pupils	
NOVEMBER	224 out of 311 or 72% of pupils gained weight     18 out of 311 or 6% of pupils exhibited weight loss due to sickness brought about by common ailments like cough, cold, fever     69 out of 311 or 22% of pupils maintained their weight from the previous weigh-in for the month of October     1.59 kg – average weight gain of 311 pupils	
DECEMBER	216 out of 311 or 69% of pupils gained weight     22 out of 311 pupils or 7% of pupils exhibited weight loss due to sickness brought about by common aliments like cough, cold, fever     73 out of 311 or 23% of pupils maintained their weight from the previous weigh-in for the month of November     1.90 kg – average weight gain of 311 pupils	

- Nutritious lunches were given to students along with Vitamins and Fortified Milk for 120 days.
- For the last 3 months of feeding, it showed that there
  was an improvement on the average weight of the
  beneficiaries every month.

MONTH	RESULT
JULY	181 out of 311 or 58.20% of pupils show an improvement in their height
AUGUST	130 out of 311 or 41.80%     maintained their height
	<ul> <li>1.21 cm average height increase</li> </ul>
SEPTEMBER	217 out of 311 pupils or 69.779 show an improvement in their height
	94 out of 311 or 30.22% maintained their height
7. 4	1.89 cm average height increase
OCTOBER	187 out of 311 or 60% of pupils show an improvement in their height
	124 out of 311 or 40%     maintained their height     1.89 cm average height increase
NOVEMBER	190 out of 311 or 61% of pupils show an improvement in their height
1 1 1 1 1	121 out of 311 or 39% maintained their height
	<ul> <li>2.22 cm average height increase</li> </ul>
DECEMBER	247 out of 311 pupils or 79% show an improvement on their height
	64 out of 311 or 21%     maintained their height
	<ul> <li>2.68 cm average height increase</li> </ul>

#### EIGHT PROGRESS REPORT

 Nutritious lunches were given to students along with vitamins and Fortified Milk for 120 days.

REMARKS

 Based on the result of the last 3 months of the feeding, it showed that the beneficiaries continued to gain more weight and height.

#### GAG: SURGICAL OUTREACH AND OPERATION BUKOL PROJECT

GMA Kapuso Foundation, together with its partner organization, The World Surgical Foundation-Philippines, also mounted two (2) big, free surgery projects in 2018. The G.A.G. Surgical Project of GMAKF aims to provide free surgery to children suffering from various congenital defects like abnormal intestines, imperforate anuses (born with no anus), cleft lip (bingot), hernia, hydrocele and undescended testes (luslos), while Operation Bukol, first started by Tita Mel some 20 years ago, is open to all adults and children who want non-cancerous lumps that have grown in various parts of their bodies, removed permanently and safely. In October, 2018, the Metro Manila leg of GMAKF's Free Surgery Project was held for 3 days at The Our Lady of Peace Hospital in Tramo, Paranaque, together with Sr. Eva Maamo, President of the Foundation of Our Lady of Peace Mission, Inc. A total of 142 beneficiaries were served.

In June, 2018, no less than 20 doctors from the National Capital Region (NCR) and Cebu, all experts in their various fields (General Surgery, Paediatric Surgery, Cosmetic Surgery, Paediatrics, Anesthesiology), supported by 15 local doctors and 9 experienced nurses from the Operating Room Nurses Association of the Philippines, conducted a 3 day free surgery clinic in the municipality of Manolo Fortich, Bukidnon. Bukidnon is included in the Philippines' List of Top Ten Poorest Provinces. A total of 201 patients were served. Two of our most compelling cases for 2018 were culled here. Meet Bukidnon's Crisnhey Jell Balito and Allen Batiag and read about their astonishing medical journeys and inspiring stories of grit and recovery.

Feature Story:

#### **Finaly Free: The Crisnhey Jell Balito Story**

When she walked in GMA Kapuso Foundation's Surgical Outreach Project held in Manolo Fortich, Bukidnon last June, 2018, everybody was shocked. The thin, 6 year old little girl looked like she was 9 months pregnant. Her bulging belly was clearly a heavy burden for the child, one she had suffered with since it started to balloon when she was just a toddler. Crisnhey endured her mysterious ailment until the size of her stomach severely limited her movements. Crisnhey's family lives in a village up in the mountains in Sito Suntin, Barangay Kalanyogan, Lunocan, Manolo Fortich, Bukidnon. Crisnhey's pitiful state spurred her mother to load the child on a horse, the only means of transportation available to village folk in the area. Mother and child made their way down the mountain for a little over an hour to join the throng of people seeking free medical aid and surgery at the GMAKF Give-A-Gift Surgical Outreach Project held at the extension wing of the Manolo Fortich Provincial Hospital.

GMA Kapuso Foundation, together with its partner, the World Surgical Foundation of the Philippines chose to have its yearly Operation Bukol and offer free surgery for congenital defects among children in Bukidnon as it is among the top 10 poorest provinces in the Philippines. KF personnel and WSF surgeons surmised that people living in remote areas in the province probably don't have easy access to doctors and surgeons. In Crisnhey's case, her family is solely dependent on her father's meagre income as a farm labourer. Crisnhey's mother, a housewife, does her best to stretch her husband's income of PHP 2,300 a month for all the needs of her 4 children. There was no money to spare for Crisnhey's medical treatment. So despite the difficult journey on horseback, they took the risk of going down the steep mountain trail and sought help from GMA Kapuso Foundation.

**BEFORE** 

**AFTER** 

## VALUES FORMATION PROGRAM

The heroic, volunteer surgeons led by Doctors Marcus Lester Suntay, President of the World Surgical Foundation in the Philippines and Beda Espineda, former President of the Paediatric Surgeons Society of the Philippines, took one look at Crisnhey's seemingly full term, distended stomach and decided the child needed surgery ASAP. A battery of laboratory tests were done over the course of several weeks to ascertain that the medical aberration that was Crisnhey's swollen stomach was not in fact, caused by cancer. By the grace of God, tests revealed that what the child had was an Inter Abdominal Teratoma, a grotesque, ever growing mass, but thankfully, non-malignant.

Exactly a month and half after being seen by doctors at the KF Give-A-Gift Surgery Clinic, Crisnhey finally underwent surgery in nearby Cagayan de Oro City. The surgical team was led by Dr. Erika Gacus of the World Surgical Foundation. Dr. Gacus is one of only 4 paediatric surgeons practicing in Northern Mindanao. She was ably supported by pediatric specialists: Dr. Anne Agnes (Pedriatic Intensive & Critical Care), Dr. Josephine Dela Cerna (Pedriatoc Cardiologist), Dr. Kristine Elisa Kionisala (Pedriatic Pulmonologist), Dr. Kelvin Nacalaban (Pedriatic Anesthesiology), Dr. John Paul Oliveros (Pedriatic Gastroenterologist) and Dr. Robert Tacogon (Pedriactic Infectious Specialist).

The surgical team worked on excising the humongous mass from Crisnhey's abdominal cavity for 6 long hours. After finally getting the mass removed, Crisnhey's lungs had a hard time coping and nearly gave out. She was admitted into the Intensive Care Unit and was placed on a ventilator. After a while, the poor girl developed pneumonia and had to be given powerful antibiotics to survive. A biopsy of the mass removed later revealed that it contained pieces of hair, skin and teeth leading doctors to theorize that Crisnhey likely had a conjoined twin that did not survive to full term and was subsumed into her system. What remained of her twin could not be ingested by Crisnhey's system and the tissues manifested in a mass which later became the teratoma.

Crisnhey walked out of the hospital after a month of recuperation, finally free from the abdominal mass that she carried for most of her young life. She plans to return to school and enjoy normal activities denied her for so long. "Maraming salamat po sa Diyos, sa mga doctor ko at sa GMA Kapuso Foundation," the little girl exclaimed with tears in her eyes.

Feature Story:

#### **Crab Claw No More: The Allen Batiag Story**

5 year old Allen Batiag from Sumilao, Bukidnon is a fighter. Despite being mercilessly teased in school, Allen still wanted to continue studying. He only wishes his physical affliction to disappear because it's what makes him the butt of jokes and teasing among the kids enrolled in his day care center.

**BEFORE** 

AFTER

"Alimango" is what they cruelly call him because it accurately describes how his right hand looks like. Allen suffers from a rare genetic condition known as "MACRODACTYLY LIPOMATOSIS". Simply put, his forefinger and middle finger on his right hand kept growing ahead of the rest, until they resembled a giant crab claw.

Allen was raised by his hardworking mother, a corn and pineapple farm labourer, who had no means to pay for Allen's medical treatment until she got wind of the announcement that GMA Kapuso Foundation would be coming to Manolo Fortich, Bukidnon to conduct free surgery for beneficiaries suffering from various congenital defects. Dr. Marcus Lester Suntay, a leading paediatric surgeon who is the President of the World Surgical Foundation Philippines, the primary partner of GMAKF for the free surgery program, explains that "MACRODACTYLY LIPOMATOSIS", is a rare, congenital affliction that can strike certain family members of several generations. Dr. Suntay himself admitted that he has only encountered 2 or 3 similar cases in his entire practice.

Surgeons who initially diagnosed Allen at the GMAKF Give-A-Gift Surgical Outreach Project in Manolo Fortich, Bukidnon last June 2018, ordered that he undergo a slew of laboratory tests before going under the knife. Unfortunately, lab tests yielded results of Allen having Urinary Tract Infection (UTI) and he had to be treated for that first before being scheduled for surgery. Surgeons from KF partners, World Surgical Foundation Philippines recommended that Allen be brought to the Philippine Children's Medical Center, a KF partner hospital, because the delicacy of the procedure required more specialized equipment available only in Manila. Finally in October, 2018, Allen underwent 2 consecutive operations – the first, 8 hour operation removed flesh and fat from his gigantic fingers while the second, 7 hour operation was to amputate his rogue fingers.

## VALUES FORMATION PROGRAM

#### **SAGIP DUGTONG BUHAY**

The Sagip Dugtong Buhay Bloodletting Project aims to encourage the spirit of volunteerism in every Filipino by gifting others in need with one's own blood. For the past two decades, GMA Kapuso Foundation has been partners in this endeavour with the Philippine Red Cross and Ever Gotesco Malls.

For 2018, a record number of 5,307 blood bags were collected in various GMAKF-led bloodletting events nationwide.

GMA Network Headquarters and its regional stations spurred its employees to donate a total of 1,569 bags while the anchor events held at Ever Gotesco Commonwealth mall on love month in February and on the birth month of GMAKF Founder Carmela Tiangco in August netted 1,902 blood bags.

First time partner, the Junior Chamber International Manila Chapter also held a simultaneous blood letting event on September 28, 2018 with their chapters in the University of Sto. Tomas; SM Cherry in Antipolo; Perpetual Biñan; Perpetual Las Piñas Campus; Perpetual Las Piñas Hospital; Perpetual GMA; Perpetual Molino; Perpetual Calamba; Robinson's Galleria, Cebu City; Diamond Jubilee Hall, Mabini St, Iloilo City and Limketkai Mall, Cagayan De Oro. Said event yielded a total of 1,475 blood bags for GMA Kapuso Foundation and the Philippine Red Cross.

The Philippine Red Cross reports to GMAKF that the need for blood is now more urgent than ever especially with the threat of dengue and the more frequent occurrences of strokes, heart disease and vehicular accidents.

#### KAPUSO FOUNDATION'S EMPOWERMENT PROJECTS FOR THE DISABLED

GMAKF's projects aimed at helping disabled beneficiaries become more mobile and productive are usually mounted in July in commemoration of National Disability Week on the third week of the month. However, if projects personnel come across a needy beneficiary in one of their provincial sorties, and wheelchairs and mechanical arms are available and on hand, then awardings of the mobility aids and the prostheses are done immediately.

In 2018, a total of 14 civilian beneficiaries (separate from beneficiaries of the Armed Forces under the Kapuso Para Sa Kawal Project) from all over the country were given arm prostheses in partnership with LN-4 Foundation and the Naked Wolves Riders' Group. Through the generous donation of Latter Day Saint Charities and in partnership with the Vicente Sotto Memorial Medical Center, 35 beneficiaries in Cebu City were given customized wheelchairs which had special shock absorbers and one was even customized as a tricyle to help 37 year old Ritchell Catulmo in his daily trade of selling ice candy. Through the generous donation of NKD Trading Inc., standard wheel chairs were also given to 14 senior citizens and stroke patients also in Cebu City while standard wheel chairs were given to 15 beneficiaries from Negros Oriental and 6 walk-in beneficiaries of our Bisig Bayan clinic for the indigent here in Quezon City.

All in all, 14 mechanical hands/arms and 70 wheelchairs (both customized and standard) were given away to needy beneficiaries by GMAKF through the help of its donors.

#### KAPUSO NG KALIKASAN AND GULAYAN SA PAARALAN AT BAKURAN

In the summer of 2018 (April), GMA Kapuso Foundation spearheaded the planting of 500 seedlings of fruit bearing trees of the Cacao and Santol varieties in the communities of Barangays Iraya and San Ramon in Buhi, Camarines Sur. Planting the fruit bearing trees was the special activity done during the inauguration and turn over to the community of the San Ramon Bridge, GMAKF's second steel and concrete bridge under its Kapuso Tulay Para Sa Kaunlaran Project.

Over 5400 residents of both Barangays Iraya and San Ramon stand to gain from the tree planting activity. It is hoped that the said communities, made up mostly of seasoned farmers, will be able to maximize the yield of the fruit trees for their own consumption.

Still under the Kapuso Ng Kalikasan project of GMA Kapuso Foundation, is our support of the Department of Education's Gulayan Sa Paaralan campaign. GMAKF supported the campaign because it believes in the societal benefits of teaching communities how to plant various vegetables, to augment school feeding programs as well as to jumpstart food security awareness among the youth.

Camp Bagong Amai Pakpak Elementary School, Marawi City

Up north, to celebrate the beginning of our 2018 feeding program in Abra Province, GMAKF spearheaded the planting of the following seeds provided by Allied Botanical Corporation: Eggplant, Okra, sitaw, pechay, kalabasa and ampalaya, carrots, tomato and upo. A special training / seminar was also conducted by Allied Botanical Corporation for students' parents so their veggie gardens at home may also flourish. Over 900 students benefitted from GMAKF's 2018 Gulayan sa Paaralan project in Abra.

#### INDEPENDENT AUDITOR'S REPORT

The Board of Trustees GMA Kapuso Foundation, Inc.

#### Report on the Audit of the Financial Statements

#### **Opinion**

We have audited the financial statements of GMA Kapuso Foundation, Inc. (a nonstock, nonprofit organization) (the Foundation), which comprise the statements of assets, liabilities and fund balance as at December 31, 2018 and 2017, and the statements of receipts and expenses, statements of changes in fund balance and statements of cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Foundation as at December 31, 2018 and 2017, and its financial performance and its cash flows for the years then ended in accordance with Philippine Financial Reporting Standards for Small and Medium-sized Entities (PFRS For SMEs).

#### **Basis for Opinion**

We conducted our audits in accordance with Philippine Standards on Auditing (PSAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Foundation in accordance with the Code of Ethics for Professional Accountants in the Philippines (Code of Ethics) together with the ethical requirements that are relevant to our audit of the financial statements in the Philippines, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with PFRS for SMEs, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Foundation's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Foundation or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Foundation's financial reporting process.

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with PSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with PSAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud
  or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that
  is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material
  misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve
  collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures
  that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
  effectiveness of the Foundation's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Foundation's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Foundation to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the
  disclosures, and whether the financial statements represent the underlying transactions and events in a
  manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

#### Report on the Supplementary Information Required Under Revenue Regulations 15-2010

Our audits were conducted for the purpose of forming an opinion on the financial statements taken as a whole. The supplementary information required under Revenue Regulations 15-2010 in Note 15 to the financial statements is presented for purposes of filing with the Bureau of Internal Revenue and is not a required part of the basic financial statements. Such information is the responsibility of the management of GMA Kapuso Foundation, Inc. The information has been subjected to the auditing procedures applied in our audit of the basic financial statements. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

#### GMA KAPUSO FOUNDATION, INC.

(A Nonstock, Nonprofit Organization)

### NOTES TO FINANCIAL STATEMENTS

#### 1. Corporate Information

GMA Kapuso Foundation, Inc. (the Foundation) was incorporated in the Philippines and registered with the Philippine Securities and Exchange Commission (SEC) on April 24, 1991 as a nonstock, nonprofit organization under the laws of the Republic of the Philippines. The primary activity of the Foundation is to engage in philanthropic, humanitarian and charitable activities for public welfare. The registered office address of the Foundation is GMA Network Center EDSA corner Timog Avenue, Diliman, Quezon City.

As a nonstock, nonprofit organization, the Foundation is exempt from income tax under the conditions set forth in Section 30 (E) of the National Internal Revenue Code (NIRC).

On May 9, 2017, the Bureau of Internal Revenue (BIR) issued a Certificate of Tax Exemption exempting the Foundation from income tax only on the revenues or receipts from projects and donations valid for three (3) years from May 9, 2017 to May 8, 2020.

On August 23, 2018, the Philippine Council for NGO Certification (PCNC) renewed its accreditation to the Foundation valid for five (5) years from August 23, 2018 to August 22, 2023.

On November 23, 2018, the BIR issued a Certificate of Registration (COR) to the Foundation, being duly accredited by PCNC, as a donee institution in accordance with the provisions of Revenue Regulations No. 13-98 dated December 8, 1998. Accordingly, donations received by the Foundation shall entitle donors to the full or limited deduction pursuant to Section 34(H)(1) or (2) and exemption from donor's tax pursuant to Section 101(A)(2) of the NIRC of 1997, as amended. This certification is valid only until June 8, 2019 unless sooner revoked by the BIR for the violation of any provisions of Revenue Regulations No. 13-98 or upon withdrawal of the certificate of accreditation by PCNC.

The accompanying financial statements of the Foundation were approved and authorized for issuance by the Board of Trustees on March 29, 2019.

### 2. Basis of Preparation, Statement of Compliance and Summary of Significant Accounting Policies

#### **Basis of Preparation**

The financial statements have been prepared on the historical cost basis. The financial statements are presented in Philippine Peso, which is the Foundation's functional and presentation currency. Amounts are rounded off to the nearest peso, except when otherwise indicated.

#### Statement of Compliance

The financial statements have been prepared in accordance with the Philippine Financial Reporting Standards for Small and Medium-sized Entities (PFRS for SMEs).

#### Current versus Noncurrent Classification

The Foundation presents assets and liabilities in statement of financial position based on current/noncurrent classification.

An asset is classified as current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realized within twelve months after the reporting period; or
- Cash and cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

A liability is classified as current when:

- It is expected to be settled in normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period; or
- There is no unconditional right to defer the settlement of the liability for at least twelve months
  after the reporting period.

The Foundation classifies all other assets and liabilities as noncurrent.

#### Basic and Other Financial Instruments

The Foundation accounts for its financial instruments in accordance with Section 11, *Basic Financial Instruments*, under PFRS for SMEs.

Initial Recognition and Measurement. Basic and other financial assets and liabilities are recognized when the Foundation becomes a party to the contracts. Basic financial instruments are measured at transaction price including transaction costs. If the contract constitutes a financing arrangement, it is measured at the present value of future payments discounted at a market rate of interest for a similar instrument, unless the assets and liabilities are classified as current and do not incorporate a finance arrangement. If interest is not at a market rate, the fair value would be future payments discounted at a market rate of interest. Other financial instruments are initially measured at fair value, which is usually their transaction price, and exclude transaction costs.

Subsequent Recognition. For basic financial instruments, at the end of each reporting period:

- Debt instruments, such as an account, note, or loan receivables or payables, are measured at amortized cost using the effective interest rate;
- Commitments to receive a loan are measured at cost less impairment; and
- Investments in non-convertible preferred shares and non-puttable ordinary, and preference shares
  that are publicly traded or their fair value can otherwise be reliably measured, are measured at fair
  value through profit and loss if a public market exists, otherwise at cost less impairment.

All other financial instruments are measured at fair value at the end of each reporting period, except for equity instruments (and related contracts that would result in delivery of such instruments) that are not publicly traded and whose fair value cannot be reliably determined, which are measured at cost less impairment.

As at December 31, 2018 and 2017, the Foundation's basic financial instruments consist of cash and cash equivalents, short-term investments, receivables, accounts payable and other current liabilities

(excluding payable to government agencies) and due to a related party. The Foundation has no other financial instruments measured at fair value.

Determination of Fair Value. The standard makes use of a fair value hierarchy such as quoted prices in an active market, prices in recent transactions for the identical assets (adjusted if necessary), and use of a valuation technique (that reflects how the market would expect to price the asset and the inputs reasonably represent market expectations). Fair value, where there is no active market, is only considered reliable if the variability in the range of fair values is not significant and the probabilities of various estimates can be reasonably assessed. Fair value of a liability cannot be below the amount in a demand feature discounted to the reporting period. For all other financial instruments not listed in an active market, the fair value is determined by using appropriate valuation techniques. Valuation techniques include using arm's length transaction for an identical asset between knowledgeable, willing parties, if available, reference to current fair value of another asset that is substantially the same as the asset being measured, discounted cash flow analysis, option pricing models and other relevant valuation model.

Impairment. At the end of each reporting period, an assessment is made as to whether there is objective evidence of a possible impairment. If there is objective evidence of impairment, the Foundation shall recognize an impairment loss in the statement of receipts and expenses immediately.

All equity instruments regardless of significance and other financial assets that are individually significant shall be assessed for impairment individually and all other financial assets shall be assessed for impairment either individually or grouped on the basis of similar credit risk characteristics. The impairment loss of basic financial instruments at amortized cost is the difference between carrying value and the revised cash flows discounted at the original effective interest rate. The impairment loss of basic financial instruments at cost less impairment is the difference between the carrying value and best estimate of the amount that would be received if the asset were sold at the end of each reporting period.

If, in a subsequent period, the amount of an impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized (such as an improvement in the debtor's credit rating), the Foundation shall reverse the previously recognized impairment loss either directly or by adjusting an allowance account. The Foundation shall recognize the amount of the reversal in the statement of receipts and expenses immediately.

Other financial instruments carried at cost less impairment are impaired on the same basis as basic financial instruments measured in the same manner.

Derecognition. The Foundation derecognizes a financial asset when:

- The contractual rights to the cash flows from the financial asset expire or are settled;
- The Foundation transfers to another party substantially all of the risks and rewards of ownership of the financial asset: or
- The Foundation, despite having retained some significant risks and rewards of ownership, has transferred control of the asset to another party and the other party has the practical ability to sell the asset in its entirety to an unrelated third party.

The Company derecognizes financial liabilities when:

it is extinguished, i.e., when the obligation specified in the contract is discharged, is cancelled or expires; or

 profit and loss in recognized between the carrying amount of the financial liability extinguished or transferred to another party and the considerations paid, including any non-cash assets transferred or liabilities assumed.

## Cash and Cash Equivalents

Cash includes cash on hand and in banks. Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash with original maturities of three months or less and that are subject to an insignificant risk of change in value.

#### Short-term Investments

Short-term investments include highly liquid investments that are readily convertible to known amounts of cash with original maturities of more than three months but less than one year from dates of acquisition and subject to an insignificant risk of change in value.

#### Other Current Assets

Other current assets include medical insurance paid in advance and amortized over the term of the contract and a security deposit expected to be recovered within the Foundation's normal operating cycle or within twelve months from the end of reporting period.

#### Property and Equipment

Property and equipment are stated at cost less accumulated depreciation and any impairment in value.

The initial cost of property and equipment comprises its purchase price and other costs directly attributable in bringing the asset to its working condition and location for its intended use.

Expenditures incurred after the property and equipment have been put into operation, such as repairs and maintenance, are normally charged as expense in the year such costs are incurred. In situations where it can be clearly demonstrated that the expenditures have resulted in an increase in the future economic benefits expected to be obtained from the use of an item of property and equipment beyond its originally assessed standard of performance, the expenditures are capitalized as additional costs of property and equipment.

Depreciation is computed using the straight-line method, net of any estimated residual value, over the estimated useful lives of the assets, as follows:

Computer equipment	3 years
Communication equipment	3 years
Video equipment	5 years
Office and mechanical equipment	5 years
Transportation equipment	5 years
Office furniture and fixtures	5 years

If there is an indication that there has been a significant change in depreciation method, useful life or residual value of an asset, the depreciation of that asset is revised prospectively to reflect the new expectations.

An item of property and equipment is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising from derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is credited or charged to current operations in the year the asset is derecognized.

Fully depreciated assets are retained in the accounts until these are no longer in use and no further depreciation is charged to current operation.

#### Asset Impairment of Property and Equipment

At each reporting period, property and equipment is reviewed to determine whether there is any indication that those assets have suffered an impairment loss. If there is an indication of possible impairment, the recoverable amount of any affected asset (or group of related assets) is estimated and compared with its carrying amount. If estimated recoverable amount is lower, the carrying amount is reduced to its estimated recoverable amount, and an impairment loss is recognized immediately in the statement of receipts and expenses.

If an impairment loss subsequently reverses, the carrying amount of the asset (or group of related assets) is increased to the revised estimate of its recoverable amount, but not in excess of the amount that would have been determined had no impairment loss been recognized for the asset (or group of related assets) in prior years. A reversal of an impairment loss is recognized immediately in the statement of receipts and expenses.

#### Other Noncurrent Asset

Other noncurrent asset pertains to restricted cash in bank of the Foundation.

#### Accounts Payable and Other Current Liabilities

Accounts payable and other current liabilities are obligations on the basis of normal credit terms and do not bear interest. These are recognized in the period in which the related money, goods or services are received or when a legally enforceable claim against the Foundation is established or when the corresponding assets or expenses are recognized.

#### Fund Balance

Fund balance represents the cumulative balance of the excess of receipts over expenses.

Restricted Fund Balance. Restricted fund balance results from contributions for which donor imposed restrictions limit the Foundation's use of an asset or its economic benefits.

*Unrestricted Fund Balance.* Unrestricted fund balance generally results from revenue and other income that are derived from the Foundation's regular operations unless the receipts are limited by donor-imposed restrictions. The Foundation's expenses are reported as decreases in unrestricted net assets.

#### Revenue Recognition

Revenue comprises of donations, receipts for projects and interest income (collectively referred to as "receipts"). Revenue is recognized to the extent that it is probable that the economic benefits associated with the transaction will flow to the Foundation and the amount can be reliably measured. The following specific recognition criteria must also be met before revenue is recognized:

*Projects and Donations.* Projects are amounts received to fund specific program of the Foundation. Donations are general fund that is used to finance any program, including medical assistance of the Foundation. Projects and donations are recognized when it is probable that the economic benefits associated with the donation will flow to the Foundation, which in most cases is upon receipt of the donation from the donors. Donations in-kind are given to designated donees immediately.

Interest Income. Revenue is recognized as the interest accrues, taking into account the effective yield on the asset.

#### Expenses

Expenses are recognized when a decrease in economic benefit related to a decrease in an asset or an increase of a liability has arisen that can be measured reliably.

Project costs and donation expenses are recognized on the basis of a direct association between the cost incurred and revenue recognized by the Foundation.

#### Pension Costs

The Foundation has a funded, noncontributory retirement plan covering its permanent employees. Pension costs are actuarially determined using the projected unit credit method. The projected unit credit method considers each period of service as giving rise to an additional unit of benefit entitlement and measures each separately to build up the final obligation. Actuarial gain or loss and past service costs are recognized immediately in the statement of receipts and expenses. Gains or losses on the curtailment or settlement of pension benefits are recognized when the curtailment or settlement occurs.

#### Foreign Currency-denominated Transactions

Foreign currency gains and losses are reported on a net basis. Transactions in foreign currencies are recorded using the closing exchange rate at the dates of transactions. Monetary assets and liabilities denominated in foreign currencies are restated using the closing exchange rate at the reporting period. All differences are taken to the statement of receipts and expenses. Nonmonetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions.

#### Provisions

Provisions are recognized when the Foundation has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Where the Foundation expects a provision to be reimbursed, the reimbursement is recognized as a separate asset but only when the receipt of the reimbursement is virtually certain.

#### Contingencies

Contingent liabilities are not recognized in the financial statements. These are disclosed unless the possibility of an outflow of resources embodying economic benefits is remote. Contingent assets are not recognized in the financial statements but are disclosed when an inflow of economic benefits is probable.

#### Events after the Reporting Period

Post year-end events that provide additional information about the Foundation's financial position at the reporting period (adjusting events) are reflected in the financial statements. Post year-end events that are not adjusting events are disclosed in the notes to financial statements when material.

#### 3. Significant Accounting Judgments, Estimates and Assumptions

The preparation of the Foundation's financial statements in conformity with PFRS for SMEs requires the management to make judgments, estimates and assumptions that affect the amounts reported in the financial statements and related notes. Future events may occur which may cause the assumptions used in arriving at the estimates to change. The effects of any change in estimates are reflected in the financial statements as these become reasonably determinable.

Judgments, estimates and assumptions are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

#### **Judgment**

Management makes judgments in the process of applying the Foundation's accounting policies. Judgment that has the most significant effect on the reported amounts in the financial statements is discussed below.

Determination as to Restricted and Unrestricted Receipts and Expenses. The Foundation reports receipts as restricted if these were received with donor stipulation that limits the use of the donation, otherwise it will be classified as unrestricted. Program expenses are classified as restricted following the classification of the related receipts. Should the receipts from restricted be inadequate to fund the program expenses, then the Foundation would assess whether it needs to obtain funds from the unrestricted receipts.

Restricted receipts/revenue and program expenses amounted to \$\frac{P}{4}\$,619,740 and \$\frac{P}{10}\$,957,393 in 2018 and \$\frac{P}{14}\$,411,105 and \$\frac{P}{15}\$,934,297 in 2017, respectively (see Notes 9 and 11). Unrestricted receipts/revenues, and program and administrative expenses amounted to \$\frac{P}{45}\$,642,056 and \$\frac{P}{57}\$,845,662 in 2018 and \$\frac{P}{40}\$,312,918 and \$\frac{P}{56}\$,420,096 in 2017, respectively (see Notes, 9, 10 and 11). The accumulated restricted and unrestricted fund balance amounted to \$\frac{P}{9}\$,773,591 and \$\frac{P}{12}\$,877,330 as at December 31, 2018 and \$\frac{P}{16}\$,111,244 and \$\frac{P}{134}\$,080,936 as at December 31, 2017, respectively.

#### Estimates and Assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting period, that have a significant risk causing a material adjustment to the carrying amounts of assets and liabilities, within the next financial year, are described below.

Assumptions on Pension Costs. The determination of the Foundation's pension liability and pension costs is dependent on the selection of certain assumptions used by actuaries in calculating such amounts. Those assumptions are described in Note 13 and include, among others, discount rate and expected rate of salary increase. Actual results that differ from the assumptions are accumulated and recognized in the period in which it occurs.

Pension liability amounted to ₱1,217,668 and ₱1,676,830 as at December 31, 2018 and 2017, respectively (see Note 13).

#### 4. Cash and Cash Equivalents and Short-term Investments

Cash and cash equivalents consist of:

	2018	2017
Cash on hand and in banks	₽27,412,305	₱41,304,442
Cash equivalents	105,039,814	112,793,115
	₽132,452,119	₱154,097,557

Cash in banks earn interest at the prevailing bank deposit rates. Cash equivalents are short-term placements made for varying periods of up to three months, and earn interest at the respective short-term placement rates. Short-term placements with terms of more than three months, presented under "Short-term investments" account in the statements of assets, liabilities and fund balance amounted to \$\Pi\$1,463,925 and \$\Pi\$1,452,900 as at December 31, 2018 and 2017, respectively.

Interest income earned from cash in banks, cash equivalents and short-term investments amounted to ₱1,937,891 and ₱1,878,768 in 2018 and 2017, respectively.

## 5. Receivables

This account consists of:

THE CASE OF THE CA	2018	2017
Advances to officers and employees	₽545,525	₽893,399
Advances to suppliers	213,624	493,327
Interest receivable	174,243	100,854
	₽933,392	₽1,487,580

The terms and conditions of the above receivables are as follows:

- Advances to officers and employees and advances to suppliers are noninterest-bearing and are normally collected and liquidated within 30-60 days.
- Interest receivables are normally collected within the next financial year.

## 6. Property and Equipment and Software

The movements in property and equipment are as follows:

				2018		400	
	Computer Equipment	Communication Equipment	Video Equipment	Office and Mechanical Equipment	Transportation Equipment	Office Furniture and Fixtures	Total

Net Book Value	₽19,278	₽	₽760	₽131,700	₽_	₽98,580	₱250,318

The cost of fully depreciated assets still in use amounted to ₱6,596,962 and ₱6,513,778 as at December 31, 2018 and 2017, respectively.

The movement in software is as follows:

	2018	2017
Cost	ANE TO SECOND	100
Balance at beginning and end of year	₽169,643	₱169,643
Accumulated Amortization	1.7	
Balance at beginning and end of year	169,643	169,643
Net Book Value	₽-	₽-

The fully amortized software is still in use as at December 31, 2018 and 2017.

#### 7. Other Noncurrent Asset

On June 9, 2015, the Foundation received a Provisional Asset Preservation Order (PAPO) against a donation received from a donor with an ongoing legal proceeding. The issued PAPO on the Foundation's bank account immediately forbids any transaction, withdrawal, deposit, transfer, removal, conversion, concealment or other disposition of the cash amounting to \$\mathbb{P}\$1,000,000 in the said account. The said donation was deposited in a separate restricted bank account of the Foundation.

## 8. Accounts Payable and Other Current Liabilities

This account consists of:

	2018	2017
Accounts payable	₽2,623,604	₽4,447,744
Accrued expenses	172,217	194,745
Payable to government agencies	109,913	168,935
Others	282,911	355,749
	₽3,188,645	₽5,167,173

The terms and conditions of the above liabilities follow:

- Accounts payable and accrued expenses are noninterest-bearing and are normally settled within the next financial year. Accrued expenses pertain to administrative expenses.
- Payable to government agencies is remitted within 30 days after reporting period.
- Others pertain to retention payable related to construction and rehabilitation projects.

#### 9. Projects

Receipts for various projects are as follows:

	2018	2017
Restricted:		
Operation Bayanihan	₽4,619,740	₱12,495,709
Kapuso School Rehabilitation	_	1,915,396
	4,619,740	14,411,105
Unrestricted:		
Operation Bayanihan	5,253,824	3,082,834
Give a Gift	3,113,529	2,713,067
Unang Hakbang sa Kinabukasan	2,420,599	2,527,635
Kapuso School Rehabilitation	676,365	1,241,315
Kalusugan Karavan	402,640	421,843
Bisig Bayan	64,749	37,045
Sagip Dugtong Buhay	47,607	1,000,086
Linis Lusog Kapusong Kabataan	_	57,275
	11,979,313	11,081,100
	₽16,599,053	₽25,492,205

Brief descriptions of the Foundation's projects are as follows:

- Operation Bayanihan a quick relief response to victims of natural and man-made disasters anywhere in the country.
- Kapuso School Rehabilitation includes a school-based program and reconstruction of demolished bridges.

School-based program aims to foster integral education to provide students of underserved public schools, both primary and secondary, of the following:

- Decent and functional classrooms which are conducive for learning;
- Water distribution and sanitation facilities; and
- Environmental awareness through tree-planting around the school building.

Reconstruction of demolished bridges program aims to connect remote communities to trade and learning centers.

- Give a Gift (GAG) the yearly distribution of customized Christmas packages to underprivileged
  children from poor and far-flung areas. To address specific needs of some of these children, the
  GAG evolved into sub-projects such as the GAG: Feeding, GAG: Surgical, GAG: Cancer Kid
  and GAG: Distribution.
- Unang Hakbang sa Kinabukasan yearly school opening project for incoming Grade 1 students from poor and remote public elementary schools nationwide where they receive backpacks with complete set of school materials.
- Kalusugan Karavan a roving medical mission in far-flung areas where basic health services are not accessible.

- Bisig Bayan special projects in line with the monthly themes of the Department of Health such as Ngiting Kapuso, Serbisyong Alay Sa Kababaihan, Operation Tuli, Serbisyong Alay Sa Kalalakihan, Wheelchair and Hearing Aid Giving, Kapuso 20/20, Echocardiogram Testing, and Blood Sugar Testing.
- Sagip Dugtong Buhay an annual bloodletting project which promotes volunteerism by donating blood to help save lives and extend the lives of others.
- Linis Lusog Kapusong Kabataan aims to promote and teach students, teachers and parents of proper hand washing, oral hygiene, nail cutting and head lice treatment.

#### 10. Donations

Donations received are intended for the following purposes:

The state of the s	2018	2017
General fund	₽26,065,338	₱26,009,284
Medical assistance	908,697	981,804
1	₽26,974,035	₽26,991,088

Donations received by the Foundation were from various corporations and individuals.

## 11. Program Expenses

Project cost for various projects are as follows:

	2018	2017
Restricted:	THE RESERVE OF THE PERSON NAMED IN	
Kapuso School Rehabilitation	₽9,927,469	₱11,447,624
Operations Bayanihan	1,029,924	4,486,673
BEATQUE TO	10,957,393	15,934,297
Unrestricted:		
Give a Gift	18,171,552	17,420,231
Unang Hakbang Sa Kinabukasan	9,891,075	12,852,822
Operation Bayanihan	9,859,488	6,749,332
Kapuso School Rehabilitation	4,427,653	3,277,878
Bisig Bayan	798,516	520,063
Kalusugan Karavan	723,478	540,502
Sagip Dugtong Buhay	106,776	1,060,866
Linis Lusog Kapusong Kabataan	66,228	66,729
	44,044,766	42,488,423
	₽55,002,159	₽58,422,720

Salaries and wages amounting to ₱3,993,380 and ₱4,483,107 in 2018 and 2017, respectively, pertain to salaries of project - related employees.

Donation expense amounting to \$\P2,445,158\$ and \$\P2,437,854\$ in 2018 and 2017, respectively, were used for expenses incurred in providing medical assistance to specific indigent patients identified by the donors requiring extensive medical treatment.

#### 12. Compensation and Employee Benefits

and the same of th	2018	2017
Salaries and wages	₽4,505,191	₽4,907,166
Pension cost (Note 13)	234,427	41,928
The second second	₽4,739,618	₽4,949,094

## 13. Pension Liability

The Foundation has a funded, noncontributory retirement plan covering its permanent employees. In 2018, the Foundation contributed to a retirement fund managed by a trustee bank.

Under the existing regulatory framework, Republic Act 7641 requires a provision for retirement pay to qualified private sector employees in the absence of any retirement plan in the entity, provided however that the employee's retirement benefits under any collective bargaining and other agreements shall not be less than those provided under the law. The law does not require minimum funding of the plan.

Under PFRS for SMEs, the cost of defined benefit obligations, including those mandated under Republic Act 7641 should be determined using an accrued benefit valuation method or projected benefit valuation method to be determined by an independent actuary.

The following tables summarize the components of retirement costs recognized in the statements of receipts and expenses and pension liability recognized in the statements of assets, liabilities and fund balance as at and for the years ended December 31, 2018 and 2017.

Pension cost recognized in profit or loss are as follows:

	2018	2017
Current service cost (income)	₽191,794	(₱53,877)
Interest cost	98,262	95,805
Past service cost	359,357	_
Net actuarial gain	(414,986)	- 1
Balance at end of year	₽234,427	₽41,928

Details of net pension liability are as follows:

	2018	2017
Present value of defined benefit obligations	₽1,919,231	₽1,676,830
Fair value of plan assets	(701,563)	CONTRACT.
Pension liability	₽1,217,668	₽1,676,830

The changes in the present value of the defined benefit obligation are as follows:

	2018	2017
Balance at beginning of year	₽1,676,830	₽1,634,902
Current service cost (income)	191,794	(53,877)
Interest cost	98,262	95,805
Past service cost	359,357	
Actuarial gain	(407,012)	
Balance at end of year	₽1,919,231	₽1,676,830

The changes in the fair value of plan assets in 2018 are as follows:

Balance at beginning of year	₽-
Contribution	₽693,589
Actuarial gain	7,974
Balance at end of year	₽701,563

The Foundation's plan assets as at December 31, 2018 consist of time deposits.

The latest actuarial valuation report obtained is at December 31, 2018.

The principal assumptions used in determining pension liability of the Foundation's retirement plan are as follows:

	2018	2017
Discount rate	7.70%	5.86%
Expected return on plan assets	6.5%	-
Expected rate of salary increase	3.0%	4.00%

#### 14. Related Party Transactions

Parties are considered to be related if one party has the ability, directly and indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. This includes: (a) individuals owning, directly or indirectly through one or more intermediaries, control or are controlled by, or under common control with the Foundation; (b) associates; and (c) individuals owning, directly or indirectly, an interest in the voting power of the Foundation that gives them significant influence over the Foundation and close members of the family of any such individual. In considering each related party relationship, attention is directed to the substance of the relationship, and not merely the legal form.

The Foundation, in the normal course of business, has transactions with related parties. The table below summarizes the amount of transactions entered into with related parties and the outstanding balances as at December 31:

			Amount of	Outstanding		
Related Party	Category	Year	Transactions	Balance	Terms	Conditions
GMA Network, Inc. (GMA)	Due to a related party	2018	(₱94,621)	₽1,282,477	On demand,	Unsecured
14.1		2017	528,477	1,377,098	noninterest-bearing	
	Donations receipts	2018	1,762,733	_		
	P 211	2017	292,450	-		
RGMA Marketing &	Donations receipts	2018	150,000	_		
Productions, Inc.		2017	100,000	-		
GMA Worldwide, Inc.	Donations receipts	2018				
131	1	2017	30,000	-		
GMA New Media, Inc.	Donations receipts	2018	19,750	_		
		2017	-			
Trustees	Donations receipts	2018	341,914	_		
		2017	_	-		

Due to a related party pertains to the expenses initially paid by GMA on behalf of the Foundation.

Donation receipts pertains to donations received from related parties which form part of their general fund that is used to finance any program, including medical assistance of the Foundation.

## 15. Supplementary Information Required Under Revenue Regulations 15-2010

The Foundation reported and/or paid the following types of taxes in 2018:

#### a. Other Taxes and Licenses

Mayor's permit	₽10,423
Renewals	500
Community tax certificate	500
Registration fees	500
Others	1,000
	₽12,923

#### b. Withholding Taxes

Expanded withholding taxes	₽507,360
Final withholding taxes	415,867
Withholding taxes on compensation and benefits	72,506
The second secon	₽995,733

#### c. Tax Assessments and Cases

As at December 31, 2018, the Foundation has no final tax assessments and cases pending before the BIR. Likewise, the Foundation has no other pending tax cases outside the administration of the BIR as at December 31, 2018.

## **Top Donors 2018**

GMA Kapuso Foundation received a generous monetary donation from Cut Unlimited Inc. headed by Ms. Mayose G. Bautista, Chief Operating Officer on March 18.

Alaska Milk Corporation supports GMAKF's Give-A-Gift: Feed A Child Project.. Present in the donation turnover were Maxine Lauren Lozada, Alaska's Brand Manager; Raymond Nacino, Alaska's Marketing Services Manager; Karen Ventosa, Alaska's Assistant Media Manager.

Isuzu Philippines Corporation's Mr. Masahiro Soga IPC Asst. Department Head for Administration, Mr. Hajime Koso IPC President. Isuzu donated a DMAX pick up truck to aid KF operations.

GMA Kapuso Foundation, Inc. (GMAKF) received PhP 2.25 million from the Federation of Filipino-Chinese Chambers of Commerce and Industry, Inc. (FFCCCII) to support the Rebuild Marawi Project in Lanao del Sur.

ICCT Colleges Foundation Inc., donation turnover to GMAKF given by Dr. William Co, ICCT Colleges Founder/Chairman and Dr.Vivien Co-Say, College President.

GMA Kapuso Foundation (GMAKF) renewed its partnership with local airline Philippines AirAsia, ensuring the timely delivery of services to communities in need across the country. In the picture are: GMAKF Founder and Ambassador Mel Tiangco and GMAKF Executive Vice President and COO Rikki Escudero-Catibog together with Philippines AirAsia Chief Executive Officer Capt. Dexter Comendador.

Go Tong Foundation led by Lourdes Go-Ortiga and Evelyn Go, EVPs of the Ever Group of Stores with Dolly Eloriaga, Ever Department Store Manager and GMAKF's Founder and Ambassador, Mel Tiangco and GMAKF's EVP/COO, Rikki Escudero-Catiboq.

Ideal Vision Center provides eye glasses for GMAKF's Kapuso 20/20 Eye Project with Ideal Vision's Assistant Vice President for Marketing Dr. Joy Go.

GMA Kapuso Foundation and Hi-Precision Diagnostics forge a partnership for GMAKF's various health programs such as the Bisig Bayan medical assistance to serve underprivileged Filipinos. This Memorandum Of Agreement signing last July 19 was attended by Melissa Ongsue, Hi-Precision Diagnostic Center, Inc. Vice President for Sales and Marketing; and Selwyn Cu, Hi-Precision Diagnostic Center, Inc. Vice President for Business Development.
